Welcome to CCCC

Welcome to Central Carolina Community College, a top-rated community college within the North Carolina Community College System.

Central Carolina Community College was established to help you achieve your educational goals, whether finishing high school, learning a valuable vocational skill, or completing the first two years of college—at minimal cost—before transferring to a university or four-year college.

At Central Carolina Community College, you can explore different kinds of job opportunities, identify your personal strengths, and start on the path toward new levels of success.

The foundation of Central Carolina Community College’s strength is a competent and caring faculty, staff, and administration. We genuinely want to see the student succeed and are willing to go the extra mile to ensure that success. Another part of our commitment to student success is a comprehensive program of student financial and academic assistance.

We are committed to helping our students become well-rounded individuals, so we offer a diversified program of student activities designed to develop social and leadership skills and to make the learning experience more enjoyable.

College Mission, Vision, & Values

Mission

Central Carolina Community College serves as a catalyst for individual, community, and economic development by empowerment through accessible lifelong learning.

Vision

Central Carolina Community College is a nationally recognized, world-class leader providing learning opportunities that contribute to economic progress and cultural enrichment for the students and communities we serve.

Values

Learning—We commit to providing learning opportunities for the ongoing, voluntary, lifelong and self-motivated pursuit of knowledge for either personal or professional reasons among the citizens in our service area.

People—We commit to creating a caring, inclusive, and safe environment that inspires all people to achieve their goals, share their successes, and encourage others.

Excellence—We set, expect and maintain high educational standards consistent with the needs of the students, region and changing workforce.

Integrity—We are accountable, honest, and transparent while adhering to the highest ethical standards in all that we do.

Communication—We commit to effective, open and proactive communication among faculty, staff, students, and the external community of which we are an integral part.

Community—We commit to active and integral partnerships within the communities we serve, and are dedicated to maintaining positive relationships among our own community of faculty, staff, and students.

Access—We ensure access to higher education by offering clear pathways to academic success and transformative opportunity for the diverse populations we serve.

Innovation—We cultivate resourcefulness, creativity and innovation in all we do.

Stewardship—We honor the trust placed in us by the community, and are accountable for the efficient and effective use of the resources entrusted to us.

CCCC is an Equal Opportunity College

Central Carolina Community College serves the public without regard to race, sex, color, creed, age, disability, religion, or national origin.

Central Carolina Community College has approved the following policy to guide its delivery of services to students with disabilities: No individual at Central Carolina Community College shall, by reason of disability, be excluded from participation in or be denied the benefits of or be subjected to discrimination within any program or activity for which he is otherwise qualified. The college may make program adjustments in instructional delivery and may provide supplemental services to enable students with disabilities to participate in activities compatible with their condition and interests. For more information, see the “Special Populations Services” section.

Programs

Student success, community service, and educational leadership distinguish Central Carolina Community College. The college takes great pride in its long history of innovative program development to meet the ever-changing educational needs of its students and the communities and businesses it serves.

Curriculum

Central Carolina Community College offers Associate in Arts, Associate in Fine Arts, and Associate in Science degree programs that transfer to four-year colleges and universities, two-year programs that lead to an Associate in Applied Science degree, and one-year programs that lead to a diploma and/or a certificate. Articulation agreements with four-year colleges and universities enable graduates to move seamlessly into additional education, if that is their goal.

Many decisions precede the implementation of any new curriculum program. Surveys are used to determine student interest and the availability of employment. Advisory committees are organized in order that community interest, advice, and counsel may be solicited. Funds must be available for instructors and necessary equipment and instructional space must be available. Only after the approval of the Board of Trustees and the State Board of Community Colleges may a new program be implemented.

A strong asset of the North Carolina Community College System is the flexibility in programs. When the job
market no longer provides employment for graduates in certain areas, programs can be phased out so more critical labor needs may be met. It is not the purpose of the college to adopt a fixed curriculum; rather, its aim is to modify all programs to meet the ever-changing needs in the fields of employment.

The college reserves the right to cancel any course or program in cases of low enrollment or decreased budget. The college reserves the right to change any curriculum, and such changes may be made without prior notice. This handbook is not to be read as part of a contractual relationship between the college and a student or prospective student.

Non-curriculum

The college also offers non-curriculum courses in basic education, technical, vocational, enrichment, and general interest areas. These non-curriculum courses do not count toward a college degree or diploma, but a certificate of completion is given and continuing education units are awarded. The Adult High School/GED program awards a diploma or certificate. Continuing Education classes award a diploma or certificate with continuing education units.

Lee Early College

The college’s Lee County Campus is home to Lee Early College, an innovative partnership with Lee County Schools. Students earn both a high school diploma and an associate degree in five years. The student body is diverse, but its members are united by their personal motivation and ability to thrive in a college setting.

Confucius Classroom

Central Carolina Community College offers a Confucius Classroom through an agreement with North Carolina State University’s Confucius Institute. An instructor from a Chinese university teaches Chinese language, history, and culture.

Facilities

Central Carolina Community College has full-service campuses in Chatham, Harnett and Lee counties as well as multiple centers that provide environments conducive to learning.

History and Leadership

For more than 50 years, Central Carolina Community College has thrived on an ongoing vision of leadership, service, and success. Over the years, that vision has been transformed into reality by planning, commitment, hard work, and community support.

From a single extension class offered in 1961 in Lee County, the school has grown to a fully accredited community college of high reputation serving the people, businesses, and industries of Chatham, Harnett, and Lee counties. Its distance education programs reach far beyond those physical boundaries to enrich students’ lives around the world.

In 1958, the North Carolina State Board of Education chartered the institution as Lee County Industrial Education Center. The first classes were held in 1961. Two years later, it became a part of the North Carolina Department of Community Colleges.

In 1965, the Center became Central Carolina Technical Institute, with authority to award associate degrees. The name was changed to Central Carolina Technical College in 1979 and then to its current name, Central Carolina Community College, in 1988.

A spirit of leadership spans the college’s history. Back in 1965, it was the first community college in the state to offer an Animal Hospital Technician curriculum, now Veterinary Medical Technology. In 2002, it became the first community college in the nation to offer an Associate in Applied Science in Sustainable Agriculture. Leadership is also shown in programs such as Laser and Photonics Technology, which is one of only about a dozen nationwide that trains on high-power lasers. The college is nicknamed “Green Central” for its commitment to environmentally friendly sustainable education.

In 2010, the U.S. Department of Energy recognized Central Carolina Community College as “a strong force for educational opportunities, economic progress and cultural enrichment in the communities it serves.” Also in 2010, Central Carolina Community College was ranked among the top 50 community colleges in the nation by Washington Monthly magazine.

The college is committed to sustainability in its programs and on its campuses. It is a signatory to the American College & University Presidents’ Climate Commitment (ACUPCC). It was the first North Carolina community college to sign on to the Association for the Advancement of Sustainability in Higher Education STARS rating system on sustainability. In 2011, it received a Silver ranking from AASHE for its achievements in this area. Only 61 colleges and universities in the United States and Canada earned this ranking, which was the highest awarded.

Central Carolina Community College’s educational, cultural, and economic impact is far-reaching. Its graduates, both curriculum and continuing education, give back to their communities through myriad careers from which the economic fabric of every community is woven. Many of its graduates continue their education and enter the workforce as highly educated professionals who strengthen their communities, counties, state, and nation.

The Central Carolina Community College family of administrators, faculty, staff, and students are building on the strong foundations laid in the past to achieve even greater accomplishments in the present and future. Welcome to our family!

Accreditations

Central Carolina Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees, diplomas and certificates. Contact the Commission on
Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Central Carolina Community College.

**NOTE:** The Southern Association of Colleges and Schools Commission on Colleges should be contacted only if there is evidence that appears to support an institution's significant non-compliance with a requirement or standard.

CCCC is a member of the American Association of Community Colleges. Its trustees are members of the Association of Community College Trustees.

In addition to being accredited by the Southern Association of Colleges and Schools Commission on Colleges, a number of curriculum programs are approved by various accrediting or licensing agencies:

- The Barbering program is approved by the North Carolina State Barbering Board.
- The Basic Law Enforcement Training program is accredited by the North Carolina Criminal Justice Education and Training Standards Commission.
- The Cosmetology program is approved by the North Carolina State Board of Cosmetic Arts.
- The Dental Assisting program is accredited by the Commission on Dental Accreditation.
- The Dental Hygiene program is accredited by the Commission on Dental Accreditation.
- The Dental Assisting Diploma program is accredited by the Commission on Accreditation of Allied Health Education Programs upon the recommendation of Medical Assisting Education Review Board (MAERB).
- The Associate Degree Nursing and Practical Nursing Programs are accredited by the North Carolina Board of Nursing.
- The Polysomnography program is accredited by the Commission on Accreditation of Allied Health Education Programs.
- The Radio Broadcasting program is approved by the Federal Communications Commission.
- The Real Estate program is approved by the North Carolina Real Estate Commission.
- The Veterinary Medical Technology program is accredited by the Committee on Veterinary Technician and Educational Activities of the AVMA.

**Student Services Department**

The purpose of the Student Services Department is to assist students with various aspects of their education, from admissions through graduation and job placement. More specifically, the Student Services Department handles admissions, testing, counseling, registration and records, financial aid, veterans’ benefits assistance, job placement, career counseling, assistance to the disabled, graduation ceremonies, transfer assistance, and coordination of student activities.

- The hours of operation for Admissions are Monday through Thursday, 7:30 a.m. to 8:00 p.m., and Friday, 7:30 a.m. to 3:30 p.m.
- The hours of operation for Financial Aid are Monday and Wednesday, 8:00 a.m. to 5:00 p.m., Tuesday and Wednesday, 8:00 a.m. to 7:00 p.m., and Friday, 8:00 a.m. to 3:30 p.m.
- Summer hours of operation are Monday through Thursday, 7:00 a.m. to 7:00 p.m. The college is closed on Friday between spring and fall semesters.

**Visitors**

Visitors are always welcome at Central Carolina Community College. The three county campuses are open Monday through Thursday from 7:45 a.m. to 8:00 p.m., and on Friday from 7:45 a.m. to 3:30 p.m., excluding holidays. College personnel will provide guided tours for groups or individuals and are always happy to answer questions about the college and its programs. All visitors must report to the vice president of student services on the Lee County Campus or to the provost of the Harnett or Chatham campus. Visitors are not permitted to attend classes or contact students on campus without permission of the vice president of student services, the evening supervisor, or the campus provost.

**Intellectual Property Rights/Ownership**

Distance education course sites and content, programs, materials, instructional aids, strategies, methods, techniques, devices, artifacts, software, or any item or content that may be classified as “intellectual property” developed as an employee or student of Central Carolina Community College becomes the property of the college. CCC will be granted a non-exclusive perpetual license to use any part of any category mentioned above without charge to the college. Such developed property includes materials and objects developed for, or as the result of, an instructional exercise.

Employees or students who engage in such development activities will retain their rights to continue to use and profit from the intellectual property even when they are no longer associated with CCC.

Employees, full-time or part-time, further agree, in consideration upon entering the employment relationship, to grant the college a non-exclusive perpetual license to use distance education course sites and content, programs, materials, instructional aids, strategies, methods, techniques, devices, artifacts, software, or any item or content that may be classified as “intellectual property” developed prior to employment by CCC.
ADMISSIONS

General Information
All students are admitted to the college without regard to Race, Color, National Origin, Religion, Age, Sex and Sexual Orientation, Gender, Family status, Disability status, Veteran status, or any Health or Genetic Information. Under administrative code 23 NCAC 02C.301(a) students may be admitted as a special credit student to the college if they are over 18 or a high school graduate.

To be admitted to a curriculum program at Central Carolina Community College, applicants must have a high school diploma or a high school equivalency.

Home-schooled Applicants
Home-schooled applicants must provide the following documentation for admission:

- Proof of listing with the N.C. Division of Non-Public Education (DNPE).
- A full, final high school transcript (including a list of all courses taken, final course grades, and a final grade point average). The transcript should include the official school name and the administrator’s signature (usually one of the parents or guardians is the administrator).
- NC requires 20 credits for high school graduation for students who entered ninth grade between 2000-2009.

Required Courses (College Prep Diploma)
- English - 4 units (I, II, III, and IV)
- Foreign Language - 2 units (Both must be in same language)
- Mathematics - 4 units (Algebra I, II, Geometry, and one beyond Algebra II)
- Science - 3 units (A physical science, Biology, and Earth Science)
- Social Studies - 3 units (Civics and Economics, United States History, World History)
- Health and Physical Education - 1 unit

Electives - 4 units

NOTE: All academic instruction in core subjects MUST come from parents, legal guardians, or a member of the household and not from anyone outside the household. (Two household schools are permitted to work together.) Colleges generally assume that a member of the household was the supervising instructor for each of the core subjects unless contrary evidence is presented. The home school may be asked to present a statement that a member of the household was the instructor of the core subjects. The NCDNPE can provide information identifying which subjects are core subjects.

- A copy of test scores for the last two years of home school instruction of a nationally standardized test, which measures competencies in verbal and quantitative areas. The home school is permitted to establish its own minimum scores on this test. The home school established minimum score must be indicated on the transcript and scores must meet or exceed such scores.

Failure to meet all transcript verification requirements may result in the college’s inability to certify the secondary school’s validity for the purpose of Title IV funding.

Persons home schooled may also elect to take the high school equivalency exam from their local community college in lieu of a high school diploma. If the student passes this test, the high school equivalency is equivalent and can take the place of a high school diploma. The cost of the high school equivalency exam is minimal.

Undocumented Immigrant Applicants
Under the State Board of Community Colleges’ rule 23 N.C.A.C. 02C .0301 “Admission to Colleges,” undocumented immigrants will be admitted if the following requirements are met:

- Must be a graduate of an United States public high school, private high school, or home school that operates in compliance with state or local law
- Must pay the out-of-state tuition rate
- Undocumented immigrants are not permitted to pursue a Health Science program or any program that has an admissions wait list.
- Must register during the designated period

Deferred Action for Childhood Arrivals (DACA) Applicants
Applicants who have been granted deferral under the DACA program are responsible for presenting documentation to establish that they have DACA classification. This documentation includes the I-797, Employment Authorization Document (EAD), and social security card. DACA students are held to the general admission standards and procedures. To comply with higher education regulations at the federal and state government levels, Central Carolina Community College is authorized to offer the online classes in Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

Students who live in states other than those listed above will be admitted to CCCC, but will not be allowed to register until authorization has been obtained from the student’s physical state of residence.

Students who live in states other than those listed above or are in a program not listed above, will be admitted to CCCC, but will not be allowed to register until authorization has been obtained from the student’s physical state of residence.

Students Needing State Authorization
Students needing state authorization must follow the general admission standards and procedures. To comply with higher education regulations at the federal and state government levels, Central Carolina Community College is authorized to offer the online classes in Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

Students who live in states other than those listed above will be admitted to CCCC, but will not be allowed to register until authorization has been obtained from the student’s physical state of residence.
Correspondence Schools for High School Diplomas

Central Carolina Community College will accept any correspondence school registered with the state of North Carolina’s Department of Non-Public Education for admission to the college. However, the college may be unable to certify the validity of some schools for the purpose of Title IV funding.

While Central Carolina Community College does not endorse any of the following schools, successful completion of one of these programs will fulfill the high school graduation admissions requirement for the college.

- American School
- A Becka Academy
- Continental Academy - degree must have been received after July 2006
- Keystone National High School
- Penn Foster, formerly Thompson Educational Direct - degree must have been completed after November 1, 2002
- Ashworth High School (part of Ashworth University) formerly James Madison High School

If you have questions about another correspondence school, please contact the Registrar’s Office. Correspondence schools must have regional accreditation at the time of graduation for the college to accept the diploma. For more information about regional accreditation, please go to distancelearn.about.com/od/accreditationinfo/a/regional.htm or www.chea.org/Directories/regional.asp

General Admissions

General Admissions Standards and Procedures

All applicants to CCCC will be provisionally admitted to the college. To be officially accepted into a curriculum program, a student must complete all curriculum program admission requirements. Only students who have been officially accepted into a curriculum program will be eligible to receive federal aid, Veteran’s benefits, or third party sponsorship.

1. Complete and return the admission application.
2. Submit an official high school transcript or high school equivalency. Official transcripts are required. A transcript is an “official transcript” when it is received by the college through the mail directly from the high school, college, or other institution. It is the applicant’s responsibility to request that transcripts be sent.
3. Students who desire to have the Registrar’s Office evaluate any previous coursework for transfer credit evaluation must request such transcripts from previously attended institutions of higher education. If such transcripts are not requested by the student and received by the college, the student is therefore forfeiting any potential credit and must take all of the prescribed courses in their chosen program of study here at the college.
4. Satisfy the placement testing requirement by meeting the Multiple Measures waiver, submitting official placement test scores, or taking the placement test.

NOTE: Applicants who take the placement test, but do not meet the minimum required test scores may be required to take developmental courses. These courses, may lengthen the time required to complete the credential. See specific course descriptions and prerequisites/corequisites. The following students may be exempt from taking the placement test at CCCC:

- Students who have graduated high school within the last five years with a qualifying unweighted GPA and a four qualifying math course OR have acceptable SAT/ACT scores within the last five years. (Multiple Measures)
- Students who have acceptable SAT, ACT, Asset, Compass, or Accuplacer test scores within the last five years.
- Students who have transfer credits for English and Mathematics courses required for the curriculum major. (If students switch to a major requiring additional English and/or mathematics courses for which they do not have transfer credits, they may need to must take the placement test to determine appropriate proficiency level.)
- Students who enter CCCC under the terms of an articulation agreement with another college, provided they have completed the English and mathematics courses required for the articulated program.
- Students who have acceptable Advanced Placement (AP) credits for required English and mathematics courses.

4. Students using VA benefits must obtain all college transcripts from all previously attended institutions of higher education.

5. Students applying for all Health Science programs (Dental, Medical Assisting, Nursing, and Veterinary Medical Technology) must obtain all college transcripts from all previously attended institutions of higher education.

7. Supply additional information if requested. The admissions decision for the Associate Degree Nursing, Dental Assisting, Dental Hygiene, Medical Assisting, Practical Nursing, and Veterinary Medical Technology is made by an admissions committee consisting of program faculty and student services staff. Because these programs have limited enrollment, prospective students are advised to apply early. Please see the individual program curriculum descriptions for information. Additional admission procedures and requirements for certain programs are listed in this catalog. The programs are:

- Accelerated Associate in Arts
- Associate Degree Nursing
- Basic Law Enforcement Training (BLET)
- Cosmetology Instructor Training
- Dental Assisting
- Dental Hygiene
- Esthetics Instructor Training
- Medical Assisting
- Motorcycle Mechanics
- Nursing Assistant
- Paralegal Technology Diploma
- Practical Nursing
- Veterinary Medical Technology
Admissions and the Open Door Policy

All 58 campuses of the North Carolina Community College System operate under an “open door” admissions policy. This means that any person, whether a high school graduate or non-graduate, who is eighteen years old or older and who is able to profit from further formal education, will be served by the institution. An “open door” policy, however, does not mean that an applicant will not have to meet additional admissions requirements set for specific, individual curriculum programs. Such requirements can be found in the College Catalog (available online), a curriculum guide sheet, or from an admissions counselor. Students that withdraw from such programs must meet these specific program admissions requirements, plus any new or modified ones, again should they wish to attempt to re-enter the program. The College reserves the right to limit enrollment in a curriculum program to a number that can be accommodated by the resources of the College and to satisfy accreditation standards.

The College may refuse admissions to applicants who meet at least one of the following exceptions:

1. Admissions may be denied to any applicant during any period of time that he/she is suspended or expelled from any other educational entity.
2. Admission may be denied to any applicant to protect the safety of the applicant, student body, faculty/staff, and library patrons when there is an articulable, imminent, and significant threat by documenting (a) the detailed facts supporting the rationale for denying admission, (b) the time period within which the refusal to admit the applicant shall be applicable, and (c) the conditions upon which the applicant would be eligible to be admitted.

The Dean of Admissions, working through the Admissions staff, will recommend to the Vice president of student services if an applicant should be denied admission based on safety concerns. The Vice president of student services, who is designated as the Chief Admissions Officer of the College, will then notify the applicant in writing of the College’s admissions decision. Any appeals of admission denials should be made in writing directly to the Office of the College President.

Communicable Diseases

Neither infected students nor employees will be excluded from enrollment or restricted in their access to college facilities/services unless medically-based judgments establish that exclusion or restriction is necessary to the welfare of the individual or community.

Students who know that they are infected are to share this information on a confidential basis with the vice president of student services. Employees who are infected should contact the president. The college will then attempt to respond appropriately to health and educational needs.

Students or employees who have reasonable basis for believing that they are infected are expected to seek expert advice about their health circumstances and are obligated ethically and legally to conduct themselves responsibly for the protection of the community.

Communicable diseases may include, but are not limited to, chicken pox, hepatitis, measles, tuberculosis, meningitis, mononucleosis, whooping cough, AIDS, and other sexually transmitted diseases.

Career and College Promise

Career and College Promise provides seamless dual enrollment educational opportunities tuition-free for eligible North Carolina high school students in order to accelerate completion of college certificates, diplomas, and associate degrees that lead to college transfer or provide entry-level job skills. Central Carolina offers Career and College Promise pathways aligned with the K-12 curriculum and career and college ready standards adopted by the State Board of Education.

International Students

CCCC is not currently accepting international applicants who do not reside in the United States. Central Carolina Community College does not issue F-1 non-immigration student visas.

Special Credit Student(s)

An applicant 18 years or older may enroll as a special credit student without specifying an educational objective or program of study. To be admitted, the special credit student needs only to file an application. It is to the student’s advantage to declare an educational objective and to complete all of the admissions procedures as soon as possible after enrollment. Special credit students are not eligible to receive financial aid or veteran’s benefits and must meet all prerequisite requirements for each course enrollment.

Counseling

Counseling services are available to all enrolled and prospective students. Students are invited to use the services as they plan, upgrade, modify, and/or consider changes in their educational goals. The counselors are highly qualified and are available to discuss concerns that may influence students’ educational programs. Counselors will arrange confidential conferences to discuss any concerns, to provide needed guidance, and/or to make individual referrals.

Testing

Student Services administers the North Carolina Diagnostic Assessment and Placement (NC DAP) test to students enrolled in a curriculum program or to special credit students interested in taking English, Mathematics, or other courses that require an English or Mathematics prerequisite/corequisite. The purpose of the test is to assess a student’s ability and readiness for the requirements of the curriculum. Placement test scores are used for academic advisement and course placement, to include developmental courses if needed. Students are highly encouraged to study prior to testing. Please see “General Admission Standards and Procedures” for testing exemptions.

Students enrolled in our Allied Health programs are
required to complete additional testing. Please see the program admissions counselor for further information.

The following placement testing policies will apply:

1. Students must present photo identification in order to take the NC DAP.
2. NC DAP scores will be valid to use for placement for five (5) years.
3. Students are permitted to take the NC DAP twice within five (5) years. If a student retests, the highest score on each section will be used for advisement and course placement.
4. Students are not permitted to take the NC DAP if they are currently enrolled in a developmental course.
5. NC DAP scores are transferable to other colleges with permission of the student.
6. Additional testing may be required for students, who based upon placement test scores, are placed into Mastering Mathematics and/or Mastering Reading.
7. It is the discretion of the Dean of Admissions and/or the Vice President of Student Services to grant or deny retesting attempts or testing exemptions.

Career Center Services

Career services are available through the Career Center in Student Services. The Career Center assists students in selecting a curriculum major, preparing for a career, and transitioning from a student to a professional. The center offers online career assessments, a reference library, Internet research stations, and workshops and individual one-on-one sessions covering areas such as resume writing, cover letters, thank you notes, interviewing techniques, and job searches. The Career Center maintains partnerships with North Carolina Works Career Centers, Vocational Rehabilitation, Veterans Office and business and industries throughout the college’s service area.

Residence Status for Tuition Payment

The tuition charge for persons who have been legal residents of North Carolina for at least 12 months is less than for nonresidents. Chapter 116-143.1 of the N.C. General Statutes covers the requirements for determining resident status for tuition purposes. Chapter 116-143.1(b-d) is quoted as follows: “To qualify as a resident for tuition purposes, a person must have established legal residence (domicile) in North Carolina and maintained that legal residence for at least 12 months immediately prior to his or her classification as a resident for tuition purposes. Every applicant for admission shall be required to make a statement as to his length of residence in the State.”

“To be eligible for classification as a resident for tuition purposes, a person must establish that his or her presence in the State currently is, and during the requisite 12-month qualifying period was, for purposes of maintaining a bona fide domicile rather than of maintaining a mere temporary residence or abode incident to enrollment in an institution of higher education.”

“An individual shall not be classified as a resident for tuition purposes and, thus, not rendered eligible to receive the in-state tuition rate, until he or she has provided such evidence related to legal residence and its duration as may be required by officials of the institution of higher education from which the individual seeks the in-state tuition rate.”

Information relating to claimed North Carolina residence for tuition purposes will be required from all applicants claiming to be North Carolina residents, and a determination will be made by a Student Services dean or vice president as to whether or not the applicant qualifies for reclassification with in-state tuition rates. Should the ruling be contrary to the applicant’s expectation, the decision may be appealed in writing to the Residence Status Committee of the institution. Individuals on active military duty in North Carolina and their dependents may be granted waivers that are considered in-state for tuition purposes. The federally mandated Choice Act allows recently discharged military personnel who served at least 90 days of active duty service to be awarded in-state rates.

The burden of establishing facts, which justify classification of a student as a resident entitled to in-state tuition rates, is the responsibility of the applicant. Decisions by school officials will be based on the requirements of the North Carolina General Statutes and regulations specified in the Manual to Assist the Public Higher Education Institutions for North Carolina in the Matter of Student Residence Classification for Tuition Purposes. Applicants with questions not covered by this section view residency should read detailed guidelines provided in the North Carolina State Residence Classification Manual which may be found at http://www.cccc.edu/registrar/residency/. The Residency Status determination is a part of the application; however, applicants will be required to complete a more in-depth form if reclassification is requested.

EXPENSES

Business Office

Receipt of tuition and fees and payment of refunds are major responsibilities of the Business Office. The Business Office is open between 8:00 a.m. and 5:00 p.m. daily, Monday through Thursday, and between 8:00 a.m. and 3:30 p.m. on Friday, excluding holidays. The Business Office is also open during evening hours during the registration period at the beginning of each term.

Tuition

The tuition rate is set by the North Carolina General Assembly and is subject to change for the 2015-2016 academic year. Visit the Business Office website: www.cccc.edu/collegeservices/businessoffice/tuition/ for the most up-to-date information.
Refund Policy – Tuition

A tuition refund shall not be made except for the following circumstances:

1. A 100% refund shall be made if the student officially drops prior to the first day of the academic semester as noted in the college calendar. Also, a student is eligible for a 100% refund if the class in which the student is officially registered is cancelled due to insufficient enrollment.

2. A 75% refund shall be made if the student officially withdraws from the class(es) prior to or on the official 10% point of the course session or semester.

Should a student, having paid the required tuition for a term, die during that term (prior to or on the last day of examinations), all tuition and fees for that semester may be refunded to the estate of the deceased. This is state policy as stated in the North Carolina Administrative Code, Chapter 23 2D.0202.

Bookstores

The Bookstores on the Lee County Campus and the Harnett County Campus are operated by Follett Higher Education Group. Students may come on campus to purchase books and supplies or they may use our website www.centralcarolina.bkstr.com to purchase books and course materials and have them shipped directly to their home.

The bookstore has a rental program that includes many of the books that are used for the classes offered at a savings of up to 50%. Buybacks are conducted daily to give the students an opportunity to sell their books.

The bookstore offers textbooks, course materials, school supplies and clothing, and gift items featuring the college logo.

The hours of operation are posted on the bookstore website listed above and also on the college’s website www.cccc.edu. Special hours are observed during registration and from the first day of class through the drop add period of each term.

Follett Higher Education offers a wide variety of options to the students with the introduction of a rental program and the ever increasing number of books that are offered through Cafescribe, the E-book option.

Special Apparel and Equipment

Students enrolled in the Automotive Technician, Barbering, Basic Law Enforcement Training, Cosmetology, Dental Assisting, Dental Hygiene, Esthetics, Industrial Plant Maintenance, Machining, Medical Assisting, Motorcycle Mechanics, Associate Degree Nursing, Practical Nursing, Tool and Die Making, and Veterinary Medical Technology curriculums will be required to purchase special items of apparel and/or equipment, such as uniforms, lab jackets, tools, gloves, etc. Most of these items may be purchased in the college Bookstore.

FEES

Student Insurance

Certain risks are inherent in any work involving regular contact with mechanical and electrical equipment. While stringent precautions will be taken to ensure safety, it is felt to be in the best interest of all students to provide some measure of insurance protection. All students in healthcare and personal service programs must have malpractice insurance.

The college will maintain a group policy providing insurance protection, and all students will be covered. The cost of accident insurance to the student is included in the student fee for curriculum students. International students are encouraged to secure more complete coverage.

Malpractice Insurance

A $10.00 malpractice insurance fee will be charged for the fall and spring semesters for students enrolled in applicable programs (total fee of $30.00 per academic year). There will be no malpractice insurance charged for the summer semester. For questions regarding the malpractice insurance policy, please contact the Business Office.

Breakage Fee

Breakage, damage, or loss due to student negligence, carelessness, or other mishandling of school supplies, materials, or equipment is the responsibility of the student. The student will be required to pay for such items and may be subject to disciplinary action.

Student Fee

Students registering for credit classes on campus during the fall and spring semesters are charged a student fee of $24 for six hours or less; those taking seven hours or more are charged $38. Summer term student fees are $6 per semester hour.

The student fee provides the revenue necessary for the Student Government Association to provide services and activities for the student body. Typically, the SGA provides the following benefits from the student activity fee: SGA calendar and handbook, parking stickers, activity days, dances, socials, guest speakers, intramural and intercollegiate athletics, as well as other events the Student Government Association might deem appropriate.

The student fee includes the cost of accident insurance. Students are covered for accidents that occur while traveling to and from college.

Persons 65 years of age or over are exempt from the student fee.

Computer Use and Technology Fee

The computer use and technology fee is used to support the procurement, operations, and repair of computer and other instructional technology including supplies and materials that support technology.
Curriculum students enrolled in 12 or more credit hours will be charged $16 per semester. Curriculum students enrolled in fewer than 12 credit hours will be charged $8 per semester. Occupational extension students will be charged $5 per fiscal year.

**Distance Education Fee**

A $15 distance education fee will be charged for each course taken online. Hybrid, web-assisted, and lab co-requisite courses are exempt from this fee. This fee is used to support the licensing, hosting, and maintenance of online technologies used in distance education including the learning management system, plagiarism detection service, and streaming video content.

While no separate fees or costs associated with verification of student identity are required, students in select distance education courses who reside outside the three-county service area may elect, at instructor permission and their own expense, to utilize the web-based proctoring service offered by ProctorU. More information about the optional ProctorU service can be obtained by contacting the distance education office on the Sanford campus.

**Graduation Fee**

A $18 graduation fee will be charged to students who participate in graduation exercises. There is no charge to graduates who do not participate in graduation exercises. Graduation fees are used to cover costs for degrees, diplomas, certificates, caps, gowns, honorariums, flowers, musicians, etc.

**Student Housing**

The college does not operate dormitory facilities nor does it assume responsibility for housing and maintenance. The Student Services Department will provide lists of available housing to students on a non-discriminatory basis. Payment for such facilities is the responsibility of the student and must be made directly to the landlord.

**Vehicle Registration**

Students using the campus parking facilities will be required to register their vehicles with the Business Office. A numbered sticker will be issued for placement on the vehicle. The initial cost of vehicle registration is included in the student fee.

- Students are required to park in the white-lined spaces only.
- Students will be assessed a $5.00 fine when parking in the faculty and staff spaces or other designated, reserved, or no parking area (such as cosmetology patron parking or visitor parking).

**Policy on Student Publications**

All student publications, including, but not limited to, flyers, posters, memos, newsletters, promotional/publicity materials, and media advertisements, must be submitted to the organization’s advisor prior to duplication or publication. The advisor must then sign and date the original and maintain it in the organization’s files. Larger posters and flyers also should be signed and dated by the advisor and kept on file.

The advisor is responsible for the content of the student publications and should consult with the vice president of student services if there are any questions or concerns about content. The advisor should also check to verify accuracy (i.e., dates, times, locations) and assure that nothing contained in the publication violates campus policy. Publications considered controversial in the view of the advisor should be cleared by the vice president prior to publication. Media advertisements or publicity (i.e., newspaper, radio station, TV station, billboard, etc.) must be cleared and processed through the CCCC Marketing and Public Affairs Department.

**Policy on Solicitation and Fund Raising**

Individuals representing college groups, clubs, or associations may solicit funds, in-kind donations, or engage in other types of on-campus fundraising activities only after receiving prior approval of the campus provost where applicable and the vice president of student services. Solicitation and fundraising by any “For Profit” individual or group is prohibited.

All college-affiliated, off-campus fundraising activities require prior approval of the campus provost or the vice president of student services and the college president.

**Policy on Internet Acceptable Use**

Faculty, staff, students and community patrons are responsible for good behavior on College computer networks. Communications on the network are often public in nature. General College rules for behavior and communications apply. The network is provided for faculty and students to conduct research and communicate with others. Independent access to network services is provided to faculty and students who agree to act in a considerate and responsible manner. Access is a privilege, not a right. Access entails responsibility. Individual users of the institution’s computer networks are responsible for their behavior and communications over those networks. It is presumed that users will comply with the institution’s standards and will honor the agreements they have signed. Users are advised that they may encounter materials which may be considered offensive or objectionable in nature or content. Central Carolina Community College is unable to influence content on the World Wide Web and does not assume responsibility for any of these sources.

Network storage areas may be treated as public space. Network administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on the institution’s servers will always be private.

**RULES:**

The following are not permitted:
1. Sending or displaying obscene messages or pictures
2. Using obscene language
3. Harassing, insulting, or attacking others
4. Damaging computers, computer systems, or computer networks
5. Violating copyright laws
6. Using others’ passwords
7. Trespassing in others’ folders, work, or files
8. Intentionally wasting limited resources
9. Employing the network for commercial purposes

SANCTIONS:
1. Violations may result in a loss of access.
2. When applicable, law enforcement agencies may be involved.

Policy on Copyright – Computer Software
The college will rigidly comply with all copyright laws including that which applies to computer software. It is against college policy to utilize software in a college-owned or leased computer unless an individual site license, receipt or letter of permission from the copyright owner is on file in the Computer Resource Center.

RULES:
1. College employees and students shall not reproduce copyrighted software without the written permission of the copyright owner nor shall the computer be linked or otherwise configured to circumvent copyright law.
2. College employees and students shall not enter copies of “personal” programs into a college computer without permission from the director of computer services.
3. Purchase receipt or other evidence of compliance with copyright law is required before entering “personal” programs into a college-owned or leased computer.
4. Failure to comply with this policy could result in punitive action by the college and/or the copyright owner.

Policy on Copyright – Printed Material
The college will comply with the copyright limitations set forth in federal legislation for protection of original works of authorship.

DEFINITIONS:
Copyright protection: governs exclusive right of copyright owners to literary works, musical works, dramatic works, pantomime and choreographic works, pictorial/graphic/sculptural works, motion pictures and other audiovisual works and sound recordings. Fair use: (not susceptible to definition) involves the allowance of copying without permission from, or payment to, the copyrighted owner where the use is reasonable and not harmful to the rights of the copyrighted owner.

Brevity:
1. Poetry
   A. A complete poem if less than 250 words and if printed on not more than two pages, or
   B. From a longer poem, an excerpt of not more than 250 words
   2. Prose
      A. Either a complete article, story or essay of less than 2,500 words, or
      B. An excerpt from any prose work of not more than 1,000 words or 10% of the work, whichever is less, but in any event a minimum of 500 words (Each of the numerical limits stated in “a” and “b” above may be extended to permit the completion of an unfinished line of a poem or of an unfinished prose paragraph)
   3. Illustration - one chart, graph, diagram, drawing, cartoon or picture per book or per periodical issue
   4. “Special” works – certain works in poetry, prose or in “poetic prose” which often combine language with illustrations and which are intended sometimes for children and at other times for a more general audience but fall short of 2,500 words in their entirety. Paragraph “b” above notwithstanding, such “special works” may not be reproduced in their entirety; however, an excerpt comprising not more than two of the published pages of such special work and containing not more than 10% of the words found in the text, thereof, may be reproduced.

Spontaneity:
1. The copying is at the instance and inspiration of the individual teacher, and
2. The inspiration and decision to use the work and the moment of its use for maximum teaching effectiveness are so close in time that it would be unreasonable to expect a timely reply to a request for permission.

Cumulative Effect:
1. The copying of the material is for only one course in the school in which the copies are made.
2. Not more than one short poem, article, story, essay or two excerpts may be copied from the same author, nor more than three from the same collective work or periodical column during one class term.
3. There shall not be more than nine instances of such multiple copying for one course during one class term. (The limitations stated in 2 and 3 above shall not apply to current news periodicals and newspapers and current news sections of other periodicals.)

PROCEDURES:
1. Fair use: Single copying for teachers
   single copy may be made of any of the following by or for a teacher at his individual request for his scholarly research or use in teaching or preparation to teach a class:
   A. A chapter from a book
   B. An article from a periodical or newspaper
   C. A short story, short essay or short poem whether or not from a collective work
   D. A chart, graph, diagram, drawing, cartoon or picture from a book, periodical, newspaper.
2. Fair use: Multiple copies for classroom use
Multiple copies (not to exceed in any event more than one copy per pupil in a course) may be made by or for the teacher giving the course for classroom use or discussion, provided that the following three requirements are met:
A. The copying meets the tests of brevity and spontaneity as defined
B. The copying meets the cumulative effect test as defined
C. Each copy includes a notice of copyright

RULES:
1. Infringement of copyright is subject to the principal remedies of injunction, damages, profits, and attorney’s fees.
2. U.S. Government works are excluded from copyright limitations.
3. Copying shall not be used to create or to replace or substitute for anthologies, compilations or collective works. Such replacement or substitution may occur when copies of various works or excerpts there from are accumulated or are “reproduced and used” separately
4. There shall be no copying of or from works intended to be “consumable” in the course of study or of teaching. These include workbooks, exercises, standardized tests and test booklets and answer sheets and like consumable material.
5. Copying shall not substitute for the purchase of books, publisher’s reprints or periodicals.
6. Copying shall not be directed by higher authority.
7. Copying shall not be repeated with respect to the same item by the same teacher from term to term.
8. No charge for copying shall be made to the student beyond the actual cost of the photocopying.
9. The responsibility of employee and student copyright obligations is the federal legislation, The Copyright Act of 1976.

Policy on Copyright – Video
The college will comply with video copyright limitations set forth in federal legislation for protection of original work of authorship.

DEFINITIONS:
Broadcast programs are television programs transmitted by television stations for reception by the general public without charge. School days are school session days which means one does not count weekends, holidays, vacations, examination periods, or other scheduled interruptions.

PROCEDURES:
A video broadcast program may be recorded off-air simultaneously with broadcast transmission and retained by an educational institution for a period of forty-five (45) consecutive calendar days after the date of recording. At the end of this time, all off-air recordings must be erased or destroyed immediately. Off-air recordings may be (a) used by individual teachers in the course of relevant teaching activities and (b) repeated only when instructional reinforcement is necessary. The use of the recording for instructional purposes must occur during the first ten (10) consecutive school days within the 45 calendar day retention period. After the first ten (10) consecutive school days, the off-air recording can only be used, up to the end of the 45 consecutive calendar days, for teacher evaluation purposes, (i.e., to determine whether to include the broadcast program) in the teaching curriculum and may not be used in the recording institution for student exhibition or any other non-evaluation purpose without authorization.

Off-air recordings may:
1. be made only at the request of an individual teacher
2. be used only by an individual teacher
3. not be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast. A limited number of copies may be reproduced from each off-air recording to meet the legitimate needs of teachers under these guidelines. Each such additional copy is subject to all provisions governing the original recording. Off-air recordings need not be used in their entirety, but the recorded programs may not be altered from their original content. Off-air recording may not be physically or electronically combined or merged to constitute teaching anthologies or compilations. All copies of off-air recordings must include the copyright notice on the broadcast program as recorded.

RULES:
Copying and using audiovisual material is governed by specific licensing agreements provided by the seller.

FINANCIAL AID

Financial Aid
Financial aid options are available at Central Carolina Community College for degree-seeking students in qualified programs. CCCC awards federal and state grants, scholarships, and/or work-study employment. Eligible students may receive one or more of these types of financial aid to assist with tuition, fees, books, and other educational related expenses.

The Financial Aid Office utilizes the Free Application for Federal Student Aid (FAFSA) to determine student eligibility for financial aid. All students are encouraged to complete the FAFSA as early as possible each year.

Financial Aid Eligibility Requirements
In order to receive financial aid from federal programs and to continue one’s eligibility once aid has been awarded, the following criteria must be met:
• Be a U.S. citizen or eligible non-citizen;
• Not be in default of any prior student loan or owe monies to any Federal Student Aid Program;
• Be enrolled in an eligible degree program;
• Have a valid Social Security number;
• Demonstrate financial need;
• Not have a drug conviction for an offence that occurred while receiving federal student aid;
• Be registered with Selective Service if you are a male;
• Meet Satisfactory Academic Progress (SAP) standards.

The programs are paid based on clock hours, not credit hours. For more information regarding clock hour programs, visit our web site at:
http://www.cccc.edu/financialaid/policies/files/ClockHourProgramPolicy.pdf.

Federal Aid Enrollment Status Determination for Clock Programs

The determination of enrollment status (full, 3/4, 1/2, or less) is, by federal regulations, different for the following programs of study:
• BLET-Basic Law Enforcement Training (C55120)
• Esthetics Certificate (C55230)

The programs are paid based on clock hours, not credit hours. For more information regarding clock hour programs, visit our web site at:
http://www.cccc.edu/financialaid/policies/files/ClockHourProgramPolicy.pdf.

Financial Aid Application Process

2. Review the FAFSA information carefully.
3. Sign the FAFSA with the FSA ID and submit the application; OR
   a. Request a paper FAFSA by calling 1-800-433-3242; for hearing impaired contact 1-800-730-8913.
4. Follow-up. Review the Student Air Report (SAR) once it is received from the Processing Center. The SAR form is for your records.

The Financial Aid Office will be unable to process the FAFSA application if the CCCC School Code is missing or inaccurate. The school code for Central Carolina Community College is: 005449.

Students will receive notification from the Financial Aid Office when or if:
• Additional information is required to complete the financial aid application.
• Eligibility status has been determined.
• Financial aid has been awarded.

Financial Aid Enrollment Classification

For all semesters of enrollment (fall, spring, summer), full-time credit hours in ONE major for financial aid is 12 or more credit hours. Financial Aid for students registered for fewer than 12 total credit hours in ONE major per semester will be prorated as follows:
• 12 or more credit hours = full time or 100% of your award
• 9 to 11 credit hours = ¾ time or 75% of your award
• 6 to 8 credit hours = ½ time or 50% of your award
• 1 - 5 credit hours = 25% of your award or less than half time

NOTE: Students who are enrolled for fewer than 6 credit hours in ONE major per semester may be eligible for only a small amount of Pell Grant or no Pell Grant at all. Students enrolled for less than 6 credit hours are NOT eligible to receive certain State and Federal grants. NC Community College Grant (NCCCG) and NC Education Lottery Grant (NCELS) are not awarded to students who are less than half-time credit hours. NCELS is awarded on a full or half-time amount only. NCELS and NCCCG are not funded in the summer.

Financial Aid Award Process

Students are notified of financial aid award decisions for the academic year once the financial aid file is complete. Financial aid notifications are available to the student through email and WebAdvisor unless the student opts in to paper disclosure. If a student opts in to paper disclosure, a paper letter will be mailed to student as well as email and WebAdvisor notifications.

To ensure prompt processing of the financial aid application, students must complete the FAFSA early and turn in all required paperwork to the CCCC Financial Aid Office by notated deadlines (available on the web site: www.cccc.edu/financialaid) each semester.

Types of Financial Aid

Financial aid is awarded based on student’s individual financial need and eligibility, and may include various types of aid. Financial aid is contingent on maintaining satisfactory academic progress.

Grants: Need based gift aid that do not have to be repaid.
• Federal Pell Grants are awarded by the US Department of Education. Federal Pell Grants are the foundation of federal student financial aid. The amount of a student’s Pell Grant award is based on the Expected Family Contribution (EFC), cost of attendance, enrollment status, and whether the student attends school for a full academic year or less. A student may not receive Pell Grant funds at more than one school at a time.
• Federal Supplemental Education Opportunity Grants (FSEOG) is grants for undergraduates with exceptional financial need; that is, students with the lowest estimated family contributions (EFC). Students must qualify for the Federal Pell Grant to be eligible for this program. Funding for this program is limited. Early filing is strongly recommended to see if you qualify.
• North Carolina Community College Grants (NCCCG)
are for legal residents of North Carolina who are enrolled at least half time (six semester hours) and are maintaining satisfactory academic progress.

- North Carolina Educational Lottery Grants (NCELS) are awarded to NC residents who enroll for at least six credit hours as an undergraduate at an eligible NC College.
- Federal Work-Study Program offers employment opportunities to eligible students who wish to earn money to assist with educational costs. This grant is administered based on the availability of funds. If interested in this program, students should indicate this interest when completing the FAFSA and/or contact the Financial Aid Office.

**Loans:** CCCC does NOT participate in the Direct Loan or Educational Loan Programs.

**Other Financial Assistance**

Veterans Benefits may be available to eligible active duty, veterans and their dependents. Please see the Veterans Information section of the CCCC catalog on our website for more information.

Child Care Assistance Program Grants are available for students enrolled full-time. Grants are limited and are based on greatest need. Contact the Special Programs Coordinator for additional information.

Scholarships at CCCC are considered gift aid based on academic performance, talent or achievement. For a complete list of scholarships, go to www.cccc.edu/financialaid/scholarships.

Other outside scholarships and funds may be available to assist students. Some of these include employer-paid tuition, the Workforce Investment Act through the Employment Security Commission, Vocational Rehabilitation, Department of Social Services, and the NC Veterans Administration. Please see the appropriate agency to determine qualification for any of these programs.

**Financial Aid Satisfactory Academic Progress**

The Department of Education requires colleges participating in Student Financial Assistance (SFA) Programs to monitor SFA recipients to ensure that they are meeting satisfactory academic progress standards. Satisfactory academic progress will be calculated at the end of each academic term and will include all periods of enrollment.

Regulations require a student’s progress for financial aid purposes to be measured both quantitatively and qualitatively. In addition to a student’s cumulative grade point average, students are also required to pass a percentage of all attempted coursework and to complete their program of study within the maximum time frame established by the institution. To reasonably measure a student’s satisfactory academic progress for financial aid, the student’s total academic record must be evaluated whether they received financial aid for periods of enrollment and include credit hours earned at other post-secondary institutions and transferred into the student’s program of study at CCCC. This requirement applies to all students who apply for financial assistance from Federal, State, and Institutional aid.

In order to be eligible for financial aid, students must meet the following minimum guidelines:

1. **Quantitative Standard:** 67% Completion Rate and 150% Maximum Time Frame.

   A. **Completion Rate Requirement:** Students must complete 67 percent of the total cumulative credit hours attempted to meet the minimum requirement. For example, if a student has attempted 50 credit hours, the student must earn credit for at least 33 hours (50 X .67 = 33). Course grades of AU, W, WF, F, and I are not considered completions and will adversely affect a student’s satisfactory academic rate calculations. Course grades of CE and EL are calculated in quantitative standard, but will not be included in the financial aid award calculation.

   Successful completion is defined as receiving a grade of A, B, C, and D.

   B. **Maximum Time Frame:** Students must complete an eligible program within a time frame not to exceed 1.5 times (150%) the normal published time frame. For example, if the academic program length is 70 credit hours, the maximum credit hours that may be attempted is 105 credit hours (70 X 1.5 = 105). One academic year of credit (30 credit hours) may be added for required remedial coursework.

   2. **Qualitative Standard:** The minimum cumulative grade point average (GPA) requirement the student must maintain to receive and/or continue receiving financial aid assistance is 2.0. This includes all degree, diploma, and certificate programs.

**Treatment of Selected Grades:**

**Withdrawals/Drops:** Credit hours in which a student receives a grade of “W” and “WF” are included in the number of attempted hours, but do not count toward successfully completed hours. Students who withdraw may have difficulty meeting the satisfactory academic progress requirements.

**Incompletes:** Credit hours in which a student receives a grade of an “I” are included in the number of attempted hours, but do not count toward successfully completed hours. Student with incompletes may have difficulty meeting the satisfactory academic progress requirements at the time of evaluation, but may request re-evaluation upon completion.

**Transfer Credit:** Students transferring from another college will be considered making satisfactory progress at the time of enrollment at CCCC. A student’s maximum time to receive financial aid will be reduced by the equivalent transfer of credit hours towards his/her degree.

**Audit and Never Attend:** An audit “AU” or never attended “NA” grade is not considered attempted course work. It is not included in the grade point average or completion rate determination. A student cannot receive financial aid for courses that he/she audits or is considered a no show.
Repeat Courses: For financial aid purposes, all hours attempted will continue to be counted in the student’s cumulative total of hours. Federal regulations will allow a student to repeat a “passed” course one time and still be eligible for financial aid.

Credit by Exam: While credit by exam “CE” is not included in enrollment status for purposes of awarding financial aid, the attempted and completed credits are counted in each component of the quantitative standard.

Eligibility Status:

Satisfactory: Satisfactory status is achieved when all criteria explained above is met.

Financial Aid Warning: Students who do not have the required grade point average and/or have not successfully completed 67% of their attempted credit hours will be placed on Warning Status for the following enrolled semester. A student may continue to receive financial aid for one semester while on financial aid warning provided they are otherwise eligible. Students should use this opportunity to re-establish satisfactory academic progress. If, at the end of the financial aid warning period, the student is meeting the minimum requirements for satisfactory academic progress, the financial aid warning is lifted. Students who fail to make satisfactory academic progress after the financial aid warning semester will be placed on financial aid suspension and will be ineligible for financial aid until satisfactory progress is met. A student may attend the next semester(s) (at the student’s expense) in order to meet the minimum standards for satisfactory academic progress. NOTE: Satisfactory progress will be monitored at the end of the semester to determine if the student will meet the standards of progress and will be eligible to continue to receive financial aid.

Financial Aid Suspension: A student on financial aid probation who has not attained at least a cumulative 67% completion rate and/or earned the minimum required grade point average of a 2.0 will be placed on financial aid suspension. A student who has attempted the maximum allowable credit hours for their program of study will also be placed on financial aid suspension. A student may attend the next semester(s) at the student’s own expense.

Notification of Financial Aid Warning and Suspension: The Financial Aid Office will send a letter/email of notification to any student who is placed on Warning Status or Probation Status.

Remaining Eligibility: Students who attend CCCC, without Federal Financial Aid, may regain financial aid eligibility by achieving a 67% completion rate and earning the required GPA based on hours attempted. A student may request consideration of eligibility for financial aid by completing an Appeal Form and submitting the required documentation to the Financial Aid Office.

Students who have exceeded the 150% regulation may also appeal by completing an Appeal Form and submitting the required documentation to the Financial Aid Office.

Appeal of Satisfactory Academic Progress

Standards: Students who have been suspended from receiving financial aid may appeal to the Financial Aid Office when there are extenuating circumstances beyond a student’s control. A student may submit written documentation to the Financial Aid Office by completing the Satisfactory Academic Progress Appeal Request form explaining the circumstances that have affected academic performance and what has changed that will allow him/her to make Satisfactory Academic Progress in a reasonable period of time prior to program graduation. Supporting documentation must be presented. Circumstances that may be considered include death in the family, accident, illness, military deployment, or other serious personal problems that were beyond the control of the student and can be supported with proper documentation from involved third party sources.

Returning students are evaluated on a continuing basis from the first enrollment at CCCC unless a mitigating circumstance is considered. Returning students who were previously enrolled under an academic progress policy other than the current academic progress policy will be required to meet the standards of the current policy upon returning.

Appeal Process: A student may appeal in writing to the Financial Aid Office using the Satisfactory Academic Progress Appeal Request form explaining why satisfactory academic progress requirements were not met and what has changed that will allow him/her to make Satisfactory Academic Progress. Supporting documentation for the extenuating circumstance is required and specified according to the student’s situation on the Satisfactory Academic Progress Appeal Request form. The Financial Aid Appeals Committee will review the appeal and a decision will be rendered within fifteen (15) business days of the next scheduled committee meeting. The student will be informed of the committee’s appeal decision by letter. The decision of the Financial Aid Appeals Committee is final.

Return of Title IV/State Funds Policy

Students who withdraw from all classes prior to completing more than 60 percent of the semester will have their eligibility for financial aid recalculated and may be required to repay all or a portion of any federal and/or state financial aid funds received for that semester. This policy applies to all students who withdraw, drop out, or are suspended from CCCC and who have received Title IV/State funds. Students are responsible for paying this debt. Students’ records will be placed on hold and he/she will not be allowed to register for classes until the bill is paid in full.

Standards of Progress, Attendance, and Conduct for Students receiving VA Educational Benefits

Public Law 93-508 requires that each educational institution approved for veterans to receive educational benefits (G.I. Bill) must establish written policies that
clearly state what is expected of the veteran in the areas of academic progress, class attendance, and conduct. These standards are as follows:

1. Academic Progress for VA Educational Benefits recipients
   Students receiving VA Educational Benefits must maintain a grade point average (GPA) of 2.0 each semester or term in which they are enrolled. Failure to maintain a GPA of 2.0 will result in probation for the subsequent term of enrollment. If, at the end of that probationary term the GPA is still less than a 2.0, VA Educational Benefits will be terminated. Benefits cannot be reinstated until such time as the student regains satisfactory academic progress. Information on CCCC’s grade system and GPA calculation is located in the college catalog.

2. Attendance
   Classroom attendance requirements are the same for veterans and non-veterans. Policies regarding class attendance are listed in the college catalog and the student handbook. Veterans who receive educational benefits and are dropped from class due to inadequate attendance may be terminated from receiving educational benefits. Failure to notify the veteran’s coordinator of any change in classes, including class hours, may result in an overpayment in educational benefits and a debt for the student.

3. Conduct
   Student conduct requirements are the same for veterans and non-veterans. Policies regarding student conduct are listed in the college catalog and in the student handbook.

Serviceman’s Opportunity College (SOC)
CCCC is a Serviceman’s Opportunity College (SOC) and supports the concept that military personnel should be encouraged to begin their post-secondary education while serving their country.

Under the Serviceman’s Opportunity College program, servicemen are encouraged to submit evaluations of CLEP test results, DANTES test results, military service school records, Military Occupation Specialty (MOS) evaluations, and prior college coursework for transfer credit. CLEP/DANTES must meet the recommended American Council on Education (ACE) minimum scores. All coursework considered for transfer must be equivalent to CCCC courses appropriate to the student’s program of study.

ACADEMIC INFORMATION

Central Carolina Community College offers Associate in Arts, Associate in Fine Arts, Associate in Science, and Associate in Applied Science degrees, as well as diplomas and certificates.

Transfer to Four-Year Institutions
In accordance with the Comprehensive Articulation Agreement and Transfer Assured Admissions Policy between the North Carolina Community College System and the University of North Carolina (UNC) System, CCCC graduates who complete an Associate in Arts or Associate in Science degree are assured admission into one of the UNC system’s 16 public universities. CCCC also has transfer agreements with several colleges and universities outside the UNC System. Check with your academic counselor for more information on transfer credits.

Associate in Applied Science Degree (A.A.S.) Transfer
Although the Associate in Applied Science Degree is designed for workforce training, many colleges and universities will accept transfer credit from CCCC Associate in Applied Science Degree students who wish to pursue a four-year degree. Credit that is granted may range from partial to a full two years of credit. A.A.S. students wanting to transfer are encouraged to meet with the CCCC college transfer counselor and with the appropriate admissions officer at the four-year college to discuss transfer credit.

Orientation
All new students are expected to participate in an orientation process that is intentionally planned and guided by administration, the College Success & Student Transitions Department, the Student Services Department, the faculty, and the Student Government Association. CCCC’s “extended orientation” model consists of: (1) an on-campus orientation that will help students make an initial connection to the campus, administration, faculty, students and services, and policies; and (2) ACA “first-year experience” courses designed with a common core curriculum that help to introduce students to more intensive academic and college-related concepts to encourage persistence and college/career success. Students are required to enroll in the required ACA course during one of their first two terms of enrollment.

Registration
All curriculum students must register prior to or at the beginning of each term. All students are expected to register during the time specified for that purpose on the college calendar. Each semester, returning students are encouraged to register early for the subsequent semester. Students are expected to pay tuition charges in full by the designated pay
date. Failure to do so results in the student losing their schedule.

Course Load
Students enrolled for 12 or more semester credit hours during the fall and spring semesters are designated as full-time students. No additional tuition is charged for credit hours over and above 16. Normally, the course load range is from 16-19 semester credit hours.

Students may take no more than 19 semester credit hours during fall or spring semester without special permission of their advisor and the vice president of student learning or vice president of student services.

Students will not be permitted to register for more than 22 semester credit hours.

Students enrolled for six or more semester credit hours during the summer semester are designated as full-time students. Pell recipients must enroll in at least 12 semester credit hours to receive a full Pell award for a summer semester. Students may take no more than 12 semester credit hours during the summer semester without special permission of their advisor and the vice president Student Services or vice president of student learning. Students are not permitted to register for more than 14 semester credit hours during the summer semester.

Students experiencing academic difficulty will be advised to take a reduced course load. Employed students may also be advised to take a reduced course load contingent upon their academic standing.

Double Major
Students wanting to pursue two degrees at the same time may do so by seeing a counselor and completing a Change of Program form. On the form under the question of “New Program,” the name of both degrees to be pursued must be indicated. The current college catalog in effect on the date the form is completed will be used to determine the course requirements for the degree(s). Only the primary program may be used to determine financial aid eligibility.

Distance Education
CCCC’s comprehensive schedule of distance education courses provides a top-quality, fully-accredited educational alternative for the self-directed, independent learner who values quality, convenience, and flexibility. Distance education courses contain the same basic content, require the same academic rigor, and offer the same semester credits as traditional courses. The major difference between face-to-face courses and distance courses is the instructional delivery method. Courses are offered using three methods: online, hybrid, and web-assisted. Through distance education, travel to campus is minimal or not required at all. Hybrid and web-assisted course delivery reduces on-site sessions but still requires regular on-campus meetings. Distance courses are learner-focused, challenging, and demand as much or more time than traditional courses. Students who are considering enrolling in a distance program or a distance course should work closely with their faculty advisor or counselor.

Distance Education Online Courses
Online courses use the Internet, e-mail, and other electronic resources to provide opportunities for meaningful student-to-faculty and student-to-student interaction comparable to the traditional college classroom. Additional tools such as software applications, e-texts, and media-enriched digital content are common components. Students must have access to a reliable personal computer (home, office, or college campus) with Internet access and appropriate software and also have the ability to use it proficiently.

Online courses are not self-paced; students follow a structured assignment and exam schedule. Successful students are motivated to learn, have easy access to technology, and are comfortable using computers and the Internet.

At the semester start, students must complete the course-specific orientation including a required orientation quiz by the deadline to remain enrolled in the course. Failure to meet this orientation requirement will result in being withdrawn from the course at the student’s expense.

Distance Education Hybrid and Web-Assisted Courses
Hybrid and web-assisted courses blend traditional class meetings on campus with online experiences. In hybrid and web-assisted courses, the Internet, email, software applications, e-texts, and media-enriched digital content are common components. Hybrid courses are designed and facilitated that more time is spent online than in the face-to-face setting while web-assisted courses are the opposite; web-assisted courses require more on-campus than online.

Both delivery methods provide opportunities for student-faculty and student-student interaction. Requirements for these courses include attendance at regularly scheduled on-campus class meetings and access to a reliable personal computer (home, office, or college campus) with Internet access and appropriate software. Students need the ability to use technology for learning.

At the semester start students must complete the course-specific orientation including a required orientation quiz by the deadline to remain enrolled in the course. Failure to meet this orientation requirement or demonstrate attendance in a face-to-face class meeting will result in being withdrawn from the course at the student’s expense.

More complete information about course and credential offerings, requirements, and services can be found on the Distance Education webpage at www.cccc.edu/de.

Auditing Courses
A student who desires to take a course without credit may choose to audit the course by completing the Audit Declaration form, having it signed by either the instructor, department chair, or dean, turning it in at registration, and
paying full tuition. An audit student cannot change the course from audit to credit or from credit to audit after the last day to register or drop/add a course. A grade of “AU” will be assigned to the student upon completion of the course. **NOTE: Pell and VA students cannot count audited courses for payment purposes.**

Auditing a course is subject to permission of the instructor and is contingent upon space available in the class.

The registrar will ensure that all faculty receive a copy of the completed Audit Declaration Form in order to know who is auditing their classes.

**Course Substitution**

Under extenuating circumstances, a student may apply to his advisor for approval of a course substitution. A course substitution may be granted upon review and recommendation of the department chair to the dean or provost and in consultation with the vice president of student learning.

Consideration of any substitution involving a required core course as stipulated in the curriculum standard must receive additional approval by the North Carolina Community College System office staff. For VA purposes, the VA counselor must be notified of all approved course substitutions.

The course used as a substitute must have credit hours that are at least equal to the number of credit hours of the original course. The substitute course must have relevance to the curriculum and should also have relevance to the course for which the substitution is made.

**Independent Study**

Under extenuating circumstances, independent study may be scheduled for selected courses with the approval of the subject instructor, department chairperson, and the program dean.

**Academic Advisors**

Students are assigned to academic advisors and success coaches upon enrollment. The role of the advisor is to serve as the primary contact with the student for his or her total academic activities while enrolled at CCCC. The role of the success coach is to provide additional academic advising/coaching that supports the overall advising process.

The student is expected to confer periodically with his advisor and/or to visit a success coach for an appointment (at least twice each semester) regarding academic standing, early registration, or any other areas of concern.

**Alternative Credit**

A student may earn alternative credit in the following ways:

- Transfer of credit from one curriculum to another (Resident Credit Transfer)
- Transfer of credit from regionally accredited institutions
- Advanced Placement Examinations (AP)
- College Level Examinations Program (CLEP)
- Defense Activities for Non-Traditional Education Support Systems Examination (DANTES)
- Proficiency demonstrations
- Articulated credit from a vocational or technical high school course
- Experience

**Amount of Alternative Credit Allowed**

At least 1/3 of credit for a certificate, diploma, or associate degree required for graduation must be an earned grade at Central Carolina Community College.

No more than 20% of credit for a certificate, diploma, or associate degree required for graduation may be earned through credit by experience.

**Resident Credit**

When a student transfers from one curriculum to another within the college, all courses applicable to the new program for which the student has earned credit will transfer as resident credit depending upon the curriculum guidelines and academic policies in effect at the time of transfer. Some courses may be ineligible for transfer based on time limitations set by specific curriculum programs.

**Transfer Credit from Another Institution**

CCCC accepts transfer credit from regionally accredited institutions under the following rules:

- Higher education institutions (colleges) transfer credits may be accepted only from regionally accredited institutions.
- A course grade of “C” or better is required for all transfer credit.
- Students must request official transcripts to be sent to the Registrar’s Office for evaluation.
- When deemed necessary students must provide course descriptions and/or course syllabi if they are needed to determine credit eligibility.
- Some courses may be ineligible for transfer credit based on time limitations as set by specific curriculum programs.
- Credit will be granted on a course-by-course basis for courses closely paralleling those offered at the college and must meet the credit hours of the CCCC course for which transfer credit is granted. Transferred credit will not be calculated in the grade point average.

**Advanced Placement (AP), CLEP, DANTES**

Students may request credit for subjects tested under advanced placement exams such as AP, CLEP, and DANTES. Subjects must be applicable to the student’s current curriculum program requirements and test scores must meet American Council on Education (ACE) recommendations. Such credit must be supported by official test score reports. The following rules apply:

- Students must request that official score reports to be
sent to the CCCC Registrar’s Office for evaluation.

- Credit will be granted only for scores earned within the last ten (10) years unless approved by the vice president of student learning.
- Credit will be granted on a course-by-course basis for courses closely paralleling those offered at the college and must meet the credit hours of the CCCC course for which transfer credit is granted.
- Such credit will not be calculated in the grade point average.
- An exam score of 3 or better is required to receive credit for an AP course.
- Recommended ACE cut-off scores will be used for CLEP and DANTES.
- Credit will not be calculated into the GPA

Credit by Examination

Students with prior proficiency in a course due to previous educational or work experience may apply for credit by examination. This option is available for selected courses as determined by the department chair. A proficiency demonstration may be a written exam, oral exam, shop exercise, or lab exercise. The following rules for the student apply:

- Show evidence of preparedness for a proficiency demonstration (e.g., high achievement in secondary school, military service, and/or work experience) that must be submitted to the department chairperson accompanied by a written request for a review.
- Obtain permission from the appropriate department chairperson or vice president of student learning.
- Register and pay tuition for the course.
- Take the Proficiency Test during the first week of the term.
- Earn a grade of 85% or better.
- Drop the course using the Drop/Add form if an acceptable score is earned and then add the course as Section “OP” (Proficiency) on the Drop/Add form.
- Credit granted through a proficiency exam will not be calculated in the grade point average.
- Proficiency demonstrations may be taken only one time for each course.
- Credit for proficiency demonstration may not be granted for a course being audited by the student.
- The instructor will complete a Student Termination form and assign a grade of “CE” (Credit by Examination). Reason for termination will be “Passed by Proficiency.”
- Credit will not be calculated into the GPA

Articulated CTE High School to Community College Credit

Students may request articulated credit based on CTE courses completed from a NC public high school and who meet the following criteria:

- To receive articulated credit, students must enroll at the community college within two years of their high school graduation date.
- Student must have earned a final grade of B or higher in high school CTE course.
- Student must have earned a score of 93 or higher on the standardized CTE post-assessment.
- Student will complete Articulated Credit form received from admissions counselor and submit to registrar.
- Registrar will verify high school graduation date, CTE course taken, course grade and post-assessment (VoCATs) grade.
- Awarded credit will be issued tech prep non-course credit with a grade of CE which will not be included in GPA calculations.

