

NATIONAL MANUFACTURING DAY 2017

National Manufacturing Day has been designed to expand knowledge about manufacturing careers and manufacturing's value to the United States.

At this exciting event, representatives from local industries will be on-site to showcase their company and products and help increase manufacturing awareness. Come discover what is made in our community, learn about available manufacturing careers, and the skills and education needed to qualify for those careers. Master trainers will be at the industry training stations and will provide hands-on activities.

- ✓ Open to the public.
- ✓ Closed-toe shoes required.
- ✓ Registration is required for large groups. Schedule an arrival time with Patrick Kelly: (919) 718-7347 or pkelly@cccc.edu
(Large groups include high schools or other community organizations.)
