Background Checks and Drug Tests

Background checks are required in all medical programs that have a clinical rotation. They must be done through **Viewpoint**. Background checks from other sources WILL NOT be accepted.

- Go to: <https://www.viewpointscreening.com/> to complete your background check
- The cost of a background check and drug screening is \$65.00

Complete the background check before you attend the first day of class to assure that you will be accepted into the clinical rotation for your class.

When filling out your background check information, be very careful when selecting where your class will be held. Make sure you select **Continuing Education**.

- For Example: If you are taking Nurse Aide I, Phlebotomy or Pharmacy, then you must select one program to receive confirmation of your background check.

All medical program students are approved by the clinical sites. The clinical site bases student acceptance or denial on background check information.

Drug Testing:

A Drug Screen is required for all clinical sites throughout our three-county area. This must be completed through **Viewpoint screening** prior to the first day of class.
