Creating a Learning Module

1. Make sure your Edit Mode is ON.
2. Click your content area button.
3. Click Build.
4. Click Create Learning Module.
5. In Section 1, type the name for your learning module next to Name.
6. Type the Description of your learning module in the text box provided.
7. In Section 2, click Yes if you would like to permit users to view the content item immediately. Choose No if you would like to make the item unavailable for now. You can go back and make the item available later.
8. Click Yes to enforce sequential viewing of the learning module. Click No if you want the students to be able to backtrack and skip around as needed, this option provides the most flexibility for students.
9. In Section 3, click Submit.
10. You should now see the Learning Module listed with the name you gave it in step 5.
11. Click on the Learning Module you just created.
12. Add your slides using the drop down buttons at the top of the page. These include adding an item, an external link, etc.
