THE ART OF CRITICAL MAPPING

Learn from Tania Allen, Associate Professor of Art + Design and Co-Director of Co-Lab: Mapping as Critical Research Tool at North Carolina State University, about the artistic and narrative form of critical mapping. The audience will be introduced to the concept of critical mapping and given the opportunity to create their own maps

in a hands-on activity. This 45-minute lecture is followed by a hands-on 45-minute workshop for participants. This event is a unique learning opportunity for school and community audiences. Supplies will be provided. *This project was made possible through partnership with Harnett County and funding from the North Carolina Arts Council.*

Joint project of CCCC's ACES, CCCC's Arts Career Community, Harnett County, and North Carolina Arts Council

This project was supported by the North Carolina Arts Council, a division of the Department of Natural and Cultural Resources.