Credit by Experience

Students may request credit for work experience or skills that directly correlate with competencies required in a specific course under the following rules:

- Requests for credit by experience must be properly made and acted upon prior to the 10% point of the class and must be made in writing on the Request for Credit by Experience form.
- Credit by experience may not be granted for cooperative work experience courses.
- The department chairperson or lead instructor will guide the student in determining the appropriate documentation necessary to evaluate the request. Documentation required will vary depending upon the field of study.
- For guidance, the following are examples of the appropriate documentation: official work history with job responsibilities and proficiency ratings verified by supervisors and human resource officers within the company; a completed thesis verified by an official transcript could serve as verification that a student should receive credit for a technical writing course; electronically recorded presentations (taped presentations could be evaluated to determine credit by experience for an oral communications class); and brochures announcing a pottery exhibit and displaying the creations of the student could be used for an art class.
- Experiences, which may require a demonstration of one’s ability, must be approved by the student’s curriculum department chairperson or lead instructor, the subject area department chairperson, and the vice president of Academic Affairs.
- Experiences must be officially documented per the college’s request.
- Veterans may apply credit for training received under the armed forces college training programs and some specialized and technical training completed under the auspices of the armed forces. Appropriate documentation must be provided.
- The approved credit recommendation should be submitted to the Registrar’s Office.
- The registrar will record a symbol of “EL” on the transcript with credit hours; however, no quality points will be assigned.

24
• Documentation shall be kept on file for five (5) years in the Registrar’s Office.
  • Credit granted for experience will not be calculated in the grade point average.

Prerequisites/Corequisites
Prerequisites and corequisites serve as safeguards to successful course and program completion in that they ensure proper knowledge and background for higher-level courses. In the case of corequisites, the goal is to ensure a proper educational experience when two courses depend upon one another for coherence and knowledge application. In rare cases, prerequisites or corequisites may be waived upon review and recommendation by the department chair to the dean or provost and in consultation with the vice president of student learning. Permissible reasons for waiver of local prerequisites (course taken prior to another course)/corequisites (course taken at the same time or prior to another course) are limited to the following:
  • Grade of at least “C” in a course judged of similar or higher-level content to that of either the prerequisite/corequisite or the requested course.
  • Demonstrated competency in the content of the prerequisite/corequisite obtained through professional application. In this case, the student must request credit by experience.
  • Life experiences that are deemed equivalent to or that supersede the prerequisite or corequisite; a formal review of course level outcomes would occur and be maintained in the student’s records.
  • Transfer in of a course that has a prerequisite or corequisite (example: a student transferring in with the local prerequisite of DRE-098 would not have to take DRE-098).
  • Satisfactory completion of proficiency exams administered by CCCC (when such exams are available).
  • Enrollment in another course deemed suitable to satisfy the corequisite.
  • Student engaged in a job experience during the duration of the course that would provide a similar purpose of the corequisite.
  • An associate or higher level degree when enrolling in beginning college level courses (e.g. ENG 111; PSY 150).
  • For visiting students, written documentation from their college/university to enroll in a specified course that has a prerequisite.

Time Provisions for Completing a Curriculum Program
Students will abide by the college catalog and program of study requirements in place at the time of admission. Students may elect to adopt future college catalogs and program of study requirements if it is beneficial to completing degree requirements in a timelier manner.

Students who request a change of program must adopt the college catalog and program of study requirements in place when the change becomes active. Consequently, older college catalogs cannot be used for degree completion once the change of program is active.

In accordance with CCCC’s mission and values, the college quests to educate, train, and graduate students who are competent, capable, and current in their chosen programs. Therefore, students who have not completed their program of study within five years of initial enrollment are subject to new or revised policies, provisions, rules, guidelines, electronic program of study, catalog, etc. in existence once the five-year term expires. **NOTE: All students are subject to provisions and guidelines imposed by the state or outside accrediting agencies that impact changes in programs. Such changes are at the discretion of the state or outside accrediting agencies.** When such happens, students may be required to adhere to the provisions of the revised program prior to the five-year expiration point.

This provision applies to all students and all curriculum programs (certificates, diplomas, degrees) and is subject to the following rules:
  • When a student does not complete a program of study within five years, the department chair and appropriate faculty members may consider course-by-course credit within a student’s program and grant appropriate substitutions and credit with review by the dean/provost and final approval by the vice president of student learning.
  • Requests for transfer credit for courses earned under special credit status or while enrolled in another program are also subject to five-year limitations. Such credit exceeding the five-year limit may be evaluated and considered for credit by the department chair and appropriate faculty members with review by the dean/provost and final approval by the vice president of student learning.

Grading System
CCCC operates on a required-subject grade point system in the curriculum areas. All subjects must be completed with satisfactory grades if the student is to be awarded a certificate of completion, diploma, or degree. This grade system is followed for all subjects in curriculum areas. Students enrolled in a course that includes integrated and/or co-requisite lecture and lab components will earn a single course grade.

A cumulative grade point average is maintained which includes all courses taken. If a course is re-taken, only the highest grade will be averaged in the cumulative grade point average; however, both grades will be recorded on the transcript.

How to Compute the Grade Point Average (GPA)
Academic quality must be achieved in order to graduate from any program at CCCC. The standard for students’ work is determined by the Quality Point system. Under this system, a letter grade is assigned a certain number of quality points (QPs) per credit hour; i.e., an “A” is given four QPs; a “B”, three QPs; a “C”, two QPs; a “D”, one QP; and “F”, no QPs. Quality points are computed by multiplying the number of credit hours per course by the value of the grade.
earned. The grade point average (GPA) is then computed by dividing the total number of quality points by the total number of credit hours attempted.

**General Academic Standards**

1. If a student does not score the minimum to take the mathematics and English composition course of his choice, he must enroll in the appropriate non-credit developmental course(s) to learn the skills necessary to meet the placement scores for the general education course desired.

2. Students who do not earn a 2.0 GPA for any given term will be placed on academic probation. Probation students, who are seeking a degree, diploma, or certificate, will be required to enroll in and successfully complete ACA 090 College Study Skills, a three semester hour non-credit course. A reduced course load is recommended.

**EXCEPTION 1:** Probation students who maintain a cumulative GPA of 3.0 or higher will not be required to enroll in ACA 090 College Study Skills. A reduced course load is recommended.

**EXCEPTION 2:** Probation students who have enrolled in and successfully completed ACA 090 during a previous term will not be required to repeat ACA 090. Students who are placed on academic probation for subsequent terms will only be permitted to enroll in a maximum of 12 credit hours (12 credit hours for a 16 week term, 9 credit hours for a 12 week term, and 6 credit hours for an 8 week term) during the next term of enrollment. Students can enroll in additional credit hours upon obtaining a 2.0 term GPA during the probation term.

3. Students who have a term GPA below 2.0 for two consecutive terms and an overall GPA below 2.0 will be suspended from all and all college activities for one term with the exception of enrollment in ACA 090.

**EXCEPTION:** If a student applies to change curriculum programs after two terms with a GPA below 2.0, the suspension may be extended for one term. During this suspension extension term, the student will be required to enroll in and successfully complete ACA 090. This extension of suspension must be approved by the department chairperson of the new curriculum and by the Vice President of Student Services. Failure to obtain at least a 2.0 GPA during the subsequent term will result in academic suspension for one term.

4. Students will not be allowed to repeat any curriculum course more than twice.

5. Students must have an overall GPA of 2.0 and a GPA of 2.0 in the program of study to qualify for graduation.

**General Education Competencies**

The college is committed to teaching and learning excellence. Every degree program includes a minimum of fifteen semester hours credit of general education as prescribed by the North Carolina Community College System Curriculum Standards, and CCCC believes that every degree student should successfully master general education competencies regardless of the degree discipline. The general education competencies developed by the college represent the academic proficiencies believed necessary for graduates to be successful and productive employees as well as successful community citizens. In support of the college mission, CCCC students will be able to demonstrate:

1. Problem-solving skills that identify, analyze, and evaluate content and processes in order to implement effective solutions or strategies
2. Writing skills that exhibit clear, coherent topic development and proficient use of mechanics
3. Effective communication that reflects proficiency in oral presentation skills in group and/or one-on-one settings
4. Appropriate mathematical skills in collecting, analyzing, and communicating quantitative data
5. Basic computer literacy and evidence of proficiency in concepts, word processing skills and spreadsheet skills

**President’s/Dean’s List Eligibility**

A student will be announced as a President’s List student if he is enrolled full-time in a curriculum program (minimum of 12 credit hours), receives all grades of “A” (4.0 GPA), and has no grades of “I” during the term. The required GPA will be determined by computing grades earned only in credit courses.

A student will be announced as a Dean’s List student if he is enrolled full-time in a curriculum program, receives a grade point average of 3.50 with no grades lower than a
“C,” and has no grades of “I” during the term.

A student graduating with an average of 3.5 or higher in major program courses will be announced as an Honor Graduate.

Highest Academic Award
At graduation, the Highest Academic Award will be presented to the graduates who have the highest academic average in four categories: A.A., A.S., A.A.S., and Diploma. These students must have completed 75 percent of their coursework and their last term of study at Central Carolina Community College. Only students with a minimum GPA of 3.5 are eligible to receive this academic award.

Academic Probation Policy
Each student will be notified of his academic status at the end of each term. Students who do not earn a 2.0 GPA for any given term will be placed on academic probation. Academic probation is posted to the student’s official transcript for that term. Probation students, who are seeking a degree, diploma, or certificate, will be required to enroll in and successfully complete ACA 090, a three semester hour non-credit course. A reduced course load is recommended. Students may not participate in any athletic events while on academic probation.

EXCEPTION 1: Probation students who maintain a cumulative GPA of 3.0 or higher will not be required to enroll in ACA 090 College Study Skills. A reduced course load is recommended.

EXCEPTION 2: Probation students who have enrolled in and successfully completed ACA 090 during a previous term will not be required to repeat ACA 090. Students who are placed on academic probation for subsequent terms will only be permitted to enroll in a maximum of 12 credit hours (12 credit hours for a 16 week term, 9 credit hours for a 12 week term, and 6 credit hours for an 8 week term) during the next term of enrollment. Students can enroll in additional credit hours upon obtaining a 2.0 term GPA during the probation term.

If, upon receipt of grades, a student learns that he is on academic probation, he must schedule an appointment with his advisor/counselor immediately. The purpose of this conference is to assist the student in assessing academic problems and exploring ways of improving the student’s academic status. As long as the student remains on academic probation, his advisor/counselor will make recommendations concerning the course load for which the student should register, enrollment in needed developmental courses, or referrals to other college resources.

Academic Suspension Policy
If a student has below a 2.0 term GPA for two consecutive terms and an overall GPA of less than 2.0, that student will be suspended from all coursework and all college activities for one term with the exception of enrollment in ACA 090 College Study Skills. Academic suspension is posted to the student’s official transcript for that term. A student may be considered for reentrance after one term of suspension by completing a readmission form and having it approved by the department chairperson, a counselor, and the vice president of student services. ACA 090 will be required during the term of suspension or the term of reentrance.

EXCEPTION: If a student applies to change curriculum programs after two terms with a GPA below 2.0, the suspension may be extended for one term. During this suspension extension term, the student will be required to enroll in and successfully complete ACA 090. This extension of suspension must be approved by the department chairperson of the new curriculum and by the Vice President of Student Services. Failure to obtain at least a 2.0 GPA during the subsequent term will result in academic suspension for one term.

Repeating a Course
A student may repeat a course to eliminate a failing grade, to attempt to earn a higher grade, or earn credit for which transfer credit has not been granted. All course grades will be recorded on the transcript; however, the highest grade will be used for computing total credit hours attempted and passed, total grade points, and grade point averages. No course may be counted more than once for graduation. No course, except developmental courses, may be repeated more than twice. An exception may be granted for courses that receive a “W” grade. They may be repeated more than twice with approval of the dean.

Certain regulations may prohibit veterans and other financial aid recipients from receiving financial aid for repeating courses previously passed. It is the student’s responsibility to determine status in regard to financial aid.

Academic Forgiveness
Students may request academic forgiveness for grades of D or lower guided by the following conditions:
1) Students who (a) were not enrolled in College curriculum courses for 36 consecutive months (three years) or longer, and (b) have been re-admitted to the College, seeking acceptance in a selective admissions program and completed at least 12 credit hours of coursework at the 100-level or above with a minimum quality point average of 2.0.
2) Students meeting the criteria for 1a and 1b should visit the Student Services Office or Academic Services Office or contact the Admissions Office via telephone and may also contact the Distance Education success coach for assistance with the process.

If the student is granted academic forgiveness, the following conditions apply:
1) Previous grades of D, F, and WF will not be used when calculating the cumulative GPA. Recalculated grades must not have been counted under a previously-granted
certificate, diploma, or degree from Central Carolina Community College.
2) The student’s full academic record from Central Carolina Community College will still be recorded on all subsequent transcripts.
3) Academic forgiveness is only available once for each student.
4) Academic forgiveness is used for calculation of the cumulative academic GPA for acceptance consideration into selective admission programs only and will not be changed on the student’s transcript. Due to federal regulations, the Financial Aid Office takes all attempted courses into account when determining financial aid eligibility.
5) The VP of Student Services and Chief Academic Officer must approve any exceptions to this policy on a case-by-case basis.

Certain regulations may prohibit veterans and other financial aid recipients from receiving financial aid for courses previously passed. It is the student’s responsibility to determine their status in regard to financial aid.

Removal of Incomplete

Instructors may assign a grade of “I” (“Incomplete”) to any student who, due to extenuating circumstances, needs additional time to complete course requirements; however, Incompletes will be assigned with discretion.
For each grade of “I” (“Incomplete”), the instructor must fill out a "Requirements to Remove Incomplete" form indicating what the student must do to earn a final grade, attach a copy to the grade report submitted to the registrar, and send a copy to the appropriate dean. The student must take the initiative to remove the “Incomplete” by the midterm date of the next semester (fall, spring, or summer) as specified in the college calendar.

Unusual and extenuating circumstances may be cause for allowing extended time to remove an “Incomplete.” These circumstances must be determined by the instructor and student with notification of the extended time to the registrar. A student cannot graduate with an “I” on his record if the course is required for graduation.
If the student fails to complete requirements necessary to remove the “Incomplete” when prescribed and/or the instructor fails to turn in a final grade on an “Instructor’s Grade Change” report by the midterm date of the next (fall, spring, or summer) semester as specified in the college calendar, a grade of “F” will be assigned by the registrar and computed in the student’s cumulative grade point average.

Withdrawal

A student who wishes to withdraw from school or from an individual course during the academic year should complete an official withdrawal with an admissions counselor. Students are required to have approval from the financial aid department if they are receiving funding. The last date of attendance (including withdrawal resulting from disciplinary suspension or expulsion) from a course can affect the final grade for that course. Distance education students who cannot physically come to campus can initiate withdrawal from a course by phoning or emailing an admissions counselor or academic advisor.

A student may withdraw within the first 75% of the course session or semester and receive a “W” as long as he does not return to class. After the 75% point as specified in the college calendar, withdrawal from a class results in a final grade of “WF.” A grade of “WF” is treated as an “F” and affects the grade point average.

All courses dropped after the 75% point of the course will be dropped with a “WF” except in the case of hardship/medical withdrawal from the college. A hardship/medical withdrawal be requested from the vice-president of student services and documented and filed with the registrar before the end of the term.

When a student has not attended class for two consecutive weeks, has not contacted the instructor, and has not completed an official withdrawal form, the faculty may complete and submit to the registrar a “Student Termination” or the online withdrawal form. The grade assigned to the student on the termination form or withdrawal form will be determined by the last day of attendance; i.e., a “W” if the last day of attendance was on or before the 75% date or a “WF” if the last date of attendance was after the 75% point of the course session.

Readmission

When a student withdraws from the college, he may apply for readmission at the beginning of the next term in which courses are offered and for which he is eligible. A student who is dismissed for unsatisfactory progress may be readmitted after the department chairperson, a counselor, and the dean of admissions or vice president of student services has granted approval.

A student reentering must do so under the provision of the catalog in effect at the time of reentry.

Transcript Policy

Official curriculum transcripts may be requested by two methods. In order to request a transcript, a student’s written or electronic signature is required and all financial obligations to the college must be fulfilled.

Students may request a transcript online through our website for $3.75 per transcript. Online orders may take up to 72 hours or three business days to process although are usually processed daily. Online requests may be sent via US post or electronically to the email address specified by the student. It is the student’s responsibility to ensure the receiving party accepts electronic transcripts. To order a transcript online, go to CCC’s homepage at www.cccc.edu. At the top of the page, click on the ‘Site A-Z’ listing. Click on ‘T’ and select ‘Transcript Requests.’ Click ‘Transcripts’ on the left hand side of the page. Scroll down to CURRICULUM TRANSCRIPTS. Then click ‘Order online now.’ All electronic request transcript fees are collected by a third party agency (Parchment systems) that provides the transcript management and certification system.
for transcripts. All students must digitally sign a FERPA waiver before the transcript is released.

On-demand requests may be made to the Records Office in person for a charge of $5.00 per transcript. On-demand transcripts will only be issued to the student. A photo ID is required. On-demand transcripts cannot be mailed or sent electronically. Payment must be made to the Business Office. Please note the Business Office hours for on-demand requests. The business office hours are from 8am until 5pm Monday through Thursday and from 8am until 3:30pm on Fridays for on-demand payment processing.

CCCC does not fax transcripts or accept faxed transcript requests for curriculum transcripts.

CCCC does not accept third-party transcript requests.

Central Carolina Community College retains the right to not issue an official transcript under the following circumstances: (1) the student owes an outstanding balance to the college, and (2) the student owes outstanding materials to the college.

Current students may view unofficial transcripts through WebAdvisor or Aviso.

Electronic Transcript Policy (E-transcripts)

Central Carolina Community College certifies that an electronic transcript (e-transcript) issued by Parchment Systems as an official college transcript. The acceptability of an e-transcript will be determined by the receiving institution/recipient in accordance with their policies and procedures.

Acceptance of Electronic Transcripts for Admission Purposes

Central Carolina Community College will accept electronic transcripts for admissions purposes if the following criteria are met regarding the transcript:

1. The transcript is certified as official from the college using a third party agency for the certification process. Approved agencies include AVOW Systems, Docufide, National Student Clearinghouse, and Scrip-Safe.
2. The transcript must be a PDF certified document that has no indication of tampering.
3. A college official must receive the transcript from an approved e-transcript service. CCCC will not accept forwarded transcripts from unaffiliated college sources unless it has been preapproved by the Registrar.
4. CCCC has the right to refuse electronic transcripts or request additional information if there is question about the authenticity of the document.

Graduation

Graduation exercises are held annually for an academic year at the close of the spring term. A student who graduates or anticipates graduation during the academic year may participate in the ceremonies held on graduation day. Students who complete graduation requirements and apply for graduation in the fall or summer term when a ceremony is not held for degrees to be conferred will have credentials released after the Board of Trustees meets during that subsequent quarter and confers students’ credentials. The student must apply for his degree or diploma by the mid-term of the term in which coursework is scheduled for completion. A $18.00 graduation fee will be charged to students who participate in graduation exercises. Graduation fees are used to cover costs for degrees, diplomas, certificates, caps, gowns, honorariums, flowers, etc. In compliance with the Student-Right-To-Know and Campus Security Act of 1991, the college’s graduation rate and annual crime statistics are available on request from Student Services.

Conduct and Student Due Process

CCCC has a genuine concern for the integrity of all students enrolled. Students are required to conduct themselves in a mature and responsible manner.

Attendance

Central Carolina Community College values a philosophy that supports the attainment of education, skills, and competencies integrated with a strong awareness of a workplace ethic of responsibility and commitment to excellence. Regular attendance is required and demonstrates a commitment to educational achievement and good workplace ethics. All work missed during absences must be made up to the satisfaction of the instructor, and failure to make up work may adversely affect the student’s final grade.

• At the discretion of the instructor, a student who is absent from class more than 20% of required class meetings may be dropped from the class roster. Factors that may be used for such a decision include but are not limited to: current grade, ability to successfully complete the class, legitimate reasons for the absences, the ability to make-up missed work, etc

• Central Carolina Community College authorizes two absences from classes each academic year for religious observances required by the faith of a student. For the purposes of this policy, an academic year begins on the first day of fall classes in August and ends on the last day of summer classes in July each year. Absences due to religious observance are in addition to allowed absences set forth by 80% attendance requirement.

• Students requesting absence from class for religious observance must obtain approval at least two weeks prior to the date of the absence. Students who miss class for religious observance will be granted the opportunity to make up work missed due to the absence.

• Students withdrawn for missing more than 20% of the class meetings before the last day to drop a course will receive a grade of “W.” Students withdrawn after the last day to drop a course will be assigned a grade of “WF.”

• Making up absences is at the discretion of the instructor or may be guided by internal policies determined by individual departments or programs when necessary to comply with guidelines prescribed by accrediting or
licensing agencies. Allied Health, Barbering, Basic Law Enforcement Training (BLET), Cosmetology, and Esthetics are examples of such programs and courses where external agency requirements may influence attendance guidelines.

- At the discretion of the instructor, a student may be referred to the Student Services Department for counseling relative to absenteeism. The visit must be documented prior to reentry to the class.
- In all cases, instructors are required to maintain accurate attendance records. Absences due to late registration shall be counted as regular absences. If a student has been in attendance prior to the 10% census date, but has been absent, the instructor should not initiate student withdrawals except for students who have never attended class.
  - When the instructor decides to withdraw a student, the instructor will notify the student through the student’s official college email in a timely manner.
  - A student may be suspended from a course for disciplinary reasons at any point during a course.
  - If a student wishes to appeal an instructor’s decision to withdraw him for absences, the student should consult the instructor’s immediate supervisor. Further appeals should be made to the next ranking official up to the vice president of student learning. The official to whom the appeal is made may reverse the withdrawal. The decision of the vice president of student learning is final.
  - Disciplinary withdrawals may be appealed through the procedures outlined under Students Rights (Disciplinary Procedures).
  - Students who anticipate an absence should contact their instructor before the class meets. Should this prior notice to the instructor be impossible, the student should expect to explain his absence upon return to class.
  - Excessive tardiness will be dealt with in a manner similar to that for absences. Three tardies constitute one (1) absence. Students who are late by 10 minutes or more will be marked absent for that hour of class. NOTE: A grade of “W” may adversely affect third-party payments (e.g., financial aid, VA benefits).

- Attendance or participation in distance education courses is defined as completing and submitting academic work. At the semester start, students must complete the course-specific orientation including a required orientation quiz by the deadline to remain enrolled in the course. Failure to meet this orientation requirement will result in being withdrawn from the course at the student's expense.
  - Simply clicking into a Blackboard site or related application does not constitute attendance. Students should reference distance education materials and their course-specific syllabi for more detailed requirements for active and appropriate participation in distance education courses. When students do not meet attendance standards in distance education courses as set forth in distance education materials and course-specific syllabi, students will be dropped from the course with the outcomes as described for traditional students.

### Dropping Students from Class Roll

A student will be dropped when the student gives notice of withdrawal. A student may be dropped when he or she has been absent from class for two consecutive weeks without making personal contact with the instructor indicating intention to continue in the course. Absence must be for a valid reason and the student must make personal contact with the instructor to give or receive information or assignments relative to the course. All work missed during the period of absence must be made up to the satisfaction of the instructor.

A student dropped for two consecutive weeks of absences without contact or for any other reason may be readmitted through the Student Services Department. Permission to reenroll will be given only with approval of the instructor. All work missed must be made up. A student may be dropped from a course for disciplinary reasons.

### Student Rights, Responsibilities, and Judicial Procedures

#### I. Preamble

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the community. Students should exercise their freedom with responsibility. As members of the academic community, students are subject to the obligations, which accrue to them by virtue of this membership. When a student’s violation of the law adversely affects the college’s pursuit of its recognized educational objectives, the college may enforce its own regulations. When students violate college regulations, they are subject to disciplinary action by the college whether or not their conduct violates the law. If a student’s behavior simultaneously violates both college regulations and the law, the college may take disciplinary action independent of that taken by legal authorities.

#### II. Student Rights

A. Students are free to pursue their educational goals. Appropriate opportunities for learning in the classroom and on the campus shall be provided for by the college. Student performance will be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.

B. Students have the right to freedom of expression, inquiry, and assembly without restraint or censorship subject to reasonable and nondiscriminatory rules and regulations regarding time, place, and manner. Freedom of expression must conform to generally recognized community standards of decency and morality.

C. Students have the right to inquire about and to propose improvements in policies, regulations, and procedures affecting the welfare of students through established student government procedures, campus committees, and college officers.

D. The Family Educational Rights and Privacy Act of 1974 provides safeguards regarding the confidentiality of
and access to student records, and this Act will be adhered
by the college. Students and former students have the
right to review their official records and to request a hearing
if they challenge the contents of these records. Only
directory information will be released without the written
consent of the student. Directory information includes
name, address, academic major, enrollment periods, hours
earned, degrees awarded, and awards received. However, a
student may request in writing to the vice president of
student services that directory information be withheld. The
college will not sell address lists of any current
students, previous students, or graduates.

E. No disciplinary sanctions other than temporary
removal from class or an activity may be imposed upon any
student without due process (see Section IV, A.). Due
process procedures are established to guarantee a student
accused of a student code of conduct violation the right of a
hearing, a presentation of charges, evidence for charges, the
right to present evidence, the right to have witnesses on
one’s behalf and to hear witnesses on behalf of the
accuser(s), the right to counsel, and the right of appeal.

F. Grade Appeal—Students have the right to appeal any
grade within fifteen (15) business days after the posted date
of the grade. Students must follow the student appeal
process outlined under Section VI. Student Grievance
Procedure and Section VIII. Appeals Procedure—Grade
Appeal.

III. Student Code of Conduct

The college reserves the right to maintain a safe and
orderly educational environment for students and staff.
Therefore, when, in the judgment of college officials, a
student’s conduct is a clear and substantial disruption or
clearly threatens to create a substantial disruption to the
college community, appropriate disciplinary action will be
taken to restore and protect the sanctity of the community.

Students are expected to conduct themselves in
accordance with generally accepted standards of
scholarship and morality. The purpose of this code is not to
restrict student rights, but to protect the rights of individuals
in their academic pursuits.

The following regulations set forth rules of conduct
which prohibit certain types of student behavior. Violation
of one or more of the following regulations may result in
one of the sanctions described in Section V. This code
should not be considered an exclusive list of acceptable and
unacceptable behavior.

A. Academic Dishonesty—Central Carolina Community
College expects every student to be committed to honesty
and academic integrity. To ensure that all students
understand CCCC’s expectations, specific examples of
cheating and plagiarism, two common forms of dishonesty,
are outlined below. The lists are representative, but not all
inclusive of various types of academic dishonesty.

Cheating includes copying tests, assignments, projects,
presentations, and similar work; submitting work that was
previously submitted in another course or at another
institution without instructor approval; changing grades
without the instructor’s knowledge; using unapproved
sources (print, electronic, or web materials, etc.) during
tests; receiving and giving assistance with tests or other
assignments without instructor approval; and any action
which misrepresents or defrauds.

Plagiarism includes representing others’ work (papers,
tests, assignments, projects, etc.) in any form, print,
electronic, web, etc., as your own; not giving credit to work
created or composed by another author (refer to The
Publication Manual of the American Psychological
Association, the MLA Handbook for Writers of Research
Papers, or other approved style guide); or submitting a
purchased paper, project, or presentation as your own
original work.

Other academic honesty violations include allowing
others to copy your work, providing your work to others for
submission as their own, lying to improve your grade or
others’ grades, changing a graded work and submitting it for
regrading, stealing or destroying others’ work, collaborating
on work without instructor approval, and impersonating
another by taking their examination.

If a student commits an act of academic dishonesty, the
consequences may include one or more of the following at
the discretion of CCCC administrators: receive a zero grade
on that assignment, receive an “F” in that course, and/or be
suspended or expelled from the college.

B. Theft of, misuse of, or damage to college property,
property of a member of the college community or a campus visitor on college premises or at
college functions; unauthorized entry upon the property of
the college or into a college facility or a portion thereof
which has been restricted in use and thereby placed off
limits; unauthorized presence in a college facility after
closing hours are violations of behavior.

C. Possession of or use of alcoholic beverages or being
in a state of intoxication on the college campus or at
college-sponsored or supervised functions off campus or in
college-owned vehicles is prohibited. Possession, use, or
distribution of any illegal drugs, except as expressly
permitted by law is prohibited. Any influence, which may
be attributed to the use of drugs or of alcoholic beverages,
shall not in any way limit the responsibility of the individual
for the consequences of their actions.

Furthermore, no one with the smell of alcohol on him,
or whose observable behavior leads a college official to
believe he is under the influence of alcohol or other drugs,
will be allowed at the college or any college activity.

NOTE: Parents are notified when students age 21 violate drug and/or alcohol laws.

D. Lewd or indecent conduct, including public physical
or verbal action or distribution of obscene or

E. Mental or physical abuse of any person on college
premises or at college-sponsored or college-supervised
functions, including verbal or physical
actions which threaten or endanger the health or safety of
any such persons or which promote hatred or racial
prejudice is prohibited. NOTE: A student who poses a
serious risk of imminent harm (i.e., threat of a violent act against students/or staff), will be expelled immediately. Personal combat will not be tolerated.

F. Any act, comment, or behavior which is of a sexually suggestive or harassing nature and which in any way interferes with a student’s or an employee’s performance or creates an intimidating, hostile, or offensive environment is prohibited.

G. Intentional obstruction or disruption of teaching, research, administration, or disciplinary proceedings, or other college activities, including public service functions and other duly authorized activities on college premises is prohibited.

H. Occupation or seizure in any manner of college property, a college facility, or any portion thereof for a use inconsistent with prescribed, customary, or authorized use is prohibited. In addition to usual disciplinary measures, violation of this rule will result in revocation of all scholarships and grants.

I. Participating in or conducting an assembly, demonstration, or gathering in a manner which threatens or causes injury to person or property; which interferes with free access to, ingress, or egress of college facilities; which is harmful, obstructive, or disruptive to the educational process or institutional functions of the college; remaining at the scene of such an assembly after being asked to leave by a representative of the college staff are prohibited.

J. Possession or use of a firearm, incendiary device, explosive, or any weapon, except in connection with a college-approved activity is prohibited. This also includes unauthorized use of any instrument capable of inflicting serious bodily injury to any person.

K. Setting off a fire alarm or using or tampering with any fire safety equipment, except with reasonable belief in the need for such alarm or equipment is prohibited.

L. Illegal gambling is prohibited.

M. Smoking (and/or using other forms of tobacco products), eating, or drinking beverages in classrooms, shops, and labs or other unauthorized areas is prohibited.

N. Vehicles must be parked in designated areas and the parking permit must be visible. Vehicles will be operated safely, moderately, and courteously. The speed limit on all campuses is ten (10) miles per hour. Vehicles must be registered with the Business Office (Lee County Campus) or the front office (Chatham and Harnett county campuses) at the first occasion they are used on campus grounds. Violators of traffic and parking regulations are subject to a fine for each violation. Student records may be withheld until fines are paid.

O. Forgery, alteration, or misuse of college documents, records, or instruments of identification with intent to deceive is prohibited.

P. Failure to comply with instruction of college officials acting in performance of their duties is prohibited.

Q. Violation of the terms of disciplinary probation or any college regulation during the period of probation is prohibited.

R. Fiscal irresponsibility such as failure to pay college-levied fines, failure to repay college-funded loans, or the passing of worthless checks to college officials is prohibited.

S. Violation of local, state, or federal criminal law on college premises or while attending college activities is prohibited.

T. Students are expected to dress appropriately for the occasion. This includes covering the torso and wearing shoes or sandals. Lewd, indecent, or offensive wording on clothing will not be tolerated.

U. Students are not to bring children to the campus while attending classes or other activities or using the library. Children should not be left unattended in cars while parents attend class or campus business.

V. Curriculum students are permitted to carry pagers and cellular phones on their persons provided that they comply with all the following:

- No texting or emailing during class.
- Cellular phones must be set to silent or vibrate mode or be turned off completely during class time.
- Students will not exit class to respond to messages or calls. If it is an emergency situation, students must notify their instructor prior to exiting class.
- If a student’s pager or cellular phone becomes a classroom disruption, they will be asked to remove the pager or cellular phone from class.

College personnel shall retain the right to remove pagers or persons that become disruptive to the learning process. All students choosing to carry pagers or cellular phones must abide by the policy as outlined above or face disciplinary measures from the college.

W. Library Computer Use: Library computers are provided to conduct research and to communicate with others in support of the college’s educational mission. Students, faculty, staff, public patrons, and campus visitors are expected to use computer resources in an ethical, legal, and responsible manner. By logging on to library computers, users acknowledge that they are aware of and agree to the CCCC Acceptable Use Policy. Any use of library computers that violates college policy, violates federal, state, or local laws, alters computer and/or network settings, promotes commercial activity, intends harm or distress to others, or is obscene or malicious in nature is prohibited. Computer access is a privilege, not a right. Violations may result in loss of access and/or disciplinary action.

X. Policy on Pets: Pets of any type may not be brought on campus or into any college building. This policy is in no way intended to restrict access to the campus for animals specifically trained to aid individuals with disabilities, police dogs, or those pets that are part of the college’s Vet Med program. Pets cannot be left unattended in vehicles while parked on CCCC property.
### IV. Disciplinary Procedures

**A. Immediate Suspension:** If an act of misconduct threatens the health or well-being of any member of the academic community or seriously disrupts the function and good order of the college, an instructor or administrative officer may direct students involved to cease and desist such conduct and advise them that failing to cease and desist will result in immediate suspension. If the students fail to cease and desist, the instructor or administrative officer may then suspend them from the class, the activity, or the college until a resolution of the matter can be made.

The instructor or administrative officer invoking such suspension shall notify the vice president of student services in writing of the individuals involved and the nature of the infraction as soon as possible but no more than two (2) days following the incident. The vice president of student services shall resolve the matter in a timely fashion utilizing the steps outlined in section IV. C. Disciplinary Procedures.

**B. Responsibility for Implementation:**

The vice president of student services is responsible for implementing student discipline procedures. (Throughout this code, VP of Student Services refers to the vice president of student services).

**C. Disciplinary Procedures:** In order to provide an orderly procedure for handling student disciplinary cases in accordance with due process and justice, the following procedures will be followed:

1. **Charges:** Any administrative official, faculty member, staff member, or student may file charges with the VP of Student Services against any student or student organization for violations of college regulations. The individual(s) making the charge must notify the VP of Student Services in writing stating: name of the student(s) involved, the alleged violation of the specific code of conduct, the time, place, and date of the incident, names of person(s) directly involved or witnesses to the infraction(s), any action taken that related to the matter, and desired solution(s).

2. **Investigation and Decision:** Within five (5) working days after the charge is filed, the VP of Student Services shall complete a preliminary investigation of the charge and schedule a meeting with the student. After discussing the alleged infraction with the student, the VP of Student Services may act as follows:
   - a. drop the charges.
   - b. impose a sanction consistent with those shown in Section V. Sanctions.
   - c. refer the student to a college office or community agency for services.

3. **Notification:** The decision of the VP of Student Services shall be presented to the student in writing following the meeting with the student. In instances where the student cannot be reached to schedule an appointment with the VP of Student Services or where the student refuses to cooperate, the VP of Student Services shall send a certified letter to the student’s last known address providing the student with a list of the charges, the VP of Student Services’ decision, and instructions governing the appeal process (Section VII. Appeals Procedure – Sanctions or Disciplinary Actions).

### V. Sanctions

**A. Reprimand:** This written communication gives official notice to the student that any subsequent offense against the Student Code of Conduct will carry heavier penalties because of this prior infraction.

**B. General Probation:** An individual may be placed on General Probation when involved in a minor disciplinary offense. General Probation has two (2) important implications. First, the individual is given a chance to show his capability and willingness to observe the Student Code of Conduct without further penalty; second, if he errs again, further action will be taken. This probation will be in effect for no more than two (2) terms.

**C. Restrictive Probation:** Restrictive Probation results in loss of good standing and becomes a matter of record. Restrictive conditions may limit activity in the college community and/or access to specified college facilities. Generally, the individual will not be eligible for initiation into any local or national organization, and may not receive any college award or other honorary recognition. The individual may not occupy a position of
leadership or responsibility within the college or with a student organization, publication, or activity. This probation will be in effect for no less than two (2) terms. Any violation of Restrictive Probation may result in immediate suspension.

D. Restitution: This requires paying for damaging, misusing, destroying, or losing property belonging to the college, college personnel, or students.

E. Interim Suspension: This results in exclusion from class and/or other privileges or activities as set forth in the notice, until a final decision has been made concerning the alleged violation.

F. Loss of Academic Credit or Grade: This is imposed as a result of academic dishonesty.

G. Withholding Transcript, Diploma, or Right to Register: These are imposed when financial obligations are not met.

H. Suspension: This results in exclusion from the college and all activities of the college for a specified period of time. This sanction is reserved for those offenses warranting discipline more severe than probation or for repeated misconduct. Students who receive this sanction must get specific, written permission from the VP of Student Services before returning to campus.

I. Expulsion: This is dismissing a student from the college and all activities of the college for an indefinite period. The student loses his student status. The student may be readmitted to the college only with the approval of the president. NOTE: A student who poses a serious risk of imminent harm (i.e., threat of a violent act against students/or staff), will be expelled immediately.

J. Group Probation: This is given to a college club or other organized group for a specified period of time. If group violations are repeated during the term of the sentence, the charter may be revoked or activities restricted.

K. Group Restriction: This is removing college recognition during the term in which the offense occurred or for a longer period (usually not more than one other term). While under restriction the group may not seek or add members, hold or sponsor events in the college community, or engage in other activities as specified.

L. Group Charter Revocation: This is removal of college recognition for a group, club, society, or other organization for a minimum of two years. Re-charter after that time must be approved by the president.

**VI. Student Grievance Procedure**

A. Purpose: The purpose of the student grievance procedure is to provide a system to channel student complaints against a college employee. Such complaints include academic grades, alleged discrimination, and alleged harassment.

B. Procedures:

1. First, the student must go to the instructor or staff member with whom the problem originated and attempt to resolve the problem at this level. If the grievance is related to an academic grade, the student must follow the steps outlined in the Grade Appeal Form as indicated in VIII.

Appeals Procedure– Grade Appeal. In extreme cases such as alleged sexual harassment, the student may go directly to the VP of Student Services or any other college official with whom the student feels comfortable.

2. If the grievance related to discrimination or harassment is not resolved in step one, the student may appeal to the department chair or dean responsible for the student’s curriculum. The department chair or the dean will attempt to resolve the conflict.

3. If the grievance related to discrimination or harassment is not resolved in step two, the student may appeal to the responsible vice president who will attempt to resolve the conflict.

**VII. Appeals Procedure—Sanctions or Disciplinary Actions**

A student who disagrees with the decision of the VP of Student Services may request a hearing before the Judicial Committee. This request must be submitted in writing to the VP of Student Services within six (6) working days after the receipt of the VP of Student Services’ decision. The VP of Student Services shall refer the matter to the Judicial Committee together with a report of the nature of the alleged misconduct, the name of the complainant, the name of the student or college employee against whom the charge has been filed, and the relevant facts revealed by the VP of Student Services’ investigation.

A. Committee Composition

Membership of the Judicial Committee shall be composed of the following:

1. Three faculty or staff members appointed by the vice president of student learning of the college.

2. Three student members who are unfamiliar with the student or the complaint, appointed by the student activities coordinator. New students may be selected for each hearing.

3. A college faculty or staff member appointed by the president to serve as committee chairperson, who will vote only in case of a tie. A new chairperson may be appointed for each hearing.

4. The student activities coordinator is an ex officio, non-voting member serving as an impartial observer to ensure that the student’s rights are protected. NOTE: At least two faculty/staff members and two students plus the chairperson must be present in order for the committee to conduct business.

B. Procedures for Hearings Before the Judicial Committee

1. Procedural Responsibilities of the VP of Student Services include the following:

The Judicial Committee must meet within ten (10) working days of receipt of a request for a hearing, unless the student (the defendant) requests additional time (not to exceed five (5) days). At least two (2) working days prior to the date set for the hearing, the VP of Student Services shall send a certified letter to the student’s last known address providing the student with the following information:

- A restatement of the charge or charges.
Correspondence and rulings surrounding the hearing for the charges made against the student or being accused by the student. The faculty or staff member bringing the charge(s). The student. (Absence of the student will result in adjournment of the hearing and no further action will be taken.)

2. Basic procedural rights of students include the following:
   a. The right to counsel. The role of the person acting as counsel is solely to advise the student. The counsel shall not address the committee. If the student opts to bring counsel, the student must inform the VP of Student Services of this intention when the request for the hearing is filed. If the student brings counsel to the hearing without so informing the VP of Student Services, the committee chairperson will give the student the option of proceeding without counsel or postponing the hearing for five (5) working days.
   b. The right to request that the committee chairperson disqualify any member of the committee for prejudice or bias. If a member is disqualified the committee must still have five members (see note below VII. A. 4.) to conduct business. Additionally, if a faculty or staff member is the defendant, the faculty or staff member also has the right to request that a committee member be disqualified for prejudice or bias.
   c. The right to present evidence (including witnesses).
   d. The right to face the person(s) bringing the charge(s).
   e. The right to hear witnesses on behalf of the person bringing the charges.
   f. The right to testify or to refuse to testify without such refusal being detrimental to the student.
   g. The right to appeal the decision of the committee to the president who will review the official record of the hearing. The appeal must be in writing and it must be made within ten (10) working days of the completion of the hearing.

3. The Conduct of the Committee Hearings is as follows:
   a. Hearings before the Committee shall be confidential and shall be closed to all persons except the following:
      (1) The student. (Absence of the student will result in adjournment of the hearing and no further action will be taken.)
      (2) The faculty or staff member bringing the charge against the student or being accused by the student.
      (3) Counsels (see VII. B. 2. a. The Right to Counsel).
      (4) Witnesses who shall:
         (a) Give testimony singularly and in the absence of other witnesses.
         (b) Leave the committee meeting room immediately after completion of the testimony.
   b. The hearings will be tape-recorded. Tapes will become the property of the committee and the president will determine access to them. All tapes will be filed in the vault in the college Business Office and kept for three (3) years. The VP of Student Services will keep copies of all correspondence and rulings surrounding the hearing for three (3) years.

   c. The committee shall have the authority to adopt supplementary rules of procedure consistent with this code.
   d. The committee shall have the authority to render written advisory opinions concerning the meaning and application of this code.
   e. Upon completion of a hearing, the committee shall meet in executive session to determine concurrence or non-concurrence with the original finding and to recommend sanctions, if applicable.
   f. Decisions of the committee shall be made by majority vote.
   g. Within four (4) working days after the decision of the committee, the VP of Student Services shall send a certified letter to the student’s last known address providing the student with the committee’s decision.

   C. Appeal to the President
      A student who refuses to accept the findings of the committee may appeal in writing to the president within ten (10) working days after receipt of the committee’s decision. The president shall have the authority to:
      1. Review the findings of the proceedings of the committee.
      2. Hear from the student, the VP of Student Services, and the members of the committee before ruling on an appeal.
      3. Approve, modify, or overturn the decision of the committee.
      4. Inform the student in writing of the final decision within ten (10) working days of the receipt of the appeal.

VIII. Appeals Procedure–Grade Appeal
   A. The purpose of the grade appeal procedure is to provide a system to address student complaints regarding grades awarded for specific assignments and/or courses.
   B. Procedures
      1. The student initiates the appeal of an individual grade or course grade by completing the biographical and descriptive information prompted on the first page of the Grade Appeal Form. The student then submits the completed form to the instructor of the class in which the grade was assigned.
      2. The instructor reviews the description of the problem and any related supporting evidence documented on the form by the student and then renders a decision to either uphold or amend the grade. The instructor records information related to the decision on the form and reports this information to the student. Based on the instructor’s decision, the student indicates on the form whether to accept the instructor’s decision or to continue the appeal process.
      3. If the student wishes to continue the appeal process, then the student has the right to appeal the instructor’s decision to the appropriate supervising department chair who will, in turn, respond with a decision to uphold the original grade or to overturn the instructor’s decision. If, after completing this step, the student feels that the issue is still unresolved, then the student has the right to appeal the department chair’s decision to the appropriate supervising
academic dean who will respond with a decision to uphold the original grade or to overturn the department chair’s decision. If the issue is still unresolved, the student may continue the appeal process based on the time frames and sequence specified on the Grade Appeal Form.

**Distance Education Student Rights and Grievances**

Student rights equally apply and extend to distance education students as described above. Likewise, the requirements, guidelines, and procedures for grievances equally apply and extend to distance education students. Distance education students can refer to the College Catalog or the above for more complete information. Students can also contact the distance education staff for direction.

**Campus Sex Crimes Prevention Act**

*Information*

The Campus Sex Crimes Prevention Act is a federal law that requires institutions of higher education to inform the campus community where law enforcement agency information on registered sex offenders is available. Additionally, the law requires persons registered as sex offenders, and who are employed by the institution, who carry on a vocation at the institution, or who attend classes at the institution, to notify the institutions of higher learning of their presence on campus.

Information regarding individuals on the registered sex offenders’ list can be obtained from the sheriff’s office in Chatham, Harnett, and Lee counties. Additionally, the North Carolina Department of Corrections website (www.doc.state.nc.us) provides access to search offender information by the offense committed, the county in which the offense was committed, the date of admission into a correctional facility, and the offender’s status and release date.

**Family Educational Rights and Privacy Act**

*Protecting Distance Student Privacy*

The Family Educational Rights and Privacy Act requirements and guidelines equally apply and extend to distance education students.

**Verifying and Protecting Distance Student Identity**

Central Carolina Community College ensures the integrity of its courses and programs offered via distance education by verifying the identity of students participating in classes and completing course work. Methods for verification include requiring a secure login and pass code to the learning management system and related resources, proctored examinations, use of technologies like Turnitin, and employing authentic assessments. The distance education department does not share distance education students’ protected and identifying information to third parties.

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

- Students have the right to inspect and review the student’s education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for students to review the records. Schools may charge a fee for copies.
- Students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the student then has the right to a formal hearing.

After the hearing, if the school still decides not to amend the record, the student has the right to place a statement with the record setting forth his or her view about the contested information.

Generally, schools must have written permission from the student in order to release any information from a student’s education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):

- School officials with legitimate educational interest
- Other schools to which a student is transferring
- Specified officials for audit or evaluation purposes
- Appropriate parties in connection with financial aid to a student
- Organizations conducting certain studies for or on behalf of the school
- Accrediting organizations
- To comply with a judicial order or lawfully issued subpoena
- Appropriate officials in cases of health and safety emergencies
- State and local authorities, within a juvenile justice system, pursuant to specific State law

Schools may disclose, without consent, “directory” information such as a student’s name, address, county of residence, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell students about directory information and allow students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook, or newspaper article) is left to the discretion of each school.

Students may not have access to the following information:

- Parent’s financial records (without written consent from the parent)
- Law enforcement records
- Medical, psychiatric records, or similar records in connection with the treatment of the student
- Letters/statements of recommendation

Directory Information is defined by Central Carolina Community College as the following items:
Drug and Alcohol Prevention

Safe and Drug Free Schools and Communities Act of 1994

Central Carolina Community College complies with the Drug-Free Schools and Communities Act of 1989 (Public Law 101-226) as implemented by regulations and contained in 34 CFR Part 86, Subpart B, (amended as Title IV Safe and Drug Free Schools and Communities Act of 1994).

A. Program and Policy

Promoting a drug and alcohol free environment is everyone's responsibility. CCCC supports this nationwide movement and is committed to maintaining such an environment for all employees and students. The unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance by employees or students at any official college location or at any location while engaged in activities on behalf of the college is prohibited. “Controlled substance” generally refers to drugs which have a high potential for abuse. Such drugs include, but are limited to, heroin, cocaine, marijuana, PCP, and “crack.” This includes, but is not limited to, narcotic drugs, hallucinogenic drugs, amphetamines, barbiturates, marijuana, anabolic steroids, or any other controlled substance as defined in Schedules I through V of Section 2020 of the Controlled Substance Act (21 U.S.C. Section 812) and is further defined by regulation at 21 C.F.R. 1300.11 through 1300.15 or article 5 Chapter 90 of the North Carolina General Statutes. They also include “legal drugs” which are not prescribed by a physician. Likewise, possessing, consuming, or serving alcoholic beverages at any college location is prohibited.

N.C. General Statutes 90-95 states that it is unlawful for any person:

- To manufacture, sell, deliver, or possess with intent to manufacture, sell, or deliver a controlled substance;
- To create, sell, deliver, or possess with intent to sell or deliver, a counterfeit controlled substance;
- To possess a controlled substance.

CCCD policies also prohibit:

- Possessing, consuming, or serving alcohol beverages or controlled substances; or use, manufacture, and/or sell of controlled substances at any college location. Applies to all employees and students.

- Possessing, using, transmitting, or being under the influence of any narcotic drug, intoxicant of any kind. Applies to all employees and students.

B. Disciplinary Action

If an employee is convicted of violating and criminal drug statute while in the workplace, he or she will be subject to disciplinary action up to an including termination. Likewise, the violation of the college Alcohol Policy is also subject to disciplinary action. This action may include, but is not limited to, probation, suspension, termination, or the required successful completion of a drug or alcohol treatment program sponsored by an approved private or governmental institution as a precondition for continued employment.

A penalty will be imposed on students through the office of the vice president of student services as a result of unacceptable conduct which includes violation of the college’s drug and alcohol policies.

Disciplinary actions may include: a written reprimand; being dropped from a class; receiving a failing grade on a test of course; probation; suspension from the college; dismissal from the college; or possible prosecution. More information can be found in the student code of conduct sections of the student handbook or the college catalog.

C. Drug Counseling and Rehabilitation Services

CCCC recognizes the effects of drug and alcohol use. For more information about health risks along with legal repercussions please see the back of the student handbook for Drugs: The Risks and the Laws and Alcohol: The Risks and the Laws.

If you need to seek assistance for any reason related to the use/abuse or drugs or alcohol, a member of the CCCC counseling staff will act as a referral source to the following services of Lee, Chatham, and Harnett counties:

- Alcoholic Anonymous (919) 776-5522
- Pinehurst Treatment Center (910) 215-3330
- Holly Hill Hospital (800) 447-1800
- Carolina Behavioral Care (910) 295-6007
- Sandhills Center/Lee (919) 774-6521
- High Point Behavioral Health (800) 525-9375
- Sandhills Center/Harnett (910) 893-2118
- Alamance Regional Medical Center (800) 522-9418

Full texts of all applicable laws and college policies are available in the office of the vice president of student services.

Veterans’ Information

Central Carolina Community College’s Veterans Affairs Office is available to assist the veterans and their eligible dependents in processing their VA applications to receive educational benefits (G.I. Bill), as well as to help them solve VA problems. CCCC has a veterans’ coordinator whose office is located in the Student Services Department.

Students eligible for VA educational benefits should
follow the procedures outlined below:

- Notify the veterans’ coordinator of intent to apply for VA benefits.
- Select a program and apply for admission to the college. All admission requirements must be completed before VA benefits can be certified.
- Before registration, contact the veterans’ coordinator to insure that all enrollment and VA document data are correct and complete. Students must inform the veterans’ coordinator of their class schedule each semester. Failure to inform the veterans’ coordinator of changes in students’ schedules may result in a lapse of educational benefits.

**Standards of Progress, Attendance, and Conduct**

Public Law 93-508 requires that each educational institution approved for veterans to receive educational benefits (G.I. Bill) must establish written policies that clearly state what is expected of the veteran in the areas of academic progress, class attendance, and conduct. These standards are the same for all students, veterans, and non-veterans.

**I. Unsatisfactory Progress**

A final 2.0 cumulative grade point average is required for graduation in all programs, and a student is expected to maintain this average to be considered in good academic standing. (see Academic Probation Policy). Eligible veterans and dependents are expected to meet the satisfactory progress policy to receive VA benefits (See Eligible Veterans or Dependents). Eligible veterans or dependents who have been decertified may be recertified when they meet satisfactory progress (See Eligible Veterans or Dependents). Eligible veterans or dependents can appeal their termination of benefits by completing the appeal form in the Financial Aid Office. This policy is used as the basis for determining a student’s status for enrollment certification purposes to the Veterans Administration.

**II. Attendance Requirements Classroom Attendance**

Classroom attendance requirements are the same for veterans and non-veterans and are covered elsewhere in this handbook. Veterans, who receive educational benefits and are dropped from class due to inadequate attendance, may be terminated from receiving educational benefits. Failure to notify the veterans’ coordinator of any change in total semester hours may result in an overpayment in educational benefits and a debt for students.

**Serviceman’s Opportunity College (SOC)**

CCCC is a Serviceman’s Opportunity College (SOC) and supports the concept that military personnel should be encouraged to begin their post-secondary education while serving their country.

Under the Serviceman’s Opportunity College program, servicemen are encouraged to submit evaluations of CLEP test results, DANTES test results, military service school records, Military Occupation Specialty (MOS) evaluations, and prior college coursework for transfer credit. CLEP/DANTES must meet the recommended American Council on Education (ACE) minimum scores. All coursework considered for transfer must be equivalent to CCCC courses appropriate to the student’s program of study.

**Student Activities**

Central Carolina Community College, in cooperation with the Student Government Association, attempts to enrich the academic and social growth of the student with a wide range of student activities. Students are encouraged to participate in as many activities as time permits. Membership in all student organizations shall be open to all students without regard to race, sex, color, creed, age, disability, religion, or national origin.

**Student Centers**

Student Centers are located on all three campuses to provide an area for students to relax while not attending class. Students are encouraged to use the centers as places to meet, chat, eat, and relax.

- Monday – Thursday, 7:30 a.m. – 9:00 p.m.
- Friday, 7:30 a.m. – 3:30 p.m.

**Alumni**

Alumni are those persons who have successfully completed a certificate, diploma, or degree program at Central Carolina Community College.

The college has an active alumni association. Visit it on Facebook at www.facebook.com/ccclocalumni.

The Circle for Cougar Graduates was created for loyal students and alumni who want to preserve the CCCC experience for future generations of students. By joining the Circle, students and alumni pledge to do three things:
- be a life-long ambassador for the college
- encourage future students to attend CCCC
- make an annual gift of any amount to the college

For more information, call (919) 718-7230

The college awards an Alumni/Phi Theta Kappa Scholarship.

**Ambassador Scholarship Program**

The Ambassador Scholarships are awarded to a group of students who have been nominated by faculty and staff to represent the college at special events on campus and in the community. Students are nominated on the basis of grade point average (GPA), leadership potential, and communication skills. All selected Ambassadors receive free tuition and fees, plus all necessary uniforms for that year. Further information may be obtained from the Ambassador advisor in the Student Services Department.

**Carolina Student Transfer Excellence Program (C-STEP)**

The Carolina Student Transfer Excellence Program, or C-STEP, is an innovative program offered via a partnership
between CCCC and UNC-Chapel Hill that identifies talented low- to moderate-income students while they are still in high school or early in their community-college careers and guarantees their eventual admission to the university if they earn an appropriate associate degree and successfully complete the program. It also offers special events and advising, both at their home college and at Carolina, while they are pursuing their associate degrees.

For more information, contact Mark Hall, CCCC lead humanities instructor/C-STEP coordinator, (919) 718-7422 or mhall@cccc.edu.

**Student Government Association (SGA)**

The Student Government Association (SGA) is the student body’s self-government. It is the official voice of the student body. The SGA is committed to promoting the student’s personal, social, and academic growth through student activities. The SGA provides the environment for students to create and implement activities as they desire under the direction of the Student Services Department staff.

The SGA’s organizational structure consists of an Executive Committee with the officers of president, a vice president for each of the county campuses, a secretary, treasurer, and a Student Senate composed of elected representatives from each curriculum. The SGA president and vice presidents are elected in the spring term of the preceding year. The other officers and representatives are elected during the fall term by the first week in October. The president of the SGA, who serves as a non-voting member of the Board, represents the students on the CCCC Board of Trustees.

The Chatham and Harnett County campuses elect an SGA vice president and senate representatives for their individual campuses and assist the student activities director with student activities on their campuses.

The major portion of the cost of all student activities is financed through the student fee paid by each student. The total amount anticipated is budgeted by the SGA Summer Standing Committee, approved or corrected by the SGA Student Senate at its first meeting, and then submitted by the SGA treasurer to the CCCC Board of Trustees for approval. Any changes in the anticipated amount must be reflected in the budget submitted for approval by the Board.

All student activities are conducted only if student interest and participation are sufficient. The following activities are funded and/or sponsored by the Student Government Association:

**1. SGA Student Planner/Handbook**

The Student Planner/Handbook is published each year by the SGA with the assistance of the Student Services Department staff. Important dates including registrations, exams, holidays, student activities, and events are listed in the Student Planner/Handbook. The purposes, rules, regulations, activities, and policies governing student affairs at CCCC are also found in the Student Planner/Handbook. The cost is covered in the student fee.

**2. Activity Days**

Activity Days are scheduled on each campus during the fall and spring terms of each school year and consist primarily of outdoor activities, games, and sports. Curricula enter teams in each of the athletic major events. The events currently being held are basketball, softball, volleyball, various races, pool shooting, and board games. These activities are normally preceded by a meal for the entire student body and faculty with the expense being covered by the student fee.

**3. Athletics**

- a. **Bowling:** An intramural league is available to men and women and usually operates for a minimum of ten weeks with trophies presented. Participants pay a small fee per game during league bowling.
- b. **Basketball:** CCCC sponsors intercollegiate men’s and women’s teams when there is sufficient student interest. Intramural basketball may also be sponsored if sufficient interest is indicated.
- c. **Volleyball:** CCCC sponsors a women’s volleyball team in intercollegiate play when interest is sufficient. Financial support comes from the student fee.
- d. **Golf:** CCCC sponsors a golf team in intercollegiate play when interest is sufficient.
- e. **Other Athletics:** Other athletic teams may be formed for men and women’s sports as dictated by student interest.

**4. Dances/Social Events**

Several dances, under the sponsorship of the SGA, are held each year depending upon student interest. The cost of these is covered by the student fee.

**5. Special Events**

The Student Government Association may sponsor other activities such as socials, films, speakers, and related activities that will be of interest to the students. When such occasions arise, students are notified in advance and encouraged to participate.

**6. Other Activities**

Various other activities are considered through student suggestions. Some of these, for which non-credit classes or clubs can be set up, include chess, bridge, dancing, drama, chorus, and African-American studies. These or any other activities will be considered if there is sufficient student interest. It is the desire of the Student Services Department staff and the SGA to provide, within budgetary limits and school policy, those activities desired by students, which lead to personal development of the individual.

**7. SGA Elections**

SGA elections are held twice a year. An election for SGA president and vice president is held in the spring term of the previous school year. The offices of secretary and treasurer are elected by the first week in October. The following rules have been adopted by the SGA to ensure...
fairness to all candidates:
   a. Voting times for each election will be announced at least one week before the election.
   b. No campaigning shall be permitted within 25 feet of the voting polls.
   c. No campaign poster will be permitted within 25 feet of the voting polls.
   d. Voting will be by ballot. Simple majority will elect officers.
   e. All currently enrolled curriculum students may vote.
   f. In the absence of an Elections Committee, the SGA president and advisor will be responsible for the election process.
   g. Any campaign violations should be immediately reported to the SGA advisor in the Student Center.

8. Who’s Who
   CCCC has been designated an institution which is allocated listings for Who’s Who Among Students in American Junior Colleges. The number of listings is usually received by CCCC in early spring. The method of selecting these students is, in part, determined by the National Committee and, in part, by the CCCS SGA. An official statement of the selection process will be published by the SGA prior to the selection. In general, students selected for listing must be scheduled for graduation during that year (spring or summer) and must have demonstrated qualities of scholarship, leadership and participation in school, and/or community activities.

9. Phi Theta Kappa Honor Society
   The Phi Theta Kappa Honor Society at Central Carolina Community College serves to promote scholarship, development of leadership and service, and the cultivation of fellowship among its members. To qualify as candidates for membership, students must meet the following requirements:
   a. Must have completed 12 semester hours of associate degree coursework.
   b. Must have achieved a Grade Point Average of 3.7 on a 4.0 scale and subsequently, maintain a cumulative Grade Point Average of 3.5 on a 4.0 scale.
   c. Must adhere to the Student Code of Conduct and be a student in good standing.
   Members of Phi Theta Kappa are honored at college commencements exercises by a special designation on their diplomas and special regalia worn with their graduation robes.

10. Clubs
   The college maintains a policy, and all clubs operate under the SGA. The student activities director will assist club advisors and students with club functions. Student fee funds may be available to active student clubs. Clubs may be added as students’ interests evolve.

Library Services
   The CCCC Libraries consist of the Lee Campus Library (Sanford), the Harnett Campus Library (Lillington), and the Chatham Community Library (Pittsboro). The Chatham Campus Library merged with the Chatham Public Library in September 2010 to form a joint-use library located on the Pittsboro campus. CCCC is pleased to work with Chatham County in this capacity to provide library services to our students and to the Chatham community. All libraries provide assistance to students, faculty, and community patrons. Library cards are required for everyone to borrow materials. For students, the student ID card is also the library card. Students need to register and activate their student ID for use as a library card at the circulation desk. At the Sanford and Lillington campus libraries, community patrons are issued a community card free of charge. Students at the Chatham campus should see the receptionist for a library card at the main office on campus. They will also need to register this library card at the Chatham Community Library circulation desk. Library hours and phone numbers are:

Lee Library (Sanford Campus)
   Phone: (919) 718-7244 Fax: (919) 718-7378
   Hours: Monday through Thursday, 7:30 a.m. to 8:00 p.m.
   Friday, 7:30 a.m. to 3:30 p.m.

Harnett Library (Lillington Campus)
   Phone: (910) 814-8843 Fax: (910) 814-8894
   Hours: Monday through Thursday, 7:30 a.m. to 7:00 p.m.
   Friday, 7:30 a.m. to 3:30 p.m.

Chatham Community Library (Pittsboro Campus)
   Phone: (919) 545-8084
   Hours: Monday through Thursday, 9:00 a.m. to 8:00 p.m.
   Friday, 9:00 a.m. to 6:00 p.m. Saturday, 9:00 a.m. to 5:00 p.m.

NOTE: Summer hours and semester break hours at the libraries vary and are posted at each campus library.

   Books and audio books may be checked out for 3 weeks. Back issues of periodicals may be checked out for 1 week. Movies may be checked out for 3 days (limit 3 titles). The CCCC libraries do not charge late fines for overdue materials with the exception of eReaders, which are $5.00 per day if late. The replacement cost of the item is charged for items that have been lost. Charges may also be assessed for damaged materials. Grades, transcripts, and diplomas are held until the library record has been cleared. Circulation policies, loan periods, and late fines may vary at the Chatham Community Library.

   Library staff is available to assist students, faculty, and community patrons with reference questions, research, or other library needs. Assistance is available in person, by phone, by e-mail, and by a 24/7 online chat reference service called NCKnows. Students receive library instruction through curriculum classes or through online tutorials and research guides on the library web page at
http://www.cccc.edu/library. Library users may request individual instruction when needed.

Computers with Internet access and Microsoft Office applications are available. A scanner and wireless Internet access are also available at all libraries. Printing and photocopying services are available using a debit card system at the Lee and Harnett campus libraries. Costs are 5¢ per page. Printing and copying services at the Chatham Community Library are payable through a coin-operated system or cash at 10¢ per page.

The libraries also provide multiple options for study spaces.

Quiet Zone: Study tables provide space for one or two students to work quietly with some conversation.

Silent Zone: Study carrels provide space for one student to work with no noise.

Collaborative Zone: All of our study rooms at the Lee and Harnett libraries are equipped with large screen computers, high resolution webcams, and white boards to provide collaborative space for dynamic group work. Three study rooms at the Chatham Community Library have white boards for collaborative group work. Study rooms may be reserved in advance from any computer or mobile device via the library web page.

Library Resources

A variety of print and electronic library resources are available to support the curriculum offerings of the college. The CCCC libraries have a combined collection of over 28,000 books, over 100 print periodical titles, and over 2,000 audiovisuals. The Lee Campus (Sanford) library also has an extensive law collection, a music CD collection, and a movie collection. Nook Color eReaders with pre-loaded eBooks are also available for check-out at all campus libraries.

Electronic resources via the Internet include several CCCC online databases, including access to over 53,000 eBooks. The NC LIVE collection of 78 online databases, provide access to over 18,000 full-text periodical titles, over 173,000 eBooks, over 2,000 eAudio Books, and over 26,000 streaming videos. Students can access all of these electronic resources off campus with the use of a password. Contact the library staff about off-campus access, to obtain the password, or for instruction in the use of these resources.

The online catalog, a central database containing the holdings of CCCC and 49 other North Carolina community college libraries in the CCLINC consortium, provides easy and free access to additional resources. Cooperative agreements giving students borrowing privileges exist between the CCCC libraries and the public libraries in Lee and Harnett counties, as well as Campbell University. The library also participates in interlibrary loan services with other types of libraries in North Carolina and throughout the country. These services allow the library to borrow materials from other libraries for patrons to check out from the CCCC library.

College Success & Student Transitions

The College Success & Student Transitions Department supports students’ needs as they persist towards their academic goals and develop into lifelong learners. Students may visit with a success coach for individual academic coaching sessions, advising sessions, and/or group advising sessions. All students are encouraged to visit a success coach if they have academic issues or experience barriers to their college attendance.

The College Success & Student Transitions Department also offers college success courses (ACA 111, ACA 115, ACA 122) that students typically take during their first semester in college. These courses are designed to help students learn to navigate the college process and accomplish their goals. During the class, students will create individualized college success plans helping them to map their path towards a success career.

Success coaches are located in the Miriello Building on the Lillington Campus, on the second floor of Building 2 on the Pittsboro Campus, and in Science Building (within the AAC) as well as academic buildings on the Sanford Campus.

Developmental Studies Program

Minimum proficiency requirements have been established in English, math, and reading. If a student’s placement test scores are below the minimum requirements, he will take developmental courses designed to help remove deficiencies. The Developmental Studies Program is located in the Guided Studies Building on the Lee County Campus, in the Miriello Building on the Harnett County Campus, and in the Health and Small Business Building on the Chatham County Campus.

