Business & Leadership

Quality Fundamentals

This course addresses philosophical and general application of quality essentials, and provides a foundation for more in-depth training in the concepts. Students will learn the basics of Total Quality Management (TQM) including deploying quality techniques and strategies in the manufacturing environment to help improve processes.

D1689	6 Hrs	4/11 - 4/24	T Th	7:00PM - 8:30PM	DECO online	C. Swindell	\$71.60
-------	-------	-------------	------	-----------------	-------------	-------------	---------

Career & Employment Training

Social Media & Your Career

Learn how your online presence impacts your employability and how you can make social media work for you. This virtual course focuses on social media etiquette and professionalism. Participants will learn about and discuss positive behaviors on various social media sites (i.e. Facebook & Instagram) and strategies to develop an effective LinkedIn account. A waiver for registration cost is available for those who qualify. Basic computer proficiency is required.

Success Skills for Industry

Implementing positive organizational change often begins with understanding structural processes, and employee behaviors. Learn soft skills needed for employment, or to enhance skills for future roles and responsibilities in general industry. Topics include work ethics, collaboration, critical thinking, deduction reasoning, interpersonal skills, progressive discipline, and much more. If you are unemployed, underemployed or received notification of a pending layoff, you may qualify for a tuition waiver to cover the cost of this class.

D1690	4 Hrs	2/24 - 2/24	W	1:00PM - 5:00PM	DECO online	G. Brown	\$70.00
-------	-------	-------------	---	-----------------	-------------	----------	---------

Success Skills for Life Sciences

Implementing positive organizational change often begins with understanding structural processes, and employee behaviors. Learn soft skills needed for employment, or to enhance skills for future roles and responsibilities in life sciences. Topics include work ethics, collaboration, critical thinking, deduction reasoning, interpersonal skills, progressive discipline, and much more. This course complements the Continuing Education BioWork course. If you are unemployed, underemployed or received notification of a pending layoff, you may qualify for a tuition waiver to cover the cost of this class.

D1692	4 Hrs	4/28 - 4/28	W	1:00PM - 5:00PM	DECO online	G. Brown	\$70.00
-------	-------	-------------	---	-----------------	-------------	----------	---------

Success Skills for Skilled Trades

Implementing positive organizational change often begins with understanding structural processes, and employee behaviors. Learn soft skills needed for employment, or to enhance skills for future roles and responsibilities in skilled trades, including construction. Topics include work ethics, collaboration, critical thinking, deduction reasoning, interpersonal skills, progressive discipline, and much more. If you are unemployed, underemployed or received notification of a pending layoff, you may qualify for a tuition waiver to cover the cost of this class.

D1691	4 Hrs	3/24 - 3/24	W	1:00PM - 5:00PM	DECO online	G. Brown	\$70.00
-------	-------	-------------	---	-----------------	-------------	----------	---------

Computer Training

Cybersecurity

Safety and security of business information is critical. Implementing effective security measures will offer liability protection, and help increase efficiency and productivity. Learn to safeguard information and protect systems from impairment, or theft, which could thwart success. Topics include understanding cybersecurity, malware, breaches, cyberattacks and threats, prevention software and defense.

D1684	8 Hrs	1/04 - 1/17	M T W Th F Sa Su		DECO online	C. Oliver	\$71.60

Government Regulations

Wastewater Operator I Training

This course provides a general knowledge of the operation of wastewater treatment systems. In addition to related laws and regulations, students will learn about the equipment used in plants and sampling procedures. This course prepares students for the NC Water Pollution Control System Operator (I) Certification Commission Examination. A textbook is required.

