

Santa & Mrs. Claus on Vacation!

After a busy holiday season which included the annual CCCC Christmas Tree Lighting Ceremony on Thursday, December 5th; Santa & Mrs. Claus found time to rest and relax in the sun. Santa would like to express his appreciation to the countless elves that helped make the 2019 Tree Lighting a successful event. Every year Santa is delighted to see the wonderment and excitement in the children's eyes as they visit him and ask for special presents for themselves and others.

Santa is happy to report that his elves responded to 195 children with personalized letters from the North Pole Post Office! As magical as Santa is-he realizes how many people it takes to make the tree lighting event special for so many families.

THANK YOU to the Foundation for sponsoring this event and to everyone who assisted.

At the North Pole, we have a motto of: *Teamwork divides the task and multiplies the success!*

Santa would like to remind you to continue to BELIEVE in the success of each student at CCCC and that the true magic is understanding that **"Education is the most powerful weapon which you can use to change the world". ~Nelson Mandela**
