Distance

Business & Leadership

Quality Fundamentals

This course addresses philosophical and general application of quality essentials, and provides a foundation for more in-depth training in the concepts. Students will learn the basics of Total Quality Management (TQM) including deploying quality techniques and strategies in the manufacturing environment to help improve processes.

D1689	6 Hrs	4/11 - 4/24	T Th	7:00PM - 8:30PM	DECO online	C. Swindell	\$71.60
-------	-------	-------------	------	-----------------	-------------	-------------	---------

Career & Employment Training

Social Media & Your Career

Learn how your online presence impacts your employability and how you can make social media work for you. This virtual course focuses on social media etiquette and professionalism. Participants will learn about and discuss positive behaviors on various social media sites (i.e. Facebook & Instagram) and strategies to develop an effective LinkedIn account. A waiver for registration cost is available for those who qualify. Basic computer proficiency is required.

D1309	20 Hrs	2/01 - 2/24	M W	5:00PM - 6:30PM	DECO online	C. Wade	\$70.00
D1310	20 Hrs	3/01 - 3/24	M W	5:00PM - 6:30PM	DECO online	C. Wade	\$70.00
D1311	20 Hrs	4/05 - 4/28	M W	5:00PM - 6:30PM	DECO online	C. Wade	\$70.00
D1312	20 Hrs	5/03 - 5/26	M W	5:00PM - 6:30PM	DECO online	C. Wade	\$70.00

Success Skills for Industry

Implementing positive organizational change often begins with understanding structural processes, and employee behaviors. Learn soft skills needed for employment, or to enhance skills for future roles and responsibilities in general industry. Topics include work ethics, collaboration, critical thinking, deduction reasoning, interpersonal skills, progressive discipline, and much more. If you are unemployed, underemployed or received notification of a pending layoff, you may qualify for a tuition waiver to cover the cost of this class.

D1690	4 Hrs	2/24 - 2/24	W	1:00PM - 5:00PM	DECO online	G. Brown	\$70.00
-------	-------	-------------	---	-----------------	-------------	----------	---------

Success Skills for Life Sciences

Implementing positive organizational change often begins with understanding structural processes, and employee behaviors. Learn soft skills needed for employment, or to enhance skills for future roles and responsibilities in life sciences. Topics include work ethics, collaboration, critical thinking, deduction reasoning, interpersonal skills, progressive discipline, and much more. This course complements the Continuing Education BioWork course. If you are unemployed, underemployed or received notification of a pending layoff, you may qualify for a tuition waiver to cover the cost of this class.

D1692	4 Hrs	4/28 - 4/28	W	1:00PM - 5:00PM	DECO online	G. Brown	\$70.00
-------	-------	-------------	---	-----------------	-------------	----------	---------

Success Skills for Skilled Trades

Implementing positive organizational change often begins with understanding structural processes, and employee behaviors. Learn soft skills needed for employment, or to enhance skills for future roles and responsibilities in skilled trades, including construction. Topics include work ethics, collaboration, critical thinking, deduction reasoning, interpersonal skills, progressive discipline, and much more. If you are unemployed, underemployed or received notification of a pending layoff, you may qualify for a tuition waiver to cover the cost of this class.

D1691	4 Hrs	3/24 - 3/24	W	1:00PM - 5:00PM	DECO online	G. Brown	\$70.00
-------	-------	-------------	---	-----------------	-------------	----------	---------

Computer Training

Cybersecurity

Safety and security of business information is critical. Implementing effective security measures will offer liability protection, and help increase efficiency and productivity. Learn to safeguard information and protect systems from impairment, or theft, which could thwart success. Topics include understanding cybersecurity, malware, breaches, cyberattacks and threats, prevention software and defense.

D1684	8 Hrs	1/04 - 1/17	M T W Th F Sa Su		DECO online	C. Oliver	\$71.60
D1685	8 Hrs	4/12 - 4/25	M T W Th F Sa Su		DECO online	C. Oliver	\$71.60

Government Regulations

Wastewater Operator I Training

This course provides a general knowledge of the operation of wastewater treatment systems. In addition to related laws and regulations, students will learn about the equipment used in plants and sampling procedures. This course prepares students for the NC Water Pollution Control System Operator (I) Certification Commission Examination. A textbook is required.

D1682	35 Hrs	1/11 - 1/15	M T W Th F	8:00AM - 4:00PM	DECO online	A. Grenier	\$126.60
-------	--------	-------------	---------------	-----------------	-------------	------------	----------

Wastewater Operator III

This course provides a general knowledge of the operation of wastewater treatment systems. Students will learn about general mechanical and maintenance requirements, activated sludge, solids disposal, and lab procedures. This course prepares students for the NC Water Pollution Control System Operators Certification Commission Examination. Prerequisite: WAT-3100W3 Wastewater Operator II

D1683	35 Hrs	2/01 - 2/05	M T W Th F	8:00AM - 4:00PM	DECO online	A. Grenier	\$126.60
-------	--------	-------------	---------------	-----------------	-------------	------------	----------

Health & Medical Occupations

Introduction to Sonography

This course is designed to provide an introduction to medical sonography. Topics include applications, terminology, history, patient care, ethics, and basic skills. Coursework will include theory and lab activities. Upon completion, students should also be able to define sonographic applications and perform basic patient care skills and preliminary scanning techniques. A textbook is required.

D1910	77 Hrs	1/11 - 5/02	M T W Th F Sa Su		DECO online	B. Winn-Davis	\$181.60
-------	--------	-------------	------------------------	--	-------------	---------------	----------

Medical Math (Hybrid)

This course is designed to provide students with experience in computing mathematical problems that are common in healthcare careers like nursing, medical assisting, and pharmacy technician. Students begin with a review of basic math and progress to percents, ratio and proportion, and equations used in healthcare. One day a week, face-to-face class meetings will be conducted online through Blackboard Collaborate. A textbook is required.

D1009	78 Hrs	1/11 - 5/03	M		DECO online	L. Stephenson	\$181.60
-------	--------	-------------	---	--	-------------	---------------	----------

Teacher Training

e-Learning Development

Using the Quality Matters Standards of best practices in effective online course design, delivery, teaching, and learning, this QM™ certified course prepares instructors to design and deliver online educational content. Topics covered in this course include communication, interaction (student-to-student, student-to-instructor, and student-content), course technology, learner support, and accessibility (Universal Design for Learning). This is a QM™ certified course; no participant credential or certification is associated with this course. Basic computer proficiency is required. Blackboard experience is helpful, but not required.

D1313	38 Hrs	2/01 - 3/29	M T W Th F Sa Su		DECO online	C. Wade	\$126.60
D1314	38 Hrs	4/05 - 6/01	M T W Th F Sa Su		DECO online	C. Wade	\$125.60

Lee County

Automotive

OBD

This class prepares auto technicians and service personnel as OBD inspectors for assessing motor vehicles. Course topics include regulations and test inspection procedures required by the NCDMV Enforcement Section for OBD emission inspectors. Students must be able to read and write in English and possess a driver's license valid in North Carolina. Prerequisite is Vehicle Safety Inspection.