Writing and Reading Center

The Writing and Reading Center helps students to develop their writing and reading skills with free services such as one-on-one tutoring, group tutoring sessions, and content-specific workshops. Through these services, students will receive constructive feedback on their writing assignments, various resources to improve writing and reading skills, and a better understanding of why writing and reading really matter.

The Writing and Reading Center tutors will help coach students to refine and revise their work. The Center will not proofread line-by-line, tell you what to write, or tell you what grade you can expect. Instead, tutors will offer guidance, instruction, and resources to help you become a better reader and writer with the ultimate goal of achieving college success.

The Center is located in the Miriello Building on the Lillington Campus, on the second floor in Building 2 on the Pittsboro Campus, and on the Lee Campus in the Science Building.
AVISO
Students can use AVISO to collaborate with their faculty advisors and success coaches to develop a comprehensive academic success plan for current and future semesters. AVISO also provides students with access to transcripts, plans of study, and other important advising information.

Logging in to AVISO
AVISO is an online academic planning tool where CCCC students can:
• Communicate with success coaches and faculty advisors.
• Create academic success plans.
• Plan for upcoming class registration periods to have advising holds lifted.
AVISO can be accessed from its icon located in the lower right column of www.cccc.edu/connect or at http://cccc.avisoapp.com

STEP 1: Open a new tab and go to the AVISO website. The AVISO website can be found on www.cccc.edu/connect or cccc.avisoapp.com

STEP 2: In the Username field, type in your full cougarmail e-mail address: the first initial of your first name, the first four letters of your last name, and the last three digits of your CCCC student ID (not your social security number) followed by “@cougarmail.cccc.edu.” For example, Jane Smith ID# 1234567 would be username: jsmith567@cougarmail.cccc.edu

STEP 3: In the Password field, type in your cougarmail password.

The Help Desk can be contacted for troubleshooting at (919) 718-7397 or (800) 682-8353 extension 7397.

Academic Assistance Center
The Academic Assistance Center (AAC) is available for students who request additional assistance with their academic studies. The center offers free tutoring, an open computer lab, and other services.

Campus phone numbers:
Sanford: (919) 718-7361
Lillington: (910) 814-8809
Pittsboro: (919) 545-8029

Visit the AAC at:
www.cccc.edu/studentservices/academicassistance

The AAC supports the mission of Central Carolina Community College. By providing computer, testing, and tutorial services in a learner-centered environment, the AAC empowers students to maximize their academic potential.

The Benefit Bank
As a partner of The Benefit Bank of North Carolina, Central Carolina Community College is committed to helping enrolled students, workers, and families get access to educational and federal work support resources.

Through this online service, individuals can complete forms or applications for the following services:
• Federal and State Tax Filing (Up to 3 years back taxes)
• FAFSA (Free Application for Federal Student Aid)
• Food and Nutrition Services (Food Stamps)
• Veterans’ Education and Training Benefits
• Medical Benefits (adults and children)
• Work First Family Assistance
• Energy Assistance - Crisis Assistance
• Voter Registration

Please contact the College Success & Student Transitions at success@cccc.edu or (919) 718-7485 or (800) 682-8353 extension 7485 for assistance in accessing the Benefits Bank.

The Instructional Program
Many decisions precede the implementation of any new curriculum program. Surveys are used to determine student interest and the availability of employment. Advisory committees are organized in order that community interest, advice, and counsel may be solicited. Funds must be available for instructors and necessary equipment and instructional space must be available. Only after the approval of the Board of Trustees and the State Board of Community Colleges may a new program be implemented.

A strong asset of the North Carolina Community College System is the flexibility in programs. When the job market no longer provides employment for graduates in certain areas, programs can be phased out so more critical labor needs may be met. It is not the purpose of the college to adopt a fixed curriculum; rather, its aim is to modify all programs to meet the ever-changing needs in the fields of employment.

The college reserves the right to cancel any course or program in cases of low enrollment or decreased budget. The college reserves the right to change any curriculum, and such changes may be made without prior notice. This handbook is not to be read as part of a contractual relationship between the college and a student or prospective student.

Continuing Education
Continuing Education provides opportunities for adults, regardless of educational backgrounds, to retrain and update themselves in employment, develop leadership and civic responsibility, improve in-home and community life, expand knowledge in general education, and develop creativity in the fine arts.

The Continuing Education Division awards the Continuing Education Unit (CEU) for appropriate programs. The CEU is a nationally recognized records device for substantive noncredit learning experiences. A CEU is defined as “10 hours of participation in an organized continuing education experience under responsible sponsorship and qualified instruction or direction.” The following are continuing education programs for which CEU’s may be earned:

Community Service programs are offered as a part of the commitment of the college to serve the total community.
Offered on day or evening basis, these courses are designed to meet the educational needs of adults in a variety of areas.

Occupational Extension programs provide pre-employment, on-the-job, and in-service training of personnel for area businesses and industries. Occupational extension courses have been or can be developed for any industrial training need, which can be addressed in a classroom, online, or lab environment. These courses may be offered “on site” or at a college location. Course content can be tailored to meet a particular company’s needs. A group of at least 8-10 people is required for most classes.

Emergency Services programs provide courses to meet the training needs of law enforcement, fire, emergency medical, and rescue services personnel. Its programs develop skilled responders, empowering them to act more effectively in emergencies.

**College & Career Readiness**

The mission of the College & Career Readiness program is to assist adults to become literate and obtain the knowledge and skills necessary for employment and self-sufficiency, assist adults who are parents to obtain the educational skills necessary to become full partners in the educational development of their children, and assist adults in the completion of a secondary school education. The North Carolina Community College System provides educational opportunities for adults to improve their reading, writing, mathematics, and communication skills through the following major program components:

1. **Adult Basic Education**

   Adult Basic Education is offered to individuals, 16 years of age or older, who have been out of school at least six months and who desire to improve basic skills in reading, writing, arithmetic, and related subjects. Classes are offered on a non-fee basis in both the day and evening programs at sites throughout Chatham, Harnett, and Lee counties. The intent is to raise the educational standards of individuals to meet the demands of today’s world.

   Individuals are tested, counseled, and placed in informal classes where they may progress in each subject area at their own individual rate.

2. **High School Completion Programs**

   - **Admission:** Anyone 16 years of age or older, who has been out of school at least six months, may enroll in the General Educational Development (GED) Program or the Adult High School Diploma Program.
   - **Purpose of Programs:** The General Educational Development (GED) or High School Equivalency Program and the Adult High School Diploma Program provide the opportunity for adults to complete their high school education. Upon completion of the program of their choice, students receive certificates from either the North Carolina State Board of Community Colleges or diplomas from the local school board of the county in which they reside.

   A high school diploma or certificate is required for admission to colleges, vocational or technical schools, and for certain employment. Graduates who complete either of the adult high school programs will meet all the requirements for high school completion.

   a. **General Educational Development (GED):** The GED program allows an adult to take a series of tests to demonstrate attainment of the basic skills of the high school graduate without having attended four years of regular high school. Beginning January 2, 2014, the GED will include four tests, will be computer based and will cost a total of $120.00. The tests determine an individual’s ability to think clearly and evaluate information critically.

   Preparation for the GED – Adults can prepare for the examination by attending classes at sites throughout the three-county service area of Chatham, Harnett, and Lee counties. Each student is evaluated and an educational plan is devised.

   There is no required length of time that an individual has to study for the test. A pretest is required to determine the individual’s test readiness. GED tests are given on the Chatham, Harnett, and Lee campuses. Effective January 2, 2014, the GED will be restructured to include four tests, in the academic areas of Literacy, Mathematics, Science and Social Studies, for which the testing fee will be $30.00 per test or a total of $120.00. The current overall GED testing fee until that time remains at $35.00 total.

   b. **Adult High School Diploma:** A student may earn units of credit and receive a diploma that is issued from a local school board. The number of credits to be earned is determined after an evaluation of the transcripts from all previously attended schools. Credit for each course is earned through the use of traditional and nontraditional methods of instruction in the Continuing Education classes organized in Chatham, Harnett, and Lee counties.

3. **Basic Skills Plus**

   Eligible students participating in this program will be concurrently enrolled in AHS/GED classes within College and Career Readiness along with occupational classes. These classes will provide employability, occupational, and technical skills alongside earning a high school diploma, a Career Readiness Certificate (CRC) or equivalent employment certificate. Visit www.cccc.edu/ecd for more information about current career focus areas. These classes are offered tuition free.

4. **English as a Second Language (ESL)/English Literacy**

   The ESL program helps adults with limited English proficiency to achieve their desired level of competency in English through a comprehensive program in speaking, reading, writing, listening, and learning the English language through six skill levels. The Workforce Investment Act of 1998 also refers to English as a Second Language programs as English Literacy programs.

**Small Business Centers**

The college’s small business centers support the development of new businesses and the growth of existing businesses through training, counseling, and resources. The
college operates three small business centers, one in each of the counties within the college’s service area. Through the centers, seminars are offered related to small business operation for entrepreneurs and prospective small business owners. Direct counseling and resources are provided to small business center clients. A special focus of assistance and loan referral is provided, as well as a small business incubator operated in conjunction with a community partner agency. Additionally, the small business centers work in conjunction with other service organizations in the three-county service area to provide resources and support to small businesses.

**Industry Services & Customized Training**

The customized training program provides education and training opportunities for eligible businesses and industries. Those businesses and industries eligible for support through customized training include manufacturing, technology intensive, regional or national warehousing and distribution centers, customer support centers, air courier services, national headquarters with operations outside North Carolina, and Civil Service employees providing technical support to US military installations located in North Carolina. Resources may support training assessment, instructional design, instructional costs, job profiling, and training delivery for personnel involved in the direct production of goods and services. In order to receive assistance, eligible businesses and industries must demonstrate two or more of the following criteria:

- The business is making an appreciable capital investment
- The business is deploying new technology
- The business is creating jobs, expanding an existing workforce, or enhancing the productivity and profitability of the operations with the state
- The skills of workers will be enhanced by the assistance

In addition to customized training, incumbent workforce development program (IWDP) grants and training are provided to businesses within the four-county local workforce area to include Chatham, Harnett, Lee, and Sampson counties. The primary focus of this grant is to provide layoff aversion for companies. The grant provides training revenue for employees with a one-time maximum of $25,000 and a lifetime maximum of $40,000.

**Workforce Development Services**

Central Carolina Community College, as the administrator for Triangle South Workforce Development Board programs, is responsible for planning, policy guidance and oversight of the workforce investment system in the four counties. Its goal is to combine area employment, training and supportive services and programs into a consumer based, market driven system that meets the needs of job seekers and employers. Strategies and objectives for accomplishing the WDB’s goal are contained in the Workforce Investment Plan.

The WDB oversees the One-Stop Career Center System (JobLink), which is the delivery mechanism for comprehensive services for workforce investment system customers. Through planning, data collection and continuous improvement of programs and services, the WDB seeks to maximize the efficiency of the local labor market, surpass customers’ expectations and exceed federally required and state determined performance standards. The mission of the Workforce Development Board is to develop and utilize effective leadership and partnerships among business, labor, government, social services, local education agencies and other communities of interest to create and support one efficient, customer-centered and market-driven workforce development system. The mission is also to ensure a system of high quality customer service and information that supports the following concepts:

- The ability of all citizens to obtain employment that provides a livable wage
- The development of a qualified, competent and globally competitive workforce in the quad-county area
- The efficient allocation of scarce and idle resources
- A sustained economic growth and development over time in Chatham, Lee, Harnett, and Sampson counties
2014 PERFORMANCE FUNDING MEASURES REPORT

Central Carolina Community College

In February 1999, the North Carolina State Board of Community Colleges adopted twelve performance measures for accountability. Recognizing the importance of these measures in the System’s public accountability efforts, the System Planning Council decided to designate the twelve measures, which capture the essential elements of the mission of all community colleges in North Carolina, as the core indicators of student success and include them as the first factor of the Critical Success Factors report.

In 2007, the General Assembly of North Carolina approved a proposal from the State Board of Community Colleges to modify the performance measures. Modifications included changing the standards by which colleges qualify for Exceptional Institutional Performance (formerly Superior College), reducing the number of measures from twelve to eight, and changing the criteria and data collection methods for some of the standards.

For the 2014 reporting year, CCCC was above the college average for 5 of the 8 measures. The full NCCCS Performance Funding Measures Report can be accessed at http://www.nccommunitycolleges.edu/performance-measures

Measures and standards for both Central Carolina Community College (CCCC) and the North Carolina Community College System (NCCCS) are provided below.

Progress of Basic Skills Students

Basic skills students include all adult literacy students. This measure is the percentage of students who progress as defined by an educational functioning level. Performance is based on the number of basic skills students attempting 60 or more contact hours during a program year and complete the program year at a higher educational functioning level. This measure excludes high adult secondary education initial placements. Central Carolina has exceeded the NCCCS performance by 10%. Data Year: 2012 – 2013

NCCCS Performance – 42% (2012 - 2013 NCCCS Students)
CCCC Performance – 54% (2012 – 2013 CCCC Students)

GED Diploma Passing Rates of Students

This measure includes the percent of students, with an initial placement of Low Adult Secondary Education or High Adult Secondary Education, taking at least one GED test during a program year who receive a GED diploma during the program year. The purpose of this measure is to ensure quality GED preparation and high levels of GED attainment. Data Year: 2012 - 2013

NCCCS Performance – 72%
CCCC Performance – 70%

Success Rate of Developmental Students in Subsequent College-Level Courses

The performance of developmental completers in subsequent college-level courses are measured. Specifically, performance of students who took developmental English and/or reading courses and subsequently took college-level English courses was assessed. Likewise, the performance of students who took developmental math courses and then took college-level math courses was assessed. The purpose of this measure is to provide evidence that developmental courses equip students with the skills and knowledge necessary for success in their college studies.

Subsequent completion of college-level English with a “C” or higher.

NCCCS Performance – 64%
CCCC Performance – 64%

Subsequent completion of college-level Math with a “C” or higher.

NCCCS Performance – 64%
CCCC Performance – 69%

First Year Progression

This indicator includes the percentage of first-time fall credential-seeking students attempting at least twelve hours within their first academic year who successfully complete (“P”, “C” or better) at least twelve of those hours. A fall cohort of credential-seeking students enrolled in curriculum courses at a college for the first time after high school graduation was used. These students must attempt at least twelve hours (including developmental and withdraw) within the first year fall, spring, and summer semesters. Including those dually enrolled previously at the same institution and excluding students previously enrolled at another college; it does not include students who do not attend the class i.e. transfer credits, credit by exam or reported grades of ‘NA’ and ‘NS’. Those within this cohort complete at least twelve hours (including developmental) with a “P”, “C” or better within the first year. Data Year: 2012 – 2013

NCCCS Performance – 68%
CCCC Performance – 68%

Curriculum Completion

This measure includes the percentage of first-time fall credential-seeking students who graduate, transfer, or are still enrolled with 36 hours after six years. A fall cohort of credential-seeking students enrolled in curriculum courses at a college for the first time after high school graduation. This cohort includes those dually enrolled previously at the same
institution and excludes students previously enrolled at another college. Those within the cohort who by the fall that occurs six years after original cohort designation either graduate, transfer to a four year institution, or are still enrolled during that seventh fall semester previously completing 36 non-developmental hours. *Data Year: 2012 – 2013*

NCCCS Performance – 43%

CCCC Performance – 46%  

**Passing Rates on Licensure & Certification Examinations**

The percentage of first-time test takers from community colleges passing an examination required for North Carolina licensure or certification prior to practicing the profession. A licensure requirement for an occupation is one that is required by state statute for an individual to work in that occupation. Certification is generally voluntary but may be required by employers or an outside accrediting agency. Purely voluntary examinations are not reported. For privacy and statistical validity, no examination data are reported when the number of first-time test takers was fewer than 10. Depending on the exam, data may be reported on the fiscal or calendar year. *Data Year: 2012 – 2013*

NCCCS Performance – 85% aggregate institutional passing rate  

CCCC Performance – 86% aggregate institutional passing rate  

**Performance of College Transfer Students**

This measure is to ensure the academic success of community college students at a four-year university or college. Cohort 1 includes associate degree recipients who have transferred to a four-year university or college and have earned a GPA of 2.0 or higher after two consecutive semesters at the transfer institution. Cohort 2 includes transfer students completing 30 hours or more of articulated college transfer credit hours at a community college but not completing the degree and have earned a GPA of 2.0 or higher after two consecutive semesters. *Data Year: 2012 – 2013*

NCCCS Performance – 88%  

CCCC Performance – 92%  

CCCC Associate Degree Performance – 94%

INCLEMENT WEATHER POLICY

When it is determined that weather conditions are severe enough to warrant closing the college, the information will be made available as soon as possible. All distance education due dates that do not require face-to-face meetings will be unaltered by inclement weather.

Types of Announcements:
A. CCCC will be closed. Optional Staff workday. (No classes will be held, but administrators, faculty, and clerical staff are expected to report for work.)
B. CCCC will be closed. (This applies to extreme conditions and no one is expected to report for work.)
C. College will open at announced time (report to classes that begin at that time).
D. In the absence of announcements A, B, or C listed above, classes will be held as usual.

NOTE: Students should not leave a voice mail for instructors about missing class due to bad weather. The phone system cannot handle the volume of calls.

Visit www.cccc.edu for CCCC inclement weather postings.

Announcements will be made on:

SPECIAL POPULATIONS SERVICES

Central Carolina Community College is in compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act signed into law on July 26, 1990. In 1994, Central Carolina Community College established the Special Populations Office to facilitate the provisions of reasonable accommodations for all students with disabilities. This office coordinates services between the faculty and the special populations students. Our instructors and staff have experience working with students who have disabilities to help them obtain the education they need to enter the workforce or transfer to a four-year institution.

Central Carolina Community College has a commitment to its students to help them succeed. Therefore, Central Carolina Community College has adapted the following policy to guide its delivery of services to students with disabilities:

“No otherwise qualified individual shall, by reason of disability, be excluded from the participation in, be denied the benefits of, or subjected to discrimination under any program or activity at Central Carolina Community College. The college will make program modifications in instructional delivery and provide supplemental services to enable students with disabilities to participate in activities compatible with their condition and interests.”

To Receive Accommodations:
1. Student completes standard admission application.
2. Student must identify himself or herself to the Special Populations Office and request accommodations appropriate for his or her disability. (Please request packet from Special Populations Office.)
3. Student may be referred to Special Populations Office by high school officials, community agencies, parents, Central Carolina Community College faculty or staff, or may self-refer. It is the responsibility of the student to request accommodations. Students requesting support services must register with the Special Populations Office at least thirty (30) days in advance to assure accommodations for the start of class.
4. Student must provide documentation of the disability for which accommodations are requested. Documentation must be within the last three (3) years.
5. Once documentation is received, the student and special populations coordinator will meet to determine necessary accommodations and complete a service contract.
6. Student completes a Student Schedule Request at the
beginning of each semester enrolled, giving the special populations coordinator permission to notify instructors of accommodations.

7. Special populations coordinator sends Accommodations Request Form to the student’s instructors each term outlining accommodations to which the student is entitled.

Documentation Requirements
It is illegal for an institution to inquire about disability prior to admission. In postsecondary education, it is the responsibility of the student to notify the Special Populations Office of the need for special accommodations. A student generally will not receive accommodations until documentation of the disability is on file in the Special Populations Office. As the law allows, a student undergoing evaluation or awaiting transmittal of documentation may also receive services and accommodations. Acceptable documentation of disability includes: medical report, physician’s statement, psychological evaluation, psycho-education evaluation, records from Division of Services from the Blind, Services for the Deaf and Hard of Hearing, and Vocational Rehabilitation. This list is not meant to be totally inclusive, but establishes the tone of accepted documentation.

Academic Standards
Students with disabilities are expected to meet the same level of academic standards as all other students. The purpose of an accommodation is to minimize the impact of the disability, not to “water down” a course or requirement. To do otherwise would decrease the credibility of the institution and would also be unfair to the student.

Available Services
- Academic and career counseling services
- Both individual and group tutoring sessions available through Academic Assistance
- Special equipment like FM systems
- Special testing arrangements for specific courses
- Sign-language interpreters
- Special classroom seating
- Registration assistance
- Financial aid application assistance
- Coordination of services with other agencies providing services for disabled persons: Vocational Rehabilitation, Services for the Blind, etc.
- Use of computers with spell check, Zoomtext, and Jaws

This is a partial listing of available services. If an unlisted service is needed, contact the Special Populations Office coordinator on the Lee County Campus.

CAMPUS SECURITY

All security officers are First Aid and CPR Certified. If you are calling 911 for a medical emergency, also contact Campus Security so they can respond. All student vehicles must have a CCCC parking decal displayed. See the Vehicle Registration section and the parking map in this handbook for details on where to park. Emergency Call Boxes are located around the campuses. In case of emergency, press the red button on the Call Box and Security personnel will answer. Speak clearly and the officer will give you instructions and respond to your location.

Lee County
- Lee Campus Security is in the Business and Mailroom section in the Library Building.
- The phone number is (919) 718-7512.
- Wicker Lifelong Learning Center – Campus Security (919) 770-4169

Harnett County
- For security issues contact the Provost at (910) 814-8895.

Chatham County
- For security issues contact the Provost at (919) 545-8011.

Security Tips
- Be aware of your surroundings
- Always carry your CCCC issued student ID on your person
- Do not leave valuables, book bags, or electronics unattended
- Keep your car doors locked
- Do not leave valuables visible in your vehicle
- Have your car keys in hand before you reach the car door.
- Report suspicious person(s) or behavior, threats, or harassing phone calls immediately to faculty/staff, Security, or Provost contact the Director of Campus Security and Safety at (919) 718-7211 with concerns or suggestions.

Tobacco-Free Campus Policy
Central Carolina Community College is committed to providing its employees and students with a safe and healthful environment. CCCC also recognizes the use of tobacco products on campus grounds is detrimental to the health and safety of students, staff, faculty and visitors. CCCC also recognizes that it has the legal authority to prohibit tobacco use pursuant to G.S. 143-599. Therefore, CCCC has set the following 100% tobacco free campus policy to be implemented on January 1, 2009. The use of tobacco and tobacco products is prohibited by students, staff, faculty or visitors:
- in all campus buildings, facilities, and outside areas of
the campus.
  • on campus grounds, or in vehicles that are the
    property of the college
  • at lectures, conferences, meetings, social and cultural
    events held on campus
  • for the purposes of this policy, tobacco is defined as
    any type of tobacco product including, but not limited to,
    cigarettes, cigars, cigarillos, pipes, bidis, hookahs,
    smokeless or spit tobacco or snuff.

Enforcement
  Student Enforcement of all College
  policies and procedures is the responsibility of all faculty
  and staff members.

First Offense
  Any student observed smoking or using tobacco
  products will be asked in a non-confrontational manner to
  obey the College policy and to stop using the products.
  Faculty or staff members will identify themselves to the
  student and ask to see the student’s identification card to
  verify their student status and to identify the name of the
  student. Students without a student identification card
  should produce some form of official picture identification
  (e.g. driver’s license) and shall be instructed to take the
  necessary steps to acquire an official student identification
  card. The faculty or staff member will explain the College’s
  tobacco-free policy and the possible consequences for
  violating the policy, and will file a report with the Director
  of Campus Security giving the student’s name and the date
  and time of this policy violation. The report shall be made
  as an e-mail, or memorandum. The Director of Campus
  Security will keep a record of violations identifying the
  student, date, time, and name of the faculty or staff member
  reporting the violation.

Second Offense
  Faculty and staff members will follow the procedures
  identified in “First Offense.” When the Director of Campus
  Security determines that this is the second reported offense
  for a student, the Director will give the student’s name to
  the Vice President of Student Services. The Vice President
  of Student Services will send the student a first-class letter
  and/or e-mail, if available, warning the student that this is
  the second violation of the tobacco-free policy and that the
  student will face suspension or expulsion with any further
  violations.

Third Offense
  Faculty and staff members will follow the procedures
  identified in “First Offense. When the Director of Campus
  Security determines that this is the third reported offense for
  a student, the Director will give the student’s name to the
  Vice President of Student Services. The Vice President of
  Student Services will suspend the student for the remainder
  of the current term. The student may re-enroll, subject to
  any specific program limitations, following the suspension
  period.

*This course is approved only for diploma credential.*

**Nontransferable**
**Agriculture and Natural Resources**

**Sustainable Agriculture**
**Credential:** Associate in Applied Science in Sustainable Agriculture  
**A15410**

The Sustainable Agriculture curriculum is designed to provide the entrepreneurial and technical skills necessary to manage a profitable, environmentally sound, community based small farm or agricultural business. Students learn the fundamentals of sustainable agriculture, focusing on crop production and farm business. Emphasis is placed on entrepreneurial and practical field training. Students will complete a business plan and an agricultural internship in marketing and farming. Graduates are qualified for employment in a variety of positions associated with sustainable agriculture, including horticultural and livestock operations, wholesale and retail management, nursery operations, and environmental and agricultural education.

Program Length: 5 semesters  
Career Pathway Options: Associate in Applied Science in Sustainable Agriculture  
Program Sites: Pittsboro Campus - Day Program

Course Requirements for Sustainable Agriculture Degree  
A. General Education Courses (15 SHC)  
C-L-SHC

Total Semester Hours Credit Required for Graduation: 68

**Sustainable Agriculture**
**Credential:** Certificate in Agricultural Sustainability  
**C1541010**

The Sustainable Agriculture curriculum is designed to provide the entrepreneurial and technical skills necessary to manage a profitable, environmentally sound, community based small farm or agricultural business. Coursework includes classroom study and practical application of skills and concepts in the field. An understanding of the fundamental principles and practices of sustainable agriculture are emphasized. This certificate is appropriate for individuals interested in adding knowledge and skills in sustainability for employment in areas such as agriculture education, farmer advocacy work, non-profit organizations with agricultural missions in developing countries.

Program Length: 2 semesters  
Career Pathway Options: Associate in Applied Science in Sustainable Agriculture.  
Program Site: Chatham Campus – Day Program

Course Requirements for Agriculture Sustainability Certificate

Total Semester Hours Credit Required for Graduation: 18

**Sustainable Agriculture**
**Credential:** Certificate in Sustainable Livestock Systems  
**C1541020**

The Sustainable Agriculture curriculum is designed to provide the entrepreneurial and technical skills necessary to manage a profitable, environmentally sound, community based small farm or agricultural business. Coursework includes fundamental sustainable agriculture concepts, study of the soil systems as they relate to pasture fertility and livestock health and marketing practices typical of small-scale, local food systems. Appropriate breed selection,
pasture management and direct marketing are emphasized. This certificate is appropriate for individuals interested in integrating sustainable livestock production into their current agricultural system, agriculture educators, and individuals interested in working in the food and fiber industry.

Program Length: 2 semesters
Career Pathway Options: Associate in Applied Science in Sustainable Agriculture
Program Site: Chatham Campus – Day Program

Course Requirements for Sustainable Livestock Systems Certificate
AGR 139 Introduction to Sustainable Agriculture 3-0-3
AGR 170 Soil Science 2-2-3
AGR 214 Agricultural Marketing 3-0-3

ANS 111 Sustainable Livestock Management 2-2-3

Total Semester Hours Credit Required for Graduation: 15

Sustainable Agriculture Credential: Certificate in Sustainable Vegetable Production C1541030

The Sustainable Agriculture curriculum is designed to provide the entrepreneurial and technical skills necessary to manage a profitable, environmentally sound, community based small farm or agricultural business. Coursework in the sustainable vegetable production certificate program focuses on the foundational principles for sustainable vegetable production from soil preparation to marketing a premium quality product. Graduates are prepared to work in vegetable production systems and related fields, such as farm market manager, produce manager or garden technician in retail settings.

Program Length: 2 semesters
Career Pathway Options: Associate in Applied Science in Sustainable Agriculture
Program Site: Chatham Campus – Day Program

Course Requirements for Sustainable Vegetable Production Certificate
AGR 121 Biological Pest Management 3-0-3
AGR 139 Introduction to Sustainable Agriculture 3-0-3
AGR 170 Soil Science 2-2-3
AGR 214 Agricultural Marketing 3-0-3
AGR 265/6 Organic Crop Production: (Spring or Fall) 2-2-3

Total Semester Hours Credit Required for Graduation: 18

Allied Health Technologies

Associate Degree Nursing Credential: Associate in Applied Science in Associate Degree Nursing A45110

The Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Coursework includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

Limited Enrollment Curriculum:
The Associate Degree Nursing program is a limited enrollment curriculum and program applicants are accepted based upon a selective admissions process. Admission criteria for the Associate Degree Nursing program are reviewed annually and are subject to change. Enrollment is limited to the number of approved spaces allocated by the North Carolina Board of Nursing.

A. PROGRAM SPECIFIC ENTRANCE STANDARDS:

Admission
A student can apply to the Associate Degree Nursing program once eligibility requirements have been met. Prospective students must attend an information session prior to submitting an application to the Associate Degree Nursing program. Applicants are required to contact the Associate Degree Nursing Admissions Counselor to develop an Academic Plan, review progress, obtain an Associate Degree Nursing Program Application and to be scheduled into an information session to confirm that all minimum requirements are met.

After an applicant has completed all general college admission requirements and all Associate Degree Nursing entrance required criteria, he/she must submit a completed Associate Degree Nursing Program Application. Applicants who have completed the Associate Degree Nursing Program Application by the deadline will be ranked by tallied points and offered admission in order of ranking. A second date may be announced for additional applications to be
A student can apply to only one of the CCCC Health Sciences Programs during any designated selection time period. It is the applicants’ responsibility to ensure that requirements are met by the established deadline.

Entrance Standards: See General Admission Standards in the electronic catalog (Gen. Info section).

Placement Test Scores
Placement testing and all necessary developmental courses must be taken prior to being eligible for official admittance into the Associate Degree Nursing program. Acceptable placement tests are SAT, ACT, Asset, Compass, or Accuplacer and scores from any of these tests must be within five years.

The rating sheet for the Associate Degree Nursing program indicates the minimum scores required to place into ENG 111 and MAT 110. Students who meet Multiple Measures for Placement or who have earned appropriate transfer credit in English, Math, or developmental courses with a C or higher may be exempt from placement testing. Students placing into developmental courses must obtain a “P” grade in order to be eligible for official admittance.

GPA
Students must have a 2.0 on the last semester of coursework and a 2.5 cumulative GPA at the time of making application to the program. These necessary GPA requirements must be maintained at the time of entering program from a secondary or post-secondary institution.

TEAS (Test of Essential Academic Skills)
All required college placement tests or developmental courses must be successfully completed before the applicant may attempt the Test of Essential Academic Skills (TEAS). Students must obtain approval to take the TEAS and pay the required testing fee.

The TEAS will be administered on scheduled testing dates. Each applicant may take the exam three times within three years. Only the two most recent attempts will be used towards the selective admissions process. Students can complete remediation between attempts. Remediation options are as follows: developmental courses, college credit courses, and/or continuing education courses or other strategies related to the subject areas. TEAS scores are valid for three years and must be current when submitting a Nursing Program application. The composite score of 61 must be obtained to be eligible for admission into the Associated Degree Nursing program.

Pre-requisite Biology, Chemistry and Math
Applicants must have completed Biology, Chemistry, and Algebra to submit a Nursing Program application. Biology, Chemistry and Algebra must be taken within the last five years with a grade of “C” or better. Students may be exempt from the prerequisite expiration date of Algebra, Biology and Chemistry if they have a higher education degree/diploma in a related health sciences discipline in which these courses were required.

Biology= developmental, or college level BIO course (example: BIO 090, 094, BIO 110, BIO 111, BIO 165)
Chemistry=high school, developmental, or college level CHM course (example: CHM 090, 092 or higher)
Algebra=high school, developmental or college level Algebra course (example: MAT 110 or higher)

Official transcripts for completed courses must be submitted by application deadline.

The Test of English as a Foreign Language (TOEFL)
TOEFL scores are required for any naturalized or non-US citizens where English is their second language to provide evidence of adequate proficiency in the English language. All test scores must be less than five years old. The minimum acceptable TOEFL scores are based upon format: paper/pencil – 500, computer based – 213, and internet based – 80. This test is offered at multiple testing sites nationally and is at the student’s expense.

Prior Health Care Program Completion
Prior Health Care Program completion with appropriate listing/licensure is required for consideration at the designated entry points in the nursing programs:

a) Provide proof of successful completion of a state approved Nurse Aide I Training in Competency Evaluation Program and active listing on the North Carolina Department of Health and Human Services (NC DHHS) Nursing Assistant I Registry with no substantiated finding of abuse, neglect, or misappropriation of resident property in a nursing home or other health care facility.

b) This active, non-restricted listing must be maintained throughout the application process. NC DHHS-approved NAI courses are preferred, however the CCCC Nursing Department Chair will determine, on a case-by-case basis, if a course administered by another state or agency meets the requirement.

B. REQUIREMENTS AFTER ACCEPTANCE:

Criminal Background Check/Drug Screening
A criminal background check and drug screening will be required for all accepted Health Sciences students 30 days prior to clinical rotations or work based learning. Clinical affiliates will review criminal background reports and drug screenings of students and reserve the right to accept or deny any students based on their consideration of these reports. Negative reports and/or failed screenings can
preclude a student from attending the clinical portion of their prescribed program and thus, will result in the student’s exit from the program. Students are subject to drug screening at any time during a clinical rotation. Clinical agencies reserve the right to require additional background checks and urine drug screens.

**Medical Forms/Immunizations**
Applicants are required to submit a completed college approved student medical health form to the Nursing Program Director at least 30 days prior to the first semester. The student medical form must include satisfactory health history, physical examination, and immunization report. Failure to submit a completed medical form will result in loss of Associate Degree Nursing admission status and class space will be assigned to another applicant. Students will not be permitted to participate in lab/clinic/externship without having submitted a completed medical form and appropriate immunizations.

**Adult/Infant/Child/AED CPR**
CPR Certification by the American Heart Association (AHA) in Adult-Infant-Child CPR and AED for Healthcare Providers that includes both performance and testing of criteria is required prior to clinical rotations. No student will be able to attend clinical rotation without proof of completion and current AHA Health Care Provider CPR. Students are responsible for keeping CPR current through the duration of the program. Proof of active CPR is to be submitted 30 days prior to clinical rotation.

**Mandatory Acceptance Session**
When notified of acceptance, applicants must attend a mandatory orientation session with the Nursing department.

**Liability/Malpractice Insurance**
Insurance fees must be paid to the Business Office before entry into the program and each subsequent year enrolled.

**Transportation/Additional Class/Course Materials**
Health Sciences students are responsible for their own transportation to off-campus clinical/learning sites. Materials other than textbooks will be required and are purchased at student’s expense. Students may be required to attend classes on alternate dates depending on availability of resources to meet the objectives of the course. Students will be notified in advance at the earliest possible time.

**Technical Standards**
The Health Sciences programs are physically demanding. Students will be expected to perform lifting, pushing, pulling, and carrying tasks to successfully practice in a lab setting, complete clinical affiliations, and safely treat patients. For more details, please refer to each program of study's physical requirements and technical standards.

**Accommodations**
The College has a legal obligation to provide appropriate accommodations for students with documented disabilities. If you have a disability and are seeking accommodations, you should contact the Special Populations Department. Student should initiate this process as soon as possible (prior to the start of classes).

**Board of Nursing Standards**
Students who enroll in the nursing program should be aware that the application for licensure at the completion of the program might be denied or restricted by the North Carolina Board of Nursing. As the regulatory agency, the Board of Nursing does not become involved in reviewing the applicant’s conviction record until such time as application is made to take the national licensure examination. [http://www.ncbon.com/dcp/i/licensurelisting-criminal-background-checks-cbc-requirements](http://www.ncbon.com/dcp/i/licensurelisting-criminal-background-checks-cbc-requirements)

**Academic Standards**
Upon official acceptance, Health Sciences students are required to maintain the necessary GPA requirements for entry. Students cannot enter a Health Sciences program while on academic probation or suspension. Health Sciences students must achieve a grade of "C" or higher in their Health Science courses.

Students may withdraw or be withdrawn from a Health Sciences course. However, the student will not be allowed to matriculate through their program of study. Reapplication to the program will be required and readmission will be awarded based on admissions criteria completion, policy on readmission, and space availability. Students completing readmission must meet with the Admissions Counselor to review their file.

**Program Specific Academic Standards**
See additional Program Specific Standards in the Nursing Student Policies Handbook and specific Associate Degree Nursing course syllabus.

Associate Degree Nursing and progressive related courses must be taken in succession as they appear in the catalog. Associate Degree Nursing students must adhere to the other policies set forth in the Nursing Student Policies Handbook.

Nursing curriculum students once enrolled must maintain an overall and semester grade point average of 2.0 or better, and must have a grade of “C” or better in all nursing and co-requisite courses. Students are encouraged to earn higher grades to help ensure that they are prepared to pass the National Council Licensure Examination (NCLEX), which is required to practice as a nurse.

**C. RE-ADMISSION, TRANSFER, OR ADVANCED STANDING INTO THE ASSOCIATE DEGREE NURSING PROGRAM**
The student must qualify under the admission criteria in effect at time of re-admission or transfer. A student may be
required to re-enter an Associate Degree Nursing course earlier in the curriculum sequence if the student is lacking major content. All Associate Degree Nursing courses completed more than 3 years prior to re-admission or transfer must be repeated. Withdrawal or academic failure within the Associate Degree Nursing Program will require the student to reapply as a new student. Advanced placement is dependent upon space availability. The Nursing Department Chair will evaluate transferability of all Associate Degree Nursing courses. Transfer courses must be equivalent to courses required at the receiving college in both theory, lab, and clinical experiences. The student must provide copies of course syllabi and outlines for those Associate Degree Nursing courses to the department chairperson. Students lacking essential content may be required to audit a portion of a course, challenge the content, demonstrate skills, or repeat the course as deemed necessary. The final decision for transfer credit for Associate Degree Nursing courses is determined by the Nursing Department Chair.

Applicants must submit a letter explaining the circumstances of any previous exit from any health science program. The letter must be sent from the previous Program Director. CCCC’s Nursing Department Chair and Vice President of Student Services must approve students who were dismissed, expelled, or suspended for any reason. Students who withhold previous exit information may be dismissed from the program. A remediation plan may be required.

Additional Admission Requirements for Advanced LPN to-ADN Admission
1. Admission is based upon all required and optional selective admission criteria previously addressed.
2. Admission is dependent on space availability at the specific point of entry determined for admission.
3. Applicants must show evidence of graduation from a state-approved school of practical nursing.
4. All applicants must pass the LPN Specialized Testing to Evaluate Preparedness (STEP) with a composite final score equal to or above the national passing score for consideration for advanced LPN-to-RN admissions. The Department Chairperson and admissions counselor will then determine point of entry based upon STEP sub-score achievements and deficits. The student will incur any testing expense and may take the test only three times in a three year period. The applicant will be referred for remediation based upon a low STEP composite score and/or sub scores. The time frame between each retesting attempt will be based upon successful completion of all required remediation. Once the STEP is passed, all applicants must next take the Medication Calculation Test. Students may take this test only three times in a three year period to achieve a score of 86% for acceptance consideration. The applicant will be referred for remediation based upon a low Medication Calculation test score. The time frame between each retesting attempt will be based upon successful completion of all required remediation.
6. After successful completion of the Medication Calculation Test, any applicant that has been out of practical nursing school or active nursing practice for over five years must then take the Skills Validation Test. Students may take the skills validation test only three times in a three-year period to achieve a score of 86% for acceptance consideration. The applicant will be referred for remediation based upon low Skills Validation Test/Performance results. The time frame between each retesting attempt will be based upon successful completion of all required remediation.
7. Applicants must submit a copy of a current, unrestricted North Carolina LPN license or license from a state within the multi-state compact.
8. Applicants must present letters on official letterhead from an administrative supervisor of the health care agency where the applicant is/has been most recently employed and/or the nursing chairperson of the practical nursing program attended.

The applicant:
  a) Must have been employed as an LPN with documentation of at least one year full-time clinical experience with direct patient care in a health care agency within the last two years, or
  b) Must provide documentation of direct patient care in a practical nursing program for at least six months of the twelve months immediately prior to admission, or
  c) Must provide documentation of at least one year combined full-time clinical experience with direct patient care employed in a health care agency and a practical nursing program within the last two years, and
  d) Must provide documentation that the applicant’s employment/clinical practice has met minimal competence levels for that of a licensed practical nurse or nursing student.
  e) The Nursing Department Chair will determine where the applicant is/has been most recently employed and/or the nursing chairperson of the practical nursing program attended.

9. Applicants must have successfully completed all general education courses required in the first year of the Associate Degree Nursing Program with a grade of “C” or better.

10. Students may request a course exemption of ACA 115 Success and Study Skills (1 semester hour) unless identified as required pre-entry remediation.

11. If an advanced placement LPN does not meet the above admission criteria and/or validation testing, he/she may apply for regular admission as a first-year new entry student in the Associate Degree Nursing Program.

Program Length: Associate in Applied Science – 5 semesters

Total Semester Hours Credit Required for Graduation: 73

Dental Assisting Credential: Diploma in Dental Assisting D4524000

The Dental Assisting curriculum prepares individuals to assist the dentist in the delivery of dental treatment and to function as integral members of the dental team while performing chair-side and related office and laboratory procedures.

Coursework includes instruction in general studies, biomedical sciences, dental sciences, clinical sciences, and clinical practice. A combination of lecture, laboratory, and clinical experiences provides students with knowledge in infection/hazard control, radiography, dental materials, preventive dentistry, and clinical procedures.

Graduates may be eligible to take the Dental Assisting National Board Examination to become Certified Dental Assistants. As a Dental Assistant II, defined by the Dental Laws of North Carolina, graduates work in dental offices and other related areas.

Limited Enrollment Curriculum:
The Dental Assisting program is a limited enrollment curriculum and program applicants are accepted based upon a selective admissions process. Admission criteria for the Dental Assisting program are reviewed annually and are subject to change.

A. PROGRAM SPECIFIC ENTRANCE STANDARDS:

Admission

A student can apply to the Dental Assisting Program once eligibility requirements have been met. Prospective students must attend an information session prior to submitting an application to the Dental Assisting Program. Applicants are required to contact the Dental Assisting Admissions Counselor to develop an Academic Plan, review progress, obtain a Dental Assisting Program Application and to be scheduled into an information session to confirm that all minimum requirements are met. Students are not allowed to enter into any of the Central Carolina Community College’s Dental Assisting curriculum if they have had two previous entries into any Dental Assisting program.

After an applicant has completed all general college admission requirements and all Dental Assisting entrance required criteria, he/she must submit a completed Dental Program Application. Applicants who have completed the Dental Program Application by the deadline will be ranked by tallied points and offered admission in order of ranking. A second date may be announced for additional applications to be considered for unfilled spaces.

A student can apply to only one of the CCCC Health Sciences Programs during any designated selection time period. It is the applicants’ responsibility to ensure that requirements are met by the established deadline.

Entrance Standards: See General Admission Standards in the electronic catalog (Gen. Info section).

Placement Test Scores

Placement testing and all necessary developmental courses must be taken prior to being eligible for official admittance into the Dental Assisting program. Acceptable placement tests are SAT, ACT, Asset, Compass, or Accuplacer and scores from any of these tests must be within five years.

The rating sheet for the Dental programs indicate the minimum scores required to place into ENG 102 and MAT 110. Students who meet Multiple Measures for Placement or who have earned appropriate transfer credit in English, Math, or developmental courses with a C or higher may be exempt from placement testing. Students placing into developmental courses must obtain a "P" grade in order to be eligible for official admittance.

GPA

Students must have a 2.0 on the last semester of coursework and a 2.5 cumulative GPA at the time of making application.
to the program. These necessary GPA requirements must be maintained at the time of entering program from a secondary or post-secondary institution.

**TEAS (Test of Essential Academic Skills)**
All required college placement tests or developmental courses must be successfully completed before the applicant may attempt the Test of Essential Academic Skills (TEAS). Students must obtain approval to take the TEAS and pay the required testing fee.

The TEAS will be administered on scheduled testing dates. Each applicant may take the exam three times within three years. Only the two most recent attempts will be used towards the selective admissions process. Students can complete remediation between attempts. Remediation options are as follows: developmental courses, college credit courses, and/or continuing education courses or other strategies related to the subject areas. TEAS scores are valid for three years and must be current when submitting a Dental Programs application. There is no minimum score required, but the percentage correct in the areas of Math, Reading, English and Science will be used for admissions consideration.

**Pre-requisite Biology and Math**
Applicants must have completed Biology and Algebra to submit a Dental Assisting Program application. Biology and Algebra must be taken within the last five years with a grade of “C” or better.

Biology= high school, developmental, or college level BIO course
(example: BIO 094, BIO 110, BIO 111, BIO 163)
Algebra=high school, developmental or college level Algebra course (example: MAT 110 or higher)

Official transcripts for completed courses must be submitted by application deadline.

**The Test of English as a Foreign Language (TOEFL)**
TOEFL scores are required for any naturalized or non-US citizens where English is their second language to provide evidence of adequate proficiency in the English language. All test scores must be less than five years old. The minimum acceptable TOEFL scores are based upon format: paper/pencil – 500, computer based – 213, and internet based – 80. This test is offered at multiple testing sites nationally and is at the student’s expense.

**Observation Hours**
Forty hours of observation/work/voluntary experience in the dental assisting field is required. Observation form must be obtained from the Dental Programs admissions counselor.

**B. REQUIREMENTS AFTER ACCEPTANCE:**

**Criminal Background Check/Drug Screening**
A criminal background check and drug screening will be required for all accepted Health Sciences students 30 days prior to clinical rotations or work based learning. Clinical affiliates will review criminal background reports and drug screenings of students and reserve the right to accept or deny any students based on their consideration of these reports. Negative reports and/or failed screenings can preclude a student from attending the clinical portion of their prescribed program and thus, will result in the student’s exit from the program. Students are subject to drug screening at any time during a clinical rotation.

**Medical Forms/Immunizations**
Applicants are required to submit a completed college approved student medical health form to the Dental Assisting Program Director at least 30 days prior to the first semester. The student medical form must include satisfactory health history, physical examination, and immunization report. Failure to submit a completed medical form will result in loss of Dental Assisting admission status and class space will be assigned to another applicant. Students will not be permitted to participate in lab/clinic/externship without having submitted a completed medical form and appropriate immunizations.

**Hepatitis B shots (3 series shot) required through second series prior to first Fall semester and completed by Spring semester.**

**Adult/Infant/Child/AEDCPR**
CPR Certification by the American Heart Association (AHA) in Adult-Infant-Child CPR and AED for Healthcare Providers that includes both performance and testing of criteria is required prior to clinical rotations. No student will be able to attend clinical rotation without proof of completion and current AHA Health Care Provider CPR. Students are responsible for keeping CPR current through the duration of the program. Proof of active CPR is to be submitted 30 days prior to clinical rotation.

**Mandatory Acceptance Session**
When notified of acceptance, applicants must attend a mandatory orientation session with the Dental Assisting department.

**Liability/Malpractice Insurance**
Insurance fees must be paid to the Business Office before entry into the program and each subsequent year enrolled.

**Transportation/Additional Class/Course Materials**
Health Sciences students are responsible for their own transportation to off-campus clinical/learning sites. Materials other than textbooks will be required and are purchased at student’s expense.

**Technical Standards**
The Health Sciences programs are physically demanding. Students will be expected to perform lifting, pushing, pulling, and carrying tasks to successfully practice in a lab setting, complete clinical affiliations, and safely treat
Patients. For more details, please refer to each program of study's physical requirements and technical standards.

**Accommodations**
The College has a legal obligation to provide appropriate accommodations for students with documented disabilities. If you have a disability and are seeking accommodations, you should contact the Special Populations Department. Student should initiate this process as soon as possible (prior to the start of classes).

**Academic Standards**
Upon official acceptance, Health Sciences students are required to maintain the necessary GPA requirements for entry. Students cannot enter a Health Sciences program while on academic probation or suspension. Health Sciences students must achieve a grade of “C” or higher in their Health Science courses. Students may withdraw or be withdrawn from a Health Sciences course. However, the student will not be allowed to matriculate through their program of study. Reapplication to the program will be required and readmission will be awarded based on admissions criteria completion, policy on readmission, and space availability. Students completing readmission must meet with the Admissions Counselor to review their file.

**Program Specific Academic Standards:**
See additional Program Specific Standards in the Dental Assisting Student Policies and Procedures Manual and specific Dental Assisting course syllabus.

Dental Assisting and progressive related courses must be taken in succession as they appear in the catalog. Dental Assisting students must adhere to the other policies set forth in the Dental Assisting Student Policies and Procedures Manual.

**C. RE-ADMISSION OR TRANSFER INTO THE DENTAL ASSISTING PROGRAM:**
The student must qualify under the admission criteria in effect at time of re-admission or transfer. A student may be required to re-enter a Dental Assisting course earlier in the curriculum sequence if the student is lacking major content. All Dental Assisting courses completed more than 3 years prior to re-admission or transfer must be repeated. Withdrawal or academic failure within the Dental Assisting Program will require the student to reapply as a new student. Advanced placement is dependent upon space availability. The Dental Assisting Program Director will evaluate transferability of all Dental Assisting courses. Transfer courses must be equivalent to courses required at the receiving college in both theory and clinical experiences. The student must provide copies of course syllabi and outlines for those Dental Assisting courses taken to the department chairperson. Students lacking essential content may be required to audit a portion of a course, challenge the content, demonstrate skills, or repeat the course as deemed necessary. The final decision for transfer credit for Dental Assisting courses is determined by the Dental Assisting Program Director.

Applicants must submit a letter explaining the circumstances of any previous exit from any health science program. The letter must be sent from the previous Program Director. CCCC’s Dental Assisting Program Director and Vice President of Student Services must approve students who were dismissed, expelled, or suspended for any reason. Students who withhold previous exit information may be dismissed from the program. A remediation plan may be required.

**Total Semester Hours Credit Required for Graduation:** 46

**Dental Hygiene**

**Credential:** Associate in Applied Science

**Degree in Dental Hygiene**
A45260

The Dental Hygiene curriculum provides individuals with the knowledge and skills to access, plan, implement, and evaluate dental hygiene care for the individual and the community.

Students will learn to prepare the operatory, take patient histories, note abnormalities, plan care, teach oral hygiene, clean teeth, take x-rays, apply preventive agents, complete necessary chart entries, and perform other procedures related to dental hygiene care.

Graduates of this program may be eligible to take national and state/regional examinations for licensure which are required to practice dental hygiene. Employment opportunities include dental offices, clinics, schools, public health agencies, industry, and professional education.

Limited Enrollment Curriculum:
The Dental Hygiene program is a limited enrollment curriculum and program applicants are accepted based upon a selective admission process. Admission criteria for the Dental Hygiene program are reviewed annually and are subject to change.

A. PROGRAM SPECIFIC ENTRANCE STANDARDS:

Admissions Process:
A student can apply to the Dental Hygiene program once eligibility requirements have been met. Students are not allowed to enter into the Central Carolina Community College’s Dental Hygiene curriculum if they have had two previous entries into any Dental Hygiene program.

Prospective students must attend a mandatory information session prior to submitting an application to the Dental Hygiene program. Applicants are required to contact the Dental Programs Admissions Counselor to obtain a Dental Program Application and current set of Dental Hygiene Admission Guidelines, and to be scheduled into a mandatory information session.

After an applicant has completed all general college admission requirements and all Dental Hygiene entrance required criteria, he/she must submit a completed Dental Program Application. Applicants who have completed the Dental Program Application by the deadline will be ranked by tallied points and offered admission in order of ranking. A second date may be announced for additional applications to be considered for unfilled spaces. A student can apply to only one of the CCCC Health Science Programs during any designated selection time period. It is the applicants' responsibility to ensure that they are aware of all regulations and that all requirements are met by the established deadline.

Entrance Standards: See General Admission Standards in the electronic catalog (Gen. Info section).

Placement Test Scores
Placement testing and all necessary developmental courses must be taken prior to being eligible for official admittance into the Dental Hygiene program. Acceptable placement tests are SAT, ACT, Asset, Compass, or Accuplacer and scores from any of these tests must be within five years.

The rating sheet for the Dental programs indicate the minimum scores required to place into ENG 111 and MAT 110. Students who meet Multiple Measures for Placement or who have earned appropriate transfer credit in English, Math, or developmental courses with a C or higher may be exempt from placement testing. Students placing into developmental courses must obtain a "P" grade in order to be eligible for official admittance.

GPA
Students must have a 2.0 on the last semester of coursework and a 2.5 cumulative GPA at the time of making application to the program. These necessary GPA requirements must be maintained at the time of entering program from a secondary or post-secondary institution.

TEAS (Test of Essential Academic Skills)
All required college placement tests or developmental courses must be successfully completed before the applicant may attempt the Test of Essential Academic Skills (TEAS). Students must obtain approval to take the TEAS and pay the required testing fee.

The TEAS will be administered on scheduled testing dates. Each applicant may take the exam three times within three years. Only the two most recent attempts will be used towards the selective admissions process. Students can complete remediation between attempts. Remediation options are as follows: developmental courses, college credit courses, and/or continuing education courses or other strategies related to the subject areas. TEAS scores are valid for three years and must be current when submitting a Dental Programs application. There is no minimum score required, but the percentage correct in the areas of Math, Reading, English and Science will be used for admissions consideration.

Pre-requisite Biology, Chemistry and Algebra
Applicants must have completed high school Biology, Chemistry and Algebra to submit a Dental Hygiene Program Application Biology, Chemistry, and Algebra must be taken within the last five years with a grade of “C” or better.

Biology = high school, developmental, or college level BIO course (example: BIO 094, BIO 110, BIO 111, BIO 163, BIO 175, BIO 180)
Chemistry = high school, developmental, or college level CHM course (example: CHM 130/13A, CHM 151)
Algebra = high school, developmental or college level Algebra course
Students are responsible for keeping CPR current through completion and current AHA Health Care Provider CPR. Providers that includes both performance and testing of (AHA) in Adult CPR Certification by the American Heart Association Adult/Infant/Child /AED semester.

Hepatitis B shots (3 series shot) required through second immunization report. Failure to submit a completed medical form must include satisfactory health history, physical examination, and immunization report. Failure to submit a completed medical form will result in loss of Dental Hygiene admission status.

Medical Forms/Immunizations
Applicants are required to submit a completed college approved student medical health form to the Dental Hygiene Program Director at least 30 days before entering the program. The student medical form must include satisfactory health history, physical examination, and immunization report. Failure to submit a completed medical form will result in loss of Dental Hygiene admission status and class space will be assigned to another applicant. NO student will be permitted to participate in clinic without having submitted a completed medical form.

**Hepatitis B shots (3 series shot) required through second series prior to first Fall semester and completed by Spring semester.

Adult/Infant/Child /AED CPR
CPR Certification by the American Heart Association (AHA) in Adult-Infant-Child CPR and AED for Healthcare Providers that includes both performance and testing of criteria is required prior clinical rotations. No student will be able to attend clinical rotation without proof of completion and current AHA Health Care Provider CPR. Students are responsible for keeping CPR current through the duration of the program. Proof of active CPR is to be submitted 30 days prior to clinical rotation.

Mandatory Acceptance Session
When notified of acceptance, applicants must attend a mandatory orientation session with the Dental Hygiene department.

Liability/Malpractice Insurance
Insurance fees must be paid to the Business Office before entry into the program and each subsequent year enrolled.

Transportation/Additional Class/Course Materials
Health Sciences students are responsible for their own transportation to off-campus clinical/learning sites. Materials other than textbooks will be required and are purchased at student’s expense.

Technical Standards
The Health Sciences programs are physically demanding. Students will be expected to perform lifting, pushing, pulling, and carrying tasks to successfully practice in a lab setting, complete clinical affiliations, and safely treat patients. For more details, please refer to each program of study’s physical requirements and technical standards.

Accommodations
The College has a legal obligation to provide appropriate accommodations for students with documented disabilities. If you have a disability and are seeking accommodations, you should contact the Special Populations Department. Student should initiate this process as soon as possible (prior to the start of classes).

Academic Standards
Upon official acceptance, Health Sciences students are required to maintain the necessary GPA requirements for entry. Students cannot enter a Health Sciences program while on academic probation or suspension. Health Sciences students must achieve a grade of "C" or higher in their Health Science courses. Students may withdraw or be withdrawn from a Health Sciences course. However, the student will not be allowed to matriculate through their program of study. Reaplication to the program will be required and readmission will be awarded based on admissions criteria completion, policy on readmission, and space availability. Students completing readmission must meet with the Admissions Counselor to review their file.

Program Specific Academic Standards: See the Dental Hygiene Student Policies and Procedures Manual and specific Dental Hygiene course syllabi.

Dental Hygiene students must maintain an overall and semester GPA 2.0 or better, and must have a grade of “C” or better in all courses required by the Dental Hygiene curriculum. Dental Hygiene and progressive related courses must be taken in succession as they appear in the catalog. Dental Hygiene students must meet the standards related to
demonstration of emotional and physical health within the framework of Dental Hygiene practice and must adhere to the other policies set forth in the Dental Hygiene Student Policies and Procedures Manual. Dental Hygiene students must not be on probation or suspension status.

C. RE-ADMISSION OR TRANSFER INTO THE DENTAL HYGIENE PROGRAM

The student must qualify under the admission criteria in effect at time of re-admission or transfer. A student may be required to re-enter a Dental Hygiene course earlier in the curriculum sequence if the student is lacking major content. All Dental Hygiene courses completed more than 3 years prior for re-admission or transfer must be repeated. Withdrawal or academic failure within the Dental Hygiene program will require the student to reapply as a new student. Advanced placement is dependent upon space availability.

The Dental Hygiene Program Director will evaluate transferability of all Dental Hygiene courses. Transfer courses must be equivalent to courses required at the receiving college in both theory and clinical experiences. The student must provide copies of course syllabi and outlines for those Dental Hygiene courses taken to the department chairperson. Students lacking essential content may be required to audit a portion of a course, challenge the content, demonstrate skills, or repeat the course as deemed necessary. The final decision for transfer credit for Dental Hygiene courses is determined by the Dental Hygiene Program Director.

Applicants must submit a letter explaining the circumstances of any previous exit from any health science program. The letter must be sent from the Program Director at the former institution. CCC’s Dental Hygiene Program Director and Vice-President of Student Services must approve students who were dismissed, expelled, or suspended for any reason. Students who withhold previous exit information may be dismissed from the program. A remediation plan may be required.

Human Services Technology

Credential: Associate in Applied Science Degree in Human Services Technology

A45380

The Human Services Technology curriculum prepares students for entry-level positions in institutions and agencies which provide social, community, and educational services. Along with core courses, students take courses which prepare them for specialization in specific human service areas.

Students take courses from a variety of disciplines. Emphasis in core courses is placed on development of relevant knowledge, skills, and attitudes in human services. Fieldwork experience provides opportunities for application of knowledge and skills learned in the classroom.

Graduates are qualified for positions in mental health, childcare, family services, social services, rehabilitation,

Medical Assisting  
Credential: Associate in Applied Science  
Degree in Medical Assisting  
A45400  

The Medical Assisting curriculum prepares multi-skilled health care professionals qualified to perform administrative, clinical, and laboratory procedures. Coursework includes instruction in scheduling appointments, coding and processing insurance accounts, billing, collections, computer operations; assisting with examinations/treatments, performing routine laboratory procedures, electrocardiography, supervised medication administration; and ethical/legal issues associated with patient care.

The Central Carolina Community College Medical Assisting Diploma Programs are accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of Medical Assisting Education Review Board (MAERB). Commission on Accreditation of Allied Health Education Programs 1361 Park Street Clearwater, FL 33756 727-210-2350 (www.caahep.org). Graduates of CAAHEP accredited medical assisting programs may be eligible to sit for the American Association of Medical Assistants’ Certification Examination to become Certified Medical Assistants. Employment opportunities include physicians’ offices, health maintenance organizations, health departments, and hospitals.

Limited Enrollment Curriculum:  
The Medical Assisting program is a limited enrollment curriculum and program applicants are accepted based upon a selective admission process. Admission criteria for the Medical Assisting program are reviewed annually and are subject to change.

A. PROGRAM SPECIFIC ENTRANCE STANDARDS:  

Admissions Process  
A student can apply to the Medical Assisting program once eligibility requirements have been met. Prospective students must attend an information session prior to submitting an application to the Medical Assisting program. Applicants are required to contact the Medical Assisting Admissions Counselor to develop an Academic Plan, review progress, obtain a Medical Assisting Program Application and to be scheduled into an information session to confirm that all minimum requirements are met.

After an applicant has completed all general college admission requirements and all Medical Assisting entrance required criteria, he/she must submit a completed Medical
Assisting Program Application. Applicants who have completed the Medical Assisting Program Application by the deadline will be ranked by tallied points and offered admission in order of ranking. A second date may be announced for additional applications to be considered for unfilled spaces. A student can apply to only one of the CCCC Health Sciences Programs during any selection time period. It is the applicants’ responsibility to ensure that requirements are met by the established deadline.

Official transcripts for completed courses must be submitted by application deadline.

Entrance Standards: See General Admission Standards in the electronic catalog (Gen. Info section).

Placement Test Scores
Placement testing and all necessary developmental courses must be taken prior to being eligible for official admittance into the Medical Assisting program. Acceptable placement tests are SAT, ACT, Asset, Compass, or Accuplacer and scores from any of these tests must be within five years. The rating sheet for the Medical Assisting program indicates the minimum scores required to place into ENG 111 and MAT 110. Students who meet Multiple Measures for Placement or who have earned appropriate transfer credit in English, Math, or developmental courses with a C or higher may be exempt from placement testing. Students placing into developmental courses must obtain a "P" grade in order to be eligible for official admittance.

GPA
Students must have a 2.0 on the last semester of coursework and a 2.5 cumulative GPA at the time of making application to the program. These necessary GPA requirements must be maintained at the time of entering program from a secondary or post-secondary institution.

TEAS (Test of Essential Academic Skills)
All required college placement tests or developmental courses must be successfully completed before the applicant may attempt the Test of Essential Academic Skills (TEAS). Students must obtain approval to take the TEAS and pay the required testing fee.

The TEAS will be administered on scheduled testing dates. Each applicant may take the exam three times within three years. Only the two most recent attempts will be used towards the selective admissions process. Students can complete remediation between attempts. Remediation options are as follows: developmental courses, college credit courses, and/or continuing education courses or other strategies related to the subject areas. TEAS scores are valid for three years and must be current when submitting a Medical Assisting Programs application. There is no minimum score required, but the percentage correct in the areas of Math, Reading, English and Science will be used for admissions consideration.

The Test of English as a Foreign Language (TOEFL)
TOEFL scores are required for any naturalized or non-US citizens where English is their second language to provide evidence of adequate proficiency in the English language. All test scores must be less than five years old. The minimum acceptable TOEFL scores are based upon format: paper/pencil – 500, computer based – 213, and internet based – 80. This test is offered at multiple testing sites nationally and is at the student’s expense.

B. REQUIREMENTS AFTER ACCEPTANCE:

Criminal Background Check/Drug Screening
A criminal background check and drug screening will be required for all accepted Health Sciences students 30 days prior to clinical rotations or work based learning. Clinical affiliates will review criminal background reports and drug screenings of students and reserve the right to accept or deny any students based on their consideration of these reports. Negative reports and/or failed screenings can preclude a student from attending the clinical portion of their prescribed program and thus, will result in the student’s exit from the program. Students are subject to drug screening at any time during a clinical rotation.

Medical Forms/Immunizations
Applicants are required to submit a completed college approved student medical health form to the Medical Assisting Program Director at least 30 days prior to the first semester. The student medical form must include satisfactory health history, physical examination, and immunization report. Failure to submit a completed medical form will result in loss of Medical Assisting admission status and class space will be assigned to another applicant. Students will not be permitted to participate in lab/clinic/externship without having submitted a completed medical form and appropriate immunizations.

Adult/Infant/Child/AED CPR
CPR Certification by the American Heart Association (AHA) in Adult-Infant-Child CPR and AED for Healthcare Providers that includes both performance and testing of criteria is required prior to clinical rotations. No student will be able to attend clinical rotation without proof of completion and current AHA Health Care Provider CPR. Students are responsible for keeping CPR current through the duration of the program. Proof of active CPR is to be submitted 30 days prior to clinical rotation.

Mandatory Acceptance Session
Accepted students must attend a mandatory orientation session with the Medical Assisting Program.

Liability/Malpractice Insurance
Insurance fees must be paid to the Business Office before entry into the program and each subsequent year enrolled.
Transportation/Additional Class/Course Materials
Health Sciences students are responsible for their own transportation to off-campus clinical/learning sites. Materials other than textbooks will be required and are purchased at student’s expense.

Technical Standards
The Health Sciences programs are physically demanding. Students will be expected to perform lifting, pushing, pulling, and carrying tasks to successfully practice in a lab setting, complete clinical affiliations, and safely treat patients. For more details, please refer to each program of study's physical requirements and technical standards.

Accommodations
The College has a legal obligation to provide appropriate accommodations for students with documented disabilities. If you have a disability and are seeking accommodations, you should contact the Special Populations Department. Student should initiate this process as soon as possible (prior to the start of classes).

Academic Standards
Upon official acceptance, Health Sciences students are required to maintain the necessary GPA requirements for entry. Students cannot enter a Health Sciences program while on academic probation or suspension. Health Sciences students must achieve a grade of "C" or higher in their Health Science courses. Students may withdraw or be withdrawn from a Health Sciences course. However, the student will not be allowed to matriculate through their program of study. Reapplication to the program will be required and readmission will be awarded based on admissions criteria completion, policy on readmission, and space availability. Students completing readmission must meet with the Admissions Counselor to review their file.

Program Specific Academic Standards:
See additional Program Specific Standards in the Medical Assisting Student Handbook and specific Medical Assisting course syllabus.

Medical Assisting and progressive related courses must be taken in succession as they appear in the catalog. Medical Assisting students must adhere to the other policies set forth in the Medical Assisting Student Handbook.

C. RE-ADMISSION OR TRANSFER INTO THE MEDICAL ASSISTING PROGRAM:
The student must qualify under the admission criteria in effect at time of re-admission or transfer. A student may be required to re-enter a Medical Assisting course earlier in the curriculum sequence if the student is lacking major content as evaluated by the Program Director. All Medical Assisting courses completed more than 3 years prior to re-admission or transfer must be repeated. Withdrawal or academic failure within the Medical Assisting program will require the student to reapply as a new student. Advanced placement is dependent upon space availability.

