

PATRON
PROFILE

“ Streaming documentaries brought my history class to life. Knowing our past helps us better understand our world today.

PEARL JOHNSON

Mother, Grandmother,
CCC Harnett Campus Student

Pearl went back to school at **Central Carolina Community College** to study medical administration. Her history & humanities course included **Films on Demand streaming video** documentaries and historical films. The films brought her readings to life and led to many in-depth discussions with other students. “It is very powerful to see and hear people from different cultures and time periods telling their own stories.”