D1682	35 Hrs	1/11 - 1/15	M T W Th F	8:00AM - 4:00PM	DECO online	A. Grenier	\$126.60
-------	--------	-------------	---------------	-----------------	-------------	------------	----------

Wastewater Operator III

This course provides a general knowledge of the operation of wastewater treatment systems. Students will learn about general mechanical and maintenance requirements, activated sludge, solids disposal, and lab procedures. This course prepares students for the NC Water Pollution Control System Operators Certification Commission Examination. Prerequisite: WAT-3100W3 Wastewater Operator II

D1683	35 Hrs	2/01 - 2/05	M T W Th F	8:00AM - 4:00PM	DECO online	A. Grenier	\$126.60
-------	--------	-------------	---------------	-----------------	-------------	------------	----------

Health & Medical Occupations

Introduction to Sonography

This course is designed to provide an introduction to medical sonography. Topics include applications, terminology, history, patient care, ethics, and basic skills. Coursework will include theory and lab activities. Upon completion, students should also be able to define sonographic applications and perform basic patient care skills and preliminary scanning techniques. A textbook is required.

D1910	77 Hrs	1/11 - 5/02	M T W Th F Sa Su		DECO online	B. Winn-Davis	\$181.60
-------	--------	-------------	------------------------	--	-------------	---------------	----------

Medical Math (Hybrid)

This course is designed to provide students with experience in computing mathematical problems that are common in healthcare careers like nursing, medical assisting, and pharmacy technician. Students begin with a review of basic math and progress to percents, ratio and proportion, and equations used in healthcare. One day a week, face-to-face class meetings will be conducted online through Blackboard Collaborate. A textbook is required.

D1009	78 Hrs	1/11 - 5/03	M		DECO online	L. Stephenson	\$181.60
-------	--------	-------------	---	--	-------------	---------------	----------

Teacher Training

e-Learning Development

Using the Quality Matters Standards of best practices in effective online course design, delivery, teaching, and learning, this QM™ certified course prepares instructors to design and deliver online educational content. Topics covered in this course include communication, interaction (student-to-student, student-to-instructor, and student-content), course technology, learner support, and accessibility (Universal Design for Learning). This is a QM™ certified course; no participant credential or certification is associated with this course. Basic computer proficiency is required. Blackboard experience is helpful, but not required.

D1313	38 Hrs	2/01 - 3/29	M T W Th F Sa Su		DECO online	C. Wade	\$126.60
D1314	38 Hrs	4/05 - 6/01	M T W Th F Sa Su		DECO online	C. Wade	\$125.60

Harnett County

Automotive

Escort Vehicle Operator Renewal

This course is designed to meet the training requirements set by the NC Department of Transportation to recertify oversize-overweight load escort vehicle drivers. Course components consist of defensive driving, escort driver requirements, updates, and an exam. Must not have a DWI or reckless driving within the past 12 months.

H1680	4 Hrs	3/13 - 3/13	Sa	8:00AM - 12:00PM	HMC	Harnett Continuing Ed., Rm. 0219	W. Booth	\$71.60

Construction

Construction Trades Essential

This program is ideal for those interested in pursuing a career in carpentry, construction, electrical, heavy equipment, HVAC, welding, or other construction and maintenance jobs. Students will learn about basic safety, construction drawings, hand and power tools, material handling, and more. The course will cover site hazards, lifesaving equipment, and health hazards in construction, and how to reference OSHA Construction Standards resources. Students will be introduced to the soft skills needed for employment in skilled trades.

Successful students will earn an OSHA-30 certification, as well as a NCCER Core credential which is a prerequisite to all other National Center for Construction Education and Research (NCCER) Level 1 craft curriculum. This course complements trades-related Continuing Education courses, and is a crosswalk to Building Construction Technology. A textbook and OSHA card fees are required.

H1679	114 Hrs	2/01 - 2/19	M T W Th F	8:30AM - 5:30PM	HMC	Miriello Bldg., Rm. 0134	E. Taylor	\$181.60

Cosmetic Arts

Barbering I

This course is designed to provide the necessary skills to meet the instructional requirements to become a registered barber as established by the NC Board of Barber Examiners. This is a parallel course to BAR-111,112 - Barbering and is completed in a curriculum environment. A textbook, uniform and barbering kit are required.

