LIBRARY INFORMATION TECHNOLOGY PATHWAY

Pathway Overview

- Designed to prepare graduates for employment with organizations that use technology to process, manage, and communicate information

- Students will complete courses designed to develop proficiency of electronic resources for records management, information resources and services, acquisition and collection management, cataloging and classifying, and public service

- All credits earned in this diploma program will transfer into the Associate in Applied Science Degree in Library and Information Technology provided the student meets the higher entrance standards

Course availability and scheduling is subject to change. Please contact the Career and College Advisor at your assigned high school.