The Medical Assisting Program Director will evaluate transferability of all Medical Assisting courses. Transfer courses must be equivalent to courses required at the receiving college in both theory and clinical experiences. The student must provide copies of course syllabi and outlines for those Medical Assisting courses taken to the Program Director. Students lacking essential content may be required to audit a portion of a course, challenge the content, demonstrate skills or repeat the course as deemed necessary. The final decision for transfer credit for Medical Assisting courses is determined by the Medical Assisting Program Director.

Applicants must submit a letter explaining the circumstances of any previous exit from any health sciences program. The letter must be sent from the previous Program Director. CCCC’s Medical Assisting Program Director and Vice President of Student Services must approve students who were dismissed, expelled, or suspended for any reason. Students who withhold previous exit information may be dismissed from the program. A remediation plan may be required.

Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science in Medical Assisting; Diploma in Medical Assisting

Total Semester Hours Credit Required for Graduation: 71

Medical Assisting
CREDENTIAL: Diploma in Medical Assisting D45400

The Medical Assisting curriculum prepares multi-skilled health care professionals qualified to perform administrative, clinical, and laboratory procedures. Coursework includes instruction in scheduling appointments, coding and processing insurance accounts, billing, collections, computer operations; assisting with examinations/treatments, performing routine laboratory procedures, electrocardiography, supervised medication administration; and ethical/legal issues associated with patient care.

The Central Carolina Community College Medical Assisting Diploma Programs are accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of Medical Assisting Education Review Board (MAERB). Commission on Accreditation of Allied Health Education Programs 1361 Park Street Clearwater, FL 33756 727-210-2350 (www.caahep.org). Graduates of CAAHEP accredited medical assisting programs may be eligible to sit for the American Association of Medical Assistants’ Certification Examination to become Certified Medical Assistants. Employment opportunities include physicians’ offices, health maintenance organizations, health departments, and hospitals.

Limited Enrollment Curriculum:
The Medical Assisting program is a limited enrollment curriculum and program applicants are accepted based upon a selective admission process. Admission criteria for the Medical Assisting program are reviewed annually and are subject to change.

A. PROGRAM SPECIFIC ENTRANCE STANDARDS:

Admissions Process

A student can apply to the Medical Assisting program once eligibility requirements have been met. Prospective students must attend an information session prior to submitting an application to the Medical Assisting program. Applicants are required to contact the Medical Assisting Admissions Counselor to develop an Academic Plan, review progress, obtain a Medical Assisting Program Application and to be scheduled into an information session to confirm that all minimum requirements are met.

After an applicant has completed all general college admission requirements and all Medical Assisting entrance required criteria, he/she must submit a completed Medical Assisting Program Application. Applicants who have completed the Medical Assisting Program Application by the deadline will be ranked by tallied points and offered admission in order of ranking. A second date may be announced for additional applications to be considered for unfilled spaces. A student can apply to only one of the CCCC Health Sciences Programs during any selection time period. It is the applicants’ responsibility to ensure that requirements are met by the established deadline.

Official transcripts for completed courses must be submitted by application deadline.

Entrance Standards: See General Admission Standards in the electronic catalog (Gen. Info section).

Placement Test Scores
Placement testing and all necessary developmental courses must be taken prior to being eligible for official admittance into the Medical Assisting program. Acceptable placement tests are SAT, ACT, Asset, Compass, or Accuplacer and scores from any of these tests must be within five years. The rating sheet for the Medical Assisting program indicates the minimum scores required to place into ENG 111 and MAT 110. Students who meet Multiple Measures for Placement or who have earned appropriate transfer credit in English, Math, or developmental courses with a C or higher may be exempt from placement testing. Students placing into developmental courses must obtain a "P" grade in order to be eligible for official admittance.

GPA
Students must have a 2.0 on the last semester of coursework and a 2.5 cumulative GPA at the time of making application to the program. These necessary GPA requirements must be maintained at the time of entering program from a secondary or post-secondary institution.

TEAS (Test of Essential Academic Skills)
All required college placement tests or developmental courses must be successfully completed before the applicant may attempt the Test of Essential Academic Skills (TEAS). Students must obtain approval to take the TEAS and pay the required testing fee.
The TEAS will be administered on scheduled testing dates. Each applicant may take the exam three times within three years. Only the two most recent attempts will be used towards the selective admissions process. Students can complete remediation between attempts. Remediation options are as follows: developmental courses, college credit courses, and/or continuing education courses or other strategies related to the subject areas. TEAS scores are valid for three years and must be current when submitting a Medical Assisting Programs application. There is no minimum score required, but the percentage correct in the areas of Math, Reading, English and Science will be used for admissions consideration.

The Test of English as a Foreign Language (TOEFL) TOEFL scores are required for any naturalized or non-US citizens where English is their second language to provide evidence of adequate proficiency in the English language. All test scores must be less than five years old. The minimum acceptable TOEFL scores are based upon format: paper/pencil – 500, computer based – 213, and internet based – 80. This test is offered at multiple testing sites nationally and is at the student’s expense.

B. REQUIREMENTS AFTER ACCEPTANCE:

Criminal Background Check/Drug Screening
A criminal background check and drug screening will be required for all accepted Health Sciences students 30 days prior to clinical rotations or work based learning. Clinical affiliates will review criminal background reports and drug screenings of students and reserve the right to accept or deny any students based on their consideration of these reports. Negative reports and/or failed screenings can preclude a student from attending the clinical portion of their prescribed program and thus, will result in the student’s exit from the program. Students are subject to drug screening at any time during a clinical rotation.

Medical Forms/Immunizations
Applicants are required to submit a completed college approved student medical health form to the Medical Assisting Program Director at least 30 days prior to the first semester. The student medical form must include satisfactory health history, physical examination, and immunization report. Failure to submit a completed medical form will result in loss of Medical Assisting admission status and class space will be assigned to another applicant. Students will not be permitted to participate in lab/clinic/externship without having submitted a completed medical form and appropriate immunizations.

Adult/Infant/Child/AEDCPR
CPR Certification by the American Heart Association (AHA) in Adult-Infant-Child CPR and AED for Healthcare Providers that includes both performance and testing of criteria is required prior to clinical rotations. No student will be able to attend clinical rotation without proof of completion and current AHA Health Care Provider CPR. Students are responsible for keeping CPR current through the duration of the program. Proof of active CPR is to be submitted 30 days prior to clinical rotation.

Mandatory Acceptance Session
Accepted students must attend a mandatory orientation session with the Medical Assisting Program.

Liability/Malpractice Insurance
Insurance fees must be paid to the Business Office before entry into the program and each subsequent year enrolled.

Transportation/Additional Class/Course Materials
Health Sciences students are responsible for their own transportation to off-campus clinical/learning sites. Materials other than textbooks will be required and are purchased at student’s expense.

Technical Standards
The Health Sciences programs are physically demanding. Students will be expected to perform lifting, pushing, pulling, and carrying tasks to successfully practice in a lab setting, complete clinical affiliations, and safely treat patients. For more details, please refer to each program of study’s physical requirements and technical standards.

Accommodations
The College has a legal obligation to provide appropriate accommodations for students with documented disabilities. If you have a disability and are seeking accommodations, you should contact the Special Populations Department. Student should initiate this process as soon as possible (prior to the start of classes).

Academic Standards
Upon official acceptance, Health Sciences students are required to maintain the necessary GPA requirements for entry. Students cannot enter a Health Sciences program while on academic probation or suspension. Health Sciences students must achieve a grade of "C" or higher in their Health Science courses. Students may withdraw or be withdrawn from a Health Sciences course. However, the student will not be allowed to matriculate through their program of study. Reaplication to the program will be required and readmission will be awarded based on admissions criteria completion, policy on readmission, and space availability. Students completing readmission must meet with the Admissions Counselor to review their file.

Program Specific Academic Standards:
See additional Program Specific Standards in the Medical Assisting Student Handbook and specific Medical Assisting course syllabus.

Medical Assisting and progressive related courses must be taken in succession as they appear in the catalog. Medical Assisting students must adhere to the other policies set forth in the Medical Assisting Student Handbook.
C. RE-ADMISSION OR TRANSFER INTO THE MEDICAL ASSISTING PROGRAM:

The student must qualify under the admission criteria in effect at time of re-admission or transfer. A student may be required to re-enter a Medical Assisting course earlier in the curriculum sequence if the student is lacking major content as evaluated by the Program Director. All Medical Assisting courses completed more than 3 years prior to re-admission or transfer must be repeated. Withdrawal or academic failure within the Medical Assisting program will require the student to reapply as a new student. Advanced placement is dependent upon space availability.

The Medical Assisting Program Director will evaluate transferability of all Medical Assisting courses. Transfer courses must be equivalent to courses required at the receiving college in both theory and clinical experiences. The student must provide copies of course syllabi and outlines for those Medical Assisting courses taken to the Program Director. Students lacking essential content may be required to audit a portion of a course, challenge the content, demonstrate skills or repeat the course as deemed necessary. The final decision for transfer credit for Medical Assisting courses is determined by the Medical Assisting Program Director.

Applicants must submit a letter explaining the circumstances of any previous exit from any health science program. The letter must be sent from the previous Program Director. CCCC’s Medical Assisting Program Program Director and Vice President of Student Services must approve students who were dismissed, expelled, or suspended for any reason. Students who withhold previous exit information may be dismissed from the program. A remediation plan may be required.

Program Length: 3 semesters

Total Semester Hours Credit Required for Graduation: 45

Nurse Aide
Credential: Nurse Aide Certificate C45480

The Nurse Aide curriculum prepares individuals to work under the supervision of licensed health care professionals in providing nursing care and services for clients of all ages.

Course work emphasizes personal care, vital signs, communication, nutrition, medical asepsis, catheterization, tracheostomy care, dressing changes, oxygen therapy, and the legal scope of practice for Nurse Aides.

Graduates of this curriculum may be eligible to be listed on the registry as a Nurse Aide I and Nurse Aide II and will satisfy the Prior Health Care Program completion requirement specified in the selective admission process for CCCC’s Practical Nursing and Associate Degree Nursing programs. Graduates may be employed in home health agencies, hospitals, clinics, nursing homes, extended care facilities, and doctors’ offices.

Prerequisites: CPR Certification, TB Screening, and Vaccinations required 2 weeks prior to first day of class.

Clinical Affiliation Requirements: The contract between CCCC and a clinical agency requires that the college abide by the existing rules and regulations of the agency. The college follows agency protocol regarding drug screening and criminal background checks. Clinical contracts require that every student submit to and complete a medical form through own healthcare provider and a multi-state criminal background check and urine drug screen through designated vendors. If a clinical site denies a student clinical affiliation due to results of either of these requirements, the student will not be able to meet the program/course requirements and progression in the program will be limited.

Program Length: 2 semesters

B. Other Major Hours (0 SHC)

Total Semester Hours Credit Required for Graduation: 15

Practical Nursing Credential: Diploma in Practical Nursing D45660

The Practical Nursing curriculum provides knowledge and skills to integrate safety and quality into nursing care to meet the needs of the holistic individual which impact health, quality of life, and achievement of potential. Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes safe, individualized nursing care and participation in the interdisciplinary team while employing evidence-based practice, quality improvement, and informatics.

Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-PN) which is required for practice as a Licensed Practical Nurse. Employment opportunities include hospitals, rehabilitation/long term care/home health facilities, clinics, and physicians’ offices.

Limited Enrollment Curriculum:

The Practical Nursing program is a limited enrollment curriculum and program applicants are accepted based upon a selective admissions process. Admission criteria for the Practical Nursing program are reviewed annually and are subject to change. Enrollment is limited to the number of approved spaces allocated by the North Carolina Board of Nursing.

A. PROGRAM SPECIFIC ENTRANCE STANDARDS:

Admission

A student can apply to the Practical Nursing program once eligibility requirements have been met. Prospective students must attend an information session prior to submitting an application to the Practical Nursing program. Applicants are required to contact the Practical Nursing Admissions Counselor to develop an Academic Plan, review progress, obtain a Practical Nursing Program Application and to be scheduled into an information session to confirm that all minimum requirements are met.

After an applicant has completed all general college admission requirements and all Practical Nursing entrance required criteria, he/she must submit a completed Practical Nursing Program Application. Applicants who have completed the Practical Nursing Program Application by the deadline will be ranked by tallied points and offered admission in order of ranking. A second date may be announced for additional applications to be considered for unfilled spaces.

A student can apply to only one of the CCCC Health Sciences Programs during any designated selection time period. It is the applicants’ responsibility to ensure that requirements are met by the established deadline.

Entrance Standards: See General Admission Standards in the electronic catalog (Gen. Info section).

Placement Test Scores

Placement testing and all necessary developmental courses must be taken prior to being eligible for official admittance into the Practical Nursing program. Acceptable placement tests are SAT, ACT, Asset, Compass, or Accuplacer and scores from any of these tests must be within five years.

The rating sheet for the Nursing programs indicates the minimum scores required to place into ENG 111 and MAT 110. Students who meet Multiple Measures for Placement or who have earned appropriate transfer credit in English, Math, or developmental courses with a C or higher may be exempt from placement testing. Students placing into developmental courses must obtain a “P” grade in order to be eligible for official admittance.

GPA

Students must have a 2.0 on the last semester of coursework and a 2.5 cumulative GPA at the time of making application to the program. These necessary GPA requirements must be maintained at the time of entering program from a secondary or post-secondary institution.

TEAS (Test of Essential Academic Skills)

All required college placement tests or developmental courses must be successfully completed before the applicant may attempt the Test of Essential Academic Skills (TEAS). Students must obtain approval to take the TEAS and pay the required testing fee.

The TEAS will be administered on scheduled testing dates. Each applicant may take the exam three times within three years. Only the two most recent attempts will be used towards the selective admissions process. Students can complete remediation between attempts. Remediation options are as follows: developmental courses, college credit courses, and/or continuing education courses or other
strategies related to the subject areas. TEAS scores are valid for three years and must be current when submitting an application. The composite score of 49 must be obtained to be eligible for admission.

Pre-requisite Biology and Math
Applicants must have completed Biology and Algebra to submit a Health Sciences Program application. Biology, and Algebra must be taken within the last five years with a grade of “C” or better.

Biology= developmental, or college level BIO course (example: BIO 090, 094, BIO 110, BIO 111, BIO 163)
Algebra=high school, developmental or college level Algebra course (example: MAT 110 or higher)

Official transcripts for completed courses must be submitted by application deadline.

The Test of English as a Foreign Language (TOEFL)
TOEFL scores are required for any naturalized or non-US citizens where English is their second language to provide evidence of adequate proficiency in the English language. All test scores must be less than five years old. The minimum acceptable TOEFL scores are based upon format: paper/pencil – 500, computer based – 213, and internet based – 80. This test is offered at multiple testing sites nationally and is at the student’s expense.

Prior Health Care Program Completion
Prior Health Care Program completion with appropriate listing/licensure is required for consideration at the designated entry points in the nursing programs:

a) Provide proof of successful completion of a state approved Nurse Aide I Training in Competency Evaluation Program and active listing on the North Carolina Department of Health and Human Services (NC DHHS) Nursing Assistant I Registry with no substantiated finding of abuse, neglect, or misappropriation of resident property in a nursing home or other health care facility.

b) This active, non-restricted listing must be maintained throughout the application process. NC DHHS-approved NAI courses are preferred, however the CCCC Nursing Department Chair will determine, on a case-by-case basis, if a course administered by another state or agency meets the requirement.

B. REQUIREMENTS AFTER ACCEPTANCE:

Criminal Background Check/Drug Screening
A criminal background check and drug screening will be required for all accepted Health Sciences students 30 days prior to clinical rotations or work based learning. Clinical affiliates will review criminal background reports and drug screenings of students and reserve the right to accept or deny any students based on their consideration of these reports. Negative reports and/or failed screenings can preclude a student from attending the clinical portion of their prescribed program and thus, will result in the student’s exit from the program. Students are subject to drug screening at any time during a clinical rotation. Clinical agencies reserve the right to require additional background checks and urine drug screens.

Medical Forms/Immunizations
Applicants are required to submit a completed college approved student medical health form to the Nursing Program Director at least 30 days prior to the first semester. The student medical form must include satisfactory health history, physical examination, and immunization report. Failure to submit a completed medical form will result in loss of Practical Nursing admission status and class space will be assigned to another applicant. Students will not be permitted to participate in lab/clinic/externship without having submitted a completed medical form and appropriate immunizations.

Adult/Infant/Child/AED CPR
CPR Certification by the American Heart Association (AHA) in Adult-Infant-Child CPR and AED for Healthcare Providers that includes both performance and testing of criteria is required prior to clinical rotations. No student will be able to attend clinical rotation without proof of completion and current AHA Health Care Provider CPR. Students are responsible for keeping CPR current through the duration of the program. Proof of active CPR is to be submitted 30 days prior to clinical rotation.

Mandatory Acceptance Session
When notified of acceptance, applicants must attend a mandatory orientation session with the Practical Nursing department.

Liability/Malpractice Insurance
Insurance fees must be paid to the Business Office before entry into the program and each subsequent year enrolled.

Transportation/Additional Class/Course Materials
Health Sciences students are responsible for their own transportation to off-campus clinical/learning sites. Materials other than textbooks will be required and are purchased at student’s expense. Students may be required to attend classes on alternate dates depending on availability of resources to meet the objectives of the course. Students will be notified in advance at the earliest possible time.

Technical Standards
The Health Sciences programs are physically demanding. Students will be expected to perform lifting, pushing, pulling, and carrying tasks to successfully practice in a lab setting, complete clinical affiliations, and safely treat patients. For more details, please refer to each program of study's physical requirements and technical standards.
Accommodations
The College has a legal obligation to provide appropriate accommodations for students with documented disabilities. If you have a disability and are seeking accommodations, you should contact the Special Populations Department. Student should initiate this process as soon as possible (prior to the start of classes).

Board of Nursing Standards
Students who enroll in the nursing program should be aware that the application for licensure at the completion of the program might be denied or restricted by the North Carolina Board of Nursing. As the regulatory agency, the Board of Nursing does not become involved in reviewing the applicant’s conviction record until such time as application is made to take the national licensure examination.

http://www.ncbon.com/dcp/licensurelisting-criminal-background-checks-cbc-requirements

Academic Standards
Upon official acceptance, Health Sciences students are required to maintain the necessary GPA requirements for entry. Students cannot enter a Health Sciences program while on academic probation or suspension. Health Sciences students must achieve a grade of “C” or higher in their Health Science courses. Students may withdraw or be withdrawn from a Health Sciences course. However, the student will not be allowed to matriculate through their program of study. Reapplication to the program will be required and readmission will be awarded based on admissions criteria completion, policy on readmission, and space availability. Students completing readmission must meet with the Admissions Counselor to review their file.

Program Specific Academic Standards
See additional Program Specific Standards in the Nursing Student Policies Handbook and specific Practical Nursing course syllabus.

Practical Nursing and progressive related courses must be taken in succession as they appear in the catalog. Practical Nursing students must adhere to the other policies set forth in the Nursing Student Policies Handbook.

Nursing curriculum students once enrolled must maintain an overall and semester grade point average of 2.0 or better, and must have a grade of “C” or better in all nursing courses and co-requisites. Students are encouraged to earn higher grades to help ensure that they are prepared to pass the National Council Licensure Examination (NCLEX), which is required to practice as a nurse.

C. RE-ADMISSION OR TRANSFER INTO THE PRACTICAL NURSING PROGRAM
The student must qualify under the admission criteria in effect at time of re-admission or transfer. A student may be required to re-enter a Practical Nursing course earlier in the curriculum sequence if the student is lacking major content. All Practical Nursing courses completed more than 3 years prior to re-admission or transfer must be repeated.
Withdrawal or academic failure within the Practical Nursing Program will require the student to reapply as a new student. Advanced placement is dependent upon space availability.
The Nursing Department Chair will evaluate transferability of all Practical Nursing courses. Transfer courses must be equivalent to courses required at the receiving college in both theory and clinical experiences. The student must provide copies of course syllabi and outlines for those Practical Nursing courses to the department chairperson.
Students lacking essential content may be required to audit a portion of a course, challenge the content, demonstrate skills, or repeat the course as deemed necessary. The final decision for transfer credit for Practical Nursing courses is determined by the Nursing Department Chair.

Applicants must submit a letter explaining the circumstances of any previous exit from any health sciences program. The letter must be sent from the previous Program Director. CCCC’s Nursing Department Chair and Vice President of Student Services must approve students who were dismissed, expelled, or suspended for any reason.
Students who withhold previous exit information may be dismissed from the program. A remediation plan will be required.

Veterinary Medical Technology
Credential: Associate in Applied Science
Degree in Veterinary Medical Technology
A45780

The Veterinary Medical Technology curriculum prepares individuals to assist veterinarians in preparing animals, equipment, and medications for examination and surgery; collecting specimens; performing laboratory, radiographic, anesthetic, and dental procedures; assisting in surgery; and providing proper husbandry of animals and their environment.

Course work includes instruction in veterinary anatomy, nutrition, parasitology, pathology, physiology, radiology, terminology, zoology, office practices, laboratory techniques, dentistry, and small and large animal clinical practices. Students also take courses in English, humanities, psychology, mathematics and chemistry.

Graduates who meet eligibility requirements will be eligible to take the Veterinary Technician National Exam (VTNE) administered by American Association of Veterinary State Boards (AAVSB). Upon passing the VTNE and meeting eligibility requirements, graduates may then be eligible to take the North Carolina Veterinary Technician Exam administered by the North Carolina Veterinary Medical Board. Graduates may be employed in veterinary clinics; diagnostic, research, or pharmaceutical laboratories; zoos; academic institutions; or other areas associated with animal care.

Limited Enrollment Curriculum:
The Veterinary Medical Technology program is a limited enrollment curriculum and program applicants are accepted based upon a selective admission process. Admission criteria for the Veterinary Medical Technology program are reviewed annually and are subject to change.

A. PROGRAM SPECIFIC ENTRANCE STANDARDS:

Admissions Process:
A student can apply to the Veterinary Medical Technology program once eligibility requirements have been met. Prospective students must attend a mandatory information session prior to submitting an application to the Veterinary Medical Technology program. Applicants are required to contact the Veterinary Medical Technology Programs Admissions Counselor to obtain a Veterinary Medical Technology Program Application and current set of Veterinary Medical Technology Admission Guidelines, and to be scheduled into a mandatory information session.

After an applicant has completed all general college admission requirements and all Veterinary Medical Technology entrance required criteria, he/she must submit a completed Veterinary Medical Technology Program Application. Applicants who have completed the Veterinary Medical Technology Program Application by the deadline will be ranked by tallied points and offered admission in order of ranking. A second date may be announced for additional applications to be considered for unfilled spaces. A student can apply to only one of the CCCC Health Sciences Programs during any designated selection time period. It is the applicants' responsibility to ensure that they are aware of all regulations and that all requirements are met by the established deadline.

Entrance Standards: See General Admission Standards in the electronic catalog (Gen. Info section).

Placement Test Scores
Placement testing and all necessary developmental courses must be taken prior to being eligible for official admittance into the Veterinary Medical Technology program. Acceptable placement tests are SAT, ACT, Asset, Compass, or Accuplacer and scores from any of these tests must be within five years.

Students must have a 2.0 on the last semester of coursework and a 2.5 cumulative GPA at the time of making application to the program. These necessary GPA requirements must be, maintained at the time of entering program from a secondary or post-secondary institution.

TEAS (Test of Essential Academic Skills)
All required college placement tests or developmental courses must be successfully completed before the applicant may attempt the Test of Essential Academic Skills (TEAS). Students must obtain approval to take the TEAS and pay the required testing fee.

The TEAS will be administered on scheduled testing dates. Each applicant may take the exam three times within three years. Only the two most recent attempts will be used towards the selective admissions process. Students can complete remediation between attempts. Remediation options are as follows: developmental courses, college credit courses, and/or continuing education courses or other strategies related to the subject areas. TEAS scores are valid for three years and must be current when submitting a Veterinary Medical Technology Program application. There is no minimum score required, but the percentage correct in the areas of Math, Reading, English and Science will be used for admissions consideration.
Pre-requisite Biology

Applicants must have completed a high Biology course to submit a Veterinary Medical Technology Program Application. Each course must be taken within the last five years with a grade “C” or better.

Biology = high school, developmental, or college level BIO course
(example: BIO 094, BIO 110, BIO 111, BIO 163, BIO 175, BIO 180)

Official transcripts for completed courses must be submitted by application deadline.

The Test of English as a Foreign Language (TOEFL)
TOEFL scores are required for any naturalized or non-US citizens where English is their second language to provide evidence of adequate proficiency in the English language. All test scores must be less than five years old. The minimum acceptable TOEFL scores are based upon format: paper/pencil – 500, computer based – 213, and internet based – 80. This test is offered at multiple testing sites nationally and is at the student’s expense.

Observation Hours
Forty hours of observation/work/voluntary experience in the Veterinary Medical Technology field is required. Observation form must be obtained from the Veterinary Medical Technology Program admissions counselor.

B. REQUIREMENTS AFTER ACCEPTANCE:

Criminal Background Check/Drug Screening
A criminal background check and drug screening will be required for all accepted Health Sciences students 30 days prior to clinical rotations or work based learning. Clinical affiliates will review criminal background reports and drug screenings of students and reserve the right to accept or deny any students based on their consideration of these reports. Negative reports and/or failed screenings can preclude a student from attending the clinical portion of their prescribed program and thus, will result in the student’s exit from the program. Students are subject to drug screening at any time during a clinical rotation.

Medical Forms/Immunizations
Applicants are required to submit a completed college approved student medical health form to the Veterinary Medical Technology Department Chair at least 30 days before entering the program. The student medical form must include satisfactory health history, physical examination, and immunization report. Failure to submit a completed medical form will result in loss of Veterinary Medical Technology admission status and class space will be assigned to another applicant. NO student will be permitted to participate in clinics without having submitted a completed medical form.

**Rabies series recommended prior to first Fall semester.

Mandatory Acceptance Session
When notified of acceptance, applicants must attend a mandatory orientation session with the Veterinary Medical Technology department.

Liability/Malpractice Insurance
Insurance fees must be paid to the Business Office before entry into the program and each subsequent year enrolled.

Transportation/Additional Class/Course Materials
Health Sciences students are responsible for their own transportation to off-campus clinical/learning sites. Materials other than textbooks will be required and are purchased at student’s expense.

Technical Standards
The Health Sciences programs are physically demanding. Students will be expected to perform lifting, pushing, pulling, and carrying tasks to successfully practice in a lab setting, complete clinical affiliations, and safely treat patients. For more details, please refer to each program of study’s physical requirements and technical standards.

Accommodations
The College has a legal obligation to provide appropriate accommodations for students with documented disabilities. If you have a disability and are seeking accommodations, you should contact the Special Populations Department. Student should initiate this process as soon as possible (prior to the start of classes).

Academic Standards
Upon official acceptance, Health Sciences students are required to maintain the necessary GPA requirements for entry. Students cannot enter a Health Sciences program while on academic probation or suspension. Health Sciences students must achieve a grade of "C" or higher in their Health Science courses. Students may withdraw or be withdrawn from a Health Sciences course. However, the student will not be allowed to matriculate through their program of study. Reapplication to the program will be required and readmission will be awarded based on admissions criteria completion, policy on readmission, and space availability. Students completing readmission must meet with the Admissions Counselor to review their file.

Program Specific Academic Standards: See the Veterinary Medical Technology Student Handbook and specific Veterinary Medical Technology course syllabi.

Veterinary Medical Technology students must maintain an overall and semester GPA 2.0 or better, and must have a grade of “C” or better in all courses required by the Veterinary Medical Technology curriculum. Veterinary Medical Technology and progressive related courses must be taken in succession as they appear in the catalog. Veterinary Medical Technology students must meet the
standards related to demonstration of emotional and physical health within the framework of Veterinary Medical Technology practice and must adhere to the other policies set forth in the Veterinary Medical Technology Student Policies and Procedures Manual. Veterinary Medical Technology students must not be on probation or suspension status.

C. RE-ADMISSION OR TRANSFER INTO THE VETERINARY MEDICAL TECHNOLOGY PROGRAM

The student must qualify under the admission criteria in effect at time of re-admission or transfer. A student may be required to re-enter a Veterinary Medical Technology course earlier in the curriculum sequence if the student is lacking major content. All Veterinary Medical Technology courses completed more than 3 years prior for re-admission or transfer must be repeated. Withdrawal or academic failure within the Veterinary Medical Technology program will require the student to reapply as a new student. Advanced placement is dependent upon space availability.

The Veterinary Medical Technology Department Chair will evaluate transferability of all Veterinary Medical Technology courses. Transfer courses must be equivalent to courses required at the receiving college in both theory and clinical experiences. The student must provide copies of course syllabi and outlines for those Veterinary Medical Technology courses taken to the department chairperson. Students lacking essential content may be required to audit a portion of a course, challenge the content, demonstrate skills, or repeat the course as deemed necessary. The final decision for transfer credit for Veterinary Medical Technology courses is determined by the Veterinary Medical Technology Department Chair.

Applicants must submit a letter explaining the circumstances of any previous exit from any health science program. The letter must be sent from the Program Director at the former institution. CCCC’s Veterinary Medical Technology Department Chair and Vice-President of Student Services must approve students who were dismissed, expelled, or suspended for any reason. Students who withhold previous exit information may be dismissed from the program. A remediation plan may be required.

Students are not allowed to enter the VMT curriculum more than twice (i.e., only one readmission into the VMT program is allowed.)

Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science in Veterinary Medical Technology

Total Semester Hours Credit Required for Graduation: 71

Therapeutic and Diagnostic Services: Nurse Aide (Pre-Nursing)
Credential: Diploma in Therapeutic and Diagnostic Services: Nurse Aide
D45970

This curriculum is designed to prepare students for careers in Health Sciences. Students will complete general education courses that provide a foundation for success in nursing and allied health curricula. Students may select a career pathway that will prepare them for an entry level position in health care. Courses may also provide foundational knowledge needed in the pursuit of advanced health science degrees or programs. Graduates should qualify for an entry-level job associated with the program major.
The Nurse Aide curriculum prepares individuals to work under the supervision of licensed nursing professionals in performing nursing care and services for persons of all ages. Topics include growth and development, personal care, vital signs, communication, nutrition, medical asepsis, therapeutic activities, accident and fire safety, household environment and equipment management, family resources and services and employment skills. Upon completion, the student may be eligible for listing as a Nurse Aide I and other selected Nurse Aide registries as determined by the local program of study.

TB Screening, and Vaccinations required 2 weeks prior to first day of class.

Clinical Affiliation Requirements: The contract between CCCC and a clinical agency requires that the college abide by the existing rules and regulations of the agency. The college follows agency protocol regarding drug screening and criminal background checks. Clinical contracts require that every student submit to and complete a medical form through own healthcare provider and a multi-state criminal background check and urine drug screen through designated vendors. If a clinical site denies a student clinical affiliation due to results of either of these requirements, the student will not be able to meet the program/course requirements and progression in the program will be limited.

Program Length: 3 semesters
Career Pathway Options: Nurse Aide Certificate; Practical Nursing Diploma; Associate in Applied Science Degree in Associate Degree Nursing
Program Sites: Lee Campus—Day/Evening/Weekend

Total Semester Hours Credit Required for Graduation: 46

Arts and Sciences (College Transfer)
Associate in Arts (AA)
Credential: Associate in Arts Degree A1010000

The Associate in Arts degree allows students to earn a minimum of 60 semester hours of credit (SHC) of college transfer courses in and offers opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use. Courses are approved for transfer through the Comprehensive Articulation Agreement (CAA). The CAA enables North Carolina community college graduates of two-year associate in arts programs who are admitted to constituent institutions of The University of North Carolina to transfer with junior status.

Graduates must obtain a grade of “C” or better in each course and an overall GPA of at least 2.0 on a 4.0 scale in order to transfer with a junior status. Courses may also transfer through bilateral agreements between institutions.

Program Length: 4 semesters
Career Pathway Options: Associate in Arts Degree, Baccalaureate Degree at a Senior Institution
Program Sites:
Lee Campus – Day, 1st and 2nd Year, Evening, 1st and 2nd Year
Chatham Campus – Day, 1st and 2nd Year, Evening, 1st and 2nd Year
Harnett Campus – Day, 1st and 2nd Year, Evening, Selected Courses
Distance Education - 1st and 2nd Year - All Campuses

III. Other Required Hours (15 SHC)
In addition to ACA 122 and 2 SHC of PED, 12 SHC can be selected from the UGETC and General Education courses listed above and any courses classified Pre-Major/Elective (listed below) in the Comprehensive Articulation Agreement. Students are advised to select courses based on intended major and senior institution requirements. Students must meet the receiving university’s foreign language, health and physical education requirements, if applicable, prior to or after transfer to the senior institution. Students need to complete two courses in foreign language if two semesters or more if a foreign language was not taken in high school.

ACA 122 College Transfer Success 1-0-1
ACC 120 Principles of Financial Accounting 3-2-4
ACC 121 Principles of Managerial Accounting 3-2-4

Total Semester Credit Hours Required for Degree: 60/61 SHC
**Associate in Fine Arts (AFA)**

**Credential: Associate in Fine Arts Degree**

A1020000

The course work in the Associate in Fine Arts program includes literature, humanities, social/behavioral science, mathematics, and natural science. Graduates should possess a sound fundamental knowledge of the fine arts and basic experience in practicing the fine arts. The Associate in Fine Arts program focuses heavily on the fine arts and is recommended for those who plan to continue a Bachelor of Fine Arts degree program. Two concentrations are offered: Focus in Art and Focus in Drama.

The Associate in Fine Arts program is comprised of courses approved for transfer through the Comprehensive Articulation Agreement between the North Carolina Community College System and the University of North Carolina system. Courses may also transfer through bilateral agreements between institutions. Courses offered through bilateral agreements may not transfer to all receiving institutions. Upon completion of the program, the student will receive an Associate in Fine Arts degree.

Program Length: 4 semesters

Career Pathway Options: Associate in Fine Arts Degree; Baccalaureate Degree at a Senior Institution

Program Sites: Chatham Campus, Day, 1st and 2nd Year

**Total Semester Credit Hours Required for Degree:** 65/66 SHC
Arts and Sciences (College Transfer)  
**Associate in General Education (AGE)**  
Credential: Associate in General Education Degree  
A1030000

The Associate in General Education degree is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development.

Course work includes study in the areas of humanities and fine arts, social and behavioral sciences, natural sciences and mathematics, and English composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided.

Through these skills, students will have a sound base for lifelong learning. The addition of other major hours within the program of study provides students with the opportunity to enjoy progressive advancement in a field of study, the integration of knowledge, and growth in critical skills. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities. Students who decide to continue their studies at a senior institution may receive transfer credit for many of the general education courses taken. Acceptance of courses for transfer credit will be evaluated on a course-by-course basis by the receiving institution.

Program Length: 4 semesters  
Career Pathway Options: Associate in General Education Degree  
Program Sites:  
Lee Campus – Day, 1st and 2nd Year, Evening, 1st and 2nd Year  
Chatham Campus – Day, 1st and 2nd Year, Evening, 1st and 2nd Year  
Harnett Campus – Day, 1st and 2nd Year, Evening, 1st and 2nd Year  
Distance Education - 1st and 2nd Year - All Campuses

Course Requirements for Associate General Education Degree

I. General Education (44 SHC)  
A. English Composition (6 SHC)  
ENG 111 Writing and Inquiry C-L-CR  
and ENG 112 Writing/Research in the Disciplines OR  
ENG 113 Literature-Based Research OR  
ENG 114 Professional Research and Reporting

B. Humanities/Fine Arts (3 SHC)  
Select one course from the A.G.E approved humanities and fine arts general education courses in the following areas:

- ART 111* Art Appreciation 3-0-3  
- ART 114* Art History Survey I 3-0-3  
- ART 115* Art History Survey II 3-0-3  
- ART 117 Non-Western Art Survey 3-0-3  
- CHI 111 Elementary Chinese I 3-0-3

- HUM 120 Cultural Studies 3-0-3  
- HUM 122 Southern Culture 3-0-3  
- HUM 150 American Women’s Studies 3-0-3  
- HUM 160 Introduction to Film 2-2-3  
- HUM 220 Human Values and Meaning 3-0-3  
- MUS 110* Music Appreciation 3-0-3  
- MUS 112* Introduction to Jazz 3-0-3  
- PHI 210 History of Philosophy 3-0-3  
- PHI 215* Philosophical Issues 3-0-3  
- PHI 240* Introduction to Ethics 3-0-3  
- REL 110 World Religions 3-0-3  
- REL 211 Introduction to Old Testament 3-0-3  
- REL 212 Introduction to New Testament 3-0-3  
- SPA 111 Elementary Spanish I 3-0-3  
- SPA 112 Elementary Spanish II 3-0-3  
- SPA 211 Intermediate Spanish I 3-0-3  
- SPA 212 Intermediate Spanish II 3-0-3

C. Social and Behavioral Sciences (3 SHC)  
Select one course from the A.G.E approved social and behavioral sciences general education courses in the following areas: anthropology (ANT), economics (ECO), geography (GEO), history (HIS), political science (POL), psychology (PSY), and sociology (SOC).

- AN 210 General Anthropology 3-0-3  
- ANT 220 Cultural Anthropology 3-0-3  
- ECO 151 Survey of Economics 3-0-3  
- ECO 251 Principles of Microeconomics 3-0-3  
- ECO 252 Principles of Macroeconomics 3-0-3  
- GEO 111 World Regional Geography 3-0-3  
- HIS 111* World Civilizations I 3-0-3

83
D. Natural Sciences (4 SHC)
Select one course from the approved general education core in the following areas:

- AST 111* Descriptive Astronomy 3-0-3
- AST 111A* Descriptive Astronomy Lab 0-2-1
- AST 151* General Astronomy I 3-0-3
- AST 151A* General Astronomy I Lab 0-2-1
- BIO 110* Principles of Biology 3-3-4
- BIO 111* General Biology I 3-3-4
- BIO 112* General Biology II 3-3-4
- BIO 120 Introductory Botany 3-3-4
- BIO 130 Introductory Zoology 3-3-4
- BIO 140 Environmental Biology 3-0-3
- BIO 140A Environmental Biology Lab 0-3-1
- CHM 131 Introduction to Chemistry 3-0-3
- CHM 131A Introduction to Chemistry Lab 0-3-1
- CHM 151* General Chemistry I 3-3-4
- CHM 152* General Chemistry II 3-3-4
- GEL 111 Introductory Geology 3-2-4
- GEL 113 Historical Geology 3-2-4
- PHY 110* Conceptual Physics 3-0-3
- PHY 110A* Conceptual Physics Lab 0-2-1
- PHY 151* College Physics I 3-2-4
- PHY 152* College Physics II 3-2-4
- PHY 251* General Physics I 3-3-4
- PHY 252* General Physics II 3-3-4

E. Mathematics (6 SHC)
Select at least one course in introductory mathematics; the other unit may be selected from other quantitative subjects, such as computer science and statistics.

- CIS 110 Introduction to Computers 2-2-3
- CIS 115 Introduction to Programming and Logic 2-2-3
- MAT 143* Quantitative Literacy 2-2-3
- MAT 152* Statistical Methods I 3-2-4
- MAT 171* Precalculus Algebra 3-0-3
- MAT 172* Precalculus Trigonometry 3-0-3
- MAT 263* Brief Calculus 3-0-3
- MAT 271* Calculus I 3-2-4
- MAT 272 Calculus II 3-2-4
- MAT 273 Calculus III 3-2-4

II. Other Major Hours Required for Graduation (49-50 SHC)*
Select 49-50 SHC from any college level course published in the Central Carolina Community College catalog numbered 100 or above, except those with a WBL prefix. In selecting courses in this category, students are advised to follow course sequences within one or more disciplines that allow for progressive advancement in a field of study, the integration of knowledge, and growth in critical skills. Students must satisfy all prerequisite requirements specified for a course and a maximum of 7 SHC in health, physical education, college orientation, and/or study skills may be used. Course prefixes found in the CCCC catalog that qualify for Other Major Hours include:

2015-2016 College Catalog – Central Carolina Community College
Associate in Science (AS)
Credential: Associate in Science Degree A1040000

The Associate in Arts degree allows students to earn a minimum of 60 semester hours of credit (SHC) of college transfer courses in and offers opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use. Courses are approved for transfer through the Comprehensive Articulation Agreement (CAA). The CAA enables North Carolina community college graduates of two-year associate in arts programs who are admitted to constituent institutions of The University of North Carolina to transfer with junior status.

Graduates must obtain a grade of “C” or better in each course and an overall GPA of at least 2.0 on a 4.0 scale in order to transfer with a junior status. Courses may also transfer through bilateral agreements between institutions.

Program Length: 4 semesters
Career Pathway Options: Associate in Arts Degree, Baccalaureate Degree at a Senior Institution
Program Sites:
Lee Campus – Day, 1st and 2nd Year, Evening, 1st Year and selected courses in 2nd Year
Chatham Campus – Day, Evening, 1st Year and selected courses in 2nd Year
Harnett Campus – Day, Evening, 1st Year and selected courses in 2nd Year
Distance Education - 1st Year and selected courses in 2nd Year - All Campuses

Course Requirements for Associate in Science Degree
I. Universal General Education Transfer Component (UGETC) 34 SHC

A. Composition (6 SHC) C-L-CR
ENG 111 Writing and Inquiry 3-0-3
ENG 112 Writing and Research in the Disciplines 3-0-3

B. Humanities/Fine Arts/Communication (6 SHC)
Select courses from two of the following discipline areas: art, communications, music, literature, and philosophy.
ART 111 Art Appreciation 3-0-3
ART 114 Art History Survey I 3-0-3
ART 115 Art History Survey II 3-0-3
COM 231 Public Speaking 3-0-3
ENG 231 American Literature I 3-0-3
ENG 232 American Literature II 3-0-3
MUS 110 Music Appreciation 3-0-3
MUS 112 Introduction to Jazz 3-0-3
PHI 215 Philosophical Issues 3-0-3
PHI 240 Introduction to Ethics 3-0-3

C. Social and Behavioral Sciences (6 SHC)
Select courses from two of the following discipline areas:
economics, history, political science, psychology, and sociology. One course must be a history course.
ECO 251 Principles of Microeconomics 3-0-3
ECO 252 Principles of Macroeconomics 3-0-3
HIS 111 World Civilizations I 3-0-3
HIS 112 World Civilizations II 3-0-3
HIS 131 American History I 3-0-3
HIS 132 American History II 3-0-3
POL 120 American Government 3-0-3
PSY 150 General Psychology 3-0-3
SOC 210 Introduction to Sociology 3-0-3

D. Natural Sciences (8 SHC)
Select a two-semester course sequence (strongly recommended) in general biology, general chemistry or general physics (a-d) or a pair of the one-semester course combinations listed below (e-j). All courses must have a lab component.
a. BIO 111 General Biology I 3-0-3
   BIO 112 General Biology II 3-0-3
b. CHM 151 General Chemistry I 3-0-3
   CHM 152 General Chemistry II 3-0-3
c. PHY 151 College Physics I 3-2-4
   PHY 152 College Physics II 3-2-4
d. PHY 251 General Physics I 3-0-3
   PHY 252 General Physics II 3-0-3
e. AST 151 General Astronomy I 3-0-3
   AST 151A General Astronomy I Lab 0-2-1
   BIO 110 Principles of Biology 3-3-4
f. AST 151 General Astronomy I 3-0-3
   AST 151A General Astronomy I Lab 0-2-1
   GEL 111 Introductory Geology 3-2-4
g. AST 151 General Astronomy I 3-0-3
   AST 151A General Astronomy I Lab 0-2-1
   PHY 110 Conceptual Physics 3-0-3
   PHY 110A Conceptual Physics Lab 0-2-1
h. BIO 110 Principles of Biology 3-3-4
   GEL 111 Introductory Geology 3-2-4
   i. BIO 110 Principles of Biology 3-3-4
   PHY 110 Conceptual Physics 3-0-3
   PHY 110A Conceptual Physics Lab 0-2-1
   j. GEL 111 Introductory Geology 3-2-4
   PHY 110 Conceptual Physics 3-0-3
   PHY 110A Conceptual Physics Lab 0-2-1

E. Mathematics (8 SHC)
Select two courses in mathematics.
MAT 171 Precalculus Algebra 3-2-4
MAT 172 Precalculus Trigonometry 3-2-4
MAT 263 Brief Calculus 3-2-4
MAT 271 Calculus I 3-2-4

II. Additional General Education Hours (11 SHC)
Select additional courses from UGETC courses listed above or from the courses classified as General Education courses in the NCCCS Combined Course Library. Students are advised to select courses based on intended major and senior institution.
ANT 210 General Anthropology 3-0-3
BIO 120 Introductory Botany 3-3-4
BIO 130 Introductory Zoology 3-3-4
BIO 140 Environmental Biology 3-0-3
BIO 140A Environmental Biology Lab 0-3-1

III. Other Required Hours (15 SCH)
In addition to ACA 122 and 2 SCH of PED, 12 SCH can be selected from the UGETC and General Education courses listed above and any courses classified Pre-Major/Elective (listed below) in the Comprehensive Articulation Agreement. Students are advised to select courses based on intended major and senior institution requirements. Students must meet the receiving university’s foreign language, health and physical education requirements, if applicable, prior to or after transfer to the senior institution. Students need to complete two courses in foreign language if two semesters or more if a foreign language was not taken in high school.

ACA 122 College Transfer Success 1-0-1
ACC 120 Principles of Financial Accounting 3-2-4
ACC 121 Principles of Managerial Accounting 3-2-4

Total Semester Credit Hours Required for Degree: 60/61 SHC

**Business Technologies**

**Accounting**

**Credential: Associate in Applied Science**

**Degree in Accounting**

**A25100**

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the “language of business,” accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to coursework in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of Communication, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

Program Length: 4 semesters

Career Pathway Options: Associate in Applied Science Degree in Accounting

Program Sites: Lee County Campus - Day Program, Selected Evening; Distance Education

Business Administration
Credential: - Associate in Applied Science
Degree in Business Administration
(General Business Administration Track)
A25120

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today’s global economy.

Coursework includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small business or industry.

Business Administration
Credential: - Associate in Applied Science
Degree in Business Administration (Human Resource Management Track)
A25120

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today’s global economy.

Coursework includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small business or industry.

Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science Degree in Business Administration
Program Sites: Lee Campus - Day Program, Selected Evening Courses; Harnett Campus – Selected Daytime Courses; Distance Education

Healthcare Management Technology
Credential: Associate in Applied Science
Degree
A25200

The Healthcare Management Technology curriculum is designed to prepare students for employment in healthcare business and financial operations. Students will gain a comprehensive understanding of the application of management principles to the healthcare environment.

The curriculum places emphasis on planning, organizing, directing, and controlling tasks related to healthcare organizational objectives including the legal and ethical environment. Emphasis is placed on the development of effective communication, managerial, and supervisory skills.

Graduates may find employment in healthcare settings including hospitals, medical offices, clinics, long-term care facilities, and insurance companies. Graduates are eligible to sit for various certification exams upon completion of the degree with a combination of a minimum of two years administrative experience. Eligible certifications include, but are not limited to, the Professional Association of Healthcare Office Managers (PAHCOM), the Healthcare Financial Management Association (HFMA), the Certified Patient Account Manager (CPAM) and the Certified Manager of Patient Accounts (CMPA) examinations.

**Computer Information Technology Credential: Certificate in Database Programming C25260DP**
Computer Information Technology Credential: Software Specialist Certificate C25260SS

Students will be exposed to office applications at the intermediate and advanced level as well as database applications and operating systems at the entry-level. Student can choose between a Web development class and an entry-level programming class to complete the certificate. The primary emphasis of the curriculum is provide students with entry-level knowledge of computing applications.

Graduates should qualify for employment in business, industry, and government organizations as entry-level computer users.

Program Length: 2 semesters
Career Pathway Options: Associate in Applied Science Degree in Computer Information Technology (Higher entrance standards required), Diploma in Computer Information Technology (Higher entrance standards required), Certificate in Computer Information Technology.

Program Sites: Lee Campus - Day Program and Selected Evening Courses

Course Requirements for Software Specialist Certificate

I. General Education Academic Core (0 SHC) C-L-SHC

II. Major Hours (15 SHC)
A. Technical Core (6 SHC)
DBA 110 Database Concepts 2-3-3
NOS 110 Operating System Concepts 2-3-3

B. Program Major (3 SHC)
CIS 110 Introduction to Computers 2-2-3

C. Other Major Hours (6 SHC)

CTS 130 Spreadsheet Technical Elective 2-2-3
Technical Electives (Choose 3 SHC)
CSC 139 Visual Basic Programming 2-3-3
WEB 140 Web Development Tools 2-2-3

Total Semester Hours Credit: 15

Computer Information Technology Credential: Internet and Computing Core - IC3 Certificate C25260IC

Students will solve general computer problems through computer literacy techniques using appropriate learning methods and procedures. The primary emphasis of the curriculum is hands-on training in word processing applications, spreadsheet applications, presentation applications, database applications, basic computer concepts, networking concepts, Internet concepts and other related computer areas that provide the ability to adapt as information systems evolve. Once course requirements are met, students will be prepared to take the globally recognized IC3 Certification Exam offered by Certiport.

Graduates should qualify for employment in business, industry, and government organizations as entry-level computer users.

Entrance Standards: See General Admission Standards in catalog
Academic Standards: See General Academic Standards in catalog
Program Length: 2 semesters
Career Pathway Options: Associate in Applied Science Degree in Computer Information Technology (Higher entrance standards required), Diploma in Computer Information Technology (Higher entrance standards required), Certificate in Computer Information Technology
Sites: Lee Campus - Day and Evening Programs

Computer Information Technology
Credential: Computer Hardware/Troubleshooting Repair Certificate C25260HT

This certificate is designed for individuals interested in acquiring advanced technical skills and knowledge to maintain and repair personal computers. Students gain skills in selecting parts, upgrading, building, and configuring personal computers, and installing and configuring operating systems. Major topics include component identification, system configuration, memory, peripheral installation and configuration, device drivers, printers and communication devices, and troubleshooting and diagnostic techniques. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers. This certificate is designed to prepare students for the A+ Certification Examinations offered by CompTIA (Certified Hardware Technician).

Graduates should qualify for employment in business, industry, and government organizations as entry-level PC technicians, helpdesk technicians, or any generalist computer technician.

Program Length: 2 semesters
Career Pathway Options: Associate in Computer Information Technology or Networking Technology
Program Sites: Lee Campus – Day and Night Programs

Medical Office Administration
Credential: Associate in Applied Science Degree in Medical Office Administration A25310

This curriculum prepares individuals for employment in medical and other health-care related offices. Coursework will include medical terminology, information systems, office management, medical coding, billing and insurance, legal and ethical issues, and formatting and word processing. Students will learn administration and support functions and develop skills applicable in medical environments. Employment opportunities are available in medical and dental offices, hospitals, insurance companies, laboratories, medical supply companies, and other health-care related organizations.

Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science Degree in Medical Office Administration
Program Sites: Lee and Harnett Campus – Day Program, Selected Distance Courses

Medical Office Administration
Credential: Medical Office Insurance Coding Certificate (Distance Education) C25310IC

This program is designed to provide students with skills necessary for positions in medical and allied health facilities requiring a comprehensive knowledge of ICD-10 and CPT codes. This concentrated program provides training in medical terminology, coding, billing, and insurance procedures. Employment opportunities include medical offices, research facilities, health insurance companies, billing agencies, and allied health facilities. Upon completion of this training, students will be prepared to perform data entry associated to billing and recordkeeping of medical diagnosis, charges, and insurance documentation. Credits earned in this program may be transferred toward an Associate in Applied Science Degree in Medical Office Administration provided the student meets the entrance requirements for that degree program.

Program Length: 2 Semesters
Career Pathway Options: Associate in Applied Science Degree in Medical Office Administration (Higher entrance standards required); Medical Machine Transcription Certificate.

Networking Technology
Credential: Associate in Applied Science Degree in Networking Technology A25340

The Networking Technology curriculum prepares individuals for employment supporting network infrastructure environments. Students will learn how to use technologies to provide reliable transmission and delivery of
data, voice, image, and video communication in business, industry, and education.

Coursework includes design, installation, configuration, and management of network infrastructure technologies and network operating systems. Emphasis is placed on the implementation and management of network software and the implementation and management of hardware such as switches and routers.

Graduates should find employment in entry-level jobs as local area network managers, network operators, network analysts, and network technicians. Graduates may also be qualified to take certification examinations for various network industry certifications, depending on their local program.

Graduates should qualify for positions such as: LAN/PC administrator, microcomputer support specialist, network control operator, Communication technician/analyst, network/computer consultant, and information systems specialist.

Program Length: 5 semesters
Career Pathway Options: Specialized Networking Certificate Programs
Program Sites: North Carolina School of Telecommunications. Day and selected evening courses. Corporate and career-centered programs.

Networking Technology
Credential:  Network Operating System Certificate
C25340NO

The Network Operating System is a certificate under the curriculum title of Networking Technology. This curriculum prepares students to understand various network operating systems and models. This curriculum also develops operating skills needed to successfully manage and support these devices.

Coursework includes extensive hands-on experience with different network operating systems and tools. Classes cover installation and support of various network operating systems, security electronics, security and intrusion detection software, troubleshooting, administrative responsibilities, and other tools. Graduates should qualify for positions such as: LAN/PC network operating systems administrator, technician, and personal computer technician.

Graduates may also be prepared to sit for certification exams that can result in industry-recognized credentials. Credits earned in this certificate program will transfer into the Associate in Applied Science Degree in Networking Technology. Students must meet the higher entrance requirements.

Program Length: 2 semesters
Career Pathway Options: Associate in Applied Science Degree in Network Technology (Higher entrance standards required), Diploma in Network Technology (Higher entrance standards required), Certificate in Network Operating System.

Office Administration Credential: Office Administration Diploma D25370

The Office Administration Curriculum prepares individuals for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace. Students will complete courses designed to develop proficiency in the use of integrated software, oral and written communication, analysis and coordination of office duties and systems, and other support topics. Emphasis is placed on non-technical as well as technical skills.

Graduates should qualify for employment in a variety of entry-level positions in business, government, and industry. Credits earned in this program may be transferred toward an Associate in Applied Science Degree in Office Systems Technology and Associate in Applied Science Degree in Medical Office Administration. The Office Administration provides the student meets the entrance requirements for the degree program.

Program Length: 3 semesters
Career Pathway Options: Associate in Applied Science Degree in Office Systems Technology
Program Sites: Distance Programs

CIS 110 Introduction to Computers 2-2-3
Office Administration
Credential: Receptionist Certificate
C25370R0

This certificate program provides the graduate with the basic skills necessary to enter the job market as a receptionist. Specific emphases will be placed on general office skills in spreadsheets, oral communication, information and word processing, and records management. Credits earned in this program may be transferred toward a Diploma and/or an Associate in Applied Science Degree in Office Administration and/or an Associate in Applied Science Degree in Medical Office Administration provided the student meets the entrance requirements for the degree/diploma program.

Program Length: 2 semesters
Career Pathway Options: Associate in Applied Science Degree in Office Administration (Higher entrance standards required); Associate in Applied Science Degree in Medical Office Administration (Higher entrance standards required); Diploma in Office Administration (Higher entrance standards required); Information and Word Processing Certificate; Receptionist Certificate.

Program Sites: Distance Education

Total Semester Hours Credit Required: 17
Paralegal Technology
Credential: Associate in Applied Science Degree in Paralegal Technology A25380

The Paralegal Technology curriculum prepares individuals to work under the supervision of attorneys by performing routine legal tasks, and assisting with substantive legal work. A paralegal/legal assistant may not practice law, give legal advice, or represent clients in a court of law.

Coursework includes substantive and procedural legal knowledge in the areas of civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law.

Required courses also include subjects such as English, mathematics, and computer utilization.

Graduates are trained to assist attorneys in probate work, investigations, public records search, drafting and filing legal documents, research, and office management. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.

Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science Degree in Paralegal Technology
Program Sites: Lee County Campus - Day Program, Selected Hybrid Courses

Paralegal Technology
Credential: Paralegal Technology Diploma D25380

This diploma program is designed for students who have already earned a Baccalaureate and/or an Associate Degree. Students in this program will learn the specifics of assisting lawyers in the specific areas of research, document preparation, and client interviews. Credits earned in this program may be transferred to the Associate in Applied Science Degree in Paralegal Technology provided the student meets all entrance requirements for the degree program.

Program Specific Entrance Standards: A Baccalaureate and/or an Associate Degree including credit for ENG 111 or equivalent and 3 SHC in general education.

Program Length: 3 semesters
Career Pathway Options: Associate in Applied Science Degree in Paralegal Technology (Higher entrance standards required); Paralegal Technology Diploma
Program Sites: Lee County Campus - Day Program, Selected Hybrid Courses

Commercial and Artistic Production Technologies

Broadcasting Production Technology
Credential:  Associate in Applied Science
Degree in Broadcasting Production Technology
A30120

Students enrolled in the Broadcasting Production Technology curriculum will develop professional skills in radio, television, audio, video, and related applications. Training emphasizes speech, script writing, production planning, editing, and post production. Students also study the development of the broadcasting industry, sales, ethics, law, marketing, and management. Hands-on training and teamwork approaches are essential to the instructional process.

Upon successful completion, students are prepared to enter broadcasting, production, and related industries in a variety of occupations.

Program Length: 6 semesters
Career Pathway Options:  Associate in Applied Science
Degree in Broadcasting Production Technology
Note:  Associate in Applied Science students may begin with the Radio or the TV Production sequence.
Program Sites:  Lee Campus - Day Program; Harnett Campus – Selected courses

Total Semester Hours Credit Required for Graduation: 37/38
The Computer Engineering Technology curriculum provides skills required to install, service, and maintain computers, peripherals, networks, and microprocessor and computer controlled equipment. It includes training in both hardware and software, emphasizing operating systems concepts to provide a unified view of computer systems.

Coursework includes mathematics, physics, electronics, digital circuits, and programming with emphasis on the operation, use, and interfacing of memory and devices to the CPU. Additional topics may include communications, networks, operating systems, programming languages, Internet configuration and design, and industrial applications.

Graduates will qualify for employment opportunities in electronics technology, computer service, computer networks, server maintenance, programming, and other areas requiring a knowledge of electronic and computer systems. Graduates will also qualify for certification in electronics, computers, or networks.

Program Length: 5 semesters
Career Pathway Options: Associate of Applied Science Degree in Computer Engineering Technology

Electronics Engineering Technology

Credential: Associate in Applied Science

Degree in Electronics Engineering Technology A40200

This curriculum prepares individuals to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, telecommunication systems, and power electronic systems.

A broad-based core of courses, including basic electricity, solid-state fundamentals, digital concepts and microprocessors ensures the student will master the competencies necessary to perform entry-level tasks. Emphasis is placed on developing the student’s ability to think, analyze, and troubleshoot.

Graduates will qualify for employment as engineering assistants or electronic technicians with job titles including electronic engineering associate, electronic engineering technician, field service technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.
Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science
Degree in Electronics Engineering Technology

**Laser and Photonics Technology**

**Credential: Associate in Applied Science**

**Degree in Laser and Photonics Technology**

**A40280**

The Laser and Photonics Technology curriculum is designed to develop the practical knowledge and skills required to be a successful technician in business and industry. Coursework includes mathematics, science, communication, electronics and optics courses. An in-depth sequence of laboratory learning experiences develops the hands-on skills needed for specifying, operating and maintaining laser and photonics-based systems.
Current and emerging job opportunities exist in the areas of fiber optic communications, materials processing, laser surgery, research and a variety of related areas. Program graduates often begin work as technicians in product testing, field service, product development or sales.

Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science in Laser and Photonics Technology
Program Sites: Harnett Campus - Day Program

Sustainability Technologies

Credential: Associate in Applied Science

Degree in Sustainability Technologies A40370

The Sustainability Technologies curriculum is designed to prepare individuals for employment in environmental, construction, alternative energy, manufacturing, or related industries, where key emphasis is placed on energy production and waste reduction along with sustainable technologies.

Course work may include alternative energy, environmental engineering technology, sustainable manufacturing and green building technology. Additional topics may include sustainability, energy management, waste reduction, renewable energy, site assessment, and environmental responsibility.

Graduates should qualify for positions within the alternative energy, construction, environmental, and/or manufacturing industries. Employment opportunities exist in both the government and private industry sectors where graduates may function as manufacturing technicians, sustainability consultants, environmental technicians, or green building supervisors.

Program Length: 4 semesters
Career Pathway Options: Associate in Applied Science in Sustainability Technologies

**Sustainability Technologies**

**Credential: Sustainability Certificate in Sustainability Technologies**

**C40370S**

The Sustainability Technologies certificate is designed to prepare individuals for employment in environmental, construction, alternative energy, and other industries, where key emphasis is placed on energy analysis and waste reduction along with sustainable technologies.

Course includes renewable energy, sustainability measures and green building technology. Additional topics may include green certification programs, energy management, green building design, renewable energy options, and environmental responsibility.

Graduates should qualify for positions within the construction, renewable energy or sustainability field. Employment opportunities exist in both the government and private industry sectors where graduates may function as sustainability consultants, energy analysts, or entry level green building and renewable energy technicians.

Sustainability Technologies
Credential: Biofuels Certificate in Sustainability Technologies
C40370B
This program is designed to equip students with the skills needed to attain a technical position in the biofuels industry.

Students learn the fundamentals of biofuels as well as laboratory and mechanical skills need to conduct quality control testing and diagnose biofuels related problems.

Upon completion of the certificate students will be employable in a variety of biofuels markets, including fuel production, analysis, marketing, and distribution.

Program Length: 2 semesters
Career Pathway Options: Associate in Applied Science in Sustainability Technologies
Program sites: Pittsboro Campus

Course Requirements for Biofuels Certificate:

- Required Major Core Courses (16 SHC)
  - ALT 120 Renewable Energy Tech 2-2-3
  - ALT 110 Biofuels I 3-0-3
  - ALT 210 Biofuels II 3-2-4
  - ALT 211 Biofuels Analytics 2-4-4
  - MNT 230 Pumps and Piping 1-3-2

Total Semester Hours Credit Required for Graduation: 16

Sustainability Technologies
Credential: Renewable Energy Certificate in Sustainability Technologies
C40370RE
The Renewable Energy certificate is designed to prepare individuals for employment in renewable energy, or related industries, where key emphasis is placed on energy production along with sustainable technologies.

Coursework includes an introduction to sustainability as well as trade specific classes in renewable energy. Some courses include testing options for industry recognized certificates.

Graduates should qualify for positions within the renewable energy, construction, or environmental industries. Employment opportunities exist in both the government and private industry sectors where graduates may function as PV, solar thermal, or biofuels technicians.

Program Length: 2 semesters
Career Pathway Options: Associate in Applied Science in Sustainability Technologies

Program Sites: Pittsboro Campus

Industrial Technologies

Computer Aided Drafting Technology
Credential: Associate in Applied Science Degree in Computer-Aided Drafting Technology
A50150
The Computer Aided Drafting Technology curriculum prepares graduates for employment as drafters or designers in a wide range of fields including mechanical and manufacturing engineering. Computer aided drafters and designers assist in the design and development of manufactured products.

This course-of-study prepares students to apply technical skills and advanced computer software and hardware to develop plans and related documentation, and manage the hardware and software of a CAD system. It includes instruction in architectural drafting, computer-aided-drafting (CAD), creating and managing two and three-dimensional models, and linking CAD documents to other software applications and operating systems.

In addition to coursework in computer aided drafting, students will study computer applications, machining, design, planning and problem solving, as well as oral and written communication.

Graduates of the curriculum should qualify for CAD jobs in architectural and engineering consulting firms and industrial design businesses.

Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science in Computer-Aided Drafting Technology
Program Sites: Lee Campus - Day Program

Computer Integrated Machining
Credential: Associate in Applied Science Degree in Computer-Integrated Machining with an Emphasis in Tool, Die and Mold Making
A50210

The Computer-Integrated Machining curriculum prepares students with the analytical, creative and innovative skills necessary to take a production idea from an initial concept through design, development and production, resulting in a finished product.

Coursework may include manual machining, computer applications, engineering design, computer-aided drafting (CAD), computer-aided machining (CAM), blueprint interpretation, advanced computerized numeric control (CNC) equipment, basic and advanced machining operations, precision measurement and high-speed multi-axis machining.
Graduates should qualify for employment as machining technicians in high-tech manufacturing, rapid-prototyping and rapid-manufacturing industries, specialty machine shops, fabrication industries, and high-tech or emerging industries such as aerospace, aviation, medical, and renewable energy, and to sit for machining certification examinations.

This Program has an emphasis on Tool, Die and Mold Making.

**Industrial Systems Technology Credential: Associate in Applied Science Degree in Industrial Systems Technology A50240**

The Industrial Systems Technology curriculum is designed to prepare or upgrade individuals to safely service, maintain, repair and install equipment. Instruction includes theory and skill training needed for inspecting, testing, troubleshooting, and diagnosing industrial systems. Students will learn multi-craft technical skills in blueprint reading, mechanical systems maintenance, electricity, hydraulics/pneumatics, welding, machining or fabrication, as well as various diagnostic and repair procedures. Practical application in these industrial systems will be emphasized and additional advanced coursework may be offered.

Upon completion of this curriculum, graduates should be able to individually, or with a team, safely install, inspect, diagnose, repair and maintain industrial process and support equipment. Students will also be encouraged to develop their skills as life-long learners.

Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science in Industrial Systems Technology
Program Sites: Lee Campus - Day Program

Industrial Systems Technology
Credential: Diploma in Industrial Systems Technology
D50240

The Industrial Systems Technology curriculum is designed to prepare or upgrade individuals to safely service, maintain, repair and install equipment. Instruction includes theory and skill training needed for inspecting, testing, troubleshooting, and diagnosing industrial systems. Students will learn multi-craft technical skills in blueprint reading, mechanical systems maintenance, electricity, hydraulics/pneumatics, welding, machining or fabrication, as well as various diagnostic and repair procedures. Practical application in these industrial systems will be emphasized and additional advanced coursework may be offered.

