

To use the Turnitin.com feature in Blackboard to submit work and/or attach a document, please follow the steps below:

The Turnitin.com feature in Blackboard is a plagiarism tool that allows your instructor to view the percentage (if any) of material that matches information from another student's work or from other online sites. Once submitted successfully, an exclamation mark (!) will appear in your gradebook for that assignment, indicating that your assignment was turned in correctly and that the assignment is now waiting to be graded by your instructor.

In your Blackboard course site...

1. Navigate to the page where the Assignment is located.
2. Click on the "View/Complete" link. The title of the Turnitin assignment and the information inside the Turnitin assignment may be different, depending on your course and your specific assignment.
