PHYSICAL THERAPIST ASSISTANT (PTA)

ABOUT THE PROGRAM

The PTA curriculum prepares graduates to work in direct patient care settings under the supervision of physical therapists. Assistants work to improve or restore function by alleviation or prevention of physical impairment and perform other essential activities in a physical therapy department. Course work includes normal human anatomy and physiology, the consequences of disease or injury, and physical therapy treatment of a variety of patient conditions affecting humans throughout their lifespan. After graduation from an accredited physical therapy education program, candidates must pass a state-administered licensure exam.

Occupational Statistics

US: \$64,510
Region: \$64,210
NC: \$63,810

CCCC Career Community

Students interested in Health Sciences like to help people feel better. They can work independently, but prefer to work in groups or teams. They are detail-oriented, compassionate, and think critically to solve problems. They work well in stressful situations and do not get queasy around blood or bodily fluids. Graduates find jobs working medical or wellness environments.