Upon completion of this curriculum, graduates should be able to individually, or with a team, safely install, inspect, diagnose, repair, and maintain industrial process and support equipment. Students are encouraged to develop life-long learning skills.

Program Length: 3 semesters
Career Pathway Options: Associate in Applied Science in Industrial Systems Technology (Higher entrance standards required); Diploma in Industrial Systems Maintenance Technology
Program Sites: Lee Campus - Day Program

Course Requirements for Industrial Systems Technology Diploma

I. General Education Academic Core (10 SHC)  C-L-SHC
ENG 111 Writing and Inquiry 3-0-3
Humanities/Fine Arts Elective 3-0-3
PHY 121 Applied Physics I 3-2-4

Telecommunications Installation and Maintenance  
**Credential: Diploma in Telecommunications Installation and Maintenance**  
**D50380**

The Telecommunications Installation and Maintenance curriculum prepares individuals for jobs in the telecommunications industry. It provides fundamental training for new students and provides upgrade training for current employees of telecommunications companies. Coursework includes basic electricity, cable splicing, fiber optics, LAN/WAN, cable fault location and repair, central office administration, standards and codes, and other related topics. Emphasis is placed on hands-on installation and maintenance training. A graduate should be prepared to work in the telecommunications industry in outside plant operations, on central office equipment, and on business communication equipment.

Program Length: 3 semesters  
Career Pathway Options: Diploma in Telecommunications Installation and Maintenance  
Program Sites: North Carolina School of Telecommunications. Day and selected evening courses. Corporate and career-centered programs.

Welding Technology  
**Credential: Diploma in Welding Technology**  
**D50420**

The Diploma in Welding Technology provides students with a sound understanding of the science, technology, and applications essential for successful employment in the welding and metalworking industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses may include math, print reading, metallurgy, welding inspection, and destructive and non-destructive testing providing the student with industry-standard skills developed through classroom training and practical application.

Graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

Barbering Credential:
Associates in Applied Science in Barbering

A55110

The Barbering credential is designed to provide competency-based knowledge, scientific/artistic principles and hands-on fundamentals associated with the barbering industry. The curriculum also provides a simulated environment that enables students to develop manipulative skills. Coursework includes instruction in all phases of professional barbering, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge and other selected topics. Graduates should qualify to sit for the State Board of Examiners. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in barbershops and related businesses.

Program Length: 6 semesters
Career Pathway Options: Associate in Applied Science in Barbering
Program Sites: West Harnett Campus, Day and Evening: General Education courses may be taken on a main campus or through distance education

Basic Law Enforcement Training  
Credential: Certificate in Basic Law Enforcement Training  
C55120

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for entry-level employment as law enforcement officers with state, county, or municipal governments, or with private enterprise. This program utilizes State-commission-mandated topics and methods of instruction. Units of instruction include legal units, patrol duties unit, law enforcement communication units, investigation units, practical application units, and Sheriff specific units. After successful completion of 624 training hours to include the North Carolina Criminal Justice Education and Training Standards Examination, graduates receive a curriculum certificate and are eligible to become certified law enforcement officers in the state of North Carolina.

Program Specific Entrance Standards:  
1. Must be 20 years of age prior to full admission (persons less than 20 years of age must receive permission from the N.C. Criminal Justice Education and Training Standards Commission).  
2. Must have a physical examination (on state forms provided by CCCC) within one year of entrance date. The College does not schedule or pay for the exam.  
3. Must be able to participate in a required program of physical activity and pass a state mandated obstacle course prior to course completion.  
4. Must have no felony convictions previously or class B misdemeanors within the past 5 years.  
5. Must score a 65 or higher on the reading portion of the CCCC entrance exam.

Program Length: 16 weeks (day) or 7 ½ months (evening)
Career Pathway Options:  
Certificate in Basic Law Enforcement Training
Program Sites:  
Lee Campus - Day  
Harnett Campus - Evening  
Chatham Campus – Evening

Criminal Justice Technology
Credential: Associate in Applied Science
Degree in Criminal Justice Technology A55180

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial processes, corrections, and security services. The criminal justice role within society will be explored. Emphasis is on criminal justice system, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relation.

Additional study may include issues and concepts of government, counseling, communication, computers and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples of employment include police officer, deputy sheriff, county detention officer, state trooper, youth counselor technician, youth counselor associate, correctional officer, and loss prevention specialist.

Program Specific Entrance Standards:
All prospective students are advised that the North Carolina Criminal Justice Education and Training Standards Commission does set minimum standards for employment for law enforcement officers, corrections officers, youth services officers, and probation and parole officers. Some of the minimum standards currently used by criminal justice system agencies are age, citizenship, health and physical fitness, education, drug testing, background screening, and freedom from felony and/or serious misdemeanor convictions.

Applicants seeking admission should review their backgrounds to determine if they are likely to qualify for employment in the criminal justice field. Students who have concerns are encouraged to contact the Criminal Justice Department or Student Services.

Program Length: 4 semesters

Total Semester Hours Credit required for graduation: 67

Students will learn both theory and hands-on analysis of latent evidence. They will learn fingerprint classifications, identification, and various chemical developments of latent prints. Students will also record, cast, and recognize footwear and tire-tracks; and process various types of crime scenes. Issues and concepts of communications and the use of computers and computer assisted design programs in crime scene technology will be discussed.

Graduates should qualify for employment in a variety of criminal justice organizations, especially in local, state, and federal law enforcement, along with correctional agencies.

Program Specific Entrance Standards:
All prospective students are advised that the North Carolina Criminal Justice Education and Training Standards Commission sets minimum standards for employment for law enforcement officers, corrections officers, youth services officers, and probation and parole officers. Some of the minimum standards currently used by criminal justice system agencies are age, citizenship, health and physical fitness, education, drug testing, background screening, and freedom from felony and/or serious misdemeanor convictions.

Applicants seeking admission should review their backgrounds to determine if they are likely to qualify for employment in the criminal justice field. Students who have concerns are encouraged to contact the Criminal Justice Department or Student Services.

Early Childhood Education
Credential: Associate in Applied Science
Degree in Early Childhood Education
A55220

This curriculum prepares individuals to work with all children from infancy through 8 years of age in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers. Coursework includes childhood growth and development of all young children, physical/nutritional needs of children, care and guidance of children, and communication skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school age programs.

Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science Degree in Early Childhood Education
Program Sites:
Lee Campus – Day, Selected Evening Courses

I. Major Hours (16 SHC)  C-L-SHC

A. Technical Core (16 SHC)
COS 119  Esthetics Concepts I  2-0-2
COS 120  Esthetics Salon I  0-18-6
COS 125  Esthetics Concepts II  2-0-2
COS 126  Esthetics Salon II  0-18-6

Total Semester Hours Credit required for graduation: 16

Esthetics Instructor
Credential:  Certificate in Esthetics Instructor C55270

The Esthetics Instructor curriculum provides a course of study for learning the skills needed to teach the theory and practice of esthetics as required by the North Carolina Board of Cosmetic Arts. Coursework includes requirements for becoming an instructor, introduction to teaching theory, methods and aids, practice teaching, and development of evaluation instruments. Graduates of the program may be employed as esthetics instructors in public or private education and business.

Program Length: 2 semesters
Career Pathway Options: Certificate in Esthetics Instructor
Program Sites:
Lee Campus - Day

Course Requirements for Esthetics Instructor Certificate

I. Major Hours (22 SHC)  C-L-SHC

A. Technical Core (22 SHC)
COS 235  Esthetics Instructor Concepts I  6-15-11
COS 234  Esthetics Instructor Concepts II  6-15-11

Total Semester Hours Credit required for graduation: 22

Library and Information Technology
Credential:  Associate in Applied Science Degree in Library and Information Technology A55310

The Library and Information Technology curriculum is designed to prepare graduates for employment with organizations that use technology to process, manage, and communicate information. The objective is the development of generalists and specialists in the management of library resources.

Students will complete courses designed to develop proficiency in the use of electronic resources for information retrieval, inventory control, information cataloging and classification, program development and promotion, circulation systems, audiovisual operations, hardware/software use and maintenance, problem solving, and telecommunications.

Graduates should qualify for employment in a variety of positions in library, media, learning resources, information, or instructional materials centers or in any other organization engaged in library-related activities.

Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science Degree in Library and Information Technology
Program Sites:
Major Core Courses only offered through Distance Education. General Education and Electives are offered through a combination of traditional classroom instruction and Distance Education.

Course Requirements for Library and Information Technology Degree

A. General Education Courses (15 SHC)  C-L-SHC
ENG 111  Writing and Inquiry  3-0-3
ENG 114  Professional Research and Reporting  3-0-3
MAT 143  Quantitative Literacy  2-2-3
- Humanities/Fine Arts Requirement  3-0-3
- Social/Behavioral Science Requirement  3-0-3

B. Major Requirements (27 SHC)
CIS 110  Introduction to Computers  2-2-3
LIB 110  Introduction to Librariesties  3-0-3
LIB 111  Library Info Resources & Services  2-2-3
LIB 112  Library Collection Dev/Acquisition  2-2-3
LIB 113  Library Cataloging & Classification  2-2-3
LIB 114  Library Public Service Operation  2-2-3
LIB 210  Electronic Library Databases  2-2-3
LIB 211  Library Program Development  3-0-3
WEB 110  Internet/Web Fundamentals  2-2-3

C. Other Major Requirements (22 SHC)
CTS 130  Spreadsheet  2-2-3
CTS 135  Integrated Software Introduction  2-4-4
DBA 110  Database Concepts  3-2-3
NET 115  Telecommunication Fundamentals  1-2-2
WBL 111  Work-Based Learning I  0-10-1

Library Elective—Take 3 SHC:
LIB 212  Library Services/Special Needs  3-0-3
LIB 214  Library Services for Children  3-0-3

Electives—Take 6 SHC:
ACC 120  Principles of Financial Accounting  3-2-4
BUS 137  Principles of Management  3-0-3
BUS 151  People Skills  3-0-3
BUS 153  Human Resource Management  3-0-3
COM 110  Introduction to Communication  3-0-3
EDU 131  Child, Family and Community  3-0-3
LIB 212  Library Services/Special Needs  3-0-3
LIB 213  Cataloging Non-print Materials  2-2-3
LIB 214  Library Services for Children  3-0-3
LIB 215  Library Management  3-0-3
**Library and Information Technology Credential: Diploma in Library and Information Technology**  
D55310

The Diploma in Library and Information Technology curriculum is designed to prepare graduates for employment with organizations that use technology to process, manage, and communicate information. Students will complete courses designed to develop proficiency in the use of electronic resources for records management, information resources and services, acquisition and collection management, cataloging and classifying, and public service.

All credits earned in this diploma program will transfer into the Associate in Applied Science Degree in Library and Information Technology provided the student meets the higher entrance standards.

Program Length: 2 semesters  
Career Pathway Options: Associate in Applied Science Degree in Library and Information Technology  
Program Sites: Major Core Courses only offered through Distance Education. General Education and Electives are offered through a combination of traditional classroom instruction and Distance Education.

**Library and Information Technology Credential: Certificate in Library Cataloging**  
C55310C0

This certificate program is designed for individuals interested in developing technology skills in the location and provision of information. Upon completion, students should be able to select and create MARC records, search OCLC, apply Anglo-American cataloging rules, and maintain authority files. Credits in this certificate program may be transferred toward an Associate in Applied Science Degree in Library and Information Technology and/or Diploma in Library and Information Technology and/or other Library and Information Technology certificates.

(No placement testing is required for this certificate program.)  
Program Length: Variable based on student course load.  
Career Pathway Options: Associate in Applied Science Degree in Library and Information Technology (Higher entrance standards required.)  
Program Sites: Distance Education

Library and Information Technology
Credential: Certificate in Library Programs
C55310L0

The certificate is designed for individuals interested in developing skills in the planning, presentation, and evaluation of programs in libraries. The objective is to develop specialists in providing inclusive programs of global interest that meet community needs and interests. Students gain skills in assessing community needs and interests; locating, evaluating, and acquiring program resources; presenting inclusive programs that incorporate AV equipment; engaging community participation; and program evaluation. Credits in this certificate program may be transferred toward an Associate in Applied Science Degree in Library and Information Technology and/or Diploma in Library and Information Technology and/or other Library and Information Technology certificates.

School-Age Education: Associate in Applied Science Degree in School-Age Education A55440

This curriculum prepares individuals to work with school-age children in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers. Coursework includes childhood growth and development, physical/nutritional needs of children, care and guidance of children, and communication skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in school-age settings. Employment opportunities include child development programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

Program Length: 5 semesters
Career Pathway Options: Associate in Applied Science Degree in School-Age Education

Automotive Restoration Technology
Credential: Diploma in Automotive Restoration Technology
D6014000

The Automotive Restoration Technology curriculum is designed to provide individuals with the competencies needed to work in the automotive restoration industry. The program prepares individuals to apply technical knowledge and skills to repair, reconstruct, finish and restore automobile bodies, fenders, and external features of a wide range of classic vehicles typically from year models 1900 - 1970. It includes instruction in internal combustion engines, transmissions, brakes, restoring original sheet metal, upholstery, and wood components, rebuilding starters, generators, and painting and refinishing techniques.

Graduates of the curriculum should qualify for entry-level employment opportunities in the automotive restoration industry.

Program Length: 3 semesters
Career Pathway Options: Diploma in Automotive Restoration Technology
Program Sites: Lee Campus - Day Program

Motorcycle Mechanics Credential: Diploma in Motorcycle Mechanics

This curriculum provides a training program for developing the basic knowledge and skills needed to inspect, maintain, diagnose, repair and/or adjust motorcycles, and other similar...
powered vehicles. Coursework provides a thorough understanding of the operating principles involved in modern motorcycles and includes instruction in lubrication and cooling systems, electrical and ignition systems, carburetion, fuel systems and adjustments of moving parts. Graduates receiving a diploma may find employment with motorcycle dealers, independent repair shops or may set up their own business after they have developed skills in the trade.

Credential: Certificate in Motorcycle Mechanics
C60260

This curriculum provides a training program for developing the basic knowledge and skills needed to inspect, maintain, diagnose, repair and/or adjust motorcycles, and other similar powered vehicles. Coursework provides a thorough understanding of the operating principles involved in modern motorcycles and includes instruction in lubrication and cooling systems, electrical and ignition systems, carburetion, fuel systems and adjustments of moving parts. Graduates receiving a certificate may find employment with motorcycle dealers, independent repair shops or may set up their own business after they have developed skills in the trade.
Programs at Harnett Correctional Institution (HCI)

Carpentry
Credential: Certificate in Carpentry and Construction Skills; Certificate in Advanced Carpentry Skills
C35180P1; C35180P2

The Carpentry curriculum is designed to prepare individuals to apply technical knowledge and skills to the fields of construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations.

Graduates of this program should qualify for entry-level jobs in construction and trades professions as well as positions in industry and government.

Program Length: 1 semester
Career Pathway Options: Diploma in Carpentry (Higher entrance standards required); Certificate in Carpentry
Program Sites: Harnett Correctional Institution-Day Program

Course Requirements for Carpentry and Construction Skills Certificate

| I. General Education Academic Core (0 SHC) | C-L-SHC |
| II. Major Hours (17 SHC) | |
| A. Technical Core (17 SHC) | |
| BPR 130 Blueprint Reading | 1-2-2 |
| CAR 111 Carpentry I | 3-15-8 |
| CAR 114 Residential Building Codes | 3-0-3 |
| CAR 115 Residential Planning/Estimating | 3-0-3 |
| ISC 110 Workplace Safety | 1-0-1 |

Total Semester Hours Credit required for graduation: 17

Course Requirements for Advanced Carpentry Skills Certificate

| I. General Education Academic Core (0 SHC) | C-L-SHC |
| II. Major Hours (13 SHC) | |
| A. Technical Core (13 SHC) | |
| ELC 112 DC/AC Electricity | 3-6-5 |
| ELC 113 Residential Wiring | 2-6-4 |

| ELC 118 National Electrical Code | 1-2-2 |

Total Semester Hours Credit required for graduation: 14

Electrical Systems Technology
Credential: Certificate in Fundamentals of Electrical Technology; Certificate in Advanced Electrical Skills for Commercial, Residential, and Solar Applications
C35130P1; C35130P2

This curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential, commercial, and industrial facilities.

Course work includes instruction in such topics as AC/DC theory, basic wiring practices, programmable logic controllers, industrial motor controls, applications of the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical systems.

Program Length: 1 semester
Career Pathway Options: Diploma in Electrical Systems Technology (Higher entrance standards required); Certificate in Electrical Systems Technology
Program Sites: Harnett Correctional Institution-Day Program

Masonry
Credential: Certificate in Masonry Fundamentals; Certificate in Advanced Masonry Skills
C35280P1; C35280P2

The Masonry curriculum prepares individuals to apply technical knowledge and skills in the laying and/or setting of exterior brick, concrete block, and related materials, using trowels, levels, hammers, chisels, and other hand tools.

Coursework, most of which is hands-on, includes instruction in print reading, structural masonry, decorative masonry, foundations, reinforcement, mortar preparation, cutting and finishing, and applicable codes and standards. Graduates of this program should qualify for entry-level jobs in construction and trades professions as well as positions in industry and government.

Program Length: 1 semester
Career Pathway Options: Certificate in Masonry Program Sites: Harnett Correctional Institution - Day Program

Course Requirements for Masonry Fundamentals Certificate

I. General Education Academic Core (0 SHC) C-L-SHC

II. Major Hours (13 SHC)
   A. Technical Core (13 SHC)

Barbering
Credential: Certificate in Barbering
C55110P0

The Barbering Curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the barber industry. The curriculum also provides a simulated environment that enables students to develop manipulative skills.

Coursework includes instruction in all phase of professional barbering, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge, and other selected topics. Graduates should qualify to sit for the State Board of Examiners. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in barbershops and related businesses.

Program Length: 1 semester
Career Pathway Option: Certificate in Barbering Program Site: Harnett Correctional Institution - Day Program

Course Requirements for Barbering Certificate

I. General Education Academic Core (0 SHC) C-L-SHC

II. Major Hours (41 SHC)

   BAR 115 Barbering Concepts III 4-0-4
   BAR 116 Barbering Clinic III 0-12-4
   BAR 117 Barbering Concepts IV 2-0-2
   BAR 118 Barbering Clinic IV 0-21-7

Total Semester Hours Credit required for graduation: 41

Food Service Technology
Credential: Certificate in Foodservice Technology
C55250P0

This curriculum is designed to introduce students to the foodservice industry and prepare them for entry level positions in industrial, institutional or commercial production foodservice operations.

Courses include sanitation, basic and intermediate foodservice production skills, baking, menus, purchasing and basic cost control.

Graduates should qualify for employment as line cooks, prep cooks, or bakers in production foodservice settings or entry-level kitchen management in an institutional foodservice setting.

Program Length: 1 semester
Career Pathway Options: Certificate in Foodservice Technology Program Site: Harnett Correctional Institution - Day Program

Course Requirements for Certificate in Foodservice Technology

C-L-SHC

II. Major Hours (17 SHC)  
A. Technical Core (17 SHC)  
FST 100  Introduction to Foodservice  3-0-3  
FST 101  Introduction to Baking  1-4-3  
FST 102  Basic Foodservice Skills  4-8-8  
FST 103  Safety and Sanitation  2-0-2  

Total Semester Hours Credit required for graduation: 16

Small Engine and Equipment Repair  
Credential: Certificate in Small Engine and Equipment Repair  
C60280P

The Small Engine and Equipment Repair curriculum is designed to prepare individuals with the knowledge and skills needed to service, troubleshoot, and repair small engine-powered equipment. Shop experience is used to provide the skills to service, repair, or rebuild small engines. Students will be able to disassemble, repair, reassemble, and test small engines and equipment, to include the carburetor, electrical, transmissions, transaxels, and belt/pulley/chain drive systems.

The coursework includes safety practices, wiring diagrams, mechanical schematics, and the use of technical manuals.

Graduates should qualify for employment as small engine mechanics at small engine service and repair or rental shops, outdoor power equipment dealers, recreational vehicles dealers, and landscaping and grounds maintenance service centers. Other employment may be available in the agriculture and construction industry.

Program Length: 1 semester  
Career Pathway Options: Certificate in Small Engine and Equipment Repair  
Program Site: Harnett Correctional Institution-Day Program

Course Requirements for Small Engine and Equipment Repair  
I. General Education Academic Core (0 SHC)  
C-L-SHC

A. Technical Core (14 SHC)  
PME 101  Small Engine Repair I  1-15-6  
PME 103  Small Engine Carburetion  1-9-4  
PME 106  Small Engine Transmissions  2-6-4  

Total Semester Hours Credit required for graduation: 14

Welding Technology  
Credential: Certificate in Welding Fundamentals; Certificate in MIG, TIG, and Fabrication  
C50420P1; C50420P2

The Welding Technology curriculum provides students with a sound understanding of the science, technology, and applications essential for successful employment in the welding and metalworking industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses may include math, print reading, metallurgy, welding inspection, and destructive and non-destructive testing providing the student with industry-standard skills developed through classroom training and practical application.

Graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

Program Length: 1 semester  
Career Pathway Options: Certificate in Welding Technology  
Program Site: Harnett Correctional Institution-Day Program

L – The number of laboratory hours per week
Cl – The number of clinical hours per week
SHC – Semester Hour Credit received for the course

ACADEMIC RELATED

ACA 090      Student Success Strategies     C-L-SHC
This course is intended to provide students with skills and strategies to promote success in college, career, and life. Topics include the College’s physical, academic, and social environment, promotes personal development, and cultivates learning strategies essential for student success. Upon completion, students should be able to manage their learning experiences to meet educational and life goals.

ACA 111      College Student Success         1-0-1
This course introduces the college’s physical, academic, and social environment and promotes the personal development essential for success. Topics include campus facilities and resources; policies, procedures, and programs; study skills; and life management issues such as health, self-esteem, motivation, goal-setting, diversity, and communication. Upon completion, students should be able to function effectively within the college environment to meet their educational objectives.

ACA 115      Success and Study Skills        0-2-1
This course provides an orientation to the campus resources and academic skills necessary to achieve educational objectives. Emphasis is placed on an exploration of facilities and services, study skills, library skills, self-assessment, wellness, goal-setting, and critical thinking. Upon completion, students should be able to manage their learning experiences to successfully meet educational goals.

ACA 118      College Study Skills            1-2-2
This course covers skills and strategies designed to improve study behaviors. Topics include time management, note taking, test taking, memory techniques, active reading strategies, critical thinking, communication skills, learning styles, and other strategies for effective learning. Upon completion, students should be able to apply appropriate study strategies and techniques to the development of an effective study plan.

ACA 122      College Transfer Success         0-2-1
This course provides information and strategies necessary to develop clear academic and professional goals beyond the community college experience. Topics include the CAA, college policies and culture, career exploration, gathering information on senior institutions, strategic planning, critical thinking, and communications skills for a successful academic transition. Upon completion, students should be able to develop an academic plan to transition successfully to senior institutions. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ACCOUNTING

ACC 115      College Accounting               3-2-4
This course introduces basic accounting principles for a business. Topics include the complete accounting cycle with end-of-period statements, bank reconciliation, payrolls, and petty cash. Upon completion, students should be able to demonstrate an understanding of accounting principles and apply those skills to a business organization.

ACC 120      Principles of Financial Accounting 3-2-4
This course introduces business decision-making using accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making, and address ethical considerations. This course has been approved for transfer under the CAA and ICAA a premajor and/or elective course requirement.

ACC 121      Principles of Managerial Accounting   3-2-4
Prerequisite: ACC 120
This course includes a greater emphasis on managerial and cost accounting skills. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting, and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts including product-costing systems. This course has been approved for transfer under the CAA and ICAA a premajor and/or elective course requirement.

ACC 122      Principles of Financial Accounting II 3-0-3
Prerequisite: ACC 120
This course provides additional instruction in the financial accounting concepts and procedures introduced in ACC 120. Emphasis is placed on the analysis of specific balance sheet accounts, with in-depth instruction of the accounting principles applied to these accounts. Upon completion, students should be able to analyze data, prepare journal entries, and prepare reports in compliance with generally accepted accounting principles.

ACC 129      Individual Income Taxes            2-2-3
This course introduces the relevant laws governing individual income taxation. Topics include tax law, electronic research and methodologies, and the use of technology for preparation of individual tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various individual tax forms.

ACC 130      Business Income Taxes             2-2-3
This course introduces the relevant laws governing business
and fiduciary income taxes. Topics include tax law relating to business organizations, electronic research and methodologies, and the use of technology for the preparation of business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various business tax forms.

ACC 140 Payroll Accounting 1-2-2
Prerequisite: Take One: ACC 115 or ACC 120
This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology.

ACC 150 Acct Software Appl 1-2-2
Prerequisite: Take One: ACC 115 or ACC 120
This course introduces microcomputer applications related to the accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting package to solve accounting problems.

ACC 220 Intermediate Accounting I 3-2-4
Prerequisites: ACC 120
Local Prerequisite: ACC 122
This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and an extensive analysis of balance sheet components. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards.

ACC 221 Intermediate Accounting II 3-2-4
Prerequisite: ACC 220
This course is a continuation of ACC 220. Emphasis is placed on special problems which may include leases, bonds, investments, ratio analyses, present value applications, accounting changes, and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACC 227 Practices in Accounting 3-0-3
Prerequisite: ACC 220
This course provides an advanced in-depth study of selected topics in accounting using case studies and individual and group problem solving. Topics include cash flow, financial statement analysis, individual and group problem solving, practical approaches to dealing with clients, ethics, and critical thinking. Upon completion, students should be able to demonstrate competent analytical skills and effective communication of their analysis in written and/or oral presentations.

AGRICULTURE

AGR 111 Basic Farm Maintenance 1-3-2
This course covers fundamentals of maintenance and repair of farm facilities and equipment. Topics include safe use of hand tools and farm machinery, carpentry, concrete, painting, wiring, welding, plumbing, and calculating costs and materials needed. Upon completion, students should be able to answer theoretical questions on topics covered and assist with maintenance and repair of farm facilities and equipment.

AGR 112 Agri Records & Accounting 2-2-3
This course covers principles involved in establishing, maintaining, and analyzing livestock and farm records. Topics include computerized livestock and farm records, net worth statements, and income and cash flow statements. Upon completion, students should be able to develop a production record keeping system, calculate performance efficiencies, and establish production goals.

AGR 121 Biological Pest Mgmt 3-0-3
This course will emphasize the building and maintaining of healthy soil, plant, and insect biological cycles as the key to pest and disease management. Course content includes study of major pests and diseases, including structure, life cycle, and favored hosts; and biological and least toxic methods of chemical control. Upon completion, students should be able to identify and recommend methods of prevention and control of selected insects and diseases.

AGR 139 Intro to Sustainable Ag 3-0-3
This course will provide students with a clear perspective on the principles, history, and practices of sustainable agriculture in our local and global communities. Students will be introduced to the economic, environmental, and social impacts of agriculture. Upon completion, students should be able to identify the principles of sustainable agriculture as they relate to basic production practices.

AGR 160 Plant Science 2-2-3
This course introduces the basic principles of botany that pertain to agricultural production. Emphasis is placed on the anatomy and physiology of flowering plants. Upon completion, students should be able to identify and explain plant systems.

AGR 170 Soil Science 2-2-3
This course covers the basic principles of soil management and fertilization. Topics include liming, fertilization, soil management, biological properties of soil (including beneficial microorganisms), sustainable land care practices and the impact on soils, and plant nutrients. Upon completion, students should be able to analyze, evaluate,
and properly amend soils/media according to sustainable practices.

AGR 212  Farm Business Management  3-0-3
This course introduces budgeting, farm analysis, production costs, business organizations, and general management principles. Topics include enterprise budgets, partial budgets, whole farm budgets, income analysis, and business organizations. Upon completion, students should be able to prepare and analyze a farm budget.

AGR 214  Agricultural Marketing  3-0-3
This course covers basic marketing principles for agricultural products. Topics include buying, selling, processing, standardizing, grading, storing, and marketing of agricultural commodities. Upon completion, students should be able to construct a marketing plan for an agricultural product.

AGR 220  Ag Mechanization  2-2-3
This course is a study of farm machinery and agricultural equipment. Topics include selection and operation of tractors, materials handling equipment, tillage and harvesting equipment, and irrigation systems. Upon completion, students should be able to identify equipment parts and explain the basic principles of machinery operation and management.

AGR 221  Farm Structures  2-2-3
This course covers basic agricultural buildings and structures. Topics include building materials, cost estimating, basic blueprint reading, and job planning. Upon completion, students should be able to complete a cost estimate for constructing an agricultural structure.

AGR 265  Organic Crop Prod: Spring  2-2-3
This course includes a study of spring organic crop production practices, including vegetables, cut flowers, and culinary and medicinal herbs. Topics include variety selection, production methods, and record keeping procedures for certification. Upon completion, students should be able to demonstrate a knowledge of organic crop production appropriate for the spring season.

AGR 266  Organic Crop Prod: Fall  2-2-3
The course includes a study of fall organic crop production practices, including vegetables, cut flowers, and culinary and medicinal herbs. Topics include variety selection, production methods, and record keeping procedures for certification. Upon completion, students should be able to demonstrate a knowledge of organic crop production appropriate for the fall season.

AGR 268  Adv Organic Crop Prod  2-6-4
Prerequisites: Take One: AGR 265 or AGR 266
This course provides students with structured practical experience in managing the complexities of organic crop production. Emphasis is placed on crop management skills and decision making associated with production-related operations such as cover crop management, irrigation, and post-harvest physiology. Upon completion, students should be able to create and implement a crop management plan and demonstrate competency in the selection and efficient use of equipment.

AGR 293  Selected Topics in Sustainable Agriculture  3-0-3
This course provides an opportunity to explore areas of current interest in Sustainable Agriculture. Emphasis is placed on subject matter appropriate to this discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

AIR CONDITIONING, HEATING, AND REFRIERATION

AHR 120  HVACR Maintenance  C-L-SHC  1-3-2
Local Prerequisite: ELC 112 or Permission of Instructor
This course introduces the basic principles of industrial air conditioning and heating systems. Emphasis is placed on preventive maintenance procedures for heating and cooling equipment and related components. Upon completion, students should be able to perform routine preventive maintenance tasks, maintain records, and assist in routine equipment repairs.

AHR 160  Refrigerant Certification  1-0-1
This course covers the requirements for the EPA certification examinations. Topics include small appliances, high pressure systems, and low pressure systems. Upon completion, students should be able to demonstrate knowledge of refrigerants and be prepared for the EPA certification examinations.

ALTERNATIVE ENERGY TECHNOLOGY

ALT 110  Biofuels I  C-L-SHC  3-0-3
This course is designed to provide an introduction to the fundamentals of bio-based fuels. Emphasis is placed on proper handling and use guidelines, basic chemistry of biofuels, production methods, and the social, environmental, and economic impacts of biofuels. Upon completion, students should be able to demonstrate a general understanding of biofuels.

ALT 120  Renewable Energy Tech  2-2-3
This course provides an introduction to multiple technologies that allow for the production and/or conservation of energy from renewable sources. Topics will include hydroelectric, wind power, passive and active solar energy, tidal energy, appropriate building techniques, and energy conservation methods. Upon completion, students should be able to demonstrate an understanding of renewable energy production and its impact on humans and their environment.
ALT 210  Biofuels II  3-0-3  
**Prerequisite:** ALT 110  
This course provides an in-depth study of commercial biofuels production and various methods for manufacturing biofuels on a large scale. Topics include advanced production technologies, feedstock selection and pretreatment, quality control, energy balance, and biofuels business models. Upon completion, students should possess a practical knowledge of commercial biofuels production and facility operation.

ALT 211  Biofuels Analytics  2-4-4  
**Prerequisite:** ALT 110  
This course is designed to address quality control management during all phases of the biofuels production process. Topics include feedstock analysis, in-process quality monitoring, and standards compliance with national and international biofuels specifications. Upon completion, students should be able to demonstrate safe and accurate laboratory practices as well as an understanding of various quality control techniques.

ALT 220  Photovoltaic Sys Tech 2-3-3  
This course introduces the concepts, tools, techniques, and materials needed to understand systems that convert solar energy into electricity with photovoltaic (pv) technologies. Topics include site analysis for system integration, building codes, and advances in photovoltaic technology. Upon completion, students should be able to demonstrate an understanding of the principles of photovoltaic technology and current applications.

**ANIMAL SCIENCE**

ANS 110  Animal Science  3-0-3  
This course introduces the livestock industry. Topics include nutrition, reproduction, production practices, diseases, meat processing, sustainable livestock production, and marketing. Upon completion, students should be able to demonstrate a basic understanding of livestock production practices and the economic impact of livestock locally, regionally, state-wide, and internationally.

ANS 111  Sustainable Livestock Mgt  2-2-3  
This course covers the integration of livestock as part of a sustainable farming system with emphasis on small-scale production for niche markets and pasture. Topics include appropriate breed selection, nutrition and living requirements for livestock such as goats, hogs, sheep, poultry, and bees. Upon completion, student should recognize appropriate breeds for their farm needs and demonstrate knowledge of small-scale livestock production.

**ANTHROPOLOGY**

ANT 210  General Anthropology  3-0-3  
This course introduces the physical, archaeological, linguistic, and ethnohistorical fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

**ARCHITECTURAL TECHNOLOGY**

ARC 111  Intro to Arch Technology  1-6-3  
This course introduces basic architectural drafting techniques, lettering, use of architectural and engineer scales, and sketching. Topics include orthographic, axonometric, and oblique drawing techniques using architectural plans, elevations, sections, and details; reprographic techniques; and other related topics. Upon completion, students should be able to prepare and print scaled drawings within minimum architectural standards.

ARC 114  Architectural CAD  1-3-2  
**Local Prerequisite:** DFT 151  
This course introduces basic architectural CAD techniques. Topics include basic commands and system hardware and software. Upon completion, students should be able to prepare and plot architectural drawings to scale within accepted architectural standards.

ARC 114A  Architectural CAD Lab  0-3-1  
**Corequisite:** Take ARC 114  
This course provides a laboratory setting to enhance architectural CAD skills. Emphasis is placed on further development of commands and system operation. Upon completion, students should be able to prepare and plot scaled architectural drawings.

**AUTOMOTIVE RESTORATION**

ARS 112  Auto Restoration Research  3-0-3  
This course covers identification and collection of information needed to restore classic automobiles. Emphasis is placed on using books, numbers, emblems, titles, bills of sale, and other documents as resources. Upon completion, students should be able to use reference materials in the area of auto restoration to restore classic vehicles.
ART 113  Automobile Upholstery  2-4-4
This course covers automobile upholstery work used in restoration of classic automobiles. Emphasis is placed on removing, repairing, or reconstructing worn/damaged upholstery material in classic automobiles. Upon completion, students should be able to disassemble, repair/reconstruct, or replace the seats, headliners, door panels, and other components in the interior of vehicles.

ARS 114  Restoration Skills I  2-4-4
Corequisites: Take All: ARS-113, ARS-117, ARS-131 and TRN 120
This course covers mechanical, electrical, and upholstery restoration. Emphasis is placed on use of tools and equipment to measure reconditioning tolerances of the internal combustion engine. Upon completion, students should be able to restore, rebuild, or replace specific components in a wide range of classic vehicles.

ARS 117  Automotive Engines  1-3-2
This course covers the repair, rebuilding, and troubleshooting of internal combustion engines. Emphasis is placed on use of tools and equipment to measure reconditioning tolerances of the internal combustion engine. Upon completion, students should be able to disassemble, repair and/or replace, and reassemble an internal combustion engine.

ARS 118  Wood and Metal Restoration  2-2-3
This course introduces various wood materials used in early automobile construction including a general overview of woodworking techniques. Emphasis is placed on wood material, metal behavior, and trim construction. Upon completion, students should be able to perform simple woodworking techniques, attach and remove trim, and be familiar with basic hardware techniques.

ARS 131  Chassis and Drive Trains  2-3-3
This course introduces principles of operation of automotive drive trains, perimeter/ladder/full-framed vehicles, and related restoration processes. Emphasis is placed on the technology related to restoration of manual and automatic transmissions, transaxles, and final drive components used on vehicles. Upon completion, students should be able to describe, diagnose, and determine needed service and repairs in the vehicle restoration industry.

ART 111  Art Appreciation  3-0-3
This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ART 114  Art History Survey I  3-0-3
This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ART 115  Art History Survey II  3-0-3
This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ART 117  Non-Western Art History  3-0-3
This course introduces non-Western cultural perspectives. Emphasis is placed on, but not limited to, African, Oriental, and Oceanic art forms throughout history. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of non-Western social and cultural development. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ART 121  Two-Dimensional Design  0-6-3
This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ART 122  Three-Dimensional Design  0-6-3
Prerequisites: ART 121
This course introduces basic studio problems in three-dimensional visual design. Emphasis is placed on the structural elements and organizational principles as applied to mass and space. Upon completion, students should be able to apply three-dimensional design concepts. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ART 131  Drawing I  0-6-3
This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate...
ART 132 Drawing II 0-6-3
Prerequisites: ART 131
This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ART 214 Portfolio and Resume 0-2-1
This course covers resume writing, interview skills, and the preparation and presentation of an art portfolio. Emphasis is placed on the preparation of a portfolio of original artwork, the preparation of a photographic portfolio, approaches to resume writing, and interview techniques. Upon completion, students should be able to mount original art for portfolio presentation, photograph and display a professional slide portfolio, and write an effective resume. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ART 231 Printmaking I 0-6-3
This course introduces printmaking: its history, development techniques, and processes. Emphasis is placed on basic applications with investigation into image source and development. Upon completion, students should be able to produce printed images utilizing a variety of methods. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ART 232 Printmaking II 0-6-3
Prerequisites: ART 231
This course includes additional methods and printmaking processes. Emphasis is placed on the printed image as related to method, source, and concept. Upon completion, students should be able to produce expressive images utilizing both traditional and innovative methods. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ART 240 Painting I 0-6-3
This course introduces the language of painting and the use of various painting materials. Emphasis is placed on the understanding and use of various painting techniques, media, and color principles. Upon completion, students should be able to demonstrate competence in the use of creative processes directed toward the development of expressive form. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ART 241 Painting II 0-6-3
Prerequisites: ART 240
This course provides a continuing investigation of the materials, processes, and techniques of painting. Emphasis is placed on the exploration of expressive content using a variety of creative processes. Upon completion, students should be able to demonstrate competence in the expanded use of form and variety. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ART 281 Sculpture I 0-6-3
Prerequisites: ART 280
This course provides an exploration of the creative and technical methods of sculpture with focus on the traditional processes. Emphasis is placed on developing basic skills as they pertain to three-dimensional expression in various media. Upon completion, students should be able to show competence in variety of sculptural approaches. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ART 282 Sculpture II 0-6-3
Prerequisites: ART 281
This course provides an exploration of the creative and technical methods of sculpture with focus on the traditional processes. Emphasis is placed on developing basic skills as they pertain to three-dimensional expression in various media. Upon completion, students should be able to show competence in variety of sculptural approaches. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ART 283 Ceramics I 0-6-3
This course provides an introduction to three-dimensional design principles using the medium of clay. Emphasis is placed on fundamentals of forming, surface design, glaze application, and firing. Upon completion, students should be able to demonstrate skills in slab and coil construction, simple wheel forms, glaze technique, and creative expression. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ART 284 Ceramics II 0-6-3
Prerequisites: ART 283
This course covers advanced hand building and wheel techniques. Emphasis is placed on creative expression, surface design, sculptural quality, and glaze effect. Upon completion, students should be able to demonstrate a high level of technical competence in forming and glazing with a development of three-dimensional awareness. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ASTRONOMY

AST 111 Descriptive Astronomy 3-0-3
Corequisite: AST 111A
This course introduces an overall view of modern
astronomy. Topics include an overview of the solar system, the sun, stars, galaxies, and the larger universe. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

**AST 111A Descriptive Astronomy Lab** 0-2-1

*Corequisite: AST 111*

This course is a laboratory to accompany AST 111. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 111 and which provide practical experience. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

**AUTOMOTIVE BODY REPAIR**

**AUB 111 Painting and Refinishing I** 2-6-4

*Prerequisite: AUB 111*

This course introduces the proper procedures for using automotive refinishing equipment and materials in surface preparation and application. Topics include federal, state, and local regulations, personal safety, refinishing equipment and materials, surface preparation, masking, application techniques, and other related topics. Upon completion, students should be able to identify and use proper equipment and materials in refinishing by following accepted industry standards.

**AUB 112 Painting and Refinishing II** 2-6-4

*Corequisite: AUB 111*

This course covers advanced painting techniques and technologies with an emphasis on identifying problems encountered by the refinishing technician. Topics include materials application, color matching, correction of refinishing problems, and other related topics. Upon completion, students should be able to perform spot, panel, and overall refinishing repairs and identify and correct refinishing problems.

**AUB 121 Non-Structural Damage I** 1-4-3

This course introduces safety, tools, and the basic fundamentals of body repair. Topics include shop safety, damage analysis, tools and equipment, repair techniques, materials selection, materials usage, and other related topics. Upon completion, students should be able to identify and repair minor direct and indirect damage including removal/repairing/replacing of body panels to accepted standards.

**AUTOMOTIVE**

**AUT 114 Safety and Emissions** 1-2-2

This course covers the laws, procedures, and specifications needed to perform a North Carolina State Safety and Emissions inspection. Topics include brake, steering and suspension, lighting, horn, windshield wiper, tire, mirrors, and emission control devices inspection. Upon completion, students should be able to perform complete and thorough North Carolina State Safety and Emissions inspections.

**AUT 114A Safety and Emissions Lab** 0-2-1

*Corequisite: AUT 114*

This course is an optional lab that allows students to enhance their understanding of North Carolina State Emissions Inspection failures. Topics include evaporative, positive crankcase ventilation, exhaust gas recirculation and exhaust emissions systems operation, including catalytic converter failure diagnosis. Upon completion, students should be able to employ diagnostic strategies to repair vehicle emissions failures resulting from North Carolina State Emissions inspection.

**AUT 116 Engine Repair** 2-3-3

This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

**AUT 116A Engine Repair Lab** 0-3-1

*Corequisite: AUT 116*

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

**AUT 141 Suspension & Steering Sys** 2-3-3

This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

**AUT 141A Suspension & Steering Lab** 0-3-1

*Corequisite: AUT 141*

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair suspension components, check and adjust alignment angles, repair tires, and balance
wheels.

AUT 151  Brake Systems  2-3-3
This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydra-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 151A  Brake Systems Lab  0-3-1
Corequisite: AUT 151
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydra-boost, electrically powered boost, and anti-lock, parking brake systems, and emerging brake systems technologies. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 163  Adv Auto Electricity  2-3-3
Prerequisite: TRN 120
This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of electronics, lighting, gauges, horn, wiper, accessories, and body modules. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

AUT 163A  Adv Auto Electricity Lab  0-3-1
Corequisite: AUT 163
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, troubleshooting, and emerging electrical/electronic systems technologies. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

AUT 181  Engine Performance 1  2-3-3
This course covers the introduction, theory of operation, and basic diagnostic procedures required to restore engine performance to vehicles equipped with complex engine control systems. Topics include an overview of engine operation, ignition components and systems, fuel delivery, injection components and systems, and emission control devices. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel, and emission-related driveability problems using appropriate test equipment/service information.

AUT 181A  Engine Performance 1 Lab  0-3-1
Corequisite: AUT 181
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include overviews of engine operation, ignition components and systems, fuel delivery, injection components and systems, and emission control devices and emerging engine performance technologies. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel, and emission-related driveability problems using appropriate test equipment/service information.

AUT 183  Engine Performance 2  2-6-4
Prerequisite: AUT 181
This course covers study of the electronic engine control systems, the diagnostic process used to locate engine performance concerns, and procedures used to restore normal operation. Topics will include currently used fuels and fuel systems, exhaust gas analysis, emission control components and systems, OBD II (on-board diagnostics), and inter-related electrical/electronic systems. Upon completion, students should be able to diagnose and repair complex engine performance concerns using appropriate test equipment and service information.

AUT 221  Auto Transm/Transaxles  2-3-3
This course covers operation, diagnosis, service, and repair of automatic transmissions/transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to explain operational theory and diagnose and repair automatic drive trains.

AUT 221A  Auto Transm/Transax Lab  0-3-1
Corequisite: AUT 221
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic transmissions/transaxles and the use of appropriate service tools and equipment. Upon completion, students should be able to diagnose and repair automatic drive trains.

AUT 231  Man Trans/Axes/Drtrains  2-3-3
This course covers the operation, diagnosis, and repair of manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train servicing and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory and diagnose and repair manual drive trains.

AUT 231A  Man Trans/Ax/Drtrains Lab  0-3-1
Corequisite: AUT 231
This course is an optional lab for the program that needs to meet NATEF hour standards but does not have a co-op
component in the program. Topics include manual drive train diagnosis, service, and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to diagnose and repair manual drive trains.

AUT 281  Adv Engine Performance  2-2-3
This course utilizes service information and specialized test equipment to diagnose/repair power train control systems. Topics include computerized ignition, fuel and emission systems, related diagnostic tools and equipment, data communication networks, and service information. Upon completion, students should be able to perform advanced engine performance diagnosis and repair.

BARBERING

BAR 111  Barbering Concepts I  4-0-4
Corequisite: BAR 112
This course introduces basic barbering concepts and includes careers in barber styling and various hair treatments. Emphasis is placed on sanitizing equipment, professional ethics, skin, scalp, and hair disorders and treatment, and safe work practices. Upon completion, students should be able to safely and competently apply barbering concepts in the shop setting.

BAR 112  Barbering Clinic I  0-24-8
Corequisite: BAR 111
This course introduces basic clinic services. Topics include a study of sanitizing procedures for implements and equipment, determination of hair texture, hair cutting, and hair processing. Upon completion, students should be able to safely and competently demonstrate shop services.

BAR 113  Barbering Concepts II  4-0-4
Corequisite: BAR 114
This course covers more comprehensive barbering concepts. Topics include safety and sanitation, product knowledge, as well as both wet and thermal hairstyling. Upon completion, students should be able to safely and competently apply these barbering concepts in the shop setting.

BAR 114  Barbering Clinic II  0-24-8
Corequisite: BAR 113
This course provides experience in a simulated shop setting. Topics include draping, shampooing, hair cutting, and hair drying as well as chemical processing. Upon completion, students should be able to safely and competently apply these barbering concepts in the shop setting.

BAR 115  Barbering Concepts III  4-0-4
Corequisite: BAR 116
This course covers more comprehensive barbering concepts. Topics include hair processing as well as finger waving, wet and thermal hairstyling, skin care, including electricity/light therapy, and manicuring. Upon completion, students should be able to safely and competently apply these barbering concepts in the shop setting.

BAR 116  Barbering Clinic III  0-12-4
Corequisite: BAR 115
This course covers more comprehensive barbering concepts. Emphasis is placed on intermediate-level of skin care manicuring, scalp treatments, hair design, chemical restructuring, and other related topics. Upon completion, students should be able to safely and competently apply these barbering concepts in the shop setting.

BAR 117  Barbering Concepts IV  2-0-2
Corequisite: BAR 118
This course covers advanced barbering concepts. Topics include hair color, advanced hair cutting techniques, hair styling, shaving, skin care, retailing, and preparing for a job interview. Upon completion, students should be able to demonstrate an understanding of these barbering concepts and meet program completion requirements.

BAR 118  Barbering Clinic IV  0-21-7
Corequisite: BAR 117
This course provides advanced experience in a simulated shop setting. Emphasis is placed on efficient and competent delivery of all shop services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in the areas covered on the Barbering Licensing Examination and meet entry-level employment requirements.

BAR 119  Trichology Concepts I  2-0-2
Corequisite: BAR 120
This course introduces basic principles associated with the study of the hair and scalp including environmental and genetic impacts on hair health. Emphasis is placed on the impact of healthcare and wellness as it relates to hair loss. Upon completion, students should be able to demonstrate an understanding of basic terminology and principles associated with trichology healthcare and wellness.

BAR 120  Trichology Lab I  0-21-7
This course provides practical training emphasizing the use of a triscope to study the hair scalp. Emphasis is placed on healthcare and wellness topics that will train students to assist those that deal with hair loss issues. Upon completion, students should be able to safely and competently apply trichology healthcare and wellness concepts in the shop setting.

BIOLOGY

BIO 090  Foundations of Biology  3-2-4
Corequisite: DRE 098 or appropriate placement test scores
This course introduces basic biological concepts. Topics include basic biochemistry, cell structure and function, interrelationships among organisms, scientific methodology, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level
biology courses.

**BIO 094 Concepts of Human Biology** 3-2-4  
*Corequisite: DRE 098 or appropriate placement test scores*  
This course focuses on fundamental concepts of human biology. Topics include terminology, biochemistry, cell biology, tissues, body systems, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level anatomy and physiology courses.

**BIO 106 Introduction to Anatomy/Physiology/Microbiology** 2-2-3  
This course covers the fundamental and principle concepts of human anatomy, physiology, and microbiology. Topics include an introduction to the structure and function of cells, tissues, and human organ systems, and an overview of microbiology, epidemiology, and control of microorganisms. Upon completion, students should be able to identify structures and functions of the human body and describe microorganisms and their significance in health and disease.

**BIO 110 Principles of Biology** 3-3-4  
This course provides a survey of fundamental biological principles for non-science majors. Emphasis is placed on basic chemistry, cell biology, metabolism, genetics, taxonomy, evolution, ecology, diversity, and other related topics. Upon completion, students should be able to demonstrate increased knowledge and better understanding of biology as it applies to everyday life. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

**BIO 111 General Biology I** 3-3-4  
This course introduces the principles and concepts of biology. Emphasis is placed on basic chemical, cell biology, metabolism, and energy transformation, genetics, evolution, classification, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

**BIO 112 General Biology II** 3-3-4  
*Prerequisite: BIO 111*  
This course is a continuation of BIO 111. Emphasis is placed on organisms, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

**BIO 120 Introductory Botany** 3-3-4  
*Prerequisite: Take one: BIO 110 or BIO 111*  
This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of the major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

**BIO 130 Introductory Zoology** 3-3-4  
*Prerequisite: Take one: BIO 110 or BIO 111*  
This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of animal form and function, including comparative systems of selected groups. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

**BIO 140 Environmental Biology** 3-0-3  
*Corequisite: BIO 140A*  
This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

**BIO 140A Environmental Biology Laboratory** 0-3-1  
*Corequisite: BIO 140*  
This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

**BIO 143 Field Biology Minicourse** 1-2-2  
This course introduces the biological and physical components of a field environment. Emphasis is placed on a local field environment with extended field trips to other areas. Upon completion, students should be able to demonstrate an understanding of the biological and physical components of the specific biological environment.
BIO 150  **Genetics in Human Affairs**  3-0-3  
*Prerequisites: Take one: BIO 110 or BIO 111*  
This course describes the importance of genetics in everyday life. Topics include the role of genetics in human development, birth defects, cancer and chemical exposure, and current issues including genetic engineering and fertilization methods. Upon completion, students should be able to understand the relationship of genetics to society today and its possible influence on our future.

BIO 155  **Nutrition**  3-0-3  
This course covers the biochemistry of foods and nutrients with consideration of the physiological effects of specialized diets for specific biological needs. Topics include cultural, religious, and economic factors that influence a person's acceptance of food, as well as nutrient requirements of the various life stages. Upon completion, students should be able to identify the functions and sources of nutrients, the mechanisms of digestion, and the nutritional requirements of all age groups.

BIO 163  **Basic Anatomy and Physiology**  4-2-5  
This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 165  **Anatomy and Physiology I**  3-3-4  
*Local Prerequisite: Take one: BIO 090, BIO 094, or BIO 110, or by permission of instructor*  
This course is the first of a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 166  **Anatomy and Physiology II**  3-3-4  
*Prerequisite: BIO 165*  
This course is the second in a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and the interrelationships of all body systems. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 168  **Anatomy and Physiology I**  3-3-4  
*Local Prerequisite: Take one: BIO 090, BIO 094, or BIO 110, or by permission of instructor*  
This course provides a comprehensive study of the anatomy and physiology of the human body. Topics include body organization, homeostasis, cytology, histology, and the integumentary, skeletal, muscular, and nervous systems and special senses. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 169  **Anatomy and Physiology II**  3-3-4  
*Prerequisite: BIO 168*  
This course provides a continuation of the comprehensive study of the anatomy and physiology of the human body. Topics include the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems as well as metabolism, nutrition, acid-base balance, and fluid and electrolyte balance. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 175  **General Microbiology**  2-2-3  
*Prerequisite: Take one: BIO 110, BIO 111, BIO 163, BIO 165, or BIO 168*  
This course covers principles of microbiology with emphasis on microorganisms and human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Upon completion, students should be able to demonstrate knowledge of microorganisms and the disease process as well as aseptic and sterile techniques. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 176  **Advanced General Microbiology**  1-2-2  
*Prerequisite: BIO 175*  
This course is a continuation of BIO 175. Emphasis is placed on microbial metabolism, genetics, and environmental and food microbiology. Upon completion, students should be able to identify unknown microbes and demonstrate an understanding of the fundamentals of molecular biology and microbial ecology. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 180  **Biological Chemistry**  2-2-3  
*Local Prerequisite: Completion of a high school chemistry course and a CCCS-administered proficiency exam; completion of a college chemistry course; or by permission of instructor*  
This course provides an introduction to basic biochemical processes in living systems. Topics include properties of carbohydrates, lipids, proteins, nucleic acids, vitamins, and
buffers, with emphasis on biosynthesis, degradation, function, and equilibrium. Upon completion, students should be able to demonstrate an understanding of fundamental biochemical concepts. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**BIO 265  Cell Biology  3-3-4**  
*Prerequisites: BIO 111, BIO 275 or BIO 280*  
This course provides an in-depth study of cellular organization and communication, biochemical cell processes, and cellular growth, replication and death. Topics include organelle structure and function, nucleic acid and protein synthesis, gene organization and regulation, cell signaling mechanisms, bioenergetics, cell motility and apoptosis. Upon completion, students should be able to demonstrate knowledge of cell structure and function and lab skills including microscopy, cell culture, and molecular biology techniques. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

**BIO 271  Pathophysiology  3-0-3**  
*Prerequisite: Take one: BIO 163, BIO 166, or BIO 169*  
This course provides an in-depth study of human pathological processes and their effects on homeostasis. Emphasis is placed on interrelationships among organ systems in deviations from homeostasis. Upon completion, students should be able to demonstrate a detailed knowledge of pathophysiology. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**BIO 275  Microbiology  3-3-4**  
*Prerequisite: Take one: BIO 110, BIO 111, BIO 163, BIO 165, or BIO 168*  
This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**BIO 280  Biotechnology  2-3-3**  
*Prerequisite: Take one: BIO 111, CHM 131, or CHM 151*  
This course provides experience in selected laboratory procedures. Topics include proper laboratory techniques in biology and chemistry. Upon completion, students should be able to identify laboratory techniques and instrumentation in basic biotechnology. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**BIOPROCESS MANUFACTURING  C-L-SHC**

**BPM 110  Bioprocess Practices  3-4-5**  
This course provides a study of plant operations including various plant utility systems and detailed study of the varied plant environments in a bioprocessing facility. Emphasis is placed on quality mindset and principles of validation through applications of monitoring procedures. Upon completion, students should be able to demonstrate the rigors of industry regulation and its necessity.

**BLUEPRINT READING  C-L-SHC**

**BPR 111  Print Reading  1-2-2**  
This course introduces the basic principles of print reading. Topics include line types, orthographic projections, dimensioning methods, and notes. Upon completion, students should be able to interpret basic prints and visualize the features of a part or system.

**BPR 115  Electric/Fluid Power Diagrams  1-2-2**  
This course covers sketching of detail and assembly drawings and reading of hydraulic, pneumatic, electrical, mechanical, and piping schematics. Emphasis is placed on interpretation and communication skills utilizing sketches, symbols, diagrams, and other related topics. Upon completion, students should be able to read, demonstrate an understanding of, and draw sketches and schematics commonly used in industry.

**BPR 121  Blueprint Reading: Mechanical  1-2-2**  
*Take one--Prerequisite: BPR 111 or MAC 131*  
This course covers the interpretation of intermediate blueprints. Topics include tolerancing, auxiliary views, sectional views, and assembly drawings. Upon completion, students should be able to read and interpret a mechanical working drawing.

**BPR 130  Print Reading-Construction  3-0-3**  
This course covers the interpretation of prints and specifications that are associated with design and construction projects. Topics include interpretation of documents for foundations, floor plans, elevations, and related topics. Upon completion, students should be able to read and interpret construction prints and documents.

**BROADCAST PRODUCTION  C-L-SHC**

**BPT 110  Intro to Broadcasting  3-0-3**  
This course introduces the field of broadcasting and other electronic media. Emphasis is placed on the history, development, and current status of radio, television, and related industries. Upon completion, students should be able to demonstrate knowledge of regulations, organizational structure, revenue sources, historical development, and ongoing operation of broadcasting and related industries.
BPT 111 Broadcast Law & Ethics 3-0-3
This course covers judicial, legislative, and administrative policies pertinent to the ethical and legal operation of broadcast and other electronic media organizations. Emphasis is placed on legal and ethical issues including First Amendment protection, FCC regulations, copyright, and libel laws. Upon completion, students should be able to demonstrate an understanding of the historical significance and modern-day application of important broadcast laws and policies.

BPT 112 Broadcast Writing 3-2-4
This course introduces proper copy and script writing techniques and formats for radio, television, and other electronic media. Emphasis is placed on creating effective scripts for programs and promotional materials, including commercial and public radio service announcements for a specific target audience. Upon completion, students should be able to understand and write copy and scripts according to standard industry formats.

BPT 113 Broadcast Sales 3-0-3
This course covers sales principles applicable to radio, television, cable, and other electronic media. Emphasis is placed on prospecting and servicing accounts, developing clients, and preparing sales presentations. Upon completion, students should be able to create a sales presentation based upon standard ratings reports, prospect for new customers, and understand account management.

BPT 121 Broadcast Speech I 2-3-3
This course covers basic preparation and performance of on-air talents’ speaking quality. Emphasis is placed on developing a pleasant and efficient voice with techniques applied to taped news, features, commercial copy, and announcing. Upon completion, students should be able to show improvement and aptitude in proper articulation, pronunciation, rate of delivery, pitch, breathing techniques, inflection, projection, and phrasing.

BPT 122 Broadcast Speech II 2-3-3
Prerequisite: BPT 121
This course covers basic and advanced preparation and performance of on-air speech. Emphasis is placed on enhancing a pleasant, effective voice with techniques applied to impromptu speaking, radio plays, and taped presentations. Upon completion, students should be able to employ proper articulation, pronunciation, rate of delivery, phrasing, and other voice techniques in a professional manner.

BPT 131 Audio/Radio Production I 2-6-4
This course covers the creation, development, production, and presentation of audio programming elements for broadcast and/or other electronic media applications. Emphasis is placed on the proper operation of professional audio equipment and the study of basic physical behavior and perceptual effects of sound. Upon completion, students should be able to correctly operate audio recording and playback equipment and demonstrate an understanding of the basic components of sound.

BPT 132 Audio/Radio Production II 2-6-4
Prerequisite: BPT 131
This course covers the use of advanced audio production techniques in broadcast and/or other electronic media applications. Topics include basic audio signal processing equipment and analog and digital professional audio recording and playback equipment. Upon completion, students should be able to optimize the use of professional audio equipment in the production of effective audio programming.

BPT 135 Radio Performance I 0-6-2
This course provides an opportunity to operate the college radio station as an announcer/board operator. Emphasis is placed on operating control-room equipment, logging transmitter readings, EBS tests, reading news, and broadcasting free of interruptions. Upon completion, students should be able to prepare music, public service announcements, and promos for timely broadcast; introduce songs/programs smoothly; and follow FCC rules.

BPT 210 Broadcast Management 3-0-3
This course covers management duties within the fields of broadcasting and other electronic media. Emphasis is placed on the management of broadcast stations and cable systems, including financial, personnel, news, sales, and promotion management. Upon completion, students should be able to demonstrate knowledge of successful station operation, including key management concepts and strategies.

BPT 215 Broadcast Programming 3-0-3
This course covers programming methods, research, and resources needed to provide programs for radio, television, cable, and satellite target audiences. Topics include market research and analysis; local, network, and public station programming and program sources; and scheduling procedures for electronic media. Upon completion, students should be able to develop a programming format or schedule.

BPT 231 Video/TV Production I 2-6-4
This course covers the language of film/video, shot composition, set design, lighting, production planning, scripting, editing, and operation of video and television production equipment. Emphasis is placed on mastering the body of knowledge and techniques followed in producing all forms of video and television production. Upon completion, students should be able to produce basic video and television productions in a team environment.

BPT 232 Video/TV Production II 2-6-4
Prerequisite: BPT 231
This course covers advanced video and television production. Emphasis is placed on field production, post-
production, digital video effects, graphics, and multi-camera productions. Upon completion, students should be able to create productions that optimize the use of studio, field, and post-production equipment.

**BPT 235  TV Performance I  0-6-2**
This course provides hands-on experience in the operation of television studios and/or stations. Emphasis is placed on the application of skills through direct participation in the production or distribution of television programs. Upon completion, students should be able to demonstrate competence in performing key station and/or studio duties.

**BPT 236  TV Performance II  0-6-2**
*Prerequisite: BPT 235*
This course provides hands-on experience in the operation of television studios and/or stations. Emphasis is placed on the application of skills through direct participation in the production or distribution of television programs. Upon completion, students should be able to demonstrate competence in performing key station and/or studio duties.

**BPT 250  Institutional Video  2-3-3**
This course covers development and production of non-broadcast video productions for clients. Emphasis is placed on satisfying client objectives, including interviewing, research, site surveying, script review, photography, and post-production. Upon completion, students should be able to plan, write, shoot, and edit an institutional video designed to meet a client’s objectives.

**BUSINESS**

**BUS 110  Introduction to Business  3-0-3**
This course provides a survey of the business world. Topics include the basic principles and practices of contemporary business. Upon completion, students should be able to demonstrate an understanding of business concepts as a foundation for studying other business subjects. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**BUS 115  Business Law I  3-0-3**
This course introduces the student to the legal and the ethical framework of business. Contracts, negotiable instruments, the law of sales, torts, crimes, constitutional law, the Uniform Commercial Code, and the court systems are examined. Upon completion the student should be able to identify legal and ethical issues that arise in business decisions and the laws that apply to them. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**BUS 116  Business Law II  3-0-3**
*Prerequisites: Take BUS 115*
This course includes the study of the legal and ethical framework of business. Business Organizations, property law, intellectual property law, agency and employment law, consumer law, secured transactions, and bankruptcy are examined. Upon completion, the student should be able to identify legal and ethical issues that arise in business decisions and the laws that apply to them.

**BUS 125  Personal Finance  3-0-3**
This course provides a study of individual and family financial decisions. Emphasis is placed on building useful skills in buying, managing finances, increasing resources, and coping with current economic conditions. Upon completion, students should be able to develop a personal financial plan.

**BUS 137  Principles of Management  3-0-3**
This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**BUS 151  People Skills  3-0-3**
This course introduces the basic concepts of identity and communication in the business setting. Topics include self-concept, values, communication styles, feelings and emotions, roles versus relationships, and basic assertiveness, listening, and conflict resolution. Upon completion, students should be able to distinguish between unhealthy, self-destructive, communication patterns and healthy, non-destructive, positive communication patterns.

**BUS 152  Human Relations  3-0-3**
This course introduces the concepts of effective human interaction in the business work environment. Topics include effective communication techniques, motivation, ego states, stress, and conflict. Upon completion, students should be able to explain the importance of human relations, apply motivational techniques, and implement strategies for resolving work-related conflicts.

**BUS 153  Human Resource Management  3-0-3**
This course introduces the functions of personnel/human resource management within an organization. Topics include equal opportunity and the legal environment, recruitment and selection, performance appraisal, employee development, compensation planning, and employee relations. Upon completion, students should be able to anticipate and resolve human resource concerns.

**BUS 217  Employment Law and Regulations  3-0-3**
This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, EEO, affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for
compliance and assure that decisions are not contrary to law.

BUS 225 Business Finance 2-2-3
Prerequisite: ACC 120
This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.

BUS 228 Business Statistics 2-2-3
Local Prerequisite: MAT 115, MAT 140, or MAT 161
This course introduces the use of statistical methods and tools in evaluating research data for business applications. Emphasis is placed on basic probability, measures of spread and dispersion, central tendency, sampling, regression analysis, and inductive inference. Upon completion, students should be able to apply statistical problem solving to business. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BUS 230 Small Business Management 3-0-3
This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision- making. Upon completion, students should be able to develop a small business plan.

BUS 234 Training and Development 3-0-3
This course covers developing, conducting, and evaluating employee training with attention to adult learning principles. Emphasis is placed on conducting a needs assessment, using various instructional approaches, designing the learning environment, and locating learning resources. Upon completion, students should be able to design, conduct, and evaluate a training program.

BUS 240 Business Ethics 3-0-3
This course introduces contemporary and controversial ethical issues that face the business community. Topics include moral reasoning, moral dilemmas, law and morality, equity, justice and fairness, ethical standards, and moral development. Upon completion, students should be able to demonstrate an understanding of their moral responsibilities and obligations as members of the workforce and society.

BUS 252 Labor Relations 3-0-3
This course covers the history of the organized labor movement and the contractual relationship between corporate management and employees represented by a union. Topics include labor laws and unfair labor practices, the role of the NLRB, organizational campaigns, certification/decertification elections, and grievance procedures. Upon completion, students should be able to act in a proactive and collaborative manner in an environment where union representation exists.

BUS 255 Organizational Behavior in Business 3-0-3
This course covers the impact of different management practices and leadership styles on worker satisfaction and morale, organizational effectiveness, productivity, and profitability. Topics include a discussion of formal and informal organizations, group dynamics, motivation, and managing conflict and change. Upon completion, students should be able to analyze different types of interpersonal situations and determine an appropriate course of action.

BUS 256 Recruit Select and Per Plan 3-0-3
This course introduces the basic principles involved in managing the employment process. Topics include personnel planning, recruiting, interviewing and screening techniques, maintaining employee records; and voluntary and involuntary separations. Upon completion, students should be able to acquire and retain employees who match position requirements and fulfill organizational objectives.

