

# EARLY CHILDHOOD EDUCATION - Non-Licensure

## ABOUT THIS PROGRAM

The Early Childhood Education program at CCCC focuses on the needs of children, birth through age 8. Students learn to communicate with children, to understand their needs, and to develop their skills. Students learn about children and family, child development and guidance, and children with special needs. Courses in creative activities, math, science, language and literacy for children are taught. The program is enriched by hands-on internship experiences.

This track allows students to complete 2 years at the community college and 2 years at the university. This degree is for students who wish to pursue a 4-year degree in the field of child development but who do not intend to earn their BK Teaching license.
