

Residency Information

NC Residency for in-state tuition status is a benefit to NC residents. Requirements for establishing residency for tuition classification and State financial aid purposes are prescribed by state law. Residency status is determined through the Residency Determination Service (RDS). Your admissions application cannot be processed without a status determination. Please visit ncresidency.cfn.org for more information and to obtain your Residency Certification Number (RCN).

RCN: _____ Date assigned: _____

An RCN will expire after 15 months if the student is not continuously enrolled at the same institution. Students must use their legal name when completing the NC Residency Determination Service and when applying to the college. A failure to match a student's name between the systems will delay the enrollment process.
