

W.O.W.

WORKSHOPS ON WEEKENDS

The weekend workshops were designed as a wonderful opportunity for students, along with their parents, to participate in learning based activities that are **FUN** and on a Saturday!

ELECTRONIC ENGINEERING TECHNOLOGY (ROBOTICS)

Great first “robot” project for participants who are interested in robots. In this workshop, participants will build two (2) different types of wigglebots and learn some basic concepts in engineering, motors, and circuits. **Registration Fee: \$25.00**

Saturday, November 18th
Chatham Main Campus

LASERS & PHOTONICS TECH. (LASERS AND LIGHT)

Participants are introduced to elementary reflection and refractions, along with the applications of electronics, fiber optic, photonic, and laser principles. In addition, participants will have the opportunity to view demonstrations of various types of lasers. **Registration Fee: \$25.00**

Saturday, October 28th Harnett Main Campus	Saturday, November 4th Chatham Main Campus	Saturday, December 2nd Lee Main Campus
--	--	--

THE SCIENCES (COSMETIC CHEMISTRY)

Participants will create, combine, and experiment with some commonly available and inexpensive health and beauty ingredients to create and develop some fun and unique cosmetic products (body scrub, homemade, lip balm, and soap). **Registration Fee: \$25.00**

Saturday, December 9th
Siler City Center

Registration fee includes materials, supplies, and a snack. **SEATING IS LIMITED**, so register today!
