Chatham County

Agriculture & Natural Resources

Organic Crop Production

Students learn of, and practice, year-round vegetable, fruit, herbs and cut flower production using organic methods. Topics include variety selection, production methods and record-keeping procedures, with special emphasis on organic certification processes and season extension for southeast growers. Fieldwork is incorporated in this course. This is a parallel course to AGR-265 Organic Crop Production completed in a curriculum environment. Closed toe shoes are required.

C3231	64 Hrs	8/15 - 12/12	M	8:30AM - 12:20PM	PMC	Sustainable Technology Bldg, Rm. 135	C. McNeill	\$181.60
-------	--------	--------------	---	------------------	-----	--------------------------------------	------------	----------

Artistry & Craftsmanship

Pottery - Beginner

This course is an introduction to pottery and ceramics. The course will cover the basics of working with clay and throwing on the wheel. Students will also learn techniques for design, texturing, and glazing ceramics. Students will be able to produce their own work during the class and will be ready for Pottery - Intermediate upon completion. Clay is available for purchase through the college. Call for details.