H1768	448 Hrs	1/11 - 5/10	M T W Th Su	DCTR Barbering, Rm. 0108	S. Harper	\$191.60
-------	---------	-------------	----------------	--------------------------	-----------	----------

Barbering II

This course covers more comprehensive barbering concepts. Topics include safety and sanitation, product knowledge, draping, shampooing, haircutting, and hair drying as well as chemical processing. as well as both wet and thermal hairstyling. This course provides experience in a simulated shop setting. Upon completion, students should be able to safely and competently apply these barbering concepts in a shop setting. This is a parallel course to BAR 113 and BAR 114 and is offered in a curriculum environment. Pre-requisite: BAR-3100B1, Barbering I. A textbook, uniform and barbering kit are required.

H1769	448 Hrs	1/11 - 5/10	M T W Th Su	DCTR Barbering, Rm. 0108	A. McCullers	\$191.60
-------	---------	-------------	----------------	--------------------------	--------------	----------

Cosmetology in Spanish I

This course allows students who speak Spanish fluently to begin working toward a certificate by gaining 422 hours of the required 1500 hours. Instruction will focus on theoretical concepts of cosmetology with hands-on experience performed on mannequins. Students will work toward a Cosmetology License with the NC State Board of Cosmetic Arts. Perspective students must attend an orientation session, provide verification of citizenship/student visa documents, identification and take a CASAS reading assessment. A textbook, cosmetology kit and uniform are required.

H1770	416 Hrs	1/11 - 5/10	M T W Th 2:30PM - 9:30PM	HMC Harnett Classroom Bldg., Rm. 0411	J. Chavez Ruiz	\$191.60
-------	---------	-------------	--------------------------	---------------------------------------	----------------	----------

Cosmetology in Spanish II

This course allows students who speak Spanish fluently to continue working toward completing hours to obtain a Cosmetology License with the NC State Board of Cosmetic Arts. Students will continue a focus on theoretical concepts of cosmetology, in addition to practical performing services in the salon. Students must have completed Cosmetology in Spanish I. Textbooks, uniform and cosmetology kit required.

H1771	352 Hrs	1/11 - 5/10	M T W Th 3:30PM - 9:30PM	HMC Harnett Classroom Bldg., Rm. 0410	A. McLamb Collier	\$191.60
-------	---------	-------------	--------------------------	---------------------------------------	-------------------	----------

Cosmetology in Spanish III

This course covers comprehensive Cosmetology concepts in a simulated salon setting. Topics include safety, product knowledge, salmon management, salesmanship, skin care, electricity, wigs, thermal hair styling, lash and brow tinting, hair removal. Scalp treatments, manicuring, shampooing, hair color, design, haircutting, chemical restructuring, pressing and other related topics. Upon completion, students should be able to safely and completely demonstrate these salon services. Students will work toward a Cosmetology License with the NC State Board of Cosmetic Arts. A textbook, cosmetology kit and uniform are required. Pre-requisites: Cosmetology in Spanish I and II

H1772	352 Hrs	1/11 - 5/10	M T W Th Su	HMC Harnett Classroom Bldg., Rm. 0407	A. McLamb Collier	\$191.60
-------	---------	-------------	----------------	---------------------------------------	-------------------	----------

Cosmetology in Spanish IV

This course is designed to provide advanced cosmetology concepts and advanced practical skills. Pre-requisites include: Cosmetology in Spanish I, II and III. Textbooks, uniforms and supplies are required.

H1773	352 Hrs	1/11 - 5/10	M T W Th Su	HMC Harnett Classroom Bldg., Rm. 0400	A. McLamb Collier	\$191.60
-------	---------	-------------	----------------	---------------------------------------	-------------------	----------

Cosmetology Instructor II

This course is designed to provide the necessary skills to meet the instructional requirements to current licensed cosmetologists who are interested in becoming licensed cosmetic arts instructors. This is a parallel course to COS-273 and COS-274, Instructor Practicum III and IV, and is completed in a curriculum environment. After completing both Cosmetology Instructor Level I and Level II, students will be able to sit for the NC licensing exam. Textbooks, uniforms and supplies are required.