BUS 257 Testing and Assessment 3-0-3
This course presents the tools and techniques human resource managers use for selection, advancement, research, and evaluation. Emphasis is placed on using valid and reliable testing methods, attitude surveys, performance appraisal instruments, and decision-making tools. Upon completion, students should be able to use the methods covered in the course to collect and analyze information for management decision-making.

BUS 258 Compensation and Benefits 3-0-3
This course is designed to study the basic concepts of pay and its role in rewarding performance. Topics include wage and salary surveys, job analysis, job evaluation techniques, benefits, and pay-for-performance programs. Upon completion, students should be able to develop and manage a basic compensation system to attract, motivate, and retain employees.

BUS 259 HRM Applications 3-0-3
Prerequisites: Take all: BUS 217, BUS 234, BUS 256, and BUS 258
This course provides students in the Human Resource Management concentration the opportunity to reinforce their learning experiences from preceding HRM courses. Emphasis is placed on application of day-to-day HRM functions by completing in-basket exercises and through simulations. Upon completion, students should be able to determine the appropriate actions called for by typical events that affect the status of people at work.

BUS 260 Business Communication 3-0-3
Prerequisite: Take one: ENG 110 or ENG 111
This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the workplace.
BUS 261 Diversity in Mgmt 3-0-3
This course is designed to help managers recognize the need to incorporate diversity into all phases of organizational management. Topics include self-evaluation, management, sexual harassment, workforce diversity, dual careers, role conflict, and communication issues. Upon completion, students should be able to implement solutions that minimize policies, attitudes, and stereotypical behaviors that block effective team building.

BUS 270 Professional Development 3-0-3
This course provides basic knowledge of self-improvement techniques as related to success in the professional world. Topics include positive human relations, job-seeking skills, and projecting positive self-image. Upon completion, students should be able to demonstrate competent personal and professional skills necessary to get and keep a job.

BUS 280 REAL Small Business 4-0-4
This course introduces hands-on techniques and procedures for planning and opening a small business, including the personal qualities needed for entrepreneurship. Emphasis is placed on market research, finance, time management, and day-to-day activities of owning/operating a small business. Upon completion, students should be able to write and implement a viable business plan and seek funding.

Carpentry

CAR 111 Carpentry I C-L-SHC 3-15-8
This course introduces the theory and construction methods associated with the building industry; including framing, materials, tools, and equipment. Topics include safety, hand/power tool use, site preparation, measurement and layout, footings and foundations, construction framing, and other related topics. Upon completion, students should be able to safely lay out and perform basic framing skills with supervision. This is a diploma-level course.

CAR 112 Carpentry II 3-15-8
Prerequisite: CAR 111
This course covers the advanced theory and construction methods associated with the building industry, including framing and exterior finishes. Topics include safety, hand/power tool use, measurement and layout, construction framing, exterior trim and finish, and other related topics. Upon completion, students should be able to safely frame and apply exterior finishes to a residential building with supervision.

CAR 113 Carpentry III 3-9-6
Prerequisite: CAR 111
This course covers interior trim and finishes. Topics include safety, hand/power tool use, measurement and layout, specialty framing, interior trim and finishes, cabinetry, and other related topics. Upon completion, students should be able to safely install various interior trim and finishes in a residential building with supervision.

CAR 114 Residential Building Codes 3-0-3
This course covers building codes and the requirements of state and local construction regulations. Emphasis is placed on the minimum requirements of the North Carolina building codes related to residential structures. Upon completion, students should be able to determine if a structure is in compliance with North Carolina building codes.

CAR 115 Residential Planning/Estimating 3-0-3
Prerequisite: BPR 130
This course covers project planning, management, and estimating for residential or light commercial buildings. Topics include planning and scheduling, interpretation of working drawings and specifications, estimating practices, and other related topics. Upon completion, students should be able to perform quantity take-offs and cost estimates.

COMPUTER ENGINEERING TECHNOLOGY

CET 111 Computer Upgrade/Repair I 2-3-3
This course covers repairing, servicing, and upgrading computers and peripherals in preparation for industry certification. Topics include CPU/memory/bus identification, disk subsystems, hardware/software installation/configuration, common device drivers, data recovery, system maintenance, and other related topics. Upon completion, students should be able to safely repair and/or upgrade computer systems to perform within specifications.

CET 211 Computer Upgrade/Repair II 2-3-3
Local Prerequisite: CET 111
This course covers concepts of repair service and upgrade of computers and peripherals in preparation for industry certification. Topics may include resolving resource conflicts and system bus specifications, configuration and troubleshooting peripherals, operating system configuration and optimization, and other related topics. Upon completion, students should be able to identify and resolve system conflicts and optimize system performance.

CET 225 Digital Signal Processing 2-2-3
This course introduces concepts and applications of digital signal processing. Topics include Fourier analysis, signal sampling, digital filtering, IIR filters, FIR filters, and DSP programming. Upon completion, students should be able to implement and troubleshoot DSP systems in hardware and software.
**CHINESE**

**CHI 111 Elementary Chinese I**

This course introduces the fundamental elements of the Chinese language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Chinese and demonstrate cultural awareness. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

**Prerequisites:** Take CHI 111

**CHI 112 Elementary Chinese II**

This course includes the basic fundamentals of the Chinese language within a cultural context of the Chinese people and its history. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Chinese and demonstrate further cultural awareness.

**Prerequisites:** Take CHI 111

**CHI 181 Chinese Lab I**

This course provides an opportunity to enhance acquisition of the fundamental elements of the Chinese language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Chinese and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective requirement.

**CHI 182 Chinese Lab II**

**Prerequisite:** CHI 181

This course provides an opportunity to enhance acquisition of the fundamental elements of the Chinese language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Chinese and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective requirement.

**CHI 211 Intermediate Chinese I**

**Prerequisites:** CHI 112

This course includes communicative competencies in speaking, listening comprehension, reading, and writing at an intermediate level with attention to cultural awareness. Emphasis is placed on intermediate skills in speaking, reading, writing, and comprehension of spoken language. Upon completion, students should demonstrate simple conversations and distinguish an appropriate range of Chinese characters, as well as read simple expression in modern standard Chinese. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

**Prerequisites:** Take CHI 211

**CHI 212 Intermediate Chinese II**

This course provides continuation of communicative competence in speaking, listening comprehension, reading and writing at an intermediate level with attention to cultural awareness. Emphasis is placed on intermediate skills in speaking, reading, writing, and comprehension of spoken language. Upon completion, students should demonstrate simple conversations and distinguish a broad range of Chinese characters, as well as read expressions in modern standard Chinese. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

**CHEMISTRY**

**CHM 090 Chemistry Concepts**

This course provides a non-laboratory based introduction to basic concepts of chemistry. Topics include measurements, matter, energy, atomic theory, bonding, molecular structure, nomenclature, balancing equations, stoichiometry, solutions, acids and bases, gases, and basic organic chemistry. Upon completion, students should be able to understand and apply basic chemical concepts necessary for success in college-level science courses.

**Corequisite:** CHM 130A

**CHM 130 General, Organic and Biochemistry**

This course provides a survey of basic facts and principles of general, organic, and biochemistry. Topics include measurement, molecular structure, nuclear chemistry, solutions, acid-base chemistry, gas laws, and the structure, properties, and reactions of major organic and biological groups. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts. This course has been approved for transfer under the CAA and ICAA a premajor and/or elective course requirement.

**Corequisite:** CHM 130

**CHM 130A General, Organic and Biochemistry Lab**

This course is a laboratory for CHM 130. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 130. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 130. Also included are EMR, spectrophotometry, extraction, safety, and feed analysis. This course has been approved for transfer under the CAA and ICAA a premajor and/or elective course requirement.
CHM 131  Introduction to Chemistry  3-0-3
Corequisite: CHM 131A
This course introduces the fundamental concepts of inorganic chemistry. Topics include measurement, matter and energy, atomic and molecular structure, nuclear chemistry, stoichiometry, chemical formulas and reactions, chemical bonding, gas laws, solutions, and acids and bases. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

CHM 131A  Introduction to Chemistry Lab  0-3-1
Corequisite: CHM 131
This course is a laboratory to accompany CHM 131. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 131. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 131. Also included are EMR, spectrophotometry, extraction, safety, and feed analysis. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

CHM 132  Organic and Biochemistry  3-3-4
Prerequisite: Take one set: CHM 131 and CHM 131A or CHM 151
This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields. Additional topics are spectrophotometer, extraction, MSDS, and a project. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

CHM 151  General Chemistry I  3-3-4
Local Prerequisite: MAT 080
This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. Additional topics include laboratory and chemical safety rules, electromagnetic spectrum, spectrometer, and chromatography. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

CHM 152  General Chemistry II  3-3-4
Prerequisite: CHM 151
This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. The spectrophotometer, pH meters, solids, liquids, and properties of solutions are covered. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

CHM 251  Organic Chemistry I  3-3-4
Prerequisite: CHM 152
This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochecmy, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. Additional topics covered are chromatography and safety. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CHM 252  Organic Chemistry II  3-3-4
Prerequisite: CHM 251
This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

COMPUTER INFORMATION SYSTEMS

CIS 110  Introduction to Computers  2-2-3
This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative).

CIS 111  Basic PC Literacy  1-2-2
This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills.
CIS 115  Introduction to Programming and Logic 2-3-3
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, and DMA-040, Set 2: MAT-121, Set 3: MAT-171

This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative).

CRIMINAL JUSTICE

CJC 100  Basic Law Enforcement Trn 9-30-19
This course covers the basic skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics are divided into general units of study: legal, patrol duties, law enforcement communications, investigations, practical application, and sheriff-specific. Upon successful completion, the student will be able to demonstrate competence in the topics and areas required for the state comprehensive certification examination.

CJC 111  Intro to Criminal Justice 3-0-3
This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CJC 112  Criminology 3-0-3
This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response.

CJC 113  Juvenile Justice 3-0-3
This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition.

CJC 114  Investigative Photography 1-2-2
This course covers the operation of digital photographic equipment and its application to criminal justice. Topics include the use of digital cameras, storage of digital images, retrieval of digital images, and preparation of digital images as evidence. Upon completion, students should be able to demonstrate and explain the role and use of digital photography, image storage, and retrieval in criminal investigation.

CJC 120  Interviews/Interrogations 1-2-2
This course covers basic and special techniques employed in criminal justice interviews and interrogations. Emphasis is placed on the interview/interrogation process, including interpretation of verbal and physical behavior and legal perspectives. Upon completion, students should be able to conduct interviews/interrogations in a legal, efficient, and professional manner and obtain the truth from suspects, witnesses, and victims.

CJC 121  Law Enforcement Operations 3-0-3
This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CJC 122  Community Policing 3-0-3
This course covers the historical, philosophical, and practical dimensions of community policing. Emphasis is placed on the empowerment of police and the community to find solutions to problems by forming partnerships. Upon completion, students should be able to define community policing, describe how community-policing strategies solve problems, and compare community policing to traditional policing.

CJC 131  Criminal Law 3-0-3
This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.

CJC 132  Court Procedure & Evidence 3-0-3
This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of
CJC 141  Corrections  3-0-3
This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CJC 144  Crime Scene Processing  2-3-3
This course introduces the theories and practices of crime scene processing and investigating. Topics include legal considerations at the crime scene, processing indoor and outdoor scenes, recording, note taking, collection and preservation of evidence, and submission to the crime laboratory. Upon completion, the student should be able to evaluate and search various crime scenes and demonstrate the appropriate techniques.

CJC 146  Trace Evidence  2-3-3
This course provides a study of trace evidence as it relates to forensic science. Topics include collection, packaging, and preservation of trace evidence from crime scenes such as bombings, fires, and other scenes. Upon completion, students should be able to demonstrate the fundamental concepts of trace evidence collection, preservation, and submission to the crime laboratory.

CJC 151  Intro to Loss Prevention  3-0-3
This course introduces the concepts and methods related to commercial and private security systems. Topics include the historical, philosophical, and legal basis of security, with emphasis on security surveys, risk analysis, and associated functions. Upon completion, students should be able to demonstrate and understand security systems, risk management, and the laws relative to loss prevention.

CJC 160  Terrorism: Underlying Issues  3-0-3
This course identifies the fundamental reasons why America is a target for terrorists, covering various domestic/international terrorist groups and ideologies from a historical aspect. Emphasis is placed upon recognition of terrorist crime scene; weapons of mass destruction; chemical, biological, and nuclear terrorism; and planning considerations involving threat assessments. Upon completion, the student should be able to identify and discuss the methods used in terrorists’ activities and complete a threat assessment for terrorists’ incidents.

CJC 212  Ethics & Comm Relations  3-0-3
This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations.

CJC 213  Substance Abuse  3-0-3
This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.

CJC 214  Victimology  3-0-3
This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims’ roles, and current victim assistance programs.

CJC 215  Organization & Administration  3-0-3
This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

CJC 221  Investigative Principles  3-2-4
This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation.

CJC 222  Criminalistics  3-0-3
This course covers the functions of the forensic laboratory and its relationship to successful criminal investigations and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence.

CJC 225  Crisis Intervention  3-0-3
This course introduces critical incident intervention and management techniques as they apply to operational criminal justice practitioners. Emphasis is placed on the
victim/offender situation as well as job-related high stress, dangerous, or problem solving citizen contacts. Upon completion, students should be able to provide insightful analysis of emotional, violent, drug-induced, and other critical and/or stressful incidents that require field analysis and/or resolution.

CJC 231 Constitutional Law 3-0-3
The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts.

CJC 245 Friction Ridge Analysis 2-3-3
This course introduces the basic elements of fingerprint technology and techniques applicable to the criminal justice field. Topics include the history and meaning of fingerprints, pattern types and classification, filing sequence, searching, and referencing. Upon completion, students should be able to discuss and demonstrate the fundamental techniques of basic fingerprint technology.

CJC 246 Advanced Friction Ridge Analysis 2-3-3
Prerequisite: CJC 245
This course introduces the theories and processes of advanced friction ridge analysis. Topics include evaluation of friction ridges, chart preparation, comparative analysis for valued determination rendering proper identification, chemical enhancement, and AFIS preparation and usage. Upon completion, students must show an understanding of proper procedures for friction ridge analysis through written testing and practical exercises.

CJC 250 Forensic Biology I 2-2-3
This course covers important biological principles that are applied in the crime laboratory. Topics include forensic toxicology, forensic serology, microscopy, and DNA typing analysis, with an overview of organic and inorganic analysis. Upon completion, students should be able to articulate how a crime laboratory processes physical evidence submitted by law enforcement agencies.

CJC 251 Forensic Chemistry I 3-2-4
This course provides a study of the fundamental concepts of chemistry as it relates to forensic science. Topics include physical and chemical properties of substances, metric measurements, chemical changes, elements, compounds, gases, and atomic structure. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of forensic chemistry.

This course provides an overview of the basic concepts of communication and the skills necessary to communicate in various contexts. Emphasis is placed on communication theories and techniques used in interpersonal group, public, intercultural, and mass communication situations. Upon completion, students should be able to explain and illustrate the forms and purposes of human communication in a variety of contexts. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

COM 120 Introduction to Interpersonal Communication 3-0-3
This course introduces the practices and principles of interpersonal communication in both dyadic and group settings. Emphasis is placed on the communication process, perception, listening, self-disclosure, speech apprehension, ethics, nonverbal communication, conflict, power, and dysfunctional communication relationships. Upon completion, students should be able to demonstrate interpersonal communication skills, apply basic principles of group discussion, and manage conflict in interpersonal communication situations. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

COM 130 Nonverbal Communication 3-0-3
Prerequisite: Take One: COM 110 or COM 120
This course introduces the contemporary study of nonverbal communication in daily life. Topics include haptics, kinesics, proxemics, facial displays, and appearance. Upon completion, students should be able to analyze/interpret nonverbal communication and demonstrate greater awareness of their own verbal communication habits. This course has been approved for transfer under the CAA and ICAA a premajor and/or elective course requirement.

COM 140 Intro to Intercultural Communication 3-0-3
This course introduces techniques of cultural research, definitions, characteristics, and impacts of cultural differences in public address. Emphasis is placed on how diverse backgrounds influence the communication act and how cultural perceptions and experiences determine how one sends and receives messages. Upon completion, students should be able to demonstrate an understanding of the principles and skills needed to become effective in communicating outside one's primary culture. This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition.

COM 231 Public Speaking 3-0-3
This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to prepare and deliver well-organized speeches and participate in group discussion with appropriate audiovisual support. This course has been
approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

**COSMETOLOGY**

**COS 111  Cosmetology Concepts I**  C-L-SHC  4-0-4  Corequisite: COS 112
This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting.

**COS 112  Salon I**  C-L-SHC  0-24-8  Corequisite: COS 111
This course introduces basic salon services. Topics include scalp treatments, shampooing, rinsing, hair color, design, haircutting, permanent waving, pressing, relaxing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate salon services.

**COS 113  Cosmetology Concepts II**  C-L-SHC  4-0-4  Corequisite: COS 114
This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, chemistry, manicuring, chemical restructuring, and hair coloring. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

**COS 114  Salon II**  C-L-SHC  0-24-8  Corequisite: COS 113
This course provides experience in a simulated salon setting. Topics include basic skin care, manicuring, nail application, scalp treatments, shampooing, rinsing, hair color, design, haircutting, chemical restructuring, pressing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

**COS 115  Cosmetology Concepts III**  C-L-SHC  4-0-4  Corequisite: COS 116
This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin care, electricity/light therapy, wigs, thermal hair styling, lash and brow tinting, superfluous hair removal, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

**COS 116  Salon III**  C-L-SHC  0-12-4  Corequisite: COS 115
This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

**COS 117  Cosmetology Concepts IV**  C-L-SHC  2-0-2  Corequisite: COS 118
This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.

**COS 118  Salon IV**  C-L-SHC  0-21-7  Corequisite: COS 117
This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.

**COS 119  Esthetics Concepts I**  C-L-SHC  2-0-2
This course covers the concepts of esthetics. Topics include orientation, anatomy, physiology, hygiene, sterilization, first aid, chemistry, basic dermatology, and professional ethics. Upon completion, students should be able to demonstrate an understanding of the concepts of esthetics and meet course requirements.

**COS 120  Esthetics Salon I**  C-L-SHC  0-18-6
This course covers the techniques of esthetics in a comprehensive experience in a simulated salon setting. Topics include client consultation, facials, body treatments, hair removal, make-up applications, and color analysis. Upon completion, students should be able to safely and competently demonstrate esthetic services on clients in a salon setting.

**COS 125  Esthetics Concepts II**  C-L-SHC  2-0-2
This course covers more comprehensive esthetics concepts. Topics include nutrition, business management, make-up, and color analysis. Upon completion, students should be able to demonstrate an understanding of the advanced esthetics concepts and meet course requirements.

**COS 126  Esthetics Salon II**  C-L-SHC  0-18-6
This course provides experience in a simulated esthetics setting. Topics include machine facials, aromatherapy, massage therapy, electricity, and apparatus. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination for Esthetics.

**COS 223  Contemp Hair Coloring**  C-L-SHC  1-3-2  Prerequisite: COS 111 and COS 112
This course covers basic color concepts, hair coloring problems, and application techniques. Topics include color theory, terminology, contemporary techniques, product knowledge, and other related topics. Upon completion, students should be able to identify a client’s color needs and safely and competently perform color applications and correct problems.

**COS 224  Trichology & Chemistry  1-3-2**
This course is a study of hair and the interaction of applied chemicals. Emphasis is placed on pH actions and the reactions and effects of chemical ingredients. Upon completion, students should be able to demonstrate an understanding of chemical terminology, pH testing, and chemical reactions on hair.

**COS 253  Esthetics Instr Concepts I  6-15-11**
*Local Prerequisite: Esthetics License*
This course introduces esthetic instructional concepts and skills. Topics include orientation, theories of education, unit planning, daily lesson plans, laboratory management, and student assessment in a laboratory setting. Upon completion, students should be able to demonstrate esthetic services and instruct and objectively assess student performance in a classroom setting.

**COS 254  Esthetics Instr Concepts II  6-15-11**
*Local Prerequisite: Esthetics License*
This course covers advanced esthetic instructional concepts and skills. Topics include practical demonstrations, lesson planning, lecture techniques, development and administration of assessment tools, record keeping, and other related topics. Upon completion, students should be able to demonstrate competencies in the areas covered by the Esthetics Instructor Licensing Examination and meet program completion requirements.

**COS 271  Instructor Concepts I  5-0-5**
*Local Prerequisite: Cosmetology License*
*Corequisite: COS 272*
This course introduces the basic cosmetology instructional concepts. Topics include orientation, theories of education, unit planning, daily lesson planning, laboratory management, student assessment, record keeping, and other related topics. Upon completion, students should be able to identify theories of education, develop lesson plans, demonstrate supervisory techniques, and assess student performance in a classroom setting.

**COS 272  Instructor Practicum I  0-21-7**
*Local Prerequisite: Cosmetology License*
*Corequisite: COS 271*
This course covers supervisory and instructional skills for teaching entry-level cosmetology students in a laboratory setting. Topics include demonstrations of services, supervision, and entry-level student assessment. Upon completion, students should be able to demonstrate salon services and instruct and objectively assess the entry-level student.

**COS 273  Instructor Concepts II  5-0-5**
*Prerequisites: COS 271 and COS 272*
*Corequisite: COS 274*
This course covers advanced cosmetology instructional concepts. Topics include practical demonstrations, lesson planning, lecture techniques, development and administration of assessment tools, record keeping, and other related topics. Upon completion, students should be able to develop lesson plans, demonstrate supervision techniques, assess student performance in a classroom setting, and keep accurate records.

**COS 274  Instructor Practicum II  0-21-7**
*Prerequisites: COS 271 and COS 272*
*Corequisite: COS 273*
This course is designed to develop supervisory and instructional skills for teaching advanced cosmetology students in a laboratory setting. Topics include practical demonstrations, supervision, and advanced student assessment. Upon completion, students should be able to demonstrate competence in the areas covered by the Instructor Licensing Examination and meet program completion requirements.

**COMPUTER SCIENCE**

**CSC 134  C++ Programming  2-3-3**
This course introduces computer programming using the C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**CSC 139  Visual BASIC Programming  2-3-3**
This course introduces computer programming using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**CSC 151  JAVA Programming  2-3-3**
This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion students
should be able to design, code, test, debug JAVA language programs. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CONSTRUCTION TECHNOLOGY

CST 111  Construction I  3-3-4
This course covers standard and alternative building methods to include wall framing. Topics include safety and footings, foundations, floor framing systems, and wall framing systems commonly used in the construction industry. Upon completion, students should be able to safely erect all framing necessary to begin roof framing.

CST 112  Construction II  3-3-4
Prerequisites: CST 111
This course covers building methods and materials used to dry-in a building. Topics include safety, ceiling/roof framing applications, roof finishes, windows, and exterior doors. Upon completion, students should be able to safely erect different roof types and properly install windows and exterior doors, roofing, and exterior finish materials.

CST 150  Building Science  2-2-3
This course introduces concepts and techniques for the design and interaction of the mechanical systems of high performance buildings. Topics include building envelope, heating, ventilation and air conditioning (HVAC), indoor air quality, lighting, plumbing and electrical. Upon completion, students should be able to understand building systems interaction and performance.

COMPUTER TECH INTEGRATION

CTI 140  Virtualization Concepts  1-4-3
This course introduces operating system virtualization. Emphasis is placed on virtualization terminology, virtual machine storage, virtual networking and access control. Upon completion, students should be able to perform tasks related to installation, configuration and management of virtual machines.

COMPUTER INFORMATION TECHNOLOGY

CTS 115  Information Systems Business Concept  3-0-3
The course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the ‘hybrid business manager’ and the potential offered by new technology and systems. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CTS 120  Hardware/Software Support  2-3-3
Local Prerequisite: CIS 110 or CIS 111
This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.

CTS 130  Spreadsheet  2-2-3
Prerequisite: Take one: CIS 110, CIS 111 or OST 137
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.

CTS 135  Integrated Software Introduction  2-4-4
Prerequisite: CIS 110 or CIS 111
This course instructs students in the Windows or Linux based program suites for word processing, spreadsheet, database, personal information manager, and presentation software. This course prepares students for introductory level skills in database, spreadsheet, personal information manager, word processing, and presentation applications to utilize data sharing. Upon completion, students should be able to design and integrate data at an introductory level to produce documents using multiple technologies.

CTS 220  Advanced Hardware/Software Support  2-3-3
Prerequisite: CTS 120
This course provides advanced knowledge and competencies in hardware and operating system technologies for computer technicians to support personal computers. Emphasis is placed on configuring and upgrading; diagnosis and troubleshooting; as well as preventive maintenance of hardware and system software. Upon completion, students should be able to install, configure, diagnose, perform preventive maintenance, and maintain basic networking on personal computers.

CTS 285  Systems Analysis and Design  3-0-3
Prerequisite: CIS 115
This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using...
a combination of tools and techniques.

**CTS 289  System Support Project**  1-4-3
*Prerequisite: CTS 285*
This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation.

**CULINARY**

**CUL 110  Sanitation & Safety**  2-0-2
This course introduces the basic principles of sanitation and safety relative to the hospitality industry. Topics include personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate an understanding of the content necessary for successful completion of a nationally recognized food/safety/sanitation exam.

**CUL 112  Nutrition for Foodservice**  3-0-3
This course covers the principles of nutrition and its relationship to the foodservice industry. Topics include personal nutrition fundamentals, weight management, exercise, nutritional adaptation/analysis of recipes/recipes, healthy cooking techniques and marketing nutrition in a foodservice operation. Upon completion, students should be able to apply basic nutritional concepts to food preparation and selection.

**CUL 112A  Nutrition for Fdsv Lab**  0-3-1
*Corequisite: CUL 112*
This course provides a laboratory experience for enhancing student skills in the principles of nutrition and its relationship to the foodservice industry. Emphasis is placed on personal nutrition fundamentals, weight management/exercise, nutritional adaptation/analysis of recipes/recipes, healthy cooking techniques and marketing nutrition in a foodservice operation. Upon completion, students should be able to apply basic nutritional concepts to food preparation and selection.

**CUL 120  Purchasing**  2-0-2
This course covers purchasing for hotels and restaurants. Emphasis is placed on procurement, yield tests, inventory control, specification, planning, forecasting, market trends, terminology, cost controls, pricing, and foodservice ethics. Upon completion, students should be able to apply effective purchasing techniques based on the end-use of the product.

**CUL 130  Menu Design**  2-0-2
This course introduces menu design and its relationship to foodservice operations. Topics include layout, marketing, concept development, dietary concerns, product utilization, target consumers and trends. Upon completion, students should be able to design, create and produce menus for a variety of foodservice settings.

**CUL 135  Food & Beverage Service**  2-0-2
This course is designed to cover the practical skills and knowledge necessary for effective food and beverage service in a variety of settings. Topics include greeting/service of guests, dining room set-up, profitability, menu sales and merchandising, service styles and reservations. Upon completion, students should be able to demonstrate competence in human relations and the skills required in the service of foods and beverages.

**CUL 140  Culinary Skills I**  2-6-5
*Corequisite: CUL 110*
This course introduces the fundamental concepts, skills and techniques in basic cookery, and moist, dry and combination heat. Emphasis is placed on recipe conversion, measurements, terminology, classical knife cuts, safe food/equipment handling, flavorings/seasonings, stocks/sauces/soups, and related topics. Upon completion, students should be able to exhibit the basic cooking skills used in the foodservice industry.

**CUL 140A  Culinary Skills I Lab**  0-3-1
*Corequisites: Take CUL 110 and CUL 140*
This course provides laboratory experience for enhancing student skills in the fundamental concepts, skills and techniques in basic cookery, and moist, dry and combination heat. Emphasis is placed on practical experiences including recipe conversion, measurements, terminology, classical knife cuts, safe food/equipment handling, flavorings/seasonings, stocks/sauces/soups, and related topics. Upon completion, students should be able to demonstrate competency in the basic cooking skills used in the foodservice industry.

**CUL 160  Baking I**  1-4-3
*Corequisite: CUL 110*
This course covers basic ingredients, techniques, weights and measures, baking terminology and formula calculations. Topics include yeast/chemically leavened products, laminated doughs, pastry dough batter, pies/tarts, merinque, custard, cakes and cookies, icings, glazes and basic sauces. Upon completion, students should be able to demonstrate proper scaling and measurement techniques, and prepare and evaluate a variety of bakery products.

**CUL 165  Therapeutic Cuisine**  1-4-3
*Prerequisites: Take CUL 110 and CUL 140*
This course covers the principles of therapeutic cooking with an emphasis on gluten free, allergy free, and vegan cooking. Topics include vegan, lacto-ovo, vegetarian, nut-free, dairy-free, wheat-free, soy-free, and corn-free meal preparation. Upon completion, students should be able to
demonstrate an understanding of common dietary preferences and intolerances, and be able to safely and accurately execute allergy-free meal plan preparation.

CUL 170 Garde Manger I 1-4-3
Corequisites: CUL 110
This course introduces basic cold food preparation techniques and pantry production. Topics include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to present a cold food display and exhibit an understanding of the cold kitchen and its related terminology.

CUL 240 Culinary Skills II 1-8-5
Prerequisites: CUL 110 and CUL 140
This course is designed to further students' knowledge of the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on meat identification/fabrication, butchery and cooking techniques/methods; appropriate vegetable/starch accompaniments; compound sauces; plate presentation; breakfast cookery; and quantity food preparation. Upon completion, students should be able to plan, execute, and successfully serve entrees with complementary side items.

CUL 240A Culinary Skills II Lab 0-3-1
Prerequisites: Take All: CUL 110 and CUL 140
Corequisites: Take CUL 240
This course provides a laboratory experience for furthering students' knowledge of the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on practical applications of meat identification/fabrication; butchery and cooking techniques/methods; appropriate vegetable/starch accompaniments; compound sauces; plate presentation; breakfast cookery; and food preparation. Upon completion, students should be able to demonstrate a basic proficiency in the preparation of entrees and accompaniments.

CUL 270 Garde Manger II 1-4-3
Prerequisites: CUL 110, CUL 140 and CUL 170
This course is designed to further students' knowledge in basic cold food preparation techniques and pantry production. Topics include pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d’oeuvres, and related food items. Upon completion, students should be able to execute allergy-free meal plan preparation.

CUL 270A Garde Manger II Lab 0-3-1
Prerequisites: CUL 110, CUL 140 and CUL 170
Corequisite: CUL 270
This course provides a laboratory experience for enhancing student skills in basic cold food preparation techniques and pantry production. Emphasis is placed on practical experiences with pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d’oeuvres, and related food items. Upon completion, students should be able to demonstrate proficiency in the design/technical applications of advanced garde manger work including classical cold buffets incorporating appropriate showpieces.

CUL 275 Catering Cuisine 1-8-5
Prerequisites: CUL 110, CUL 140 and CUL 240
This course covers the sequential steps to successful catering that include sales, client needs, menu planning, purchasing, costing, event pricing, staffing and sanitation concerns. Emphasis is placed on new culinary competencies and skills specific to catering preparation, presentation, and customer service. Upon completion, students should be able to demonstrate proficiency in the successful design and execution of various types of catering events.

CUL 283 Farm-To-Table 2-6-5
Prerequisites: CUL 110 and CUL 140
This course introduces students to the cooperation between sustainable farmers and foodservice operations. Emphasis is placed on environmental relationships, including how foods are grown, processed, and distributed, as well as related implications on quality and sustainability. Upon completion, students should be able to demonstrate an understanding of environmental stewardship and its impact on cuisine.

CUL 283A Farm-To-Table Lab 0-2-1
Prerequisites: CUL 110 and CUL 140
Corequisites: CUL 283
This course provides a laboratory experience for enhancing students' agricultural skills and understanding the development of cooperation between sustainable farmers and foodservice operations. Emphasis is placed on practical experiences such as practicing agricultural methods, observation of the farm and related field trips. Upon completion, students should be able to demonstrate an understanding of environmental stewardship and its impact on cuisine and sustainability.

DATABASE MANAGEMENT TECHNOLOGY

DBA 110 Database Concepts 2-3-3
This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

DBA 120 Database Programming I 2-2-3
This course is designed to develop SQL programming proficiency. Emphasis is placed on data definition, data manipulation, and data control statements as well as on report generation. Upon completion, students should be
able to write programs that create, update, and produce reports.

DESIGN DRAFTING

DDF 211 Design Process I 1-6-4
Local Prerequisite: DFT 152
This course emphasizes design processes for finished products. Topics include data collection from manuals and handbooks, efficient use of materials, design sketching, specifications, and vendor selection. Upon completion, students should be able to research and plan the design process for a finished product.

DDF 252 Advanced Solid Modeling 2-2-3
Prerequisite: Take One: DFT 153 or DFT 154
This course introduces advanced solid modeling and design software. Topics include design principles, design constraints, work planes, view generation, and model sharing and rendering. Upon completion, students should be able to create advanced solid models.

DENTAL

DEN 100 Basic Orofacial Anatomy 2-0-0-2
This course provides a basic introduction to the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to demonstrate knowledge of normal structures and development and how they relate to the practice of dental assisting.

DEN 101 Preclinical Procedures 4-6-0-7
This course provides instruction in procedures for the clinical dental assistant as specified by the North Carolina Dental Practice Act. Emphasis is placed on orientation to the profession, infection control techniques, instruments, related expanded functions, and diagnostic, operative, and specialty procedures. Upon completion, students should be able to demonstrate proficiency in clinical dental assisting procedures.

DEN 102 Dental Materials 3-4-0-5
This course provides instruction in identification, properties, evaluation of quality, principles, and procedures related to manipulation and storage of operative and specialty dental materials. Emphasis is placed on the understanding and safe application of materials used in the dental office and laboratory. Upon completion, students should be able to demonstrate proficiency in the laboratory and clinical application of routinely used dental materials.

DEN 103 Dental Sciences 2-0-0-2
This course is a study of oral pathology, pharmacology, and dental office emergencies. Topics include oral pathological conditions, dental therapeutics, and management of emergency situations. Upon completion, students should be able to recognize abnormal oral conditions, identify classifications, describe actions and effects of commonly prescribed drugs, and respond to medical emergencies.

DEN 104 Dental Health Education 2-2-0-3
Prerequisite: DFT 151
This course covers the study of preventive dentistry to prepare dental assisting students for the role of dental health educator. Topics include etiology of dental diseases, preventive procedures, and patient education theory and practice. Upon completion, students should be able to demonstrate proficiency in patient counseling and oral health instruction in private practice or public health settings.

DEN 105 Practice Management 2-0-0-2
This course provides a study of principles and procedures related to management of the dental practice. Emphasis is placed on maintaining clinical and financial records, patient scheduling, and supply and inventory control. Upon completion, students should be able to demonstrate fundamental skills in dental practice management.

DEN 106 Clinical Practice I 1-0-12-5
Prerequisite: DEN 101
This course is designed to provide experience assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to utilize classroom theory and laboratory and clinical skills in a dental setting.

DEN 107 Clinical Practice II 1-0-12-5
Prerequisite: DEN 106
This course is designed to increase the level of proficiency in assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to combine theoretical and ethical principles necessary to perform entry-level skills, including functions delegable to a DA II.

DEN 110 Orofacial Anatomy 2-2-0-3
This course introduces the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to relate the identification of normal structures and development to the practice of dental assisting and dental hygiene.

DEN 111 Infection/Hazard Control 2-0-0-2
This course introduces the infection and hazard control procedures necessary for the safe practice of dentistry. Topics include microbiology, practical infection control, sterilization and monitoring, chemical disinfectants, aseptic technique, infectious diseases, OSHA standards, and applicable North Carolina laws. Upon completion, students
should be able to understand infectious diseases, disease transmission, infection control procedures, biohazard management, OSHA standards, and applicable North Carolina laws.

DEN 112 Dental Radiography 2-3-0-3
This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance, and legal issues. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions.

DEN 120 Dental Hygiene Preclinic Lecture 2-0-0-2
Corequisite: DEN 121
This course introduces preoperative and clinical dental hygiene concepts. Emphasis is placed on the assessment phase of patient care as well as the theory of basic dental hygiene instrumentation. Upon completion, students should be able to collect and evaluate patient data at a basic level and demonstrate knowledge of dental hygiene instrumentation.

DEN 121 Dental Hygiene Preclinic Laboratory 0-6-0-2
Corequisite: DEN 120
This course provides the opportunity to perform clinical dental hygiene procedures discussed in DEN 120. Emphasis is placed on clinical skills in patient assessment and instrumentation techniques. Upon completion, students should be able to demonstrate the ability to perform specific preclinical procedures.

DEN 123 Nutrition/Dental Health 2-0-0-2
This course introduces basic principles of nutrition with emphasis on nutritional requirements and their application to individual patient needs. Topics include the study of the food pyramid, nutrient functions, Recommended Daily Allowances, and related psychological principles. Upon completion, students should be able to recommend and counsel individuals on their food intake as related to their dental health.

DEN 124 Periodontology 2-0-0-2
Prerequisites: DEN 110
This course provides an in-depth study of the periodontium, periodontal pathology, periodontal monitoring, and the principles of periodontal therapy. Topics include periodontal anatomy and a study of the etiology, classification, and treatment modalities of periodontal diseases. Upon completion, students should be able to describe, compare, and contrast techniques involved in periodontal/maintenance therapy, as well as patient care management.

DEN 125 Dental Office Emergencies 0-2-0-1
This course provides a study of the management of dental office emergencies. Topics include methods of prevention, necessary equipment/drugs, medicolegal considerations, recognition and effective initial management of a variety of emergencies. Upon completion, the student should be able to recognize, assess and manage various dental office emergencies and activate advanced medical support when indicated.

DEN 130 Dental Hygiene Theory I 2-0-0-2
Prerequisite: DEN 120
Corequisite: DEN 131
This course is a continuation of the didactic dental hygiene concepts necessary for providing an oral prophylaxis. Topics include deposits/removal, instrument sharpening, patient education, fluorides, planning for dental hygiene treatment, charting, and clinical records and procedures. Upon completion, students should be able to demonstrate knowledge needed to complete a thorough oral prophylaxis.

DEN 131 Dental Hygiene Clinic I 0-0-9-3
Prerequisite: DEN 121
Corequisites: DEN 130
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of the recall patients with gingivitis or light deposits. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment.

DEN 140 Dental Hygiene Theory II 1-0-0-1
Prerequisites: DEN 130
Corequisite: DEN 141
This course provides a continuation of the development, theory, and practice of patient care. Topics include modification of treatment for special needs patients, advanced radiographic interpretation, and ergonomics. Upon completion, students should be able to differentiate necessary treatment modifications, effective ergonomic principles, and radiographic abnormalities.

DEN 141 Dental Hygiene Clinic II 0-0-6-2
Prerequisite: DEN 131
Corequisite: DEN 140
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with early periodontal disease and subgingival deposits. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment.

DEN 220 Dental Hygiene Theory III 2-0-0-2
Prerequisite: DEN 140
Corequisite: DEN 221
This course provides a continuation in developing the theories and practices of patient care. Topics include periodontal debridement, pain control, subgingival irrigation, air polishing, and case presentations. Upon completion, students should be able to demonstrate knowledge of methods of treatment and management of periodontally compromised patients.
DEN 221 Dental Hygiene Clinic III 0-0-12-4
Prerequisite: DEN 141
Corequisite: DEN 220
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with moderate to advanced periodontal involvement and moderate deposits. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment.

DEN 222 General and Oral Pathology 2-0-0-2
Prerequisite: Take one: BIO 163, BIO 165, or BIO 168
This course provides a general knowledge of oral pathological manifestations associated with selected systemic and oral diseases. Topics include developmental and degenerative diseases, selected microbial diseases, and specific and nonspecific immune and inflammatory responses with emphasis on recognizing abnormalities. Upon completion, students should be able to differentiate between normal and abnormal tissues and refer unusual findings to the dentist for diagnosis.

DEN 223 Dental Pharmacology 2-0-0-2
Corequisite: Take one: BIO 163, BIO 165, or BIO 168
This course provides basic drug terminology, general principles of drug actions, dosages, routes of administration, adverse reactions, and basic principles of anesthesiology. Emphasis is placed on knowledge of drugs in overall understanding of patient histories and health status. Upon completion, students should be able to recognize that each patient's general health or drug usage may require modification of the treatment procedures.

DEN 224 Materials and Procedures 1-3-0-2
Prerequisite: DEN 111
This course introduces the physical properties of materials and related procedures used in dentistry. Topics include restorative and preventive materials, fabrication of casts and appliances, and chairside functions of the dental hygienist. Upon completion, students should be able to demonstrate proficiency in the laboratory and/or clinical application of routinely used dental materials and chairside functions.

DEN 230 Dental Hygiene Theory IV 1-0-0-1
Prerequisite: DEN 220
Corequisite: DEN 231
This course provides an opportunity to increase knowledge of the profession. Emphasis is placed on dental specialties and completion of a case presentation. Upon completion, students should be able to demonstrate knowledge of various disciplines of dentistry and principles of case presentations.

DEN 231 Dental Hygiene Clinic IV 0-0-12-4
Prerequisite: DEN 221
Corequisite: DEN 230
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on periodontal maintenance and on treating patients with moderate to advanced/refractory periodontal disease. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment.

DEN 232 Community Dental Health 2-0-0-3
This course provides a study of the principles and methods used in assessing, planning, implementing, and evaluating community dental health programs. Topics include epidemiology, research methodology, biostatistics, preventive dental care, dental health education, program planning, and financing and utilization of dental services. Upon completion, students should be able to assess, plan, implement, and evaluate a community dental health program.

DEN 233 Professional Development 2-0-0-2
This course includes professional development, ethics, and jurisprudence with applications to practice management. Topics include conflict management, state laws, résumés, interviews, and legal liabilities as health care professionals. Upon completion, students should be able to demonstrate the ability to practice dental hygiene within established ethical standards and state laws.

DRAFTING

DFT 151 CAD I C-L-SHC 2-3-3
Local Corequisite: Instructor Approval
This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing.

DFT 152 CAD II 2-3-3
Local Prerequisite: DFT 151
This course introduces extended CAD applications. Emphasis is placed upon intermediate applications of CAD skills. Upon completion, students should be able to use extended CAD applications to generate and manage drawings.

DFT 153 CAD III 2-3-3
Local Prerequisite: DFT 111
This course introduces advanced CAD applications. Emphasis is placed upon advanced applications of CAD skills. Upon completion, students should be able to use advanced CAD applications to generate and manage data.

DFT 154 Introduction to Solid Modeling 2-3-3
This course is an introduction to basic three-dimensional solid modeling and design software. Topics include basic design, creation, editing, rendering, and analysis of solid models and creation of multi view drawings. Upon completion, students should be able to use design techniques to create, edit, render, and generate a multi view drawing.

DFT 253 CAD Data Management 2-2-3
Prerequisite: DFT 151
This course covers engineering document management techniques. Topics include efficient control of engineering documents, manipulation of CAD drawing data, generation of bill of materials, and linking to spreadsheets or databases. Upon completion, students should be able to utilize systems for managing CAD drawings, extract data from drawings, and link data to spreadsheets or database applications.

**DFT 254  Intermed Solid Model/Render**  
*Prerequisites: DFT 154*  
This course presents a continuation of basic three-dimensional solid modeling and design software. Topics include advanced study of parametric design, creation, editing, rendering and analysis of solid model assemblies, and multiview drawing generation. Upon completion, students should be able to use parametric design techniques to create and analyze the engineering design properties of a model assembly.

**DFT 259  CAD Project**  
*Local Prerequisite: DDF 211 and DFT 154*  
This course is a capstone course experience for programs with a focus in computer-aided design. Emphasis is placed on the use of design principles and computer technology in planning, managing, and completing a design project. Upon completion, students should be able to plan and produce engineering documents of a design project, including solid models, working drawings, Bills of Material, annotations, and spreadsheets.

**DEVELOPMENTAL MATHEMATICS**  

**DMA 010  Operations With Integers**  
*Prerequisites: DMA 010 or appropriate placement test scores*  
This course provides a conceptual study of problems involving integers and integer operations. Topics include integers, absolute value, exponents, square roots, perimeter and area of basic geometric figures, Pythagorean theorem, and use of the correct order of operations. Upon completion, students should be able to demonstrate an understanding of pertinent concepts and principles and apply this knowledge in the evaluation of expressions.

**DMA 020  Fractions and Decimals**  
*Prerequisites: DMA 010 or appropriate placement test scores*  
This course provides a conceptual study of the relationship between fractions and decimals and covers related problems. Topics include application of operations and solving contextual application problems, including determining the circumference and area of circles with the concept of pi. Upon completion, students should be able to demonstrate an understanding of the connections between fractions and decimals.

**DMA 030  Propor/Ratio/Rate/Percent**  
*Prerequisites: DMA-010 and DMA-020 or appropriate placement test scores*  
This course provides a conceptual study of the problems that are represented by rates, ratios, percent, and proportions.

Topics include rates, ratios, percent, proportion, conversion of English and metric units, and applications of the geometry of similar triangles. Upon completion, students should be able to use their understanding to solve conceptual application problems.

**DMA 040  Express/Lin Equat/Inequal**  
*Prerequisites: Take one set:  
Set 1: DMA 010, DMA 020, and DMA 030,  
Set 2: MAT 060  
or appropriate placement test scores*  
This course provides a conceptual study of problems involving linear expressions, equations, and inequalities. Emphasis is placed on solving contextual application problems. Upon completion, students should be able to distinguish between simplifying expressions and solving equations and apply this knowledge to problems involving linear expressions, equations, and inequalities.

**DMA 050  Graphs/Equations of Lines**  
*Prerequisites: Take one set:  
Set 1: DMA 010, DMA 020, DMA 030, and DMA 040,  
Set 2: DMA 040 and MAT 060  
or appropriate placement test scores*  
This course provides a conceptual study of problems involving graphic and algebraic representations of lines. Topics include slope, equations of lines, interpretation of basic graphs, and linear modeling. Upon completion, students should be able to solve contextual application problems and represent real-world situations as linear equations in two variables.

**DMA 060  Polynomial/Quadratic Appl**  
*Prerequisites: Take one set:  
Set 1: DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050,  
Set 2: DMA 040, DMA 050, and MAT 060  
Set 3: MAT 060 and MAT 070  
or appropriate placement test scores*  
This course provides a conceptual study of problems involving graphic and algebraic representations of quadratics. Topics include basic polynomial operations, factoring polynomials, and solving polynomial equations by means of factoring. Upon completion, students should be able to find algebraic solutions to contextual problems with quadratic applications.

**DMA 070  Rational Express/Equation**  
*Prerequisites: Take one set:  
Set 1: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and DMA 060,  
Set 2: DMA 040, DMA 050, DMA 060 and MAT 060  
Set 3: DMA 060, MAT 060, and MAT 070,  
Set 4: DMA 010, DMA 020, DMA 030, DMA 060, and MAT 070  
or appropriate placement test scores*  
This course provides a conceptual study of problems involving graphic and algebraic representations of rational equations. Topics include simplifying and performing operations with rational expressions and equations, understanding the domain, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems.
problems with rational applications.

**DMA 080  Radical Express/Equations  0.75-0.50-1**  
Prerequisites: Take one set:  
Set 1: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, DMA 060, and DMA 070  
Set 2: DMA 060, DMA 070, MAT 060, and MAT 070  
Set 3: DMA 040, DMA 050, DMA 060, DMA 070 and MAT 060  
Set 4: DMA 010, DMA 020, DMA 030, DMA 060, DMA 070 and MAT 070  
or appropriate placement test scores  
This course provides a conceptual study of the manipulation of radicals and the application of radical equations to real-world problems. Topics include simplifying and performing operations with radical expressions and rational exponents, solving equations, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with radical applications.

**DRAMA/THEATRE  
DRA 111  Theatre Appreciation  3-0-3**  
This course provides a study of the art, craft, and business of the theatre. Emphasis is placed on the audience’s appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theatre terms and to recognize the contributions of various theatre artists. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

**DRA 112  Literature of the Theatre  3-0-3**  
This course provides a survey of dramatic works from the classical Greek through the present. Emphasis is placed on the language of drama, critical theory, and background as well as on play reading and analysis. Upon completion, students should be able to articulate, orally and in writing, their appreciation and understanding of dramatic works. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

**DRA 120  Voice for Performance  3-0-3**  
This course provides guided practice in the proper production of speech for the theatre. Emphasis is placed on improving speech, including breathing, articulation, pronunciation, and other vocal variables. Upon completion, students should be able to demonstrate effective theatrical speech. This course has been approved for transfer under the CAA and ICAA a premajor and/or elective course requirement.

**DRA 124  Readers Theatre  3-0-3**  
This course provides a theoretical and applied introduction to the medium of readers theatre. Emphasis is placed on the group performance considerations posed by various genres of literature. Basics of acting are introduced as needed for performance. Upon completion, students should be able to adapt and present a literary script following the conventions of readers theatre. This course has been approved for transfer under the CAA and ICAA a premajor and/or elective course requirement.

**DRA 128  Children’s Theatre  3-0-3**  
This course introduces the philosophy and practice involved in producing plays for young audiences. Topics include the selection of age-appropriate scripts and the special demands placed on directors, actors, designers, and educators in meeting the needs of young audiences. Upon completion, students should be able to present and critically discuss productions for children. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**DRA 130  Acting I  0-6-3**  
This course provides an applied study of the actor’s craft. Topics include role analysis, training the voice, and body concentration, discipline, and self-evaluation. Upon completion, students should be able to explore their creativity in an acting ensemble. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**DRA 131 Acting II  0-6-3**  
Prerequisites: DRA 130  
This course provides additional hands-on practice in the actor’s craft. Emphasis is placed on further analysis, characterization, growth, and training for acting competence. Upon completion, students should be able to explore their creativity in an acting ensemble. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**DRA 140  Stagecraft I  0-6-3**  
This course introduces the theory and basic construction of stage scenery and properties. Topics include stage carpentry, scene painting, stage electrics, properties, and backstage organization. Upon completion, students should be able to pursue vocational and avocational roles in technical theatre. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**DRA 141  Stagecraft II  0-6-3**  
Prerequisites: DRA 140  
This course provides additional hands-on practice in the elements of stagecraft. Emphasis is placed on the design and implementation of the arts and crafts of technical theatre. Upon completion, students should be able to pursue vocational or avocational roles in technical theatre. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**DRA 145  Stage Make-Up  1-2-2**  
This course covers the research, design, selection of materials, and application of stage make-up, prosthetics, wigs, and hairpieces. Emphasis is placed on the
participate in an assigned position with a college theatre associated with producing plays of various periods and include fundamental practices, principles, and techniques processes involved in the production of a play. Topics

Prerequisites: DRA 171

DRA 170  Play Production I  0-9-3
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

DRA 171  Play Production II  0-9-3
Prerequisite: DRA 170
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

DRA 211  Theatre History I  3-0-3
This course covers the development of theatre from its origin to the closing of the British theatre in 1642. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theatre and recognize the styles and types of world drama. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

DRA 260  Directing  0-6-3
Prerequisites: DRA 130
Corequisites: DRA 140
This course provides an analysis and application of the techniques of theatrical directing. Topics include script selection, analysis, casting, rehearsal planning, blocking, stage business, tempo, and technical considerations. Upon completion, students should be able to plan, execute, and critically discuss a student-directed production. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

DRA 270  Play Production III  0-9-3
Prerequisite: DRA 171
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

DRA 271  Play Production IV  0-9-3
Prerequisites: DRA 270
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

Developmental Reading/English

DRE 096  Integrated Reading and Writing 2.5-1.0-3
This course is designed to develop proficiency in specific integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are primarily taught at the introductory level using texts primarily in a Lexile (TM) range of 960 to 1115. Upon completion, students should be able to apply those skills toward understanding a variety of academic and career-related texts and composing effective paragraphs. Please note: (TM) represents registered trademark.

DRE 097  Integrated Reading Writing II 2.5-1.0-3
Prerequisites: DRE 96 or appropriate placement test scores
This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; except where noted, these topics are taught at a reinforcement level using texts primarily in a Lexile (TM) range of 1070 to 1220. Upon completion, students should be able to demonstrate and apply those skills toward understanding a variety of complex academic and career texts and composing essays incorporating relevant, valid evidence. Please note: (TM) represents registered trademark.

DRE 098  Integrated Reading Writing III 2.5-1.0-3
Prerequisites: DRE 097 or appropriate placement test scores
This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are taught using texts primarily in the Lexile (TM) range of 1185 to 1385. Upon completion, students should be able to apply those skills toward understanding a variety of texts at the career and college ready level and toward composing a
documented essay. Note: (TM) represents registered trademark.

**DRE 099 Integrated Reading Writing III** 2.5-1.0-3

*Prerequisites: DRE 097 or appropriate placement test scores*

*Corequisites: ENG 111*

This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies by complementing, supporting and reinforcing material covered in ENG 111. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; except where noted, these topics are taught using texts primarily in the Lexile (TM) range of 1185 to 1385. Upon completion, students should be able to apply those skills toward understanding a variety of texts at the career and college ready level and toward composing a documented essay. Note: (TM) represents registered trademark.

**ECONOMICS**

**ECO 151 Survey of Economics** C-L-SHC 3-0-3

This course introduces basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon completion, students should be able to explain alternative solutions for economic problems faced by private and government sectors. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

**ECO 251 Prin of Microeconomics** C-L-SHC 3-0-3

This course introduces economic analysis of individual, business, and industry choices in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

**ECO 252 Prin of Macroeconomics** C-L-SHC 3-0-3

This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

**EDUCATION**

**EDU 118 Principles & Practices of Inst. Asst.** C-L-SHC 3-0-3

*Corequisite: Take DRE 097*

This course covers the instructional assistant's role in the educational system. Topics include history of education, professional responsibilities and ethics, cultural diversity, communication skills, and identification of the optimal learning environment. Upon completion, students should be able to describe the supporting role of the instructional assistant, demonstrate positive communication skills, and discuss educational philosophy.

**EDU 119 Intro to Early Childhood Educ** 4-0-4

This course introduces the foundations of early childhood education, the diverse educational settings for young children, professionalism and planning intentional developmentally appropriate experiences for each child. Topics include theoretical foundations, national early learning standards, NC Foundations for Early Learning and Development, state regulations, program types, career options, professionalism, ethical conduct, quality inclusive environments, and curriculum responsive to the needs of each child/family. Upon completion, students should be able to design a career/professional development plan, and appropriate environments, schedules, and activity plans.

**EDU 131 Child, Family, & Community** 3-0-3

*Corequisite: Take DRE 097*

This course covers the development of partnerships between culturally and linguistically diverse families, children, schools and communities. Emphasis is placed on developing skills and identifying benefits for establishing, supporting, and maintaining respectful, collaborative relationships between diverse families, programs/schools, and community agencies/resources. Upon completion, students should be able to explain appropriate relationships between families, educators, and professionals that enhance development and educational experiences of all children.

**EDU 144 Child Development I** 3-0-3

*Corequisite: DRE 097*

This course includes the theories of child development, needs, milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental
factors that impact development, and identify strategies for enhancing development.

**EDU 145  Child Development II**  
*Corequisite: DRE 097*  
This course includes the theories of child development, needs, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/ataypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development.

**EDU 146  Child Guidance**  
*Prerequisite: DRE 097*  
This course introduces principles and practical techniques including the design of learning environments for providing developmentally appropriate guidance for all children, including those at risk. Emphasis is placed on observation skills, cultural influences, underlying causes of behavior, appropriate expectations, development of self control and the role of communication and guidance. Upon completion, students should be able to demonstrate direct/indirect strategies for preventing problem behaviors, teaching appropriate/acceptable behaviors, negotiation, setting limits and recognizing at risk behaviors.

**EDU 151  Creative Activities**  
*Corequisite: DRE 097*  
This course covers planning, creation, and adaptation of developmentally supportive learning environments with attention to curriculum, interactions, teaching practices, and learning materials. Emphasis is placed on creating and adapting integrated, meaningful, challenging, and engaging developmentally supportive learning experiences in art, music, movement and dramatics for all children. Upon completion, students should be able to create, adapt, implement and evaluate developmentally supportive learning materials, experiences, and environments.

**EDU 153  Health, Safety, and Nutrition**  
*Corequisite: DRE 097*  
This course covers promoting and maintaining the health and well-being of all children. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, recognition and reporting of abuse and neglect and state regulations. Upon completion, students should be able to demonstrate knowledge of health, safety, and nutritional needs, safe learning environments, and adhere to state regulations.

**EDU 163  Classroom Mgt and Instruct**  
*Prerequisite: DRE 097*  
This course covers management and instructional techniques with school-age populations. Topics include classroom management and organization, teaching strategies, individual student differences and learning styles, and developmentally appropriate classroom guidance techniques. Upon completion, students should be able to utilize developmentally appropriate behavior management and instructional strategies that enhance the teaching/learning process and promote students' academic success.

**EDU 216  Foundations of Education**  
*Prerequisite: DRE 098*  
This course introduces the American educational system and the teaching profession. Topics include historical and philosophical foundations of education, contemporary educational, structural, legal, and financial issues, and experiences in public school classrooms. Upon completion, students should be able to relate classroom observations to the roles of teachers and schools and the process of teacher education.

**EDU 221  Children with Exceptional**  
*Prerequisite. Take one set: EDU 144, EDU 145; or PSY 244, PSY 245  
*Corequisite: DRE 098*  
This course introduces children with exceptionalities, their families, support services, inclusive/diverse settings, and educational/family plans based on the foundations of child development. Emphasis is placed on the characteristics of exceptionalities, observation and assessment of children, strategies for adapting the learning environment, and identification of community resources. Upon completion, students should be able to recognize diverse abilities, describe the referral process, and depict collaboration with families/professionals to plan/implement, and promote best practice.

**EDU 234  Infants, Toddlers, & Twos**  
*Prerequisite: EDU 119  
*Corequisite: DRE 098*  
This course covers the unique needs and rapid changes that occur in the first three years of life and the inter-related factors that influence development. Emphasis is placed on recognizing and supporting developmental milestones through purposeful strategies, responsive care routines and identifying elements of quality, inclusive early care and education. Upon completion, students should be able to demonstrate respectful relationships that provide a foundation for healthy infant/toddler/twos development, plan/select activities/materials, and partner with diverse families.
EDU 235  School-Age Development and Program  2-0-2  
Prerequisite: DRE 098  
This course includes developmentally appropriate practices in group settings for school-age children. Emphasis is placed on principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for all children ages five to twelve and plan and implement developmentally-appropriate activities.

EDU 243  Learning Theory  3-0-3  
Corequisite: DRE 098  
This course provides lateral entry teachers an introduction to learning theory, various styles of learning, and motivational factors involved in the learning process. Emphasis is placed on the development of cognitive skills using the eight types of intelligence and applying these to practical classroom situations. Upon completion, students should be able to describe theories and styles of learning and discuss the relationship between different types of intelligence to learning motivation.

EDU 252  Math and Sci Activities  3-0-3  
Corequisites: DRE 098  
This course introduces discovery experiences in math and science. Topics include concepts, facts, phenomena, and skills in each area. Upon completion, students should be able to identify, plan, select materials and equipment, and implement and evaluate developmentally appropriate curriculum materials.

EDU 257  Instructional Strategies/Math  2-2-3  
Prerequisites: Take All: DMA 010, DMA 020, DMA 030  Corequisite: DRE 098  
This course covers concepts, activities, methods, and materials for teaching mathematics in elementary through middle school grades. Topics include individual instruction, developmental skill building, manipulatives, problem solving, critical thinking and numerical concepts. Upon completion, students should be able to assess, plan, implement and evaluate developmentally appropriate math experiences relating to the NC Standard Course of Study.

EDU 258  Instructional Strategies/Science  2-2-3  
Corequisite: DRE 098  
This course covers objectives, content, materials, and instructional approaches to natural sciences for elementary through middle grades. Topics include classroom and laboratory science experiences, research/study techniques, and critical thinking. Upon completion, students should be able to assess/plan/implement/evaluate developmentally appropriate learning experiences in science as related to the North Carolina Standard Course of Study.

EDU 259  Curriculum Planning  3-0-3  
Prerequisite: EDU 119  
Corequisite: DRE 098  
This course is designed to focus on curriculum planning for three to five year olds. Topics include philosophy, curriculum models, indoor and outdoor environments, scheduling, authentic assessment, and planning developmentally appropriate experiences. Upon completion, students should be able to evaluate children's development, critique curriculum, plan for individual and group needs, and assess and create quality environments.

EDU 261  Early Childhood Admin I  3-0-3  
Corequisites: EDU 119 & DRE 098  
This course introduces principles of basic programming and staffing, budgeting/financial management and marketing and rules and regulations of diverse early childhood programs. Topics include program structure and philosophy, standards of NC child care programs, finance, funding resources, and staff and organizational management. Upon completion, students should be able to develop components of program/personnel handbooks, a program budget, and demonstrate knowledge of fundamental marketing strategies and NC standards.

EDU 262  Early Childhood Admin II  3-0-3  
Prerequisite: EDU 261  
Corequisites: EDU 119 & DRE 098  
This course focuses on advocacy/leadership, public relations/community outreach and program quality/evaluation for diverse early childhood programs. Topics include program evaluation/accreditation, involvement in early childhood professional organizations, leadership/mentoring, family, volunteer and community involvement and early childhood advocacy. Upon completion, students should be able to define and evaluate all components of early childhood programs, develop strategies for advocacy and integrate community into programs.

EDU 271  Educational Technology  2-2-3  
Local Prerequisites: CIS 110 or CIS 111  
Corequisites: DRE 098  
This course introduces the use of technology to enhance teaching and learning in all educational settings. Topics include technology concepts, instructional strategies, materials, and adaptive technology for children with exceptionalities, facilitation of assessment/evaluation, and ethical issues surrounding the use of technology. Upon completion, students should be able to apply technology enhanced instructional strategies, use a variety of technology resources, and demonstrate appropriate technology skills in educational environments.
EDU 275 Effective Teacher Training 2-0-2
Corequisite: DRE 098
This course provides specialized training using an experienced-based approach to learning. Topics include instructional preparation and presentation, student interaction, time management, learning expectations, evaluation, and curriculum principles and planning. Upon completion, students should be able to prepare and present a six-step lesson plan and demonstrate ways to improve students' time on-task.

EDU 280 Language and Literacy 3-0-3
Corequisite: DRE 098
This course is designed to expand students' understanding of children's language and literacy development and provides strategies for enhancing language/literacy experiences in an enriched environment. Topics include selection of diverse literature and interactive media, the integration of literacy concepts throughout the curriculum, appropriate observations/assessments and inclusive practices. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate and diverse language/literacy experiences.

EDU 281 Instructional Strategies/Read & Write 2-2-3
Corequisite: DRE 098
This course covers concepts, resources, and methods for teaching reading and writing to elementary through middle-grade children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches and instructional strategies. Upon completion, students should be able to assess, plan, implement and evaluate school-age literacy experiences as related to the North Carolina Standard Course of Study.

EDU 284 Early Childhood Capstone Prac 1-9-4
Prerequisites: Take One Set:
Set 1: EDU-119, EDU-144, EDU-145, EDU-146, and EDU-151
Set 2: EDU-119, PSY-244, PSY-245, EDU-146, and EDU-151
Set 3: EDU-119, PSY-244, EDU-145, EDU-146, and EDU-151
Set 4: EDU-119, PSY-244, EDU-145, EDU-146, and EDU-151
Corequisites: DRE 098
This course is designed to allow students to apply skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors as indicated by assignments and onsite faculty visits.

EDU 285 INTERNSHIP EXP SCHOOL AGE 1-9-4
Prerequisites: Take One Set:
Set 1: EDU 144, EDU 145, EDU 118, EDU 163
Set 2: PSY 244, PSY 245, EDU 118, EDU 163
Set 3: PSY 244, EDU 145, EDU 118, EDU 163
Set 4: EDU 144, PSY 245, EDU 118, EDU 163

EDU 287 Leadership Early Child Education 3-0-3
Prerequisites: Take One Set:
Set 1: EDU 119, EDU 131, EDU 144, EDU 145
Set 2: EDU 119, EDU 131, PSY 244, PSY 245
Corequisites: Take DRE 098
This course is designed to facilitate and guide the development of early childhood professionals preparing for leadership roles in improving community early childhood services. Topics include principles of social change, characteristics of effective leaders, techniques of action research, childcare funding mechanisms, quality initiatives, and key issues in early care. Upon completion, students should be able to identify key issues; develop strategic plans; establish relationships with community leaders; and identify opportunities and barriers for advocacy.

EDU 289 Adv. Issues/School Age 2-0-2
Corequisites: DRE 098
This course covers advanced topics and issues that relate to school-age programs. Emphasis is placed on current advocacy issues, emerging technology, professional growth, ethics, and organizations for providers/teachers working with school-age populations. Upon completion, students should be able to list, discuss, and explain advanced current topics and issues surrounding school-aged populations.

ENGINEERING

EGR 131 Introduction To Electronics Technology 1-2-2
This course introduces the basic skills required for electrical/electronics technicians. Topics include soldering/desoldering, safety practices, test equipment, scientific calculators, AWG wire table, the resistor color code, electronic devices, problem solving, and use of hand tools. Upon completion, students should be able to solder/desolder, operate test equipment, apply problem solving techniques, and use a scientific calculator.
EGR 150  Intro to Engineering  1-2-2
This course is an overview of the engineering profession. Topics include goal setting and career assessment, ethics, public safety, the engineering method and design process, written and oral communication, interpersonal skills and team building, and computer applications. Upon completion, students should be able to understand the engineering process, the engineering profession, and utilize college resources to meet their educational goals.

EGR 220  Engineering Statics  3-0-3
This course introduces the concepts of engineering based on forces in equilibrium. Topics include concentrated forces, distributed forces, forces due to friction, and inertia as they apply to machines, structures, and systems. Upon completion, students should be able to solve problems which require the ability to analyze systems of forces in static equilibrium.

EGR 285  Design Project  0-4-2
This course provides the opportunity to design an instructor-approved project using previously acquired skills. Emphasis is placed on selection, proposal, design, testing, and documentation of the approved project. Upon completion, students should be able to present and demonstrate projects.

