CCCC strives to provide you the highest level learning environment possible.

Best wishes during your time at CCCC.

Dr. T. Eston (Bud) Marchant
President, Central Carolina Community College

CONTINUING EDUCATION POLICIES

Fee Schedule
Course fees are noted with each course listing. Payment of these course fees is required before the first class session. Some courses have additional charges for supplies, insurance, or other essential expenses, which are also listed with the course descriptions. Students are responsible for purchasing any special materials required for classes. No registration is complete without the payment of all applicable fees or receipt of official authorization for payment from third parties responsible for payment. Methods of payment include cash, check, money order, or credit card (MasterCard or Visa).

The North Carolina General Assembly has set the following fees for Continuing Education classes:

Fee Schedule
$65.00 for 1–24 hours
$120.00 for 25–50 hours
$175.00 for 51 or more hours

Senior Citizens
The State of North Carolina authorizes persons who are 65 years of age or older and who are legal residents of North Carolina to receive free tuition for one non-degree or non-self supporting course per semester. If other fees are associated with the course, then the additional fees will have to be paid.

Refunds
• Refunds for Continuing Education courses are made as follows: 100% if requested before a course begins or if the course is cancelled; 75% if requested after a course begins, but before 10% of the total class meetings.

Registration
• Register at least one week prior to the first class meeting for all Continuing Education courses. The college reserves the right to cancel a course based on enrollment. All registrations must be received before a course reaches 10% of its scheduled hours.

Course Repetition Policy
• Repeating occupational courses more than one time at the regular registration fee is prohibited by state regulations. Students taking a course more than twice in a five-year period will be required to pay the total cost of the course. This rule applies to courses taken since July 1, 1993. This regulation does not apply to licensure and certification courses.

• Students may enroll in personal enrichment classes an unlimited number of times provided space is available and new students in a particular class are not displaced. Preference will be given to first-time enrollees. Repeat students will be allowed to enroll on the first scheduled class date if space permits.

Continuing Education Units (CEUs)
• The Division of Continuing Education will award Continuing Education Units (CEUs) for appropriate programs. The Commission on Colleges defines the CEU as follows: “One Continuing Education Unit (CEU) is ten (10) contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction.” CEUs reported to the Department of Public Instruction require a certificate of credit issued by the Division of Continuing Education. Students should notify instructors at the beginning of a course if CEUs are needed for public instruction certification.
REGISTRATION INFORMATION

• Registration for Fall 2011 Continuing Education courses begins on the following dates:
  Tuesday, August 2: Medical classes  
  Wednesday, August 3: All other classes  
  (Various classes begin throughout the year.)

SERVICES TO STUDENTS WITH DISABILITIES

- No individual shall, by reason of disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity for which otherwise qualified. The college may make program adjustments in instructional delivery and may provide supplemental services to enable students with disabilities to participate in activities compatible with students’ conditions and interests.

- Every candidate for General Educational Development (GED) should have a fair opportunity to demonstrate his/her knowledge and skills under appropriate test conditions. For some candidates, a disability may interfere with their ability to fully demonstrate what they know under standard testing conditions.

- Accommodations in testing are available for adults with documented physical disabilities as well as learning disabilities, attention-deficit/hyperactivity disorder, and emotional or psychological disabilities. Each request is considered on an individual basis.

- If you would like to request accommodations or need additional information, contact one of the following individuals:

  Chatham County — Pittsboro  Judy Herndon
  (919) 545-8028

  Chatham County — Siler City  Georgia Durso
  (919) 545-8663

You may also contact Chris Beal, GED Chief Examiner, at (919) 777-7706.

That spirit of leadership spans the college’s history. Back in 1965, it was the first community college in the state to offer an animal hospital technician curriculum, now veterinary medical technology. In 2002, it became the first community college in the nation to offer an Associate in Applied Science in Sustainable Agriculture. Leadership is also shown in programs such as Laser and Photonics Technology, which is one of only about a dozen nationwide that trains on high-power lasers.