H1767	416 Hrs	1/12 - 5/10	T W Th Su	HMC Harnett Classroom Bldg., Rm. 0407	S. Johnson	\$191.60
-------	---------	-------------	--------------	---------------------------------------	------------	----------

Cosmetology Instructor Remed.

This course covers remedial advanced cosmetology instructional concepts in order to prepare the student for the licensing exam. Topics include testing and review of the Cosmetology Instructor course. Upon completion, students should be able to pass test and exit exams in order to go before the licensing board. Pre-requisite: Cosmetology Instructor I and II

H1774	104 Hrs	1/12 - 2/16	T W Th 8:00AM - 3:00PM	HMC Harnett Classroom Bldg., Rm. 0407	S. Johnson	\$191.60
-------	---------	-------------	------------------------	---------------------------------------	------------	----------

Manicuring - Nail Tech

This course allows students to begin working towards completing 300 hours of salon theory and practical skills. Instruction will focus on theoretical concepts of manicuring with hands-on experience. Students will work towards a manicuring license with the NC State Board of Cosmetic Arts. Students must attend a required orientation session and provide verification of identification. Textbooks, a manicuring kit, uniform and supplies are required.

H1766 320 Hrs 1/11 - 5/10 M T W Su HMC Harnett Classroom Bldg., Rm. 0409 S. Gilbert \$191.60

Manicuring - Nail Tech in Spanish

This course allows students who speak fluently in Spanish to begin working towards completing 300 hours of salon theory and practical skills. Instruction will focus on theoretical concepts of manicuring with hands-on experience. Students will work towards a manicuring license with the NC State Board of Cosmetic Arts. Students must attend a required orientation session and provide verification of identification. Textbooks, a manicuring kit, uniform and supplies are required.

Industrial/Manufacturing

BioWork

The BioWork course can lead to an entry-level position as a process technician. Students will learn foundational principles and skills needed for a career with a biotechnology, pharmaceutical, or chemical manufacturing company. This course articulates to BPM110 Bioprocess Practices, PTC110 Industrial Environment and also prepares students for the State Certification Exam for Process Technicians. Prerequisites: High School Diploma or High School Equivalency (GED, HiSET, TASC) and attend an online information session. Math and reading placement tests may be required. A textbook is required.

H1678	136 Hrs	1/08 - 3/05	W	9:00AM - 1:00PM	HHSC	Harnett Health Science Ctr, Rm. 0252	L. Smelser	\$181.60
			M	9:00AM - 1:00PM				

MIG Welding & AWS Qualification

Students will learn practical operations employed in the use of MIG welding methods. Topics include safety, power sources, equipment setup and operation, selection of consumables, welding joint design, symbols, measurement, identification of welding discontinuities, and welding techniques. Students will perform various qualification tests in preparation of American Welding Society certification. Class requirements: steel toe boots, welding helmet, safety glasses, gloves, fire retardant jacket, and a textbook. Additional metal fee: \$80

H1676	124 Hrs	1/05 - 5/06	T Th	6:00PM - 9:30PM	HMC	Harnett Continuing Ed., Rm. 0200	W. Bryant	\$181.60
-------	---------	-------------	------	-----------------	-----	----------------------------------	-----------	----------

OSHA 10 General Industry

This course provides the basic guidelines and a safety overview of the OSHA 10-hour General Industry module. Students will receive a variety of training on general industry safety and health requirements. Upon successful completion of the course, students will receive an OSHA 10-Hour General Industry Outreach DOL course completion card.

Motor Vehicles & Driving

Alive at 25

Whether you've received a ticket or just want to be a safer driver, you can learn defensive driving techniques. "Alive at 25" is designed for students under 24 years of age and may minimize or prevent the assessment of insurance points or premium surcharges on insurance policies and/or drivers' licenses. You will need your driver's license, citation number, violation type and court date when you register.