ELECTRICITY

ELC 111  Introduction to Electricity  2-2-3
This course introduces the fundamental concepts of electricity and test equipment to non-electrical/electronics majors. Topics include basic DC and AC principles (voltage, resistance, current, impedance); components (resistors, inductors, and capacitors); power; and operation of test equipment. Upon completion, students should be able to construct and analyze simple DC and AC circuits using electrical test equipment.

ELC 112  DC/AC Electricity  3-6-5
This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion, students should be able to construct, verify, and analyze simple DC/AC circuits.

ELC 113  Residential Wiring  2-6-4
This course introduces the care/usage of tools and materials used in residential electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical print reading; planning, layout, and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with basic electrical installations.

ELC 114  Commercial Wiring  2-6-4
Local Prerequisites: ELC 113
This course provides instruction in the application of electrical tools, materials, and test equipment associated with electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with electrical installations.

ELC 117  Motors and Controls  2-6-4
Local Prerequisites: ELC 112
This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

ELC 127  Software for Technicians  1-3-2
This course introduces computer software which can be used to solve electrical/electronics problems. Topics include electrical/electronics calculations and applications. Upon completion, students should be able to utilize a personal computer for electrical/electronics-related applications.

ELC 128  Introduction to PLC  2-3-3
Local Prerequisite: ELC 112 or Permission of Instructor
This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to install PLC systems and create simple programs.

ELC 131  Circuit Analysis I  3-3-4
Local Corequisites: MAT 121 or MAT 161
This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.

ELC 131A  Circuit Analysis I Lab  0-3-1
Corequisites: ELC 131
This course provides laboratory assignments as applied to fundamental principles of DC/AC electricity. Emphasis is placed on measurements and evaluation of electrical components, devices and circuits. Upon completion, the students will gain hands-on experience by measuring voltage, current, and opposition to current flow utilizing various meters and test equipment.
ELC 144  OTDR Operation  1-0-1
This course covers the use of the Optical Time Domain Reflectometer (OTDR), principles of operations, typical displays, and signature interpretations. Topics include cable acceptance testing, splice loss testing, reflection, troubleshooting line breaks, and usage of the OTDR for fiber optics maintenance and restoration. Upon completion, students should be able to test for attenuation bandwidth and cable length, identify backscatter, connector loss, cable breaks, and perform acceptance testing.

ELC 220  Photovoltaic Sys Tech  2-3-3
This course introduces the concepts, tools, techniques, and materials needed to understand systems that convert solar energy into electricity with photovoltaic (pv) technologies. Topics include site analysis for system integration, building codes, and advances in photovoltaic technology. Upon completion, students should be able to demonstrate understanding of various photovoltaic design and proper installation of NEC compliant solar electric power systems.

ELC 221  Adv PV Sys Designs  2-3-3
Prerequisites: ELC 220
This course introduces specific elements in photovoltaic (pv) systems technologies including efficiency, modules, inverters, charge controllers, batteries, and system installation. Topics include National Electrical Code (NEC), electrical specifications, photovoltaic system components, array design and power integration requirements that combine to form a unified structure. Upon completion, students should be able to demonstrate an understanding of various photovoltaic designs and proper installation of NEC compliant solar electric power systems.

ELC 228  PLC Applications  2-6-4
Local Prerequisite: ELC 128
This course covers programming and applications of programmable logic controllers. Emphasis is placed on programming techniques, networking, specialty I/O modules, and system troubleshooting. Upon completion, students should be able to specify, implement, and maintain complex PLC controlled systems.

ELC 229  Applications Project  1-3-2
Local Prerequisite: HYD 121 and ELC 112
This course provides an individual and/or integrated team approach to a practical project as approved by the instructor. Topics include project selection and planning, implementation and testing, and a final presentation. Upon completion, students should be able to plan and implement an applications-oriented project.

ELECTRONICS  C-L-SHC

ELN 110  Survey of Electronics  2-2-3
This course introduces fundamental electrical and electronic concepts for non-electronic majors. Emphasis is placed on terminology and devices used in basic electronic and digital applications. Upon completion, students should be able to demonstrate a grasp of the fundamentals of modern electronic circuits.

ELN 131  Analog Electronics I  3-3-4
Local Prerequisite: ELC 112 or ELC 131
This course introduces the characteristics and applications of semiconductor devices and circuits. Emphasis is placed on analysis, selection, biasing, and applications. Upon completion, students should be able to construct, analyze, verify, and troubleshoot analog circuits with appropriate techniques and test equipment.

ELN 132  Analog Electronic II  3-3-4
Local Prerequisite: ELC 131 or ELC 140
This course covers additional applications of analog electronic circuits with an emphasis on analog and mixed signal integrated circuits (IC). Topics include amplification, filtering, oscillation, voltage regulation, and other analog circuits. Upon completion, students should be able to construct, analyze, verify, and troubleshoot analog electronic circuits using appropriate techniques and test equipment.

ELN 133  Digital Electronics  3-3-4
Local Prerequisite: EGR 131 or ELC 131
This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, medium scale integration (MSI) and large scale integration (LSI) circuits, analog to digital (AD) and digital to analog (DA) conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment.

ELN 231  Industrial Controls  2-3-3
Local Prerequisite: ELC 112
This course introduces the fundamental concepts of control of rotating machinery and associated peripheral devices. Topics include rotating machine theory, ladder logic, electromechanical and solid state relays, motor controls, pilot devices, three-phase power systems, and other related topics. Upon completion, students should be able to interpret schematics and demonstrate an understanding of electromechanical and electronic control of rotating machinery.

ELN 232  Introduction to Microprocessors  3-3-4
Local Prerequisite: ELN 133 or Instructor Approval
This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include low-level language programming, bus architecture, I/O systems, memory systems, interrupts, and other related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment.
ELN 234 Communication Systems 3-3-4
Prerequisite: Take one: ELN 132 or ELN 140
This course introduces the fundamentals of electronic communication systems. Topics include the frequency spectrum, electrical noise, modulation techniques, characteristics of transmitters and receivers, and digital communications. Upon completion, students should be able to interpret analog and digital communication circuit diagrams, analyze transmitter and receiver circuits, and use appropriate communication test equipment.

ELN 247 Electronic Application Project 1-3-2
Local Prerequisite: ELN 131 and either ELN 132 or ELN 140
This course provides a structured approach to an application-oriented electronics project. Emphasis is placed on selecting, planning, implementing, testing, and presenting an application-oriented project. Upon completion, students should be able to present and demonstrate an electronics application-oriented project.

ELN 260 Prog Logic Controllers 3-3-4
Local Prerequisites: ELC 128
This course provides a detailed study of PLC applications, with a focus on design of industrial controls using the PLC. Topics include PLC components, memory organization, math instructions, documentation, input/output devices, and applying PLCs in industrial control systems. Upon completion, students should be able to select and program a PLC system to perform a wide variety of industrial control functions.

ELN 275 Troubleshooting 1-3-2
Local Prerequisites: ELN 133 and either ELN 132 or ELN 140
This course covers techniques of analyzing and repairing failures in electronic equipment. Topics include safety, signal tracing, use of service manuals, and specific troubleshooting methods for analog, digital, and other electronics-based circuits and systems. Upon completion, students should be able to logically diagnose and isolate faults and perform necessary repairs to meet manufacturers' specifications.

ENGLISH

ENG 102 Applied Communications II C-L-SHC 3-0-3
This course is designed to enhance writing and speaking skills for the workplace. Emphasis is placed on generating short writings such as job application documents, memoranda, and reports and developing interpersonal communication skills with employees and the public. Upon completion, students should be able to prepare effective, short, and job-related written and oral communications. The computer is used as a writing and design tool for this course. This is a diploma-level course.

ENG 110 Freshman Composition 3-0-3
Prerequisites: Take One Set: ENG 090 and RED 080; DRE 097; or appropriate placement test scores
Corequisites: None
This course is designed to develop informative and business writing skills. Emphasis is placed on logical organization of writing, including effective introductions and conclusions, precise use of grammar, and appropriate selection and use of sources. Upon completion, students should be able to produce clear, concise, well-organized short papers.

ENG 111 Writing and Inquiry 3-0-3
Prerequisites: Take one set: RED 090 and ENG 090, ENG 095, DRE 098, or appropriate placement test scores.
This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition.

ENG 112 Writing/Research in the Disciplines 3-0-3
Prerequisite: ENG 111
This course, the second in a series of two, introduces research techniques, documentation styles, and writing strategies. Emphasis is placed on analyzing information and ideas and incorporating research findings into documented writing and research projects. Upon completion, students should be able to evaluate and synthesize information from primary and secondary sources using documentation appropriate to various disciplines. This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition.

ENG 113 Literature-Based Research 3-0-3
Prerequisite: ENG 111
This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. Students should be able to respond to literature orally in class discussions and in small group and individual presentations. This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition.

ENG 114 Professional Research and Reporting 3-0-3
Prerequisite: ENG 111
This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-
designed business and professional written and oral presentations. The computer is used as a writing and design tool for this course. This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition.

ENG 115  Oral Communication  3-0-3
This course introduces the basic principles of oral communication in both small group and public settings. Emphasis is placed on the components of the communication process, group decision-making, and public address. Upon completion, students should be able to demonstrate the principles of effective oral communication in small group and public settings.

ENG 116  Technical Report Writing  3-0-3
Prerequisite: Take one: ENG 110 or ENG 111
This course, the second in a series of two, introduces layout and design of technical reports used in business and industry. Emphasis is placed on audience analysis, data collection and analysis, technical writing style and organization, oral presentation or technical data, and the appropriate use of graphics in written and oral presentations. Upon completion, students should be able to produce written and oral reports using a variety of technical communication models.

ENG 125  Creative Writing I  3-0-3
Prerequisite: ENG 111
This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ENG 126  Creative Writing II  3-0-3
Prerequisite: ENG 125
This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

ENG 231  American Literature I  3-0-3
Prerequisite: Take one: ENG 112, ENG 113, or ENG 114
This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ENG 232  American Literature II  3-0-3
Prerequisite: Take one: ENG 112, ENG 113, or ENG 114
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ENG 233  Major American Writers  3-0-3
Prerequisite: Take one: ENG 112, ENG 113, or ENG 114
This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ENG 241  British Literature I  3-0-3
Prerequisite: Take one: ENG 112, ENG 113, or ENG 114
This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ENG 242  British Literature II  3-0-3
Prerequisite: Take one: ENG 112, ENG 113, or ENG 114
This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ENG 243  Major British Writers  3-0-3
Prerequisite: Take one: ENG 112, ENG 113, or ENG 114
This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ENG 261  World Literature I  3-0-3
Prerequisite: Take one: ENG 112, ENG 113, or ENG 114
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary
beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ENG 262: World Literature II 3-0-3
Prerequisite: Take one: ENG 112, ENG 113, or ENG 114
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ENG 273 African-American Literature 3-0-3
Prerequisite: Take one: ENG 112, ENG 113, or ENG 114
This course provides a survey of the development of African-American literature from its beginnings to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

ENVIRONMENTAL

ENV 110 Environmental Science 3-0-3
This course covers fundamental scientific problems facing society today. Topics include population, natural resources, air and water pollution, and waste disposal problems. Upon completion, students should be able to demonstrate insight into the role the individual plays in shaping the environment.

FRENCH

FRE 111 Elementary French I 3-0-3
This course introduces the fundamental elements of the French language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

FRE 112 Elementary French II 3-0-3
Prerequisite: FRE 111
This course is a continuation of FRE 111 focusing on the fundamental elements of the French language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate further cultural awareness. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

FRE 211 Intermediate French I 3-0-3
Prerequisite: FRE 112
This course provides a review and expansion of the essential skills of the French language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

FRE 212 Intermediate French II 3-0-3
Prerequisite: FRE 211
This course is a continuation of FRE 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

FOOD SERVICE

FST 100 Introduction to Foodservice Industry 3-0-3
This course is designed to develop an understanding of the foodservice industry, its terminology, mathematics, and measurements. Emphasis is placed on employability skills, vocabulary, and culinary math including fractions, ratio and proportion, and percents. Upon completion, students should be able to identify career paths, convert recipes, and differentiate standard measurements. This course is restricted to the Foodservice Technology program and is approvable for offering only at designated Department of Correction facilities.

FST 101 Quantity Baking I 1-4-3
This course introduces fundamental concepts, skills, and techniques in quantity baking. Topics include yeast and quick breads, cookies, cakes, and other baked goods. Upon completion, students should be able to prepare and evaluate baked products. This course is restricted to the Foodservice Technology program and is approvable for offering only at designated Department of Correction facilities.

FST 102 Foodservice Skills I 4-8-8
Corequisites: Take One: FST 103 or CUL 110
This course introduces the concepts, skills, and techniques for volume food production in an institutional setting. Emphasis is placed on development of skills in knife, tool, and equipment handling and applying principles of food preparation to produce varieties of food products. Upon completion, students should be able to demonstrate entry-level skills in a quantity foodservice operations. This course is restricted to the Foodservice Technology program and is approvable for offering only at designated Department of Correction facilities.

FST 103 Foodservice Sanitation 2-0-2
This course provides practical experience with basic principles of sanitation and safety in the foodservice industry. Emphasis is placed on personal hygiene habits, safety regulations, and food handling practices (H.A.C.C.P.) that protect the health of the consumer. Upon completion, students should be able to demonstrate appropriate safety and sanitation practices required in the foodservice industry. This course is restricted to the Foodservice Technology program and is approvable for offering only at designated Department of Correction facilities.

FST 103A Foodservice Sanitation Lab 0-2-1
Corequisites: Take One: FST 103 or CUL 110
This course provides a laboratory experience for enhancing student skills in the basic principles of sanitation and safety in the foodservice industry. Emphasis is placed on the practical experiences that enhance personal hygiene habits, safety regulations, and food handling practices that protect the health of the consumer. Upon completion, students should be able to demonstrate the application of sanitation and safety production procedures in foodservice operations. This course is restricted to the Foodservice Technology program and is approvable for offering only at designated Department of Correction facilities.

FST 105 Menu Planning 3-0-3
This course introduces the principles and functions of menu management for general and special populations. Emphasis is placed on building menus with regard to nutritional considerations and dietary needs. Upon completion, students should be able to develop and prepare menus to be used in a variety of dining settings. This course is restricted to the Foodservice Technology program and is approvable for offering only at designated Department of Correction facilities.

FST 106 Foodservice Skills II 2-6-5
Prerequisites: Take One Set:
Set 1: FST 102 and FST 103
Set 2: FST 102 and CUL 110
Set 3: CUL 140, CUL 170, and FST 103
Set 4: CUL 140, CUL 170, and CUL 110
Set 5: CUL 142, CUL 170, and FST 103
Set 6: CUL 142, CUL 170, and CUL 110
This course is designed to increase the student’s level of proficiency in theory and application of foodservice skills in commercial kitchens. Emphasis is placed on breakfast cookery, plate presentation, appropriate vegetable/starch accompaniments, and hot and cold foods. Upon completion, students should be able to plan, execute, and successfully serve entrees with complementary side items. This course is restricted to the Foodservice Technology program and is approvable for offering only at designated Department of Correction facilities.

FST 107 Quantity Baking II 1-4-3
Prerequisites: Take One Set:
Set 1: FST 103 and FST 101
Set 2: FST 103 and CUL 160
Set 3: CUL 110 and FST 101
Set 4: CUL 110 and CUL 160
This course provides advanced skills and techniques for preparing pastry items. Emphasis is placed on specialty breads, classical desserts, pastries, and decorative finishing. Upon completion, students should be able to produce and plate a variety of quality-baked pastry items. This course is restricted to the Foodservice Technology program and is approvable for offering only at designated Department of Correction facilities.

FST 108 Purchasing & Cost Control 2-2-3
This course covers the concepts associated with the control of primary costs in foodservice establishments: purchasing and cost controls. Topics include the purchasing, receiving, storage, issuance, and production of products, as well as revenue, inventory, and labor controls. Upon completion, students should be able to apply the necessary knowledge and skills required to understand and control the primary costs for a foodservice establishment. This course is restricted to the Foodservice Technology program and is approvable for offering only at designated Department of Correction facilities.

GEOLOGY

GEL 111 Introductory Geology 3-2-4
This course introduces basic landforms and geological processes. Topics include rocks, minerals, volcanoes, fluvial processes, geological history, plate tectonics, glaciers, and coastal dynamics. Upon completion, students should be able to describe basic geological processes that shape the earth. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

GEL 113 Historical Geology 3-2-4
Prerequisite: Take one: GEL 111 or GEL 120
This course covers the geological history of the earth and its life forms. Emphasis is placed on the study of rock strata, fossil groups, and geological time. Upon completion, students should be able to identify major fossil groups and associated rock strata and approximate ages of geological formations. This course has been approved for transfer under the CAA and ICAA as a general education course in...
This course provides insights into geologic forces that cause environmental changes influencing man's activities. Emphasis is placed on natural hazards and disasters caused by geologic forces. Upon completion, students should be able to relate major hazards and disasters to the geologic forces responsible for their occurrence. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

This course introduces the regional concept, which emphasizes the spatial association of people and their environment. Emphasis is placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate an understanding of their functional relationships. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

This course is a survey of current and emerging technology applications and data standards in the healthcare industry. Topics include the history, implementation, use, management, and impact of information technology in healthcare settings. Upon completion, students should have an understanding of the current trends and issues in healthcare informatics.

This course is a survey of the healthcare insurance system. Emphasis is placed on the foundation necessary for understanding the healthcare delivery system, terminology and practices of healthcare insurance, and provider reimbursement. Upon completion, students should have an understanding of healthcare insurance and how outcomes are addressed through healthcare informatics.

This course covers the management and usage of data in healthcare settings according to current practices in healthcare informatics. Topics include data warehousing, data integrity, data security, data mining, and report generating in healthcare settings. Upon completion, students should be able to demonstrate an understanding of using healthcare data to support reporting and decision making in healthcare settings.

This course provides an introduction to basic personal health and wellness. Emphasis is placed on current health issues such as nutrition, mental health, and fitness. Upon completion, students should be able to demonstrate an understanding of the factors necessary to the maintenance of health and wellness. This course has been approved for transfer under the CAA and ICAA pre-major and/or elective requirement.

This course introduces the basics of emergency first aid treatment. Topics include rescue breathing, CPR, first aid for choking and bleeding, and other first aid procedures. Upon completion, students should be able to demonstrate skills in providing emergency care for the sick and injured until medical help can be obtained. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

This course introduces world history from the dawn of civilization to the early modern era. Topics include Eurasian, African, American, and Greco-Roman civilizations and Christian, Islamic, and Byzantine cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in pre-modern world civilizations. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

This course introduces world history from the early modern era to the present. Topics include the cultures of Africa, Europe, India, China, Japan, and the Americas. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern world civilizations. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

This course introduces the study of global history. Emphasis is placed on topics such as colonialism, industrialism, and nationalism. Upon completion, students should be able to analyze significant global historical issues. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.
HIS 121  Western Civilization I  3-0-3
This course introduces western civilization from pre-history to the early modern era. Topics include ancient Greece, Rome, and Christian institutions of the Middle Ages and the emergence of national monarchies in western Europe. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early western civilization. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

HIS 122  Western Civilization II  3-0-3
This course introduces western civilization from the early modern era to the present. Topics include the religious wars, the Industrial Revolution, World Wars I and II, and the Cold War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern western civilization. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

HIS 131  American History I  3-0-3
This course is a survey of American history from pre-history through the Civil War era. Topics include the migrations to the Americas, the colonial and revolutionary periods, the development of the Republic, and the Civil War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early American history. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

HIS 132  American History II  3-0-3
This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

HIS 151  Hispanic Civilization  3-0-3
This course surveys the cultural history of Spain and its impact on the New World. Topics include Spanish and Latin American culture, literature, religion, and the arts. Upon completion, students should be able to analyze the cultural history of Spain and Latin America. This course has been approved to satisfy the Comprehensive Articulation premajor and/or elective requirement.

HIS 222  African-American History I  3-0-3
This course covers African-American history through the Civil War period. Topics include African origins, the nature of slavery, African-American participation in the American Revolution, abolitionism, and the emergence of a distinct African-American culture. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early African-American history. This course has been approved for transfer under the CAA and ICAA a premajor and/or elective course requirement.

HIS 223  African-American History II  3-0-3
This course covers African-American history from the Civil War to the present. Topics include Reconstruction, the Jim Crow era, urbanization, the Harlem Renaissance, the Civil Rights movement, and the philosophies of major African-American leaders. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in African-American history since the Civil War. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

HIS 226  The Civil War  3-0-3
This course examines the social, political, economic, and ideological forces that led to the Civil War and Reconstruction. Topics include regional conflicts and sectionalism, dissolution of the Union, military campaigns, and the War’s socioeconomic impact, aftermath, and consequences. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the United States during the era of the Civil War. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

HIS 226  North Carolina History  3-0-3
This course is a study of geographical, political, economic, and social conditions existing in North Carolina from America’s discovery to the present. Topics include native and immigrant backgrounds; colonial, antebellum, and Reconstruction periods; party politics; race relations; and the transition from an agrarian to an industrial economy. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in North Carolina. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

HEALTHCARE MANAGEMENT  C-L-SHC
HMT 110  Intro to Healthcare Mgt  3-0-3
This course introduces the functions, practices, organizational structures, and professional issues in healthcare management. Emphasis is placed on planning, controlling, directing, and communicating within health and human services organizations. Upon completion, students should be able to apply the concepts of management within a healthcare service environment.

HMT 210  Medical Insurance  3-0-3
Prerequisites: MED 122 or OST 142
This course introduces the concepts of medical insurance. Topics include types and characteristics of third-party
payers, coding concepts, payment systems, and manual/electronic claims form preparation. Upon completion, students should be able to process third-party claims forms.

HSE 210  Human Services Issues  2-0-2
Local Prerequisite: Successful completion of 12 SHC in the HSE program
This course covers current issues and trends in the field of human services. Emphasis is placed on contemporary topics with relevance to special issues in a multi-faceted field. Upon completion, students should be able to integrate the knowledge, skills, and experiences gained in classroom and clinical experiences with emerging trends in the field.

HSE 225  Crisis Intervention  3-0-3
This course introduces the basic theories and principles of crisis intervention. Emphasis is placed on identifying and demonstrating appropriate and differential techniques for intervening in various crisis situations. Upon completion, students should be able to assess crisis situations and respond appropriately.

HUMANITIES  C-L-SHC
HUM 110  Technology and Society  3-0-3
This course considers technological change from historical, artistic, and philosophical perspectives and its effect on human needs and concerns. Emphasis is placed on the causes and consequences of technological change. Upon completion, students should be able to critically evaluate the implications of technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

HUM 115  Critical Thinking  3-0-3
Prerequisites: DRE 098
This course introduces the use of critical thinking skills in the context of human conflict. Emphasis is placed on evaluating information, problem solving, approaching cross-cultural perspectives, and resolving controversies and dilemmas. Upon completion, students should be able to demonstrate orally and in writing the use of critical thinking skills in the analysis of appropriate texts. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

HUM 120  Cultural Studies  3-0-3
This course introduces the distinctive features of a particular culture. Topics include art, history, music, literature, politics, philosophy, and religion. Upon completion, students should be able to appreciate the unique character of the study culture. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

HUM 122  Southern Culture  3-0-3
This course explores the major qualities that make the South a distinct region. Topics include music, politics, literature, art, religion, race relations, and the role of social class in historical and contemporary contexts. Upon completion, students should be able to identify the characteristics that distinguish Southern culture. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

HUM 150  American Women’s Studies  3-0-3
This course provides an inter-disciplinary study of the history, literature, and social roles of American women from Colonial times to the present. Emphasis is placed on women’s roles as reflected in American language usage, education, law, the workplace, and mainstream culture. Upon completion, students should be able to identify and analyze the roles of women as reflected in various cultural forms. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

HUM 160  Introduction to Film  2-2-3
This course introduces the fundamental elements of film artistry and production. Topics include film styles, history, and production techniques, as well as the social values reflected in film art. Upon completion, students should be able to critically analyze the elements covered in relation to selected films. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

HUM 180  International Cultural Exploration  2-3-3
This course provides a framework for students to visit, examine, and analyze a country/region outside the United States to learn about the place and people. Emphasis is placed on the distinctive cultural characteristics of a country or region. Upon completion, students should be able to identify similarities/differences, analyze causes/effects, and clearly articulate the impact of one or more cultural elements. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

HUM 211  Humanities I  3-0-3
Prerequisite: ENG 111
This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind’s answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from ancient through early modern times. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied.

HUM 220  Human Values and Meaning  3-0-3
Prerequisite: ENG 111
This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society, and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between open and closed questions and between narrative and scientific models of understanding. This
course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

HYDRAULICS

**HYD 110**  **Hydraulics/Pneumatics I**  
C-L-SHC  
2-3-3  
This course introduces the basic concepts and functions of hydraulic and pneumatic systems. Topics include standard symbols, pumps, control valves, control assemblies, actuators, FRL, maintenance procedures, and switching and control devices. Upon completion, students should be able to understand the operation of a fluid power system, including design, application, and troubleshooting.

**HYD 121**  **Hydraulics/Pneumatics II**  
C-L-SHC  
1-3-2  
Prerequisite: HYD 110  
This course is a continuation of HYD 110 and provides further investigation into fluid power systems. Topics include advanced system components, troubleshooting, and other related topics. Upon completion, students should be able to demonstrate an understanding of the installation, application, operation, and maintenance of fluid power components and systems.

INTERNATIONAL BUSINESS

**INT 110**  **International Business**  
C-L-SHC  
3-0-3  
This course provides an overview of the environment, concepts, and basic differences involved in international business. Topics include forms of foreign involvement, international trade theory, governmental influences on trade and strategies, international organizations, multinational corporations, personnel management, and international marketing. Upon completion, students should be able to describe the foundation of international business.

INDUSTRIAL SCIENCE

**ISC 110**  **Workplace Safety**  
C-L-SHC  
1-0-1  
This course introduces the basic concepts of workplace safety. Topics include fire, ladders, lifting, lock-out/tag-out, personal protective devices, and other workplace safety issues related to OSHA compliance. Upon completion, students should be able to demonstrate an understanding of the components of a safe workplace.

**ISC 121**  **Environmental Health and Safety**  
C-L-SHC  
3-0-3  
This course covers workplace environmental, health, and safety concepts. Emphasis is placed on managing the implementation and enforcement of environmental health and safety regulations and on preventing accidents, injuries, and illnesses. Upon completion, students should be able to demonstrate an understanding of basic concepts of environmental, health, and safety.

**ISC 131**  **Quality Management**  
3-0-3  
This course provides a study and analysis of the aspects and implications of quality management that lead to customer satisfaction through continuous quality improvement. Topics include Total Quality Management, ISO 9000, organizing for quality, supplier/vendor relationships, and the role of leadership in quality management. Upon completion, students should be able to demonstrate an understanding of quality management concepts and techniques.

**ISC 175**  **QA Fundamentals**  
1-0-1  
This course is designed to increase fundamental knowledge in the philosophies, principles, and practice of quality in the work environment. Topics include the history and basics of quality, philosophies of quality, daily application of principles, and roles of quality professions with emphasis on cGMP environment. Upon completion, students should be able to discuss quality fundamentals, components of quality systems, and identify standards and programs of quality.

**ISC 221**  **Statistical Qual Control**  
C-L-SHC  
3-0-3  
Local Prerequisites: Completion of curriculum mathematics requirement  
This course covers the principles and techniques of statistical process control for the improvement of productivity. Emphasis is placed on basic statistics for quality control, organization and procedures for efficient quality control including inspections, process control, and tests of significance. Upon completion, students should be able to apply statistical principles and techniques to enhance production.

**ISC 278**  **cGMP Quality Systems**  
2-0-2  
This course focuses on the development, implementation, and on-going maintenance of a quality system in a cGMP environment. Topics include the cGMP standard, components of cGMP quality systems, quality function roles and training, and development of documentation such as SOPs and system review procedures. Upon completion, the student should be able to identify the components of a quality system and develop a quality system manual utilizing the cGMP standard.

**ISC 279**  **Auditing for cGMP**  
2-2-3  
This course provides basic knowledge in internal audit planning, implementation, and reporting utilizing cGMP as the standard. Topics include auditing basics and types, phases of the audit process, regulatory requirements, auditing tools, auditor qualifications and skills, and behaviors while being audited. Upon completion, students should be able to identify the components of an audit program, develop a plan based on cGMP standards, and demonstrate reporting techniques.

**ISC 280**  **Validation Fundamentals**  
1-2-2
This course covers the fundamental concepts and components of a validation program in a cGMP environment. Emphasis is placed on FDA requirements concerning validation, types of validation, documentation, procedures, and the QA role. Upon completion, students should be able to discuss the purpose of validation, identify the steps in the validation process, and effectively utilize sample documentation.

**LASERS AND OPTICS**

**LEO 111  Lasers and Applications**  
Prerequisite: ELN 133  
Corequisite: MAT 122  
This course covers the basic principles of laser operations and applications with a particular emphasis on laser safety. Topics include the properties of laser light, laser components, laser beam characteristics, and laser safety. Upon completion, students should be able to make measurements of laser beam characteristics and conduct a safety audit and hazards analysis of a laser facility.

**LEO 211  Photonics Technology** 4-6-7  
Prerequisite: ELN 133  
Local Corequisite: LEO 211  
This course covers optical theory, optical equipment, optical components, and laser systems. Topics include generation and control of light using optical components such as lasers, lenses, mirrors, diffraction gratings, filters, and polarizers. Upon completion, students should be able to construct, analyze, verify, and troubleshoot optical systems using appropriate techniques and equipment.

**LEO 212  Photonics Applications** 3-3-4  
Prerequisite: LEO 211  
This course provides knowledge and skills related to emerging photonics applications in North Carolina industry. Topics include applications such as materials processing, bar code scanning, surgical applications, optical data storage, and optical computers. Upon completion, students should be able to describe and analyze the critical issues attendant to a variety of photonics applications.

**LEO 213  Advanced Photonic Applications** 3-3-4  
Prerequisite: LEO 212  
This course covers advanced knowledge and skills related to industrial photonics applications in industry. Topics include applications such as light emitting diode (LED) semiconductor processing. LED photonics operational testing, fiber optics, and spectroscopy. Upon completion, students should be able to describe an analyze the critical issues attendant to a variety of photonics applications.

**LEO 221  PC Interface** 3-3-4  
Prerequisite: ELN 133  
This course covers the interaction of hardware and software in PC-based control systems. Topics include programming, I/O circuits, A/D and D/A converters, communications, and other related applications. Upon completion, students should be able to construct, program, verify, analyze, and troubleshoot both hardware and software for a basic PC-interface.

**LEO 222  Photonics Applications Project** 1-3-2  
Prerequisites: ELN 132 and LEO 211  
This course provides a structured approach to an applications-oriented photonics project. Emphasis is placed on selecting, planning, implementing, testing, and presenting the project. Upon completion, students should be able to present and demonstrate their photonics project.

**LEO 223  Fiber Optics** 3-3-4  
Prerequisites: ELN 132 and ELN 133  
This course covers the principles of fiber optics, particularly as a communications transmission medium. Topics include digital communications systems, optical fibers, cables, splices, connectors, optical transmitters and receivers, installation techniques, component testing, and system testing. Upon completion, students should be able to splice and connectorize a fiber, make measurements of fiber optic systems, and test and troubleshoot fiber optic components and systems.

**LEGAL EDUCATION**

**LEX 110  Intro to Paralegal Study** 2-0-2  
Local Corequisite: LEX 201  
This course introduces the paralegal profession and the legal system, and an emphasis is placed on the role of professional and legal ethics. Topics include regulations, ethics, case analysis, legal reasoning, career opportunities, professional organizations, terminology, and other related topics. Upon completion, the student should be able to explain the role of a paralegal and identify the skills, knowledge, and ethics required of paralegals.

**LEX 120  Legal Research/Writing I** 2-2-3  
Local Corequisite: LEX 180  
This course introduces the techniques of legal research and writing. Emphasis is placed on locating, analyzing, applying, and updating sources of law; effective legal writing, including proper citation; and the use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course.

**LEX 121  Legal Research/Writing II** 2-2-3  
Prerequisite: LEX 120  
This course covers advanced topics in legal research and writing. Topics include more complex legal issues and assignments involving preparation of legal memos, briefs, and other documents and the advanced use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course.
LEX 130  Civil Injuries  3-0-3
This course covers traditional tort concepts and the evolving body of individual rights created by statute. Topics include intentional and non-intentional torts with emphasis on negligence, strict liability, civil rights, workplace and environmental liability, remedies, and damages. Upon completion, students should be able to identify estates, forms of deeds, requirements for recording, and procedures to enforce rights to real property.

LEX 140  Civil Litigation I  3-0-3
This course introduces the structure of the legal system and the rules governing civil litigation. Topics include jurisdiction, state and federal rules of civil procedure, and evidence. Upon completion, students should be able to assist an attorney in the preparation of pleadings and motions.

LEX 141  Civil Litigation II  2-2-3
Prerequisite: LEX 140
This course covers advanced topics in the civil litigation process. Topics include motions, discovery, and trial and appellate procedures. Upon completion, students should be able to assist an attorney in preparing and organizing documents for trial, settlement, and post-trial practice.

LEX 150  Commercial Law I  2-2-3
This course covers legally enforceable agreements, forms of organization, and selected portions of the Uniform Commercial Code. Topics include drafting and enforcement of contracts, leases, and related documents and selection and implementation of business organization forms, sales, and commercial papers. Upon completion, students should be able to apply the elements of a contract, prepare various business documents, and understand the role of commercial paper.

LEX 160  Criminal Law & Procedure  2-2-3
This course introduces substantive criminal law and procedural rights of the accused. Topics include elements of state/federal crimes, defenses, constitutional issues, pre-trial and trial process, and other related topics. Upon completion, students should be able to explain elements of specific crimes and assist an attorney in preparing a criminal case.

LEX 180  Case Analysis & Reasoning  1-2-2
Corequisite: LEX 120
This course covers the techniques of reading and applying legal opinions and the skills of case analysis. Emphasis is placed on the components of opinions and on types of legal writing. Upon completion, students should be able to read, analyze, and brief opinions and prepare legal memoranda, briefs, and other legal documents.

LEX 210  Real Property I  3-0-3
This course introduces the study of real property law. Topics include the distinction between real and personal property, various estates, mechanics of conveyance and encumbrance, recordation, special proceedings, and other related topics. Upon completion, students should be able to identify estates, forms of deeds, requirements for recording, and procedures to enforce rights to real property.

LEX 211  Real Property II  1-4-3
Prerequisite: LEX 210
This course continues the study of real property law relating to title examination and preparation of closing documents. Topics include use of courthouse and other public records in title examination and preparation of documents required in real estate transactions and closings. Upon completion, students should be able to plot/draft a description, perform complete title examination, and draft closing documents, including title insurance forms and prepare disbursement reconciliation.

LEX 220  Corporate Law  2-0-2
This course covers the legal aspects of forming, operating, and maintaining a business. Emphasis is placed on the business corporation with additional coverage of sole proprietorships and partnerships. Upon completion, students should be able to draft basic partnership and corporate documents and file these documents as required.

LEX 240  Family Law  3-0-3
This course covers laws governing domestic relations. Topics include marriage, separation, divorce, child custody, support, property division, adoption, domestic violence, and other related topics. Upon completion, students should be able to interview clients, gather information, and draft documents related to family law.

LEX 250  Wills, Estates, & Trusts  2-2-3
This course covers various types of wills, trusts, probate, estate administration, and intestacy. Topics include types of wills and execution requirements, caveats and dissents, intestate succession, inventories and accountings, distribution and settlement, and other related topics. Upon completion, students should be able to draft simple wills, prepare estate forms, understand administration of estates, including taxation and explain terms regarding trusts.

LEX 260  Bankruptcy & Collections  3-0-3
This course provides an overview of the laws of bankruptcy and the rights of creditors and debtors. Topics include bankruptcy procedures and estate management, attachment, claim and delivery, repossession, foreclosure, collection, garnishment, and post-judgment collection procedure. Upon completion, students should be able to prepare and file bankruptcy forms, collection letters, statutory liens, and collection of judgments.

LEX 270  Law Office Mgt/Technology  1-2-2
This course provides an overview of law office management and organization. Topics include office forms, filing systems, billing/time keeping, computer systems, calendar systems, library administration, case management, office/personnel procedures, ethics, and technology. Upon
completion, students should be able to establish and maintain various law office systems, monitor case progress, and supervise non-lawyer personnel.

LEX 271 Law Office Writing 1-2-2
This course covers the basics of writing for the law office including the drafting of general correspondence, the briefing of cases, and the preparation of settlement brochures. Emphasis is placed on legal vocabulary in the context of letter writing, briefing judicial opinions, and the preparation of the settlement brochure. Upon completion, students should be able to draft letters to clients, opposing counsel, government entities, and insurance companies and prepare the settlement brochure.

LEX 280 Ethics & Professionalism 2-0-2
This course reinforces legal ethics and the role of the paralegal in a professional work environment. Topics include a review of ethics, employment opportunities, and search techniques; paralegal certification; and other related topics. Upon completion, students should be able to understand the paralegal’s role in the ethical practice of law.

LIBRARY AND INFORMATION TECHNOLOGY

LIB 110 Introduction to Libraries C-L-SHC 3-0-3
This course includes the history and future of libraries, a survey of library types, and an overview of library organization, services, and community relationships. Emphasis is placed on societal roles of the library, literary and intellectual freedom, comparisons and contrasts of library types, and the roles of professional organizations. Upon completion, students should be able to discuss literacy and intellectual freedom, describe library organization, and compare types of libraries, their materials, and services.

LIB 111 Lib. Info. Resources/Svcs 2-2-3
This course provides introductory skills for selecting and using general and specialized information resources in print and electronic formats and related copyright issues. Emphasis is placed on selection tools, print and electronic censorship, core collection materials in various disciplines, compiling bibliographies, and interpreting and referring reference questions. Upon completion, students should be able to use numerous resources to answer directional and factual questions and to decide when to refer difficult reference questions.

LIB 112 Library Coll. Dev./Acq. 2-2-3
This course covers library collection development and acquisitions policies and procedures. Emphasis is placed on evaluating mission statements, needs assessment studies, purchasing materials using selection criteria and tools, and related collection development and acquisitions activities. Upon completion, students should be able to evaluate mission statements, conduct needs assessments using selected criteria, and complete related collection development and acquisitions activities.

LIB 113 Lib. Cataloging & Classification 2-2-3
Prerequisite: LIB 111
This course covers standards and procedures for copy cataloging and types of classification systems. Emphasis is placed on selecting bibliographic records, maintaining and using authority records, and the importance of the catalog to the library mission. Upon completion, students should be able to select the appropriate MARC record, search OCLC, and demonstrate an understanding of authority files.

LIB 114 Lib. Public Serv. Oper. 2-2-3
Prerequisite: LIB 111
This course covers effective library orientations, effective patron service, automated circulation systems, statistics and reports, reserves, and security. Emphasis is placed on public relations, problem solving, communication skills, circulation systems and policies, interlibrary loan procedures, shelving, and display options. Upon completion, students should be able to deal with diverse patrons, conduct library orientations, compile reports from statistical data, initiate interlibrary loans, and prepare displays.

LIB 210 Electronic Lib. Databases 2-2-3
Prerequisite: LIB 111 and WEB 110
This course covers developing search strategies for using electronic resources in the humanities, social and behavioral sciences, physical and life sciences, and health-related fields. Emphasis is placed on the reference interview, teaching Boolean logic and other search strategies, retrieving and evaluating information, and citing it in APA/MLA style. Upon completion, students should be able to describe methods of information retrieval, use search strategies to teach basic research using databases, and cite resources appropriately.

LIB 211 Library Program Develop 3-0-3
This course covers the purpose of library programs and various methods used for program design, promotion, delivery, and evaluation. Topics include serving library communities through appropriate program activities such as storytelling, puppet shows, book clubs, lectures, reading aloud, workshops, special collections, and outreach. Upon completion, students should be able to prepare, promote, deliver, and evaluate appropriate library programs.

LIB 212 Lib. Services/Spec. Needs 3-0-3
This course covers basic information for serving library users with special needs. Emphasis is placed on ADA guidelines, the location and use of appropriate resources, and accessibility options. Upon completion, students should be able to access appropriate information about ADA guidelines, locate and use appropriate resources, and be aware of accessibility options.

LIB 213 Cataloging Nonprint Mat. 2-2-3
Prerequisite: LIB 111
This course continues the study and application of information cataloging practices. Emphasis is placed on
cataloging information resources, updating bibliographic materials in databases, an overview of Dublin Core, and non-print materials cataloging practices. Upon completion, students should be able to catalog nonprint and electronic resources.

**LIB 214  Lib. Services/Children  3-0-3**
This course covers the location, evaluation, acquisition, and presentation of children’s materials in libraries. Emphasis is placed on locating, evaluating, acquiring, and presenting children’s literature, video and audio materials, and websites through programs, displays, talks, and instruction. Upon completion, students should be able to locate, evaluate, acquire, and present a wide range of children’s materials to library users.

**LIB 215  Library Management  3-0-3**
This course covers basic management duties specific to the field of Library and Information Science. Topics include supervisory skills, delegation, time management, conflict resolution, training and coaching others, communication techniques, organizational theory, leadership and decision making in the library setting. Upon completion, students should be able to demonstrate knowledge of successful library operations, including key management concepts and strategies.

**MACHINING**

**MAC 111  Machining Technology I  2-12-6**
This course introduces machining operations as they relate to the metalworking industry. Topics include machine shop safety, measuring tools, lathes, drilling machines, saws, milling machines, bench grinders, and layout instruments. Upon completion, students should be able to safely perform the basic operations of measuring, layout, drilling, sawing, turning, and milling.

**MAC 112  Machining Technology II  2-12-6**
Local Prerequisite: MAC 111
This course provides additional instruction and practice in the use of precision measuring tools, lathes, milling machines, and grinders. Emphasis is placed on setup and operation of machine tools including the selection and use of work holding devices, speeds, feeds, cutting tools, and coolants. Upon completion, students should be able to perform basic procedures on precision grinders and advanced operations of measuring, layout, drilling, sawing, turning, and milling.

**MAC 113  Machining Technology III  2-12-6**
Local Prerequisite: MAC 112
This course provides an introduction to advanced and special machining operations. Emphasis is placed on working to specified tolerances with special and advanced setups. Upon completion, students should be able to produce a part to specifications.

**MAC 122  CNC Turning  1-3-2**
This course introduces the programming, setup, and operation of CNC turning centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC turning centers.

**MAC 124  CNC Milling  1-3-2**
This course introduces the manual programming, setup, and operation of CNC machining centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC machining centers.

**MAC 151  Machining Calculations  1-2-2**
This course introduces basic calculations as they relate to machining occupations. Emphasis is placed on basic calculations and their applications in the machine shop. Upon completion, students should be able to perform basic shop calculations.

**MAC 153  Compound Angles  1-2-2**
Local Prerequisite: MAT 121
This course introduces the application of basic types and uses of compound angles. Emphasis is placed on problem solving by tilting and rotating adjacent angles to resolve an unknown compound angle. Upon completion, students should be able to set up and develop compound angles on parts using problem-solving techniques. *This course is a unique concentration requirement of the Tool, Die, and Mold Making concentration in the Machining Technology program.*

**MAC 171  Measure/Material & Safety  0-2-1**
This course introduces precision measuring instruments, process control and adjustment, inspection, material handling and workplace safety. Topics include properly identifying and handling various measurement instruments and materials, process control, adjustment and improvement, personal protective equipment (PPE) and OSHA safety regulations. Upon completion, students should be able to safely demonstrate effective measurement techniques, identify and handle various materials, and explain safe industry practices.

**MAC 224  Advanced CNC Milling  1-3-2**
Local Prerequisite: MAC 124
This course covers advanced methods in setup and operation of CNC machining centers. Emphasis is placed on programming and production of complex parts. Upon completion, students should be able to demonstrate skills in programming, operations, and setup of CNC machining centers.

**MAC 226  CNC EDM Machining  1-3-2**
This course introduces the programming, setup, and operation of CNC electrical discharge machines. Topics
include programming formats, control functions, program editing, production of parts, and inspection. Upon completion, students should be able to manufacture simple parts using CNC electrical discharge machines.

**MAC 241  Jigs and Fixtures I**  
**Local Prerequisite:** MAC 112  
This course introduces the application and use of jigs and fixtures. Emphasis is placed on design and manufacture of simple jigs and fixtures. Upon completion, students should be able to design and build simple jigs and fixtures.

**MAC 243  Die Making I**  
**Local Prerequisite:** MAC 112  
This course introduces the principles and applications of die making. Topics include types, construction, and application of dies. Upon completion, students should be able to design and build simple dies.

**MAC 244  Die Making II**  
**Local Prerequisite:** MAC 243  
This course provides continued study in the application and use of dies. Emphasis is placed on the design and manufacturing of complex dies. Upon completion, students should be able to design and build complex dies. *This course is a unique concentration requirement of the Tool, Die, and Mold Making concentration in the Machining Technology program.*

**MAC 245  Mold Construction I**  
**Local Prerequisite:** MAC 112  
This course introduces the principles of mold making. Topics include types, construction, and application of molds. Upon completion, students should be able to design and build simple molds.

**MAC 246  Mold Construction II**  
**Local Prerequisite:** MAC 245  
This course provides continued study in the application and use of molds. Emphasis is placed on design and manufacturing of complex molds. Upon completion, students should be able to design and build complex molds. *This course is a unique concentration requirement of the Tool, Die, and Mold Making concentration in the Machining Technology program.*

**MASONRY**  
**MAS 110  Masonry I**  
5-15-10  
This course introduces the basic principles of construction with masonry units. Topics include history of the masonry field, safety practices, blueprint reading, and principles of laying masonry units to the line using tools, equipment, and materials. Upon completion, students should be able to demonstrate knowledge of safety practices, blueprint reading, and basic tool use; identify materials; operate machinery; and lay masonry units.

**MAS 120  Masonry II**  
5-15-10  
This course provides practical experience in cost estimating, foundations, bonding variations, expansion joints, wall ties, building codes, and other related topics. Emphasis is placed on material estimation, layout of footing, construction of walls, reinforcements, scaffolding, insulating, and building codes. Upon completion, students should be able to determine cost, plan sound building procedures, construct masonry projects, and apply building codes.

**MAS 130  Masonry III**  
6-6-8  
This course provides fundamentals and skills used in masonry construction. Emphasis is placed on building chimneys, fireplaces, columns, concrete masonry, and arches; using materials economically; satisfying needs and expectations; and proper work ethics. Upon completion, students should be able to build structures covered in the course, demonstrate increased speed and accuracy, and make smooth transitions between construction stages.

**MATHEMATICS**  
**MAT 110  Math Measurement & Literacy**  
2-2-3  
*Prerequisite: Take one set: Set 1: DMA 010, DMA 020, and DMA 030 Set 2: MAT 060 and MAT 070 Set 3: MAT 060 and MAT 080 Set 4: MAT 060 and MAT 090 Set 5: MAT 095 or appropriate placement scores.*  
This course provides an activity-based approach that develops measurement skills and mathematical literacy using technology to solve problems for non-math intensive programs. Topics include unit conversions and estimation within a variety of measurement systems; ratio and proportion; basic geometric concepts; financial literacy; and statistics including measures of central tendency, dispersion, and charting of data. Upon completion, students should be able to demonstrate the use of mathematics and technology to solve practical problems, and to analyze and communicate results.

**MAT 121  Algebra/Trigonometry I**  
2-2-3  
*Prerequisite: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and DMA 060*  
This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include the properties of plane and solid geometry, area and volume, and basic proportion applications; simplification, evaluation, and solving of
algebraic equations and inequalities and radical functions; complex numbers; right triangle trigonometry; and systems of equations. Upon completion, students will be able to demonstrate the ability to use mathematics and technology for problem-solving, analyzing and communicating results.

MAT 122  Algebra/Trigonometry II  2-2-3
Prerequisite: MAT 121
This course is designed to cover concepts in algebra, function analysis, and trigonometry. Topics include exponential and logarithmic functions, transformations of functions, Law of Sines, Law of Cosines, vectors, and statistics. Upon completion, students should be able to demonstrate the ability to use mathematics and technology for problem-solving, analyzing and communicating results.

MAT 141  Mathematical Concepts I  3-0-3
Prerequisite: Take one set: Set 1: DMA 010, DMA 020, DMA 030, and DMA 040 Set 2: MAT 121 Set 3: MAT 171
This course is the first of a two-course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on sets, logic, number bases, elementary number theory, introductory algebra, measurement including metrics, and problem solving. Upon completion, students should be able to communicate orally and in writing these basic mathematical concepts. Under the CAA and ICAA, this course satisfies the general education Mathematics requirement for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement for the AS degree.

MAT 142  Mathematical Concepts II  3-0-3
Prerequisite: MAT 141
This course is the second of a two-course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on probability, statistics, functions, introductory geometry, and mathematics of finance. Upon completion, students should be able to communicate orally and in writing these basic mathematical concepts and utilize technology as a mathematical tool. Under the CAA and ICAA, this course satisfies the general education Mathematics requirement for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement for the AS degree.

MAT 143  Quantitative Literacy  2-2-3
Prerequisite: Take one set: Set 1: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and DRE 098 Set 2: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and ENG 095 Set 3: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and ENG-090 and RED-090
This course is designed to engage students in complex and realistic situations involving the mathematical phenomena of quantity, change and relationship, and uncertainty through project- and activity-based assessment. Emphasis is placed on authentic contexts which will introduce the concepts of numeracy, proportional reasoning, dimensional analysis, rates of growth, personal finance, consumer statistics, practical probabilities, and mathematics for citizenship. Upon completion, students should be able to utilize quantitative information as consumers and to make personal, professional, and civic decisions by decoding, interpreting, using, and communicating quantitative information found in modern media and encountered in everyday life. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative).

MAT 152  Statistics I  3-2-4
Prerequisite: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and DRE 098
This course provides a project-based approach to introductory statistics with an emphasis on using real-world data and statistical literacy. Topics include descriptive statistics, correlation and regression, basic probability, discrete and continuous probability distributions, confidence intervals and hypothesis testing. Upon completion, students should be able to use appropriate technology to describe important characteristics of a data set, draw inferences about a population from sample data, and interpret and communicate results. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics.

MAT 171  Precalculus Algebra  3-2-4
Prerequisite: Take one set: Set 1: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, DMA 060, DMA 070, DMA 080 Set 2: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and DMA 065 Set 3: MAT 121
This course is designed to develop topics which are fundamental to the study of Calculus. Emphasis is placed on solving equations and inequalities, solving systems of equations and inequalities, and analysis of functions (absolute value, radical, polynomial, rational, exponential, and logarithmic) in multiple representations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to algebra-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics.

MAT 172  Precalculus Trigonometry  3-2-4
Prerequisite: MAT 171
This course is designed to develop an understanding of topics which are fundamental to the study of Calculus. Emphasis is placed on the analysis of trigonometric functions in multiple representations, right and oblique triangles, vectors, polar coordinates, conic sections, and parametric equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to trigonometry-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics.

MAT 263  Brief Calculus  3-2-4
Prerequisite: MAT 171
This course is designed to introduce concepts of differentiation and integration and their applications to solving problems. Topics include graphing, differentiation,
and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics.

**MAT 271 Calculus I** 3-2-4

*Prerequisite: MAT 172*

This course is designed to develop the topics of differential and integral calculus. Emphasis is placed on limits, continuity, derivatives and integrals of algebraic and transcendental functions of one variable. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to derivative-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics.

**MAT 272 Calculus II** 3-2-4

*Prerequisite: MAT 271*

This course is designed to develop advanced topics of differential and integral calculus. Emphasis is placed on the applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to integral-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics.

**MAT 273 Calculus III** 3-2-4

*Prerequisite: MAT 272*

This course is designed to develop the topics of multivariate calculus. Emphasis is placed on multivariate functions, partial derivatives, multiple integration, solid analytical geometry, vector valued functions, and line and surface integrals. Upon completion, students should be able to select and use appropriate models and techniques for finding the solution to multivariate-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics.

**MAT 280 Linear Algebra** 2-2-3

*Prerequisite: MAT 271*

This course provides an introduction to linear algebra topics. Emphasis is placed on the development of abstract concepts and applications for vectors, systems of equations, matrices, determinants, vector spaces, multi-dimensional linear transformations, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to linear algebra-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**MAT 285 Differential Equations** 2-2-3

*Prerequisite: MAT 272*

This course provides an introduction to topics involving ordinary differential equations. Emphasis is placed on the development of abstract concepts and applications for first-order and linear higher-order differential equations, systems of differential equations, numerical methods, series solutions, eigenvalues and eigenvectors, and LaPlace transforms. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to differential equations-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**MOTORCYCLE MECHANICS**  C-L-SHC

**MCM 111 Motorcycle Mechanics** 3-8-7

This course covers the proper nomenclature of parts and components of motorcycles, ATVs, and personal watercraft. Topics include theory of operation, differences of operation, preventive maintenance, and operating principles involved in servicing and repairing motorcycles, ATVs, and personal watercraft. Upon completion, students should be able to perform basic inspection, diagnosis, repair, and/or adjustment of motorcycles, ATVs, and personal watercraft.

**MCM 114 Motorcycle Fuel Systems** 2-6-5

This course introduces various types of fuels and fuel systems used in motorcycle internal combustion engines. Emphasis is placed on the theory and principles of carburetion and fuel injection. Upon completion, students should be able to service, disassemble, inspect, reassemble, and adjust to manufacturers' specifications the components of various fuel systems.

**MCM 115 Motorcycle Chassis** 1-6-3

This course covers chassis adjustments, components, and types and uses of frames and suspensions. Emphasis is placed on proper and safe use of tools and equipment in servicing and maintaining motorcycle chassis. Upon completion, students should be able to service and repair motorcycle chassis systems and suspension components.

**MCM 117 Motorcycle Dyno Tuning I** 1-4-3

This course introduces the theory and safe operation of motorcycle chassis dynamometers. Topics include types of dynamometers, theory of operation, differences of operations, preventative maintenance and safe operating principles involved in motorcycle dynamometer tuning and
diagnostics. Upon completions, students should be able to safely use motorcycle dynamometers to measure horsepower and torque, to optimize air-fuel metering and exhaust-flow, and to diagnose performance problems.

**MECM 122  Motorcycle Engines** 2-9-5
This course covers the construction and operation of components in internal combustion engines used in modern motorcycles. Topics include two- and four-cycle engines, power trains, and final drive systems. Upon completion, students should be able to disassemble, inspect, measure, reassemble, and operationally test two- and four-cycle motorcycle engines.

**MECM 217  Motorcycle Dyno Tuning II** 1-4-3
*Prerequisites: MECM 117*
This course provides advanced instruction in motorcycle dynamometers that are utilized in high performance engine tuning. Topics include safe modification and customization of components and their effect on horsepower, torque, air-fuel metering, exhaust flow, fuel economy, acceleration and speed. Upon completions, students will safely use motorcycle dynamometers to optimize performance when customizing motorcycles and/or ATV’s for racing and high performance street or off-road use.

**MECHANICAL**

**MECM 110  Introduction to CAD/CAM** C-L-SHC 1-2-2
This course introduces CAD/CAM. Emphasis is placed on transferring part geometry from CAD to CAM for the development of a CNC-ready program. Upon completion, students should be able to use CAD/CAM software to produce a CNC program.

**MECM 111  Machine Processes I** 1-4-3
This course introduces shop safety, hand tools, machine processes, measuring instruments, and the operation of machine shop equipment. Topics include use and care of tools, safety, measuring tools, and the basic setup and operation of common machine tools. Upon completion, students should be able to manufacture simple parts to specified tolerance.

**MECM 130  Mechanisms** 2-2-3
This course introduces the purpose and action of various mechanical devices. Topics include cams, cables, gear trains, differentials, screws, belts, pulleys, shafts, levers, lubricants, and other devices. Upon completion, students should be able to analyze, maintain, and troubleshoot the components of mechanical systems.

**MECM 142  Physical Metallurgy** 1-2-2
This course covers the heat treating of metals. Emphasis is placed on the effects of hardening, tempering, and annealing on the structure and physical properties of metals. Upon completion, students should be able to heat treat materials.

**MECM 161  Manufacturing Processes I** 3-0-3
This course provides the fundamental principles of value-added processing of materials into usable forms for the customer. Topics include material properties and traditional and non-traditional manufacturing processes. Upon completion, students should be able to specify appropriate manufacturing processing for common engineering materials.

**MECM 161A  Manufacturing Proc I Lab** 0-3-1
*Corequisites: MECM 161*
This course is a laboratory for MECM 161. Emphasis is placed on experiences that enhance the materials presented in MECM 161. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in MECM 161.

**MECM 180  Engineering Materials** 2-3-3
This course introduces the physical and mechanical properties of materials. Topics include materials testing, pre- and post-manufacturing processes, and material selection of ferrous and non-ferrous metals, plastics, composites, and non-conventional materials. Upon completion, students should be able to utilize basic material property tests and select appropriate materials for applications.

**MECM 231  Computer-Aided Manufacturing I** 1-4-3
This course introduces computer-aided design/manufacturing (CAD/CAM) applications and concepts. Topics include software, programming, data transfer and verification, and equipment setup. Upon completion, students should be able to produce parts using CAD/CAM applications.

**MEDICAL ASSISTING**

**MECM 110  Orientation to Medical Assisting** C-L-CI-SHC 1-0-0-1
This course covers the history of medicine and the role of the medical assistant in the health care setting. Emphasis is placed on professionalism, communication, attitude, behaviors, and duties in the medical environment. Upon completion, students should be able to project a positive attitude and promote the profession of medical assisting.

**MECM 118  Medical Law and Ethics** 2-0-0-2
*Local Prerequisites: DRE 098 or appropriate placement.*
This course covers legal relationships of physicians and patients, contractual agreements, professional liability, malpractice, medical practice acts, informed consent, and bioethical issues. Emphasis is placed on legal terms, professional attitudes, and the principles and basic concepts of ethics and laws involved in providing medical services. Upon completion, students should be able to meet the legal and ethical responsibilities of a multi-skilled health professional.
MED 121 Medical Terminology I 3-0-0-3
This course introduces prefixes, suffixes, and word roots used in the language of medicine. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms related to selected body systems and their pathological disorders.

MED 122 Medical Terminology II 3-0-0-3
Prerequisite: MED 121
This course is the second in a series of medical terminology courses. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms related to selected body systems and their pathological disorders.

MED 130 Administrative Office Procedures I 1-2-0-2
This course introduces medical office administrative procedures. Topics include appointment processing, written and oral communications, medical records, patient orientation, and safety. Upon completion, students should be able to perform basic administrative skills within the medical environment.

MED 131 Administrative Office Procedures II 1-2-0-2
Local Prerequisite: MED 130
This course provides medical office procedures in both economic and management skills. Topics include physical plant maintenance, equipment and supplies, liability coverage, medical economics, and introductory insurance procedures. Upon completion, students should be able to manage the economics of the medical office and supervise personnel.

MED 140 Exam Room Procedures I 3-4-0-5
This course provides instruction in clinical examining room procedures. Topics include asepsis, infection control, assisting with examinations and treatment, patient education, preparation and administration of medications, EKG, vital signs, and medical emergencies. Upon completion, students should be able to demonstrate competence in exam room procedures.

MED 150 Laboratory Procedures I 3-4-0-5
This course provides instruction in basic lab techniques used by the medical assistant. Topics include lab safety, quality control, collecting and processing specimens, performing selective tests, phlebotomy, screening and follow-up of test results, and OSHA/CLIA regulations. Upon completion, students should be able to perform basic lab tests/skills based on course topics.

MED 230 Administrative Office Procedures III 1-2-0-2
Prerequisite: MED 131
This course provides advanced medical office administrative procedures. Emphasis is placed on management skills including personnel supervision, practice management, public relations, and insurance coding. Upon completion, students should be able to exhibit advanced managerial medical assisting skills.

MED 232 Medical Insurance Coding 1-3-0-2
This course is designed to develop coding skills. Emphasis is placed on advanced diagnostic and procedural coding in the outpatient facility. Upon completion, students should be able to demonstrate proficiency in coding for reimbursement.

MED 240 Exam Room Procedures II 3-4-0-5
Prerequisite: MED 140
This course is designed to expand and build upon skills presented in MED 140. Emphasis is placed on advanced exam room procedures. Upon completion, students should be able to demonstrate enhanced competence in selected exam room procedures.

MED 260 MED Clinical Practicum 0-0-15-5
Local Prerequisites: MED 150, MED 240
This course provides an opportunity to apply clinical, laboratory, and administrative skills in a medical facility. Emphasis is placed on developing skills necessary for comprehensive patient care and strengthening professional communications and interactions. Upon completion, students should be able to function as an entry-level health care professional.

MED 264 Medical Assisting Overview 2-0-0-2
This course provides an overview of the complete medical assisting curriculum. Emphasis is placed on all facets of medical assisting pertinent to administrative, laboratory, and clinical procedures performed in the medical environment. Upon completion, students should be able to demonstrate competence in the areas covered on the national certification examination for medical assistants.

MED 270 Symptomatology 2-2-0-3
This course covers the study of disease symptoms and the appropriate actions taken by medical assistants in a medical facility in relation to these symptoms. Emphasis is placed on interviewing skills and appropriate triage, preparing patients for procedures, and screening test results. Upon completion, students should be able to recognize how certain symptoms relate to specific diseases, recognize emergency situations, and take appropriate actions.

MED 272 Drug Therapy 3-0-0-3
This course covers major drug groups, including their side effects, interactions, methods of administration, and proper documentation. Emphasis is placed on the theory of drug administration. Upon completion, students should be able to identify, spell, recognize side effects of, and document the most commonly used medications in a physician’s office.
MED 274  Diet Therapy/Nutrition 3-0-0-3
This course introduces the basic principles of nutrition as they relate to health and disease. Topics include basic nutrients, physiology, dietary deficiencies, weight management, and therapeutic nutrition in wellness and disease. Upon completion, students should be able to interpret clinical and dietary data and provide patient counseling and education.

MED 276  Patient Education 1-2-0-2
This course is designed to provide communication skills, basic education principles, and knowledge of available community resources and to apply this knowledge to the clinical setting. Emphasis is placed on identifying appropriate community resources, developing patient education materials, and perfecting written and oral communication skills. Upon completion, students should be able to instruct, communicate effectively, and act as a liaison between the patient and community agencies.

MARKETING

MKT 120  Principles of Marketing 3-0-3
This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision-making.

MKT 123  Fundamentals of Selling 3-0-3
This course is designed to emphasize the necessity of selling skills in a modern business environment. Emphasis is placed on sales techniques involved in various types of selling situations. Upon completion, students should be able to demonstrate an understanding of the techniques covered.

MKT 220  Advertising & Sales Promotion 3-0-3
This course covers the elements of advertising and sales promotion in the business environment. Topics include advertising and sales promotion appeals, selection of media, use of advertising and sales promotion as a marketing tool, and means of testing effectiveness. Upon completion, students should be able to demonstrate an understanding of the concepts covered through application.

MKT 223  Customer Service 3-0-3
This course stresses the importance of customer relations in the business world. Emphasis is placed on learning how to respond to complex customer requirements and to efficiently handle stressful situations. Upon completion, students should be able to demonstrate the ability to handle customer relations.

MKT 232  Social Media Marketing 3-2-4
This course is designed to build students' social media marketing skills by utilizing projects that give students hands on experience implementing social media marketing strategies. Topics include integrating different social media technologies into a marketing plan, creating social media marketing campaigns, and applying appropriate social media tools. Upon completion, students should be able to use social media technologies to create and improve marketing efforts for businesses.

MAINTENANCE

MNT 110  Introduction to Maintenance Procedures 1-3-2
This course covers basic maintenance fundamentals for power transmission equipment. Topics include equipment inspection, lubrication, alignment, and other scheduled maintenance procedures. Upon completion, students should be able to demonstrate knowledge of accepted maintenance procedures and practices according to current industry standards.

MNT 111  Maintenance Practices 2-2-3
This course provides in-depth theory and practical applications relating to predictive and preventive maintenance programs. Emphasis is placed on equipment failure analysis, maintenance management software, and techniques such as vibration and infrared analysis. Upon completion, students should be able to demonstrate an understanding of modern analytical and documentation methods.

MNT 230  Pumps and Piping Systems 1-3-2
This course covers pump installation and maintenance and related valves and piping systems. Topics include various types of pump systems and their associated valves, piping requirements, and other related topics. Upon completion, students should be able to select and install pump and piping systems and demonstrate proper maintenance and troubleshooting procedures.

MNT 240  Industrial Equipment Troubleshoot 1-3-2
Local Prerequisite: ELC 112 or ELC 131
This course covers the various service procedures, tools, instruments, and equipment necessary to analyze and repair typical industrial equipment. Emphasis is placed on electro-mechanical and fluid power equipment troubleshooting, calibration, and repair, including common techniques and procedures. Upon completion, students should be able to troubleshoot and repair industrial equipment.

MNT 270  Bioprocess Equipment Maintenance 1-3-2
Prerequisite: MNT 110
This course covers the equipment used in a bioprocess manufacturing facility and the techniques used to maintain and troubleshoot it. Topics include types of equipment, the role of equipment in the bioprocess manufacturing facility, troubleshooting bioprocess equipment, and the role of a bioprocess maintenance technician. Upon completion, students should be able to maintain and troubleshoot bioprocess equipment in a biotechnology manufacturing facility using work techniques appropriate for the
biotechnology industry.

MNT 280 Bioprocess Operating System 1-3-2
Prequisite: ELC 128
This course covers the specific SCADA (Supervisory Control and Data Acquisition) software used to operate bioprocess equipment in a modern biotechnology manufacturing facility. Topics include the operation, configuration, applications, and problem solving of standard bioprocess control software. Upon completion, students should be able to safely utilize bioprocess control software when required in the maintenance and operation of bioprocess equipment.

MUSIC

MUS 110 Music Appreciation 3-0-3
This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding the art of music. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

MUS 112 Introduction to Jazz 3-0-3
This course introduces basic nursing skills required to provide safe, competent personal care for individuals. Emphasis is placed on person-centered care, the aging process, communication, safety/emergencies, infection prevention, legal and ethical issues, vital signs, height and weight measurements, elimination, nutrition, basic restorative care/rehabilitation, dementia, mental health and end-of-life care. Upon completion, students should be able to demonstrate knowledge and skills and be eligible to test for listing on the North Carolina Nurse Aide I Registry.

