

The Health Occupation program offers a wide variety of short-term classes designed to train students for work in various medical fields. Prerequisites: AHS, HSE, Diploma (formerly GED).

Anatomy and Physiology (Beginning)

This course delivers an introduction to basic anatomy and physiology concepts. Emphasis is placed on learning how each body system operates alone and with other body systems. This class is a pre-requisite class for Online Billing and Coding. *Textbooks are required.*

Cardiopulmonary Resuscitation (CPR) for Healthcare Providers

This course delivers initial CPR certification to healthcare providers and students of medical programs. The course follows American Heart Association guidelines for Adult, Child, and Infant CPR. Graduates will obtain certification in Healthcare Provider CPR from the American Heart Association. *Textbook is required.*

Cardiopulmonary Resuscitation (CPR) for Healthcare Providers Recertification

This course delivers recertification to individuals who have completed the initial American Heart Association Healthcare Provider CPR course. This course follows American Heart Association guidelines for Adult, Child, and Infant CPR. Graduates are re-certified in Healthcare Provider CPR from the American Heart Association. *Textbook is required.*

Central Sterile Processing

This course is designed to introduce the primary responsibilities of a central sterile processing technician. Emphasis is placed on the principles of sterilization and disinfection in the workplace. Graduates are eligible for certification as a Healthcare Sterile Processing and Distribution Technician. *Textbooks are required.*

Drug Collection Specialist

This course delivers current American Society of Phlebotomy Technicians (ASPT) guidelines for drug collections. Key topics include: types, procedures, and common problems of collections, custody/control forms, and donor identification. Graduates are eligible for ASPT Drug Collection Specialist Certification. Must have satisfactorily completed Phlebotomy Technician class.

EKG Technician

This course is designed to prepare the student to be a Certified EKG Technician. Emphasis is placed on electrocardiograph machine operation, lead placement, and patient preparation. Graduates are eligible for the American Society of Phlebotomy Technicians' (ASPT) Certification Examination for EKG Technician. *Textbook is required.*

EKG Monitor Technician

This course is designed to prepare the student to become a certified EKG Monitor Technician. Emphasis is placed on cardiac dysrhythmias and basic interpretation of EKG strips. Graduates eligible for the National Telemetry Associations' Telemetry Technician Certification and/or the American Board of Cardiovascular Medicine Certification. *Textbook is required.*

Electronic Health Records

This course covers concepts and techniques for managing and maintaining electronic health records (EHR). Emphasis is on structure, data collection, analysis, regulatory standards, quality, and integrity of healthcare data. Graduates are eligible for National Health Career Association Certification. *Textbook is required.*

Electronic Health Records (Part 1)

This course is designed to prepare the student to become a certified Electronic Health Records Specialist. Emphasis is on data accuracy, accessibility, privacy, and security. Graduates are eligible for the National Health Career Association Electronic Health Records Specialist Certification Examination. Students pay for two semesters. *Textbook is required.*

Laboratory Assistant

This hands-on course prepares students to perform the basic skills expected of employees in any kind of laboratory setting. Emphasis is placed on operational skills for scientific equipment and general laboratory procedures. Graduates are eligible for the American Medical Technologists, Medical Lab Assistant Certification Examination. *Textbook is required.*

Medical Terminology

This course is an introduction to the structure of medical words and terms. Emphasis is placed on defining commonly used prefixes, suffixes, root words, and combining forms. Graduates will be able to decipher medical words and their meanings. This class is a pre-requisite for Online Billing and Coding. *Textbook is required.*

Nurse Aide I

This course provides the knowledge and skills needed to care for adults. Emphasis is placed on activity of daily living skills and signs and symptoms of disease. Graduates eligible for the National Nurse Aide Assessment Program (NNAAP) certification. Criminal background check, immunizations/drug testing, and supplies are required before clinical rotation. *Textbooks is required.*

Nurse Aide II

This course prepares certified NA I's to perform more complex advanced practice skills. Current NA I listing and HSD/ GED required at registration. Criminal background check, immunizations/drug testing, and supplies are required before clinical rotation. Graduates are listed on the NC Board of Nursing NA II Registry. *Textbooks are required.*

Pharmacy Technician

This course provides instruction in technical procedures for preparing and dispensing drugs under the supervision of a registered pharmacist. Emphasis is placed on drug packaging/labeling and customer service. Graduates eligible for the National Health Associations Examination for Certified Pharmacy Technician (ExCPT). Registration requirements are campus specific. *Textbook is required.*

Phlebotomy

This course provides instruction in blood/specimen collection techniques and handling. Graduates are eligible for the American Society of Phlebotomy Technicians (ASPT) Certification exam or the National Health Association Certification exam. Criminal background check, uniform/lab coat, and immunizations/drug test are required before clinical rotation. *Textbook is required.*

Sports Medicine Technology

This course is designed to prepare individuals for a career as a health and fitness professional. Emphasis is placed on individualized assessments, exercise, and conditioning programs. Graduates eligible for American College of Sports Medicine certification. Students pay for two semesters. *Textbook is required.*

Sleep Disorders Technician

Prepare for employment as technicians in sleep disorder clinics. Emphasis is placed on sleep disorders and sleep theory. Graduates are eligible for certification with Board of Registered Polysomnographic Technologists. *Textbook is required.*
