The College's service area includes a mixture of different cultural, ethnic, and linguistic backgrounds, with a wide variability in the English language proficiency of the various members of the College's community. As such, the Board recognizes the need to ensure certain communications and information are available in languages other than English. In order to maximize the ability of the individuals in the community to avail themselves of the College's educational services and opportunities, the President shall develop procedures in furtherance of this Policy, as necessary.