NAS 101 Nurse Aide I 3-4-3-6
Prerequisite: C-IS 111, CJS 111, or CTS 125
This course introduces the networking field. Emphasis is placed on network terminologies and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols.

NET 110 Home Automation Systems 2-2-3
This course covers the design, installation, testing, troubleshooting, and customer service of a fully automated home. Emphasis is placed on a structured wiring system that integrates the home phone, TV, home theater, audio, video, computer network, lighting, security systems, and automation systems into a pre-wired, remote controlled system. Upon completion, students should be able to design, install, and maintain home automation systems.

NET 115 Telecommunication Fundamentals 1-2-2
This course covers the fundamentals of the electronic transfer of information for those who have not received credit for NET 110. Topics include terminal emulation software usage, file transfer methods, PC-based fax/modem/voice-mail operations, accessing and navigating the Internet, and bulletin boards. Upon completion, students should be able to access and use online services and the Internet, send and receive email, and perform other basic telecommunication operations.

NET 116 Fundamentals of Voice/Data Cable 2-2-3
Prerequisite: Take One: CIS 110, CIS 111, or CTS 125
This introductory course to Voice and Data Cabling focuses on cabling issues related to data and voice connections. Topics include skills in design documentation, determining cabling equipment, pulling, mounting and managing cable, selecting wiring closets, terminating cable, installing jacks, and testing cable. Upon completion, students should be able to understand the industry, media and cabling, physical and logical networks, and signal transmission.

NET 125 Networking Basics 1-4-3
This course introduces the networking field. Emphasis is placed on network terminologies and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and
TCP/IP Protocols.

NET 126 Routing Basics 1-4-3
Prerequisite: NET 125
This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs.

NET 225 Routing and Switching I 1-4-3
Prerequisite: NET 126
This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in prerequisite courses. Upon completion, students should be able to perform tasks related to VLSM, routing protocols, switching concepts and configuration, STP, VLANs, and VTP.

NET 226 Routing and Switching II 1-4-3
Prerequisite: NET 225
This course introduces WAN theory and design, WAN technology, PPP, Frame Relay, ISDN, and additional case studies. Topics include network congestion problems, TCP/IP transport and network layer protocols, advanced routing and switching configuration, ISDN protocols, PPP encapsulation operations on a router. Upon completion, students should be able to provide solutions for network routing problems, identify ISDN protocols, and describe the Spanning Tree protocol.

NET 230 Wide Area Networking 2-2-3
Prerequisite: NET 110 or NET 125
This course is designed to introduce significant aspects of network interconnectivity. Topics include LAN-to-LAN, LAN-to-host, LAN-to-WAN connectivity, Internet connections, and voice-video-data transmission. Upon completion, students should be able to demonstrate an understanding of wide-area networking.

NET 241 Introduction to VOIP 2-3-3
This course introduces students to the terms and definitions of analog phone systems and voice over internet protocol (VOIP) networks and how to configure, maintain, and troubleshoot said networks. Topics include configuring and maintaining an internet protocol (IP) telephony system, provisioning phones and users, configuring call features, and establishing voicemail over VOIP networks. Upon completion, students should be able to discuss the terms and definitions of VOIP as well as configure and maintain an IP telephony system, provision phones and users, configure call features and voicemail.

NET 289 Networking Project 1-4-3
Corequisite: NET 226
This course provides an opportunity to complete a significant networking project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation.

NETWORKING OPERATING SYSTEM

NOS 110 Operating System Concepts 2-3-3
This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is placed on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems.

NOS 120 Linux/UNIX Single User 2-2-3
Prerequisite: Take One: CET 211, CTI 130, or NOS 110
This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles.

NOS 130 Windows Single User 2-2-3
Prerequisite: Take One: CET 211, CTI 130, or NOS 130
This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.

NOS 220 Linux/UNIX Administration I 2-2-3
Prerequisite: NOS 120
This course introduces the Linux file system, group administration, and system hardware controls. Topics include installation, creation and maintaining file systems, NIS client and DHCP client configuration, NFS, SMB/Samba, Configure X, Gnome, KDE, basic memory, processes, and security. Upon completion, students should be able to perform system administration tasks including installation, configuring, and attaching a new Linux workstation to an existing network.

NOS 230 Windows Administration I 2-2-3
This course covers the installation and configuration of a Windows Server operating system. Emphasis is placed on the basic configuration of core network services, Active
Directory and group policies. Upon completion, students should be able to install and configure a Windows Server operating system.

PRACTICAL NURSING

NUR 101 Practical Nursing I 7-6-6-11
This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including assessment, clinical decision making, professional behaviors, caring interventions, biophysical and psychosocial concepts, communication, collaboration, teaching/learning, safety, ethical principles, legal issues, informatics, and evidence-based practice. Upon completion, students should be able to provide safe nursing care across the lifespan incorporating the concepts identified in this course.

NUR 102 Practical Nursing II 7-0-9-10
Prerequisites: NUR 101
This course is designed to further develop the concepts within the three domains of the individual, nursing, and healthcare. Emphasis is placed on the concepts within each domain including clinical decision making, caring interventions, biophysical and psychosocial concepts, communication, collaboration, teaching and learning, accountability, safety, informatics, and evidence-based practice. Upon completion, students should be able to provide safe nursing care across the lifespan incorporating the concepts identified in this course.

NUR 103 Practical Nursing III 6-0-9-9
Prerequisites: NUR 101
This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on biophysical and psychosocial concepts, professional behaviors, healthcare systems, health policy, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide safe, quality, and individualized entry level nursing care.

ASSOCIATE DEGREE NURSING

NUR 111 Intro to Health Concepts 4-6-6-8
Local Prerequisite: Admission into Associate Degree Nursing program
This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including medication administration, assessment, nutrition, ethics, interdisciplinary teams, informatics, evidence-based practice, individual-centered care, and quality improvement. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 112 Health-Illness Concepts 3-0-6-5
Prerequisites: NUR 111
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of acid-base, metabolism, cellular regulation, oxygenation, infection, stress/coping, health-wellness-illness, communication, caring interventions, managing care, safety, quality improvement, and informatics. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 113 Family Health Concepts 3-0-6-5
Prerequisites: NUR 111
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of oxygenation, sexuality, reproduction, grief/loss, mood/affect, behaviors, development, family, health-wellness-illness, communication, caring interventions, managing care, safety, and advocacy. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 114 Holistic Health Concepts 3-0-6-5
Prerequisites: NUR 111
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, inflammation, sensory perception, stress/coping, mood/affect, cognition, self, violence, health-wellness-illness, professional behaviors, caring interventions, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 211 Health Care Concepts 3-0-6-5
Prerequisites: NUR 111
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 212 Health System Concepts 3-0-6-5
Prerequisites: NUR 111
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this
NUR 213  Complex Health Concepts  4-3-15-10
Prerequisites: NUR 111
Corequisites: NUR 112, NUR 113, NUR 114, NUR 211 and NUR 212
This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, perfusion, mobility, stress/copying, violence, health-wellness-illness, professional behaviors, caring interventions, managing care, healthcare systems, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry level nursing care.

NUTRITION  C-L-SHC  3-0-3
NUT 110  Nutrition
This course covers basic principles of nutrition and their relationship to human health. Topics include meeting nutritional needs of healthy people, menu modification based on special dietary needs, food habits, and contemporary problems associated with nutrition. Upon completion, students should be able to apply basic nutritional concepts as they relate to health and well-being.

OFFICE ADMINISTRATION  C-L-SHC  2-2-3
OST 131  Keyboarding
This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon completion, students should be able to key at an acceptable speed and accuracy level using the touch system.

OST 132  Keyboard Skill Building
Local Prerequisite: OST 131
This course is designed to increase speed and improve accuracy in keyboarding. Emphasis is placed on diagnostic tests to identify accuracy and speed deficiencies followed by corrective drills. Upon completion, students should be able to keyboard rhythmically with greater accuracy and speed.

OST 134  Text Entry & Formatting
Local Prerequisite: OST 131
This course is designed to provide the skills needed to increase speed, improve accuracy, and format documents. Topics include letters, memos, tables, and business reports. Upon completion, students should be able to produce documents and key timed writings at speeds commensurate with employability.

OST 135  Adv Text Entry & Format  3-2-4
Prerequisite: OST 134
This course is designed to incorporate computer application skills in the generation of office documents. Emphasis is placed on advanced document production. Upon completion, students should be able to make independent decisions regarding planning, style, and method of presentation.

OST 136  Word Processing
This course is designed to introduce word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment.

OST 137  Office Software Applications
Local Prerequisite: OST 131
This course introduces the concepts and functions of software that meets the changing needs of the community. Emphasis is placed on the terminology and use of software through a hands-on approach. Upon completion, students should be able to use software in a business environment.

OST 138  Advanced Software Appl
Prerequisite: Take One: OST 137, CIS 110, or CIS 111
This course is designed to improve the proficiency in the utilization of software applications used in business offices through a hands-on approach. Emphasis is placed on in-depth usage of software to create a variety of documents applicable to current business environments. Upon completion, students should be able to master the skills required to design documents that can be customized using the latest software applications.

OST 141  Med Terms I-Med Office
This course uses a language-structure approach to present the terminology and vocabulary that will be encountered in medical office settings. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in approximately one-half of the systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.

OST 142  Medical Terms II-Med Office
Prerequisite: OST 141
This course is a continuation of OST 141 and continues the study, using a language-structure approach, of medical office terminology and vocabulary. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in the remaining systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.
OST 148   Med Coding Billing & Insurance   3-0-3  
Corequisite: OST 141  
This course introduces fundamentals of medical coding, billing, and insurance. Emphasis is placed on the medical billing cycle to include third-party payers, coding concepts, and form preparation. Upon completion, students should be able to explain the life cycle of and accurately complete a medical insurance claim.

OST 149   Med Legal Issues   3-0-3  
This course introduces the complex legal, moral, and ethical issues involved in providing health care services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior.

OST 164   Text Editing Applications   3-0-3  
This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text.

OST 181   Into to Office Systems   2-2-3  
This course introduces the skills and abilities needed in today's office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today's offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context.

OST 184   Records Management   2-2-3  
This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system.

OST 233   Office Publications Design   2-2-3  
Prerequisite: OST 136  
This course provides entry-level skills in using software with desktop publishing capabilities. Topics include principles of page layout, desktop publishing terminology and applications, and legal and ethical considerations of software use. Upon completion, students should be able to design and produce professional business documents and publications.

OST 236   Adv Word/Information Proc   2-2-3  
Prerequisite: OST 136  
This course develops proficiency in the utilization of advanced word/information processing functions. Emphasis is placed on advanced word processing features. Upon completion, students should be able to produce a variety of complex business documents.

OST 241   Med Ofc Transcription I   1-2-2  
Prerequisite: MED 121 or OST 141  
This course introduces machine transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription, proofreading, and use of reference materials as well as vocabulary building. Upon completion, students should be able to prepare accurate and usable transcripts of voice recordings in the covered specialties.

OST 242   Med Ofc Transcription II   1-2-2  
Prerequisite: OST 241  
This course continues building machine transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription and text editing, efficient use of reference materials, increasing transcription speed and accuracy, and improving understanding of medical terminology. Upon completion, students should be able to display competency in accurately transcribing medical documents.

OST 243   Med Office Simulation   2-2-3  
This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections.

OST 248   Diagnostic Coding   1-2-2  
Prerequisite: MED 121 or OST 141  
This course provides an in-depth study of diagnostic coding. Emphasis is placed on ICD coding system. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections.

OST 281   Emerg Issues in the Med Ofc   3-0-3  
This course provides a comprehensive discussion of topics familiar to the health care setting. Topics include emerging issues in the health care setting. Upon completion, students should be able to demonstrate an understanding of current medical office procedures and treatments.

OST 285   Adv Emerg Issues in Medical Ofc   3-0-3  
Prerequisites: OST 281  
This course provides an advanced comprehensive discussion of topics familiar to the health care setting. Topics include advanced emerging issues in the health care setting such as homeostasis, pharmacology, laboratory and pathology tests, and new surgical procedures. Upon completion, students should be able to demonstrate an understanding of advanced medical procedures and treatments.

OST 286   Professional Development   3-0-3  
This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance,
attitude, personal and professional growth, multicultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society.

**OST 289 Administrative Office Mgt.** 2-2-3

*Prerequisites: Take One Set: Set 1: OST 134 and OST 164; Set 2: OST 136 and OST 164*

This course is designed to be a capstone course for the office professional and provides a working knowledge of modern office procedures. Emphasis is placed on scheduling, telephone procedures, travel arrangements, event planning, office design, and ergonomics. Upon completion, students should be able to adapt in an office environment.

**PROCESS CONTROL INSTRUMENTATION**

**PCI 170 DAQ and Control** 3-3-4

*Local Prerequisite: ELN 132*

This course is a survey of data acquisition and control applications in an industrial setting. Topics include remote I/O systems, PC-based data acquisition, real-time monitoring, and other related topics. Upon completion, students should be able to demonstrate an understanding of data acquisition circuits.

**PHYSICAL EDUCATION**

**PED 110 Fit and Well for Life** 1-2-2

This course is designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health-related factors. Emphasis is placed on wellness through the study of nutrition, weight control, stress management, and consumer facts on exercise and fitness. Upon completion, students should be able to plan a personal, lifelong fitness program based on individual needs, abilities, and interests. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**PED 113 Aerobics I** 0-3-1

This course introduces a program of cardiovascular fitness involving continuous, rhythmic exercise. Emphasis is placed on developing cardiovascular efficiency, strength, and flexibility and on safety precautions. Upon completion, students should be able to select and implement a rhythmic aerobic exercise program. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**PED 114 Aerobics II** 0-3-1

This course provides a continuation of a program of cardiovascular fitness involving rhythmic exercise. Emphasis is placed on a wide variety of aerobic activities which include cardiovascular efficiency, strength, and flexibility. Upon completion, students should be able to participate in and design a rhythmic aerobic exercise routine. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**PED 115 Step Aerobics I** 0-3-1

*Prerequisite: PED 115*

This course introduces the fundamentals of step aerobics. Emphasis is placed on basic stepping up and down on an adjustable platform; cardiovascular fitness; and upper body, floor, and abdominal exercises. Upon completion, students should be able to participate in basic step aerobics. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**PED 116 Step Aerobics II** 0-3-1

*Prerequisite: PED 115*

This course provides a continuation of step aerobics. Emphasis is placed on a wide variety of choreographed step patterns; cardiovascular fitness; and upper body, abdominal, and floor exercises. Upon completion students should be able to participate in and design a step aerobics routine. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**PED 117 Weight Training I** 0-3-1

*Prerequisite: PED 117*

This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**PED 118 Weight Training II** 0-3-1

*Prerequisite: PED 117*

This course covers advanced levels of weight training. Emphasis is placed on meeting individual training goals and addressing weight training needs and interests. Upon completion, students should be able to establish and implement an individualized advanced weight training program. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**PED 121 Walk, Jog, Run** 0-3-1

This course covers the basic concepts involved in safely and effectively improving cardiovascular fitness. Emphasis is placed on walking, jogging, or running as a means of achieving fitness. Upon completion, students should be able to understand and appreciate the benefits derived from these activities. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**PED 128 Golf-Beginning** 0-2-1

This course emphasizes the fundamentals of golf. Topics include the proper grips, stance, alignment, swings for the
short and long game, putting, and the rules and etiquette of golf. Upon completion, students should be able to perform the basic golf shots and demonstrate a knowledge of the rules and etiquette of golf. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PED 130 Tennis-Beginning 0-2-1
This course emphasizes the fundamentals of tennis. Topics include basic strokes, rules, etiquette, and court play. Upon completion, students should be able to play recreational tennis. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PED 139 Bowling-Beginning 0-2-1
This course introduces the fundamentals of bowling. Emphasis is placed on ball selection, grips, stance, and delivery along with rules and etiquette. Upon completion, students should be able to participate in recreational bowling. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PED 143 Volleyball-Beginning 0-2-1
This course covers the fundamentals of volleyball. Emphasis is placed on the basics of serving, passing, setting, spiking, blocking, and the rules and etiquette of volleyball. Upon completion, students should be able to participate in recreational volleyball. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PED 145 Basketball-Beginning 0-2-1
This course introduces fundamental basketball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational basketball. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PED 148 Softball 0-2-1
This course introduces the fundamental skills and rules of softball. Emphasis is placed on proper techniques and strategies for playing softball. Upon completion, students should be able to participate in recreational softball. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PED 149 Flag Football 0-2-1
This course introduces the fundamentals and rules of flag football. Emphasis is placed on proper techniques and strategies for playing in game situations. Upon completion, students should be able to participate in recreational flag football. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PED 152 Swimming-Beginning 0-2-1
This course is designed for non-swimmers and beginners. Emphasis is placed on developing confidence in the water, learning water safety, acquiring skills in floating, and learning elementary strokes. Upon completion, students should be able to demonstrate safety skills and be able to tread water, back float, and use the crawl stroke for 20 yards. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PED 155 Water Aerobics 0-3-1
This course introduces rhythmic aerobic activities performed in water. Emphasis is placed on increasing cardiovascular fitness levels, muscular strength, muscular endurance, and flexibility. Upon completion, students should be able to participate in an individually-paced exercise program. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PED 160 Canoeing-Basic 0-2-1
This course provides basic instruction for the beginning canoeist. Emphasis is placed on safe and correct handling of the canoe and rescue skills. Upon completion, students should be able to demonstrate basic canoeing, safe-handling, and self-rescue skills. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PED 219 Disc Golf 0-2-1
This course introduces the fundamentals of disc golf. Emphasis is placed on basic throwing techniques, putting, distance driving, scoring, and single and doubles play. Upon completion, students should be able to perform the skills required in playing situations. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PED 254 Coaching Basketball 1-2-2
This course introduces the theory and methods of coaching basketball. Emphasis is placed on rules, game strategies, and selected techniques of coaching basketball. Upon completion, students should be able to demonstrate competent coaching skills in basketball. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PHILOSOPHY

PHI 210 History of Philosophy C-L-SHC
Prerequisite: ENG 111
This course introduces fundamental philosophical issues through an historical perspective. Emphasis is placed on such figures as Plato, Aristotle, Lao-Tzu, Confucius, Augustine, Aquinas, Descartes, Locke, Kant, Wollstonecraft, Nietzsche, and Sartre. Upon completion, students should be able to identify and distinguish among...
the key positions of the philosophers studied. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

**PHI 215  Philosophical Issues**  3-0-3  
*Prerequisite: ENG 111*
This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critique the philosophical components of an issue. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

**PHI 230  Introduction to Logic**  3-0-3  
*Prerequisite: ENG 111*
This course introduces basic concepts and techniques for distinguishing between good and bad reasoning. Emphasis is placed on deduction, induction, validity, soundness, syllogisms, truth functions, predicate logic, analogical inference, common fallacies, and scientific methods. Upon completion, students should be able to analyze arguments, distinguish between deductive and inductive arguments, test validity, and appraise inductive reasoning. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

**PHI 240  Introduction to Ethics**  3-0-3  
*Prerequisite: ENG 111*
This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on utilitarianism, rule-based ethics, existentialism, relativism versus objectivism, and egoism. Upon completion, students should be able to apply various ethical theories to individual moral issues such as euthanasia, abortion, crime and punishment, and justice. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

**PHYSICAL SCIENCE**

**PHS 110  Survey of Physical Science**  C-L-SHC  3-2-4  
This course introduces the physical environment with emphasis on the laws and physical concepts that impact the world and universe. Topics include astronomy, geology, meteorology, general chemistry, and general physics. Upon completion, students should be able to describe the forces and composition of the earth and universe. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**PHYSICS**

**PHY 100  Conceptual Physics**  3-0-3  
*Corequisite: PHY 110A*
This course provides a conceptually-based exposure to the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. Upon completion, students should be able to describe examples and applications of the principles studied. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

**PHY 110A  Conceptual Physics Laboratory**  0-2-1  
*Corequisite: PHY 110*
This course is a laboratory for PHY 110. Emphasis is placed on laboratory experiences that enhance materials presented in PHY 110. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in PHY 110. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

**PHY 121  Applied Physics I**  3-2-4  
This algebra-based course introduces fundamental physical concepts as applied to industrial and service technology fields. Topics include systems of units, problem solving methods, graphical analyses, vectors, motion, forces, Newton’s laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied in industrial and service fields.

**PHY 131  Physics-Mechanics**  3-2-4  
*Prerequisite: Take one: MAT 121, or MAT 171*
This algebra/trigonometry-based course introduces fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem solving methods, graphical analysis, vectors, motion, forces, Newton’s laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields.

**PHY 133  Physics-Sound and Light**  3-2-4  
*Prerequisite: PHY 131*
This algebra/trigonometry-based course is a study of fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem solving methods, graphical analysis, wave motion, sound, light, and modern physics. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields.

**PHY 151  College Physics I**  3-2-4  
*Prerequisite: MAT 171*
This course uses algebra and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat.
Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem solving ability for the topics covered. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.

PME 103  Small Engine Carburetion  1-9-4
This course is an in-depth study of carburetion principles, design, and application. Emphasis is placed on developing a working knowledge of the carburetor systems used on small engines. Upon completion, students should be able to safely disassemble, rebuild, install, and test carburetors and fuel systems.

PME 106  Small Engine Transmissions  2-6-4
This course covers the knowledge and skills needed to repair small engine transmissions, transaxles, and right angle drive systems. Topics include schematics, gears, shafts, bearings, shifter forks, axles, lubrication, and safety procedures. Upon completion, students should be able to safely service, repair, or rebuild manual transmission, transaxles, and right-angle drive systems to industry standards.

PHYSICAL SCIENCES

POLITICAL SCIENCE

POL 120  American Government  3-0-3
This course is a study of the origins, development, structure, and functions of American national government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy formation. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

POL 130  State and Local Government  3-0-3
This course includes state and local political institutions and practices in the context of American federalism. Emphasis is placed on procedural and policy differences as well as political issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

POL 210  Comparative Government  3-0-3
This course provides a cross-national perspective on the government and politics of contemporary nations such as Great Britain, France, Germany, and Russia. Topics include each country's historical uniqueness, key institutions, attitudes and ideologies, patterns of interaction, and current political problems. Upon completion, students should be able to identify and compare various nations' governmental structures, processes, ideologies, and capacity to resolve major problems. This course has been approved for transfer
under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

**POL 220 International Relations 3-0-3**
This course provides a study of the effects of ideologies, trade, armaments, and alliances on relations among nation-states. Emphasis is placed on regional and global cooperation and conflict, economic development, trade, non-governmental organizations, and international institutions such as the World Court and UN. Upon completion, students should be able to identify and discuss major international relationships, institutions, and problems. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

**PSYCHOLOGY**

**PSY 110 Life Span Development 3-0-3**
This course provides an introduction to the study of human growth and development. Emphasis is placed on the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span and apply this knowledge to their specific field of study.

**PSY 115 Stress Management 2-0-2**
This course covers stressors and techniques for stress management. Topics include anger, assertiveness, adaptation to change, conflict, coping skills, identification of stressors, time management, and the physiology of stress and burnout. Upon completion, students should be able to demonstrate an understanding of the effective management of stress.

**PSY 118 Interpersonal Psychology 3-0-3**
This course introduces the basic principles of psychology as they relate to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development.

**PSY 150 General Psychology 3-0-3**
This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

**PSY 234 Organizational Psychology 3-0-3**
*Prerequisite: PSY 150*
This course introduces the field of industrial and organizational psychology. Topics include employee motivation, organizational structure, leadership, selection and training, conflict resolution, communication, job satisfaction, and other related influences on performance. Upon completion, students should be able to demonstrate a basic understanding of organizational dynamics and behaviors in the workplace.

**PSY 237 Social Psychology 3-0-3**
*Prerequisite: Take one: PSY 150 or SOC 210*
This course introduces the study of individual behavior within social contexts. Topics include affiliation, attitude formation and change, conformity, altruism, aggression, attribution, interpersonal attraction, and group behavior. Upon completion, students should be able to demonstrate an understanding of the basic principles of social influences on behavior. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

**PSY 241 Developmental Psychology 3-0-3**
*Prerequisite: PSY 150*
This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

**PSY 246 Adolescent Psychology 3-0-3**
*Prerequisite: PSY 150*
This course provides an overview of the behavior patterns, life changes, and social issues that accompany the developmental stage of adolescence. Topics include developmental theories; physical, cognitive, and psychosocial growth; transitions to young adulthood; and socio-cultural factors that influence adolescent roles in home, school, and community. Upon completion, students should be able to identify typical and atypical adolescent behavior patterns as well as appropriate strategies for interacting with adolescents. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

**PSY 281 Abnormal Psychology 3-0-3**
*Prerequisite: PSY 150*
This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and
therapeutic techniques. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

REligion

REL 110 World Religions 3-0-3
This course introduces the world’s major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

REL 211 Introduction to Old Testament 3-0-3
This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

REL 212 Introduction to New Testament 3-0-3
This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

Substance Abuse

SAB 110 Substance Abuse Overview 3-0-3
This course provides an overview of the core concepts in substance abuse and dependence. Topics include the history of drug use/abuse, effects on societal members, treatment of addiction, and preventive measures. Upon completion, students should be able to demonstrate knowledge of the etiology of drug abuse, addiction, prevention, and treatment.

Information Systems Security

SEC 110 Security Concepts 2-2-3
This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

SEC 160 Security Administration I 2-2-3
Prerequisites: Take One Set: Set 1: SEC 110 and NET 110; Set 2: SEC 110 and NET 112
This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses.

SELECTED TOPICS

SEL 293 Selected Topics in___________ 3-9-3
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on the subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

Sociology

SOC 210 Introduction to Sociology 3-0-3
This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

SOC 213 Sociology of the Family 3-0-3
This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

SOC 220 Social Problems 3-0-3
This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and
possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

SOC 225 Social Diversity 3-0-3
This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

SOC 232 Social Context of Aging 3-0-3
This course provides an overview of the social implications of the aging process. Emphasis is placed on the roles of older adults within families, work and economics, politics, religion, education, and health care. Upon completion, students should be able to identify and analyze changing perceptions, diverse lifestyles, and social and cultural realities of older adults. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

SOC 240 Social Psychology 3-0-3
This course examines the influence of culture and social groups on individual behavior and personality. Emphasis is placed on the process of socialization, communication, conformity, deviance, interpersonal attraction, intimacy, race and ethnicity, small group experiences, and social movements. Upon completion, students should be able to identify and analyze cultural and social forces that influence the individual in a society. This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.

SPANISH

SPA 111 Elementary Spanish I C-L-SHC 3-0-3
This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

SPA 112 Elementary Spanish II 3-0-3
Prerequisite: SPA 111

This course is a continuation of SPA 111 focusing on the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate further cultural awareness. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

SPA 121 Spanish Language and Culture 3-0-3
This course is designed to provide an understanding of everyday Spanish language and to promote cultural awareness. Emphasis is placed on providing a balanced foundation in listening, speaking, reading, writing, and understanding Hispanic languages and cultures. Upon completion, students should be able to communicate in elementary Spanish, to research and experience various cultural resources, and to function in a multicultural society.

SPA 141 Culture and Civilization 3-0-3
This course provides an opportunity to explore issues related to the Hispanic world. Topics include historical and current events, geography, and customs. Upon completion, students should be able to identify and discuss selected topics and cultural differences related to the Hispanic world. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

SPA 151 Hispanic Literature 3-0-3
Prerequisites: ENG 111
This course includes selected readings by Hispanic writers. Topics include fictional and non-fictional works by representative authors from a variety of genres and literary periods. Upon completion, students should be able to analyze and discuss selected texts within relevant cultural and historical contexts. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

SPA 161 Cultural Immersion 2-3-3
Prerequisite: SPA 111
This course explores Hispanic culture through intensive study taking place on campus and during a field experience in a host country or area. Topics include an overview of linguistic, historical, geographical, sociopolitical, economic, and/or artistic concerns of the area visited. Upon completion, students should be able to exhibit first-hand knowledge of issues pertinent to the host area and demonstrate understanding of cultural differences. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

SPA 211 Intermediate Spanish I 3-0-3
Prerequisite: SPA 112
This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural
texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.

SST 120  Intro to Sustainability  3-0-3  
This course introduces sustainability issues and individual contributions toward environmental sustainability. Topics include management processes needed to maximize renewable/nonrenewable energy resources, economics of sustainability, and reduction of environmental impacts. Upon completion, students should be able to discuss sustainability practices and demonstrate an understanding of their effectiveness and impacts.

SST 140  Energy Use Analysis  2-2-3  
This course introduces the principles of analyzing energy use, energy auditing tools and techniques, conservation techniques, and calculating energy savings. Topics include building system control theory, calibrating digital controls, energy loss calculations, and applicable conservation techniques. Upon completion, students should be able to demonstrate an understanding of energy use, audits, and controls in the analysis of energy consumption.

SST 130  Modeling Renewable Energy  2-2-3  
This course introduces software and other technologies used for modeling renewable energy systems. Topics include renewable energy modeling software applications, data analysis, renewable energy sources, and cost of renewable energy systems. Upon completion, students should be able to use appropriate technology to model the effectiveness of renewable energy systems.

SST 140  Green Building & Design Concepts  3-0-3  
This course is designed to introduce the student to sustainable building design and construction principles and practices. Topics include sustainable building rating systems and certifications, energy efficiency, indoor environmental quality, sustainable building materials and water use. Upon completion, students should be able to identify the principles and practices of sustainable building design and construction.

SST 210  Issues in Sustainability  3-0-3  
Prerequisites: SST 110  
This course introduces the long-term impacts and difficulties of applying sustainability concepts in an organization, business, or society. Topics include the application of sustainable technologies and the analysis of affordability, efficiencies, recycling, and small and large-scale design. Upon completion, students should be able to recognize the possible limitations of sustainable technologies and be prepared to reconcile such conflicts.

SST 250  Capstone Project  1-6-3  
Prerequisites: SST 110  
This course introduces an integrated team approach to a sustainability topic of interest to students, faculty, or professional community. Topics include problem identification, proposal preparation, conceptual design, and an effective project work schedule. Upon completion, students should be able to integrate the many facets of a topic based on environmental sustainability into a completed project.

TELEPHONY

TCT 100  Teleco Safety Regulations  1-2-2  
This course covers Occupational Safety and Health Administration (OSHA) and similar safety regulations and their specific application in the telecommunications industry. Emphasis is placed on applying safe working standards, acquiring permits, and working with low and high voltage electricity in confined spaces. Upon completion, students should be able to research and apply appropriate safety regulations applicable to the telecommunications industry.
TCT 101  Vault Management  1-2-2
This course covers locating, inspecting, managing, and maintaining a safe working environment in a telecommunications vault. Emphasis is placed on safety, ingress, egress, potential hazardous atmosphere or material engulfment, tool utilization, installation, removal, and splicing or bonding of communication media. Upon completion, students should be able to safely identify, inspect, enter, perform work in, and exit a telecommunications vault.

TCT 102  Underground Locating  1-2-2
This course covers underground utilities locating to include telephony, community access television (CATV), gas, power, water and sewer. Emphasis is placed on locating and properly marking underground utilities in accordance with state One-Call legislation. Upon completion, students should be able to locate, identify, and protect underground utilities.

TCT 103  Installer Level 1 Cabling  1-2-2
This course covers structured premises cabling for the beginning level installer. Emphasis is placed on Installer Level 1 knowledge of standards and codes for the telecommunications industry and properly structured premises cabling techniques. Upon completion, students should be prepared to take the Building Industry Consulting Service International (BICSI) Installer Level 1 certification examination and install premises cabling systems.

TCT 104  Installer Level 2 Copper  1-2-2
This course introduces the foundation for copper-based structured cabling system installation for intermediate installers. Emphasis is placed on copper transmission principles, installation, termination, testing, retrofitting, pathways and spaces, grounding, bonding and protection, fire stopping, and life safety. Upon completion, students should be prepared to take the Building Industry Consulting Service International (BICSI) ITS Installer 2, Copper examination.

TCT 105  Installer Level 2 Fiber  1-2-2
This course introduces the foundation for fiber-based structured cabling system installation for intermediate installers. Emphasis is placed on fiber transmission principles, installation, termination, testing, retrofitting, pathways and spaces, grounding, bonding and protection, fire stopping, life safety, and field coordination. Upon completion, students should be prepared to take the Building Industry Consulting Service International (BICSI) ITS Installer 2, Optical Fiber examination.

TCT 106  Technician Level Cabling  1-2-2
This course covers structured premises cabling at the technician level. Emphasis is placed on technician level knowledge of standards and codes for the telecommunications industry and properly structured premises cabling techniques. Upon completion, students should be prepared to take the Building Industry Consulting Service International (BICSI) technician level certification examination and install premises cabling systems.

TEL 100  Telecommunications Basic Electricity  3-0-3
This course covers DC and AC theory with specific emphasis on the specialized needs of telecommunications personnel. Emphasis is placed on electron theory, conductors, insulators, Ohm’s Law, capacitance, and inductance as it relates to small gauge, twisted-pair copper wire. Upon completion, students should be able to understand trouble symptoms and correct faults on the telephone physical plant network.

TEL 102  Pole Climbing  0-2-1
This course covers basic skills in pole climbing and working aloft. Emphasis is placed on safety, climbing techniques, maintenance of climbing gear, working aloft, and potential hazards. Upon completion, students should be able to safely climb and work aloft.

TEL 104  CATV I and R: Distribution  0-2-1
This course provides training in the fundamentals of the CATV distribution system, including home and business installations. Emphasis is placed on plant construction, subscriber terminal installation, cabling, wiring, separation and clearance, proper grounding procedures, and safety. Upon completion, students should be able to install, test, and correct faults on the CATV distribution system, including home and business installations.

TEL 105  Fiber Optics Splicing  1-2-2
This course covers splicing and maintaining aerial or buried, single mode, loose tube buffered fiber optic cable. Emphasis is placed on hands-on cleaving, fusion and mechanical splicing. Upon completion, students should be able to splice, test, and locate faults using an OTDR and an OLTS to return fibers to service.

TEL 106  Fiber Optics Connectors  1-2-2
This course covers installing and maintaining fiber optic cables, connectors, and patch panels in local area networks. Emphasis is placed on installing and testing connectors including ST, SC, and SFF using anaerobic, crimp and Hotmelt, and then testing using an OLTS. Upon completion, students should be able to install and test connectors and patch cords.

TEL 108  Comdial Key Systems  0-2-1
This course covers programming and maintaining Comdial 616X and 816X Key Systems. Emphasis is placed on programming new systems and moves and changes in working systems. Upon completion, students should be able to install new systems, complete the initial programming, and perform routine moves and changes.

TEL 109  T-1 Span Line Maintenance  0-2-1
This course provides training in design, construction, turn-
up testing, troubleshooting, and maintenance of T-1 span lines. Emphasis is placed on method of transmission, troubleshooting, testing, and repair of T-1 span lines. Upon completion, students should be able to install, test, and repair T-1 span lines.

**TEL 201 Station I and R** 1-2-2
This course covers the fundamentals of trouble-free telephone installation from aerial and buried cable in homes and businesses. Emphasis is placed on drop-wire attachments, station protection, and wire runs, as well as methods for testing and checking stations for customer satisfaction. Upon completion, students should be able to correctly install, test, and repair telephone stations and wiring up to entry into the cable plant.

**TEL 202 Cable Splicing** 1-2-2
This course covers the cable color-code, splicing methods, and closures used throughout the telephone industry. Emphasis is placed on cable color-code, engineering drawings, proper splicing methods, and cable closures. Upon completion, students should be able to perform the basic functions of a cable splicer and meet telephone industry standards.

**TEL 203 Cable Fault Location** 0-2-1
This course covers identifying fault types and using test equipment to locate the faults in aerial and underground cable. Emphasis is placed on identifying fault types and correct uses of various types of test equipment to precisely locate the fault. Upon completion, students should be able to identify fault type, properly use test equipment, and locate the fault within inches.

**TEL 204 Transmission Fundamentals** 2-0-2
This course covers the basic concepts of point-to-point voice and data transmission in both inside and outside telecommunications plant facilities. Topics include test equipment, impedance matching, line characteristics, loading, impedance compensation, bridge taps, tie trunks, echo, singing point, and via net loss. Upon completion, students should be able to maintain facilities to provide fault-free voice and data transmission within the telecommunications network.

**TEL 205 Digital CO Administration** 1-2-2
This course covers data modifications in DMS-10 digital central office switches from remote or on-site locations. Emphasis is placed on normal day-to-day data modification procedures to support customer-originated service orders, including any required hardware changes. Upon completion, students should be able to successfully perform any software or hardware modifications involved in normal daily operations of the DMS-10 digital switch.

**TEL 209 ADSL Installation** 0-2-1
This course provides the hands-on skills necessary for installing and troubleshooting digital subscriber lines (DSL). Topics include DSL technology, services and operation, network wiring, cable pair specifications, computer configuration for DSL operation, and Golite technology. Upon completion, students should be able to install, test, and repair DSL services.

**TRANSPORTATION TECHNOLOGY** C-L-SHC

**TRN 110 Intro to Transport Tech** 1-2-2
This course covers workplace safety, hazardous materials, environmental regulations, hand tools, service information, basic concepts, vehicle systems, and common transportation industry terminology. Topics include familiarization with major vehicle systems, proper use of various hand and power tools, material safety data sheets, and personal protective equipment. Upon completion, students should be able to demonstrate appropriate safety procedures, identify and use basic shop tools, and describe government regulations regarding transportation repair facilities.

**TRN 120 Basic Transp Electricity** 4-3-5
This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair and replacement of batteries, starters, and alternators. Topics include Ohm's Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns.

**TRN 120A Basic Transp Electricity** 0-3-1
Corequisites: TRN 120

**TRN 130 Intro to Sustaninable Transp** 2-2-3
This course provides an overview of alternative fuels and alternative fuel vehicles. Topics include composition and use of alternative fuels including compressed natural gas, biodiesel, ethanol, hydrogen, and synthetic fuels, hybrid/electric, and vehicles using alternative fuels. Upon completion, students should be able to identify alternative fuel vehicles, explain how each alternative fuel delivery system operates, and perform minor repairs.

**TRN 140 Transp Climate Control** 1-2-2
This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis and repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students...
should be able to diagnose and repair vehicle climate control systems.

TRN 140A  Transp Climate Cont Lab  1-2-2
Corequisites: TRN 140
This course provides experiences for enhancing student skills in the diagnosis and repair of transportation climate control systems. Emphasis is placed on reclaiming, recovery, recharging, leak detection, climate control components, diagnosis, air conditioning equipment, tools and safety. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.

TRN 145  Adv Transp Electronics  2-3-3
Prerequisites: TRN 120
This course covers advanced transportation electronic systems including programmable logic controllers, on-board data networks, telematics, high voltage systems, navigation, collision avoidance systems and electronic accessories. Topics include interpretation of wiring schematics, reprogramming PLC?s, diagnosing and testing data networks and other electronic concerns. Upon completion, students should be able to reprogram PLC?s, diagnose and test data networks and other electronic concerns, and work safely with high voltage systems.

TRN 180  Basic Welding for Transp  1-4-3
This course covers the terms and procedures for welding various metals used in the transportation industry with an emphasis on personal safety and environmental health. Topics include safety and precautionary measures, setup/operation of MIG equipment, metal identification methods, types of welds/joints, techniques, inspection methods, cutting processes and other related issues. Upon completion, students should be able to demonstrate a basic knowledge of welding operations and safety procedures according to industry standard.

TRN 180A  Basic Welding for Trans Lab  0-3-1
Corequisite: TRN 180
This course provides a laboratory experience for enhancing student skills in welding and cutting procedures associated with the transportation industry. Emphasis is placed on safety and precautionary measures, setup/operation of MIG equipment, metal identification, welds/joints, techniques, inspection of welds/joints, cutting processes and other related topics. Upon completion, students should be able to demonstrate a basic knowledge of welding operations and safety procedures according to industry standards.

VETERINARY MEDICAL TECHNOLOGY  C-L-SHC
VET 110  Animal Breeds and Husbandry  2-2-3
This course provides a study of the individual breed characteristics and management techniques of the canine, feline, equine, bovine, porcine, ovine, caprine, and laboratory animals. Topics include physiological data, animal health management, and basic care and handling of animals. Upon completion, students should be able to identify breeds of domestic and laboratory animals, list physiological data, and outline basic care, handling, and management techniques.

VET 114  Introduction to Veterinary Medical Technology  1-0-1
This course introduces the standard operating procedures and responsibilities of veterinary medical technology departments, common zoonotic diseases, safety and ethical issues, and USDA/DEA/OSHA regulations/compliance. Emphasis is placed on standard operating procedures, zoonotic diseases, safety and ethical issues, and the importance of USDA/DEA/OSHA regulations and compliance. Upon completion, students should be able to perform duties assigned in veterinary medical technology, recognize potential zoonotic diseases, and establish safety protocols/regulatory compliance.

VET 120  Veterinary Anatomy and Physiology  3-3-4
Local Prerequisite: Completion of one of the following: high school biology course, BIO 090, BIO 094, BIO 110, BIO 111 or by permission of the instructor
This course covers the structure and function of the animal body with emphasis on the similarities and differences among domestic animals. Emphasis is placed on the structure and function of the major physiological systems of domestic, laboratory, and zoo animals. Upon completion, students should be able to identify relevant anatomical structure and describe basic physiological processes for the major body systems.

VET 121  Veterinary Medical Terminology  3-0-3
This course covers the basic medical terminology required for veterinary technicians. Topics include the pronunciation, spelling, and definition of word parts and vocabulary terms unique to the anatomy, clinical pathology, and treatment of animals. Upon completion, students should be able to demonstrate knowledge and understanding of basic medical terms as they relate to veterinary medicine.

VET 123  Veterinary Parasitology  2-3-3
This course covers the common internal and external parasites of companion animals, livestock, selected zoo animals, and wild animals. Emphasis is placed on laboratory diagnosis of the most common forms of the parasite through fecal, urine, skin, and blood exams. Upon completion, students should be able to identify common parasites and discuss life-cycles, treatment and prevention strategies, and public health aspects of veterinary parasitology.

VET 125  Veterinary Diseases I  2-0-2
This course introduces basic immunology, fundamentals of disease processes including inflammation, and common infectious diseases of animals and their prevention through immunization. Topics include fundamental disease processes, principles of medical therapy, immunologic
procedures; infections and zoonotic diseases of domestic animals, and prevention of disease. Upon completion, students should be able to describe basic disease and immunological processes, recognize infections and zoonotic diseases, and discuss prevention strategies.

**VET 126 Veterinary Diseases** 1-3-2  
*Prerequisite: VET 125*  
This course includes the study of basic disease processes, fundamentals of pathology, and other selected topics of veterinary medicine. Topics include histopathology, pathologic changes associated with common diseases of animals, necropsy procedures, specimen handling. Upon completion, students should be able to describe basic pathologic changes associated with disease, recognize histopathologic changes, and properly perform collection and submission of necropsy specimens.

**VET 131 Veterinary Laboratory Techniques 2-3-3**  
*Prerequisite: VET 123  Corequisite: VET 133*  
This course includes the fundamental study of hematology, hemostasis, and urinalysis. Emphasis is placed on basic hematology and urinalysis techniques, manual skill development, instrumentation, quality control, and applications to veterinary science. Upon completion, students should be able to perform manual and automated CBCs, hemostatic assays, and complete urinalyses and maintain laboratory equipment and quality control.

**VET 133 Veterinary Clinical Practice I** 2-3-3  
*Corequisite: VET 120*  
This course introduces basic practices and techniques of the veterinary clinic and biomedical research fields for dogs, cats, and laboratory animals. Topics include physical exam, husbandry, housing, sanitation, restraint and handling, administration of medications, anesthesia and euthanasia techniques, grooming, and dentistry. Upon completion, students should be able to properly restrain, medicate, examine, groom, and maintain each of the species studied.

**VET 137 Veterinary Office Practices** 1-2-2  
This course is designed to teach basic administrative techniques, client communication skills, and regulations pertaining to veterinary medicine. Topics include record keeping, telephone techniques, professional liability, office procedures, state and national regulatory laws, human relations, and animal welfare. Upon completion, students should be able to demonstrate effective communication techniques, office procedures, and knowledge of regulatory laws and issues relating to animal welfare.

**VET 211 Veterinary Laboratory Techniques 2-3-3**  
*Prerequisite: VET 131  Corequisite: VET 213*  
This course covers advanced hematology, serology, immunology, and clinical chemistry. Topics include advanced hematologic, serologic, and immunologic test procedures; manual and automated clinical chemistry procedures; laboratory safety; and quality control. Upon completion, students should be able to collect, prepare, and analyze serum and plasma samples and outline quality control and safety procedures.

**VET 212 Veterinary Laboratory Techniques I** 2-3-3  
*Prerequisite: VET 211  Corequisite: VET 214*  
This course introduces the basic principles of microbiology, histology, and cytology. Emphasis is placed on collection of microbiological samples for culture and sensitivity and collection and preparation of samples for histological and cytological examination. Upon completion, students should be able to perform microbiological culture and sensitivity and evaluate cytology and histology specimens.

**VET 213 Veterinary Clinical Practice II** 1-9-4  
*Prerequisite: VET 133*  
This course covers basic radiography, anesthesia techniques, dentistry, sample collection and handling, surgical assistance and instrumentation, sterile techniques, and patient record keeping. Topics include basic radiography, injectable and gas anesthesia, dentistry, instrument identification and care, sterile surgical technique, specimen collection and processing, and maintenance of patient records. Upon completion, students should be able to take and process radiographs, administer and monitor anesthesia, assist in surgical procedures, collect specimens, and maintain surgical records.

**VET 214 Veterinary Clinical Practice III** 1-9-4  
*Prerequisite: VET 213*  
This course covers advanced anesthetic techniques, special radiographic techniques, advanced dentistry, sample collection and processing, bandaging, and emergency and critical care procedures. Topics include induction and maintenance of anesthesia, radiographic contrast studies, advanced dentistry, external coaptation, intensive care procedures, and advanced sample collection techniques. Upon completion, students should be able to demonstrate proficiency in sample collection, radiology, anesthesia, critical care and emergency procedures, and dentistry.

**VET 215 Veterinary Pharmacology** 3-0-3  
*Prerequisites: CHM 130 and CHM 130A or CHM 151  Corequisite: VET 213*  
This course introduces drugs and other substances utilized in veterinary medicine. Emphasis is placed on drug classification and methods of action, administration, effects and side effects, storing and handling of drugs, and dosage calculations. Upon completion, students should be able to properly calculate and administer medications, recognize adverse reactions, and maintain pharmaceutical inventory and administration records.

**VET 217 Large Animal Clinical Practice** 2-3-3  
*Prerequisite: VET 120  Corequisite: VET 213*
This course covers topics relevant to the medical and surgical techniques for the common domestic large animal species. Topics include physical exam, restraint, sample collection, bandaging, emergency treatment, surgical and obstetrical procedures and instruments, herd health, and lameness topics. Upon completion, students should be able to safely perform restraint, examination, and sample collection; assist surgical, obstetrical, and emergency procedures; and discuss herd health.

**VET 237 Animal Nutrition** 3-0-3
This course covers the principles of nutrition and their application to feeding practices of domestic, farm, and companion animals. Topics include basic nutrients and nutritional needs of individual species, proximate analysis, interpretation of food and feed labels, types of animal foods, and ration formulation. Upon completion, students should be able to select appropriate diets for animals in various stages of health and disease, analyze nutrition labels, and identify foods.

**WORK-BASED LEARNING**

**WBL 110 World of Work** 1-0-1
This course covers basic knowledge necessary for gaining and maintaining employment. Topics include job search skills, work ethic, meeting employer expectations, workplace safety, and human relations. Upon completion, students should be able to successfully make the transition from school to work.

**WBL 111 Work-Based Learning I** 0-10-1
*Local Prerequisite: Approval of Instructor or Department Chairperson*
This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**WBL 112 Work-Based Learning I** 0-20-2
This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**WBL 112A Work-Based Learning I** 0-0-10-1
This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**WBL 112B Work-Based Learning I** 0-0-10-1
This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**WBL 115 Work-Based Learning Seminar I** 1-0-1
*Corequisites: WBL 111 or WBL 112*
This course may accompany WBL 111 or WBL 112. Students will present their work experience and evaluate work opportunities afforded by the co-op.

**WBL 121 Work-Based Learning II** 0-10-1
*Local Prerequisite: Approval of Instructor or Department Chairperson*
This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**WEB TECHNOLOGIES**

**WEB 110 Internet/Web Fundamentals** 2-2-3
This course introduces World Wide Web Consortium (W3C) standard markup language and services of the Internet. Topics include creating web pages, search engines, FTP, and other related topics. Upon completion, students should be able to deploy a hand-coded website created with mark-up language, and effectively use and understand the function of search engines.

**WEB 140 Web Development Tools** 2-2-3
This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire web sites and supporting applets.

**WEB 151 Mobile Application Dev I** 2-2-3
This course introduces students to programming technologies, design and development related to mobile applications. Topics include accessing device capabilities, industry standards, operating systems, and programming for mobile applications using an OS Software Development Kit (SDK). Upon completion, students should be able to create basic applications for mobile devices.

WEB 214  Social Media  2-2-3
This course introduces students to social media for organizations. Topics include social media, marketing strategy, brand presence, blogging, social media analytics and technical writing. Upon completion, students should be able to utilize popular social media platforms as part of a marketing strategy, and work with social media analytics tools.

WELDING

WLD 110  Cutting Processes  C-L-SHC  1-3-2
This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness.

WLD 112  Basic Welding Processes  1-3-2
This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.

WLD 115  SMAW (Stick) Plate  2-9-5
This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes.

WLD 116  SMAW (Stick) Plate/Pipe  1-9-4
Prerequisite: WLD 115
This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions.

WLD 117  Industrial SMAW  1-4-3
This course introduces the SMAW (stick) process for joining carbon steel components for industrial applications. Topics include padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, student should be able to safely perform SMAW fillet and groove welds on carbon steel plate with prescribed electrodes.

WLD 121  GMAW (MIG) FCAW/Plate  2-6-4
This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions.

WLD 131  GTAW (TIG) Plate  2-6-4
This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.

WLD 141  Symbols and Specifications  2-2-3
This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

WLD 151  Fabrication I  2-6-4
Local Prerequisites: WLD 110, and one of the following WLD 115 or WLD 116 or WLD 131
This course introduces the basic principles of fabrication. Emphasis is placed on safety, measurement, layout techniques, and the use of fabrication tools and equipment. Upon completion, students should be able to perform layout activities and operate various fabrication and material handling equipment.

WLD 262  Inspection and Testing  2-2-3
This course introduces destructive and non-destructive testing methods. Emphasis is placed on safety, types and methods of testing, and the use of testing equipment and materials. Upon completion, students should be able to understand and/or perform a variety of destructive and non-destructive testing processes.

WLD 265  Automated Welding/Cutting  2-6-4
Prerequisites: Take All: WLD 110 and WLD 121
This course introduces automated welding equipment and processes. Topics include setup, programming, and operation of automated welding and cutting equipment. Upon completion, students should be able to set up, program, and operate automated welding and cutting equipment.
BOARD OF TRUSTEES

Jim Burgin
Insurance Executive, C & D Insurance
Appointed by Harnett County Commissioners

William (Bill) E. Carver, Jr.
Headmaster, Grace Christian School
Appointed by Lee County Commissioners

James Crawford
Educator, Assistant Professor of History and the
Contemporary World, North Carolina A&T
Appointed by Chatham County Commissioners

Keith Clark
Retired
Appointed by the Governor

Mark Cronmiller
Retired
Appointed by Lee County Commissioners

Jan Hayes
Executive Director, United Way of Lee Co.
Appointed by Lee County Board of Education

Dan Honeycutt
Retired – Harnett County Board of Education
Appointed by Chatham, Harnett & Lee County School Boards
(Jointly)

James (Jamie) C. Kelly
Appointed by the Governor

Susan Laudate
Retired Teacher
Appointed by Lee County Commissioners

Robert Logan
Avid
Appointed by Chatham, Harnett & Lee County School Boards
(Jointly)

Clem Medley
President, First Federal Bank
Appointed by Harnett County Commissioners

Julian Philpott – Chairman
Secretary/General Counsel, NC Farm Bureau Federation, Inc.
Appointed by the Governor

Norman Chip Post, Jr.
Attorney, Doster, Post, Silverman, Foushee & Post Attorney at Law
Appointed by Chatham, Harnett & Lee County School Boards (Jointly)

L. W. (Bobby) Powell
Retired Golf Professional
Appointed by the Governor

Martha Underwood
Retired
Appointed by Lee County Commissioners

ADMINISTRATIVE STAFF

Athans, Stephen
Dean of Vocational & Technical Programs
PhD. Education, NC State

Baker, Lisa
Dean Health Sciences
M.S. Dental Hygiene Education, UNC
B.A.S., Dental Hygiene, St. Petersburg College, FL

Beck, Michael
Dean of Student Learning
Ed.S., Educational Leadership, Liberty University

Bedoe, Frank
Director of Safety & Security
A.A.A. Law Enforcement, Cuyahoga CC

Blackman, Nancy
Director Small Business Center-Harnett
A.A.S. Wayne CC

Carter, Amanda
Director of Distance Education and Instructional Technology; M.S. Vocational Education, ECU

Childress, Jamie
Dean of Enrollment/Registrar
B.A. International Studies, UNC

Crittenden, Felicia
Associate Dean of Continuing Education
M.A.S. Professional Writing, Towson University/M.A. Psycholgy, Fayetteville State

Cross, Rosalind
WIA - WFD Director
M.A. Bus Administration, Franklin University

*Current as of May 2015
Dishman, Marcie  
Executive Director of Marketing & Public Affairs

Nursing Instructor  
M.A. Education Health Ed and Promotion, ECU; B.S. Nursing, Fayetteville State University; A.S. Nursing, A.A.S. College Transfer, Diploma Practical Nursing, CCCC

Hollingsworth, Edwardo (Dwight)  
Cosmetology Instructor  
Certificate Cosmetology Instructor, CCCC

Howington, Allen  
Department Chair, Industrial Maintenance Technology  
A.A.S. Mechatronics, A.A.S. Electronics Engineering, CCCC

Jackson, John (Chris)  
Maching Tool and Die Instructor  
M.A. Business Administration, M.A. Management, B.S. Business Mgt., Liberty University; A.A.S. Machining Technology/Tool Die and Mold, Certificate in Machining Technology, Diplomas in Machining Tech, Computer Aided Drafting & Manufacturing, Tool and Die Machining

Johnson, Joshua  
Masonry Instructor, Harnett Correctional Institute  
Certificate in Occupational Education, Southwestern CC
Johnson, Susan  
Dept Chair Barbering, Esthetics, Cosmetology  
A.A.S. GOT, Cometology Certificate, Esthetics Certificate, CCCC  
Johnson, Joshua  
Masonry Instructor HCI 10 Mo  
Certificate in Occupational Education, Southwestern CC

Jones, Shawna  
English Instructor  
M.A. English, B.A. English, NC State University

Kannarr, Diane  
Business & Marketing Instructor  
M.B.A. Business Management, Pepperdine University

Keller, Brenda  
Math Instructor  
B.S. English, Language & Literature, Appalachian

Kelly, Megan  
Veterinary Medical Technology Instructor  
A.A.S. Veterinary Medical Technology, CCCC

Kennedy, Amy  
Biology Instructor  
Ph.D. Biomedical Science, Auburn University; B.S. Animal Science, NC State University

King, Elizabeth  
College and Career Readiness Instructor  
B.S. Education, Kings College

King, Loria  
College and Career Readiness Instructor  
M.A. Education Instruction, Central Michigan University;  
B.S. Child-Fam, ECU

Knight, Lisa  
Physics/Geology Instructor  
M.A. Teaching/Science Education, B.S. Teaching, UNC

Kohanowich, Robin  
Sustainable Farming Coordinator  
B.S. Plant Science, Clemson University

Lavere, John  
Electronics Engineering Technology Instructor  
M.S. Electrical Engineering, NC State University; B.S. Electrical Engineering, Michigan Technological University

Loftis, Jonathan  
Animal Facilities Manager  
Veterinary Medical Technology Instructor  
M.S. Agricultural Education, NC A&T State University;  
B.A. Veterinary Technology, St. Petersburg College

Lofton, Nicole  
Computer Information Technology Instructor

M.S. Computer Information Systems, University of Phoenix; B.A. Business Management, University of Mt.Olive

Love, Richard  
Lead Paralegal Instructor  
J.D. Law, Campbell University; B.A. History, UNC

Lyles, Kassandra(Kassie)  
CCCC PEG Manager/TV Instructor  
B.S. Communication/Radio/Video, Bradley University

Malenick, David  
Psychology Instructor  
M.S. Psychology, Radford University; B.A. Psychology, State University of New York; A.A. Humanities & Social Science, Cayuga CC

Mann, Charles(Chuck)  
Automotive Instructor  
A.A.S. Automotive System Technology, Diploma  
Automotive Mechanics, CCCC

Mapp, Andre  
College & Career Readiness Instructor  
B.S. Mathematics, St.Augustine's College

Martin, Thurlia  
CED Testing Coordinator  
A.A.S. Business Administration, Sandhills CC

McCrнимon, Markita  
Lead Instructor Justice Studies  
M.S. Criminal Justice, Troy; B.S.Applied Science, Winston-Salem State University

McElreath, Thadd  
PE Instructor  
M.S. Health, Physical Education & Recreation, Emporia State University

McIver, Latasha  
Developmental Studies Reading Instructor  
M.A.Education, University of Pembroke; B.A. Sociology and Psychology, North Carolina Central University

McKoy, Raychon  
Barbering Instructor  
Barbering Instructor, NC Bd of Barbering Examiners

McLamb, Ronald  
Media Technologies Instructor  
B.A. Mass Communication, Campbell University

McMahan, Andrew (Andy)  
Department Chair, Sustainability  
B.A. Environmental Policy, Appalachian University
Mercer, Edward
Instructor, College and Career Readiness
B.S. Social Studies Education, Bob Jones University

Michael, Kimcuc
Cosmetology Instructor
A.A.S. Cosmetology, Certificate Cosmetology Instructor, CCCC

Miller, Terrence (Terry)
Math, Science and Wellness, Lead Instructor
Ph.D., Philosophy: Microbiology, NC State University; B.S. Biology, University of Acron

Mills, Arlen
Veterinary Medical Technology Instructor
D.V.M., University of Missouri; B.S. Biology, Evangel College

Minter, Regina
Lead Culinary Instructor
B.S., Culinary Arts and Food Service Management, Johnson & Wales University
A.A.S. Food Service Management, Johnson & Wales University

Murray, Michael (Mike)
Department Chair, Networking Technologies
M.S. Computer Information Systems, Boston University

Myers, David
Welding Instructor
A.A.S. Industrial Technology, Alfred Suny College of Technology; A.A.S. Occupational Standards: Major in Welding Technology, Mohawk Valley CC

Newkirk, Della
Lead Instructor Compensatory Ed
B.S. Math, Campbell University

Norris, Joseph
Doc Training Consortium
Criminal Justice Instructor Certification, NC Criminal Justice Ed/Training Standards Com

Oliver, Wynnette
Esthetics Instructor
A.A. Analust Electronics, Danville Community College, Cert. - Esthetics Technology and Cert. Esthetics Instructor, CCCC

Overcash, Kimberly
English Instructor
M.A. English, NC State University; B.A. English, UNC

Owen-Bogan, Karen
Developmental Studies English Instructor
M.A. Special Education, Fayetteville State University; B.A. Education/Elementary, UNC Wilmington

Ozmeral, Kaan
Math Instructor
M.S. Mathematics, NC Central University; BS. Science, Portland State University

Page, Summerlin
English Instructor
M.A. English, B.A. English, NC State University

Perry, Fernanda
Dental Assisting/Hygiene Instructor
Doctor of Dental Surgery, Majoring in Dental Surgery, Howard University; B.S. Biology, NC A&T State University

Porter, Anjanette
English Instructor
M.A. English, ECU; B.A. Communication, Austin Peay University
Powell, Michelle
Math Instructor Dev Studies Chatham
B.S. Rehabilitation Education, Eastern Kentucky University

Powell, Robert
Chair of Justice Studies & Director of BLET Crim Justice
J.D. Law, UNC; B.A. Philosophy Business Political Science, UNC Greensboro; Diploma, DeLa Salle, New Orleans, LA

Powell, Rodney
Chemistry Instructor
Doctor of Philosophy, Florida State University, M.S. Chemical Oceanography, Florida State University; B.S. Chemistry, Wake Forest University

Rainforth, Lori
Veterinary Medical Technology Instructor
M.A. Veterinary Science, B.S. Animal Science, University of Nebraska; A.A.S. Animal Health Technology, Eastern Wyoming College

Ray, Glenda
Cosmetology Instructor
A.A.S. Drafting & Design Technology, Diploma, Computer Aided Drafting a & Manufacturing, CCCC; Cosmetologist Teacher License, Cosmetology License, NC State Bd Of Cosmetic Art Examiners
Rhodes, Donna  
Phlebotomy Instructor  
A.A.S. Medical Laboratory Technology, CCCC

Riddle, Pamela (Pam)  
Office System Tech Instructor  
B.B.A. Business Administration, Campbell University

Schofield, Holly  
Psychology Instructor  
M.A. Clinical Psychology, Appalachian University; B.A. Psychology & Art, UNC

Scott, Jessica  
Department Chair of Allied Health Sciences  
Doctor of Health Sciences, Nova Southeastern University  
M.S. Dental Hygiene Education, UNC;  
B.S. Biology, UNC Charlotte;  
Certificate in Dental Hygiene, UNC

Seagraves, Jennifer  
Instruction & Outreach Librarian  
M.A. Information & Library Science, UNC

Sharpe, Bobby  
Electrical Technology Instructor, Harnett Correctional Institute

Shearin, Glenn  
Machining Tool & Die Instructor  
Juris Doctor Law, Wake Forest University; B.A. Business Mgt., NC State University; A.A.S. Machining Technology, Fayetteville Technical CC

Shepard, Emily  
Computer Information Technology Instructor  
M.S. Management, New Jersey Institute of Technology;  
B.S. Entomology, University of Maryland

Simonian, Whitney  
Dental Hygiene Instructor  
M.S. Dental Hygiene Education, B.S. Dental Hygiene, UNC

Stephenson, Lennie  
Director of Con Ed Medical Programs  
M.A. Emphasis on Healthcare Administration, B.S. Healthcare Mgt., The American University; A.S. in Nursing Basic Program, Edison College

Stumpf, James (Ty)  
Department Chair, Humanities  
M.A. English, creative Writing, NC State University; B.A. English Catawba College

Stumpf, Bianka  
History Instructor  
M.A. Education, Social Studies, Campbell University; B.A. Secondary Education, Catawba College

Swank, Angela  
Practical Nursing Instructor  
M.S. Nursing Education, ECU; B.S. Nursing, UNC Wilmington; A.A.S. Nursing Education, A.A.S. General Education, CCCC

Tart, Myles  
Carpentry Instructor, Harnett Correctional Institution

Thomas, Edwin  
Department Chair, Machining Tool & Die  
A.A.S. Machining Technology/Tool, Die & Mold Making, Diploma, Tool & Die Maker, CCCC

Thomas, Joyce  
Medical Assisting Instructor  
A.A.S. Medical Assisting, Certificate in Medical Insurance Coding, CCCC

Thomas, Amber  
Business Technologies Instructor  
M.S. Applied and Resource Economics, B.S. Applied Economics, ECU

Thompson, Stanley  
Lead, Motorcycle Mechanics Instructor  
Diploma Motorcycle Mechanics, CCCC

Tildsley, Michael  
ABE Instructor  
B.A. English, Campbell University

Turner, Charity  
Math Instructor  
M.A. Mathematics, B.S. Mathematics, Ohio State University

Utley, Annie  
Instructor, College and Career Readiness  
M.A. Elementary Education, Grand Canyon University;  
B.A. History, Fayetteville State University

Wang, Guan  
Chinese, Visiting Instructor  
M.A. Educational Studies, Curtin University of Technology (Australia)  
B.A. English Literature, Southwest Jiaotong University of China

Warner, William  
Telecommunications Instructor

Watkins, Shelly  
Biology/ACA Instructor  
Dr. Physical Therapy, Elon University; B.S. Biology, UNCW
Watson, David
English Instructor
M.A. English, B.A. Philosophy/Religion, Appalachian University

Wesner, Vicky
Dental Hygiene and Dental Assisting Program Director
M.A. Adult and Community College Education, B.S. Zoology, North Carolina State University; A.A.S. Dental Hygiene, FTCC

West, Linda
Nursing
B.A. Nursing-RN-BSN, Fayetteville State University; A.A.S. Nursing, Johnston Community College

Whitmer, Amy
Lead Instructor Library Information Technology
M.S. Library Science, University of Kentucky; B.A. English, Elon University

Wiser, Nancy
Developmental Studies Instructor
M.S. English Education, Tennessee University; B.S. SEC ED-English, Tennessee Temple University

Witcher, Lora
Biology Instructor
Dr. Philosophy/Biochemistry/Cell Biology, M.A. Biochemistry, New York University; B.A. Chemistry, B.S. Science Education, North Carolina State University

Woelfle, Catherine
Lead Instructor Cosmetology
B.A. Humanities, University of Greensboro; A.A. University Transfer, AA in Associate of Arts, CCCC; Cosmetology Teachers License, NC State Board of Examiners; Diploma Business Data Entry, Suburban Technical School

Wolfenbarger, Martha
Lead Instructor Office Systems & Medical Office Administration
M.S. Business Education, University of Tennessee; B.S. Comprehensive Business Education

Womack, Wesley
Industrial Systems Instructor
A.A.S. Inductrial Systems Technology, A.S. CCCC

Wright, Derrick
Lead Computer InformationTechnology Instructor
M.S. Technology Management, Mercer University; B.S. Computer Technology, University of New Haven

Ziebart, Jason
English Instructor
M.A. English, NC State University; B.S. English, Multidisciplinary Studies, ECU

Zurbach, Janet
Spanish Instructor
M.A. and B.A. in Spanish, Temple University
