

# Volunteers for OB class

Must be between 22 weeks and 32 weeks gestation. (Ask George if volunteers are over 32 weeks.)

Must have a note from your OB provider stating that you have had an 18-week complete anatomy ultrasound without complications.

Must sign a consent form on arrival to the Medical Sonography Department.

Must understand that participating as a volunteer is to benefit the sonography student's training.

As a courtesy the student will try to take a few pictures, time permitting.

We will allow one visitor to accompany the volunteer.

(If COVID 19 constraints are in place, no visitor will be allowed to accompany the volunteer.)

Spring 2023 Semester: Wednesday 12:00 – 12:50 PM.