In 2006, the college and Lee County Schools formed a partnership to create Lee Early College at the college’s Lee County Campus. Here, high-school age students can earn both a high school diploma and an associate degree within five years.

The college and North Carolina State University’s Confucius Institute established a partnership in 2009 to set up a Confucius Classroom at the college. The students prepare for the global workplace by learning Mandarin Chinese. The Classroom also enables the college to host performing groups from the People’s Republic of China, enriching cultural events that are open to the public.

Central Carolina Community College is nicknamed “Green Central” for its commitment to sustainable education. That is shown not only in program offerings, but also in its buildings. In 2010, the college and Chatham County opened three new facilities with high Leadership in Energy and Environmental Design (LEED) ratings: the Sustainable Technology Center, which houses the green programs, and the joint college-county Chatham Community Library, both in Pittsboro; and the Siler City Center.

Central Carolina Community College’s educational, cultural, and economic impact is far reaching. Its graduates, both curriculum and continuing education, give back to their communities through a myriad of vocations from which the economic fabric of every community is woven. Many of its graduates continue their education and enter the workforce as highly educated professionals who strengthen their communities, counties, state, and nation.

**Presidents**

The college has had only five presidents in its 50-year history: William A. Martin (1961–1969), Dr. J. F. Hockaday (1969–1983), Dr. Marvin R. Joyner (1983–2004), Dr. Matthew S. Garrett (2004–2008) and Dr. T.E. “Bud” Marchant (2008–present). Each, with the support of a dedicated board of trustees, has provided outstanding leadership and vision that enabled the college to grow and serve the changing needs of its communities.

**Join Us**

From July 1, 2011 through June 30, 2012, Central Carolina Community College celebrates 50 years of service to its students, communities, and all those who have felt its influence and that of its numerous graduates. We celebrate the vision of all those who have contributed to make the college what it is – an outstanding institution of learning. Join us in our celebration as we look back with gratitude and forward with great optimism.
A Brief History

Introduction
For 50 years, Central Carolina Community College has thrived on an ongoing vision of leadership, service, and success. Over the years, that vision has been transformed into reality by planning, commitment, hard work, and community support.

From a single extension class offered in 1961 in Lee County, the school has grown to a fully accredited community college of high reputation serving the people, businesses, and industries of Chatham, Harnett, and Lee counties at three campuses and multiple centers. Its distance education programs reach far beyond those physical boundaries to enrich students' lives around the world.

History
In 1957, the State Board of Education invited boards of education throughout the state to submit proposals for establishing industrial education centers in their districts. Members of the Lee County Board of Education saw this as a wonderful opportunity to provide vocational training for county residents. They worked with the Lee County Board of Commissioners, Sanford Chamber of Commerce, Junior Chamber of Commerce, industrialists, and interested members of the public to apply for a charter to start a Lee County Industrial Education Center. The charter was received in 1958, one of the first 18 to be awarded.

Planning for the LCIEC moved forward. In 1960, Lee County voters approved a bond issue to fund construction of a Center building. It was completed in 1962 and, with improvements, still serves students as Wilkinson Hall on the Lee County Campus.

In 1963, the State Board of Education established the Department of Community Colleges. The LCIE then came under its oversight, rather than that of the local board of education.

The school began offering classes in Chatham County in 1964 and in Harnett County in 1965. In 1985, the State Board of Community Colleges designated CCCC as the sole provider of community college services for those counties.

In 1965, the school became Central Carolina Technical Institute and could offer Associate in Applied Science degrees. CCCI continued to grow and expand its program offerings, and, in 1979, the name was changed to Central Carolina Technical College. Since 1988, the name has been Central Carolina Community College, denoting the school's maturity as an educational institution.

Programs
In 2010, the U.S. Department of Energy recognized Central Carolina Community College as "a strong force for educational opportunities, economic progress and cultural enrichment in the communities it serves."
